U.S.\$3,000,000,000

Trust Certificate Issuance Programme

Under the U.S.\$3,000,000,000 trust certificate issuance programme described in this Base Prospectus (the "**Programme**"), MAF Sukuk Ltd. (in its capacities as issuer and as trustee, the "**Trustee**"), subject to compliance with all applicable laws, regulations and directives, may from time to time issue trust certificates (the "**Certificates**") in any currency agreed between the Trustee and the relevant Dealer (as defined below).

Certificates may only be issued in registered form. The maximum aggregate face amount of all Certificates from time to time outstanding under the Programme will not exceed U.S.\$3,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein.

Each Tranche (as defined herein) of Certificates issued under the Programme will be constituted by: (a) an amended and restated master trust deed (the "**Master Trust Deed**") dated 26 August 2021 entered into between the Trustee, Majid Al Futtaim Properties LLC ("**Majid Al Futtaim Properties**"), Majid Al Futtaim Holding LLC ("**Majid Al Futtaim Holding**") or the "**Guarantor**") and Citibank, N.A., London Branch as delegate of the Trustee (the "**Delegate**", which expression shall include any co-Delegate or any successor); and (b) a supplemental trust deed (the "**Supplemental Trust Deed**") and, together with the Master Trust Deed, each a "**Trust Deed**") in relation to the relevant Series which shall be entered into in respect of the first Tranche of Certificates. Certificates of each Tranche confer on the holders of the Certificates from time to time (the "**Certificateholders**") the right to receive certain payments (as more particularly described herein) arising from a *pro rata* ownership interest in the assets of a trust declared by the Trustee in relation to the relevant Series (the "**Trust**") over the Trust Assets (as defined below) which will include, *inter alia*, all of the Trustee's rights, title, interest and benefit, present and future, in, to and under: (i) the relevant Wakala Portfolio (as defined herein); and (ii) the Transaction Documents (as defined below) (other than certain excluded representations and covenants given to the Trustee). Majid Al Futtaim Properties has certain obligations under the Service Agency Agreement and the Master Murabaha Agreement, including the payment of certain amounts to the Trustee which are intended to be sufficient to fund the Periodic Distribution Amounts payable by the Trustee under the relevant Tranche and shall be applied by the Trustee for that purpose. See "*Structure Diagram and Cash Flows*" for further details.

Pursuant to the Master Trust Deed, the Guarantor will unconditionally and irrevocably guarantee (the "**Guarantee**") in favour of the Trustee the due and punctual payment by Majid Al Futtaim Properties of the Guaranteed Amounts (as defined herein) in respect of each Tranche.

The Certificates may be issued on a continuing basis to one or more of the Dealers (each a "**Dealer**" and together the "**Dealers**") specified under "*Overview of the Programme*" and any additional Dealer appointed under the Programme from time to time by the Trustee, Majid Al Futtaim Properties and the Guarantor, which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the "**relevant Dealer**" shall, in the case of an issue of Certificates being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Certificates.

The Certificates will be limited recourse obligations of the Trustee. An investment in Certificates issued under the Programme involves certain risks. For a discussion of these risks, see "*Risk Factors*".

This Base Prospectus has been approved by the Central Bank of Ireland (the "**Central Bank**") as competent authority under Regulation (EU) 2017/1129 (the "**EU Prospectus Regulation**"). The Trustee may also issue unlisted Certificates and/or Certificates not admitted to trading on any market.

The Trustee and Majid Al Futtaim Properties may agree with any Dealer that Certificates may be issued with terms and conditions not contemplated by the Terms and Conditions of the Certificates herein, in which event a supplemental Base Prospectus, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Certificates.

This Base Prospectus complies with the requirements in Part 2 of the Markets Law (DIFC Law No. 1 of 2012) and Chapter 2 of the Markets Rules and comprises a base prospectus for the purposes of the EU Prospectus Regulation and is for the purpose of giving information with regard to the Trustee, Majid Al Futtaim Properties, the Guarantor and the Certificates which, according to the particular nature of the Trustee, Majid Al Futtaim Properties, the Guarantor and the Certificates, is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position or financial performance, profit and losses and prospects of the Trustee, Majid Al Futtaim Properties and the Guarantor.

Each of the Trustee, Majid Al Futtaim Properties and the Guarantor accepts responsibility for the information contained in this Base Prospectus. To the best of the knowledge of each of the Trustee, Majid Al Futtaim Properties and the Guarantor (each having taken all reasonable care to ensure that such is the case), the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

The DFSA does not accept any responsibility for the content of the information included in this Base Prospectus, including the accuracy or completeness of such information. The liability for the content of this Base Prospectus lies with the Trustee, Majid Al Futtaim Properties and the Guarantor and other persons whose opinions are included in this Base Prospectus with their consent. The DFSA has also not assessed the suitability of any Certificates issued under this Programme to any particular investor or type of investor and has not determined whether they are *Shari'a*-compliant. If you do not understand the contents of this Base Prospectus or are unsure whether any Certificates issued under this Base Prospectus are suitable for your individual investment objectives and circumstances, you should consult an authorised financial adviser.

Certain information under the heading "*Description of the Group*" has been extracted from information provided by third-party sources and the source of such information is specified where it appears under that heading. Each of the Trustee, Majid Al Futtaim Properties and the Guarantor confirms that such information has been accurately reproduced and that, so far as it is aware, and is able to ascertain from information published by the relevant sources referred to, no facts have been omitted which would render the reproduced information inaccurate or misleading.

This Base Prospectus should be read and construed together with any amendments or supplements hereto and, in relation to any Tranche of Certificates, should be read and construed together with the applicable Final Terms.

The only persons authorised to use this Base Prospectus in connection with an offer of Certificates are the persons named in the relevant subscription agreement as the relevant Dealer or the managers, as the case may be.

Copies of the applicable Final Terms will be available from the registered office of the Trustee and the specified office set out herein of the Principal Paying Agent (as defined below) save that, if the relevant Certificates are neither admitted to trading on a regulated market in the EEA, nor offered in the EEA, in circumstances where a prospectus is required to be published under the EU Prospectus Regulation, the applicable Final Terms will only be obtainable by a Certificateholder holding one or more Certificates and such Certificateholder must produce evidence satisfactory to the Trustee or, as the case may be, the Principal Paying Agent as to its holding of such Certificates and identity.

No person is or has been authorised by the Trustee, Majid Al Futtaim Properties or the Guarantor to give any information or to make any representation not contained in or not consistent with this Base Prospectus in connection with the Programme or the Certificates and, if given or made, such information or representation must not be relied upon as having been authorised by the Trustee, Majid Al Futtaim Properties, the Guarantor, the Dealers, the Delegate, the Agents (each as defined herein) or any other person. Neither the delivery of this Base Prospectus nor any sale of any Certificates shall, under any circumstances, constitute a representation or create any implication that the information contained herein is correct as of any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the attached document containing the same. The Delegate and the Dealers expressly do not undertake to review the financial condition or affairs of the Trustee, Majid Al Futtaim Properties or the Guarantor at any point, including during the life of the Programme, or to advise any investor in the Certificates of any information coming to their attention.

None of the Dealers, the Delegate or the Agents has independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by any of them as to the accuracy, adequacy, reasonableness or completeness of the information contained in this Base Prospectus or any other information provided by the Trustee, Majid Al Futtaim Properties or the Guarantor in connection with the Programme.

None of the Dealers accepts any responsibility for any acts or omissions of the Trustee, Majid Al Futtaim Properties or the Guarantor or any other person in connection with the Base Prospectus or the issue and offering of Certificates.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Certificates is: (a) intended to provide the basis of any credit or other evaluation save for making an investment decision on the Certificates; or (b) should be considered as a recommendation by the Trustee, Majid Al Futtaim Properties, the Guarantor, the Dealers, the Delegate or the Agents that any recipient of this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Certificates should purchase any Certificates. Each investor contemplating purchasing any Certificates should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Trustee, Majid Al Futtaim Properties and the Guarantor. None of the Dealers, the Trustee, the Delegate or the Agents accepts any liability in relation to the information contained in this Base Prospectus or any other information provided by the Trustee, Majid Al Futtaim Properties and the Guarantor in connection with the Programme.

The Certificates of any Tranche may not be a suitable investment for all investors. Each potential investor in Certificates must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Certificates, the merits and risks of investing in the relevant Certificates and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Certificates and the impact the relevant Certificates will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Certificates, including where the currency of payment is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the relevant Certificates and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect its investment and its ability to bear the applicable risks.

Some Certificates are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as standalone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Certificates which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Certificates will perform under changing conditions, the resulting effects on the value of the Certificates and the impact this investment will have on the potential investor's overall investment portfolio.

No comment is made or advice given by the Trustee, Majid Al Futtaim Properties, the Guarantor, the Dealers, the Delegate or the Agents in respect of taxation matters relating to any Certificates or the legality of the purchase of the Certificates by an investor under any applicable law.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent: (1) Certificates are legal investments for it; (2) Certificates can be used as collateral for various types of borrowing; and (3) other restrictions apply to its purchase or pledge of any Certificates. Financial

institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Certificates under any applicable risk-based capital or similar rules.

EACH PROSPECTIVE INVESTOR IS ADVISED TO CONSULT ITS OWN *SHARI'A* ADVISER, TAX ADVISER, LEGAL ADVISER AND BUSINESS ADVISER AS TO TAX, LEGAL, BUSINESS AND RELATED MATTERS CONCERNING THE PURCHASE OF ANY CERTIFICATES.

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Certificates in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Certificates may be restricted by law in certain jurisdictions. None of the Trustee, Majid Al Futtaim Properties, the Guarantor, the Dealers, the Delegate or the Agents represents that this Base Prospectus may be lawfully distributed, or that any Certificates may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Trustee, Majid Al Futtaim Properties, the Guarantor, the Dealers, the Delegate or the Agents which is intended to permit a public offering of any Certificates or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Certificates may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Certificates may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of the Certificates. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Certificates in the United States, the EEA, the United Kingdom, the Cayman Islands, Japan, the United Arab Emirates (excluding the Dubai International Financial Centre), the Dubai International Financial Centre, the Kingdom of Saudi Arabia, the Kingdom of Bahrain, State of Qatar (including the Qatar Financial Centre), Singapore, Hong Kong and Malaysia (see "*Subscription and Sale*").

This Base Prospectus has been prepared on the basis that any offer of Certificates in any member state of the EEA (each, a "**Member State**") will be made pursuant to an exemption under the EU Prospectus Regulation from the requirement to publish a prospectus for offers of Certificates. Accordingly any person making or intending to make an offer in that Member State of Certificates which are the subject of an offering contemplated in this Base Prospectus as completed by the applicable Final Terms in relation to the offer of those Certificates may only do so in circumstances in which no obligation arises for the Trustee, Majid Al Futtaim Properties, the Guarantor or any Dealer to publish a prospectus pursuant to the EU Prospectus Regulation or supplement a prospectus pursuant to the EU Prospectus Regulation, in each case, in relation to such offer. None of the Trustee, Majid Al Futtaim Properties, the Guarantor or any Dealer have authorised, nor do they authorise, the making of any offer of Certificates in circumstances in which an obligation arises for the Trustee, Majid Al Futtaim Properties, the Guarantor or any Dealer to publish or supplement a prospectus for such offer.

None of the Trustee, Majid Al Futtaim Properties, the Guarantor, the Dealers or the Delegate makes any representation to any investor in the Certificates regarding the legality of its investment under any applicable laws. Any investor in the Certificates should be able to bear the economic risk of an investment in the Certificates for an indefinite period of time. None of the Arrangers or any of the Dealers makes any representation as to the suitability of any green certificates, including the listing or admission to trading thereof on any dedicated "green", "environmental", "sustainable", "social" or other equivalently-labelled segment of any stock exchange or securities market, to fulfil any green, social, environmental or sustainability criteria required by any prospective investors. The Arrangers and the Dealers have not undertaken, nor are they responsible for, any assessment of the eligibility criteria for Eligible Projects (as defined herein), any verification of whether the Eligible Projects meet such criteria, the monitoring of the use of proceeds of any green certificates (or amounts equal thereto) or the allocation of the proceeds by Majid Al Futtaim Properties to particular Eligible Projects. Investors should refer to the Green Finance Framework (as defined herein) which the Group may publish from time to time, any second party opinion delivered in respect thereof, and any public reporting by or on behalf of the Group in respect of the application of the proceeds of any issue of green certificates for further information. Any such framework and/or second party opinion and/or public reporting will not be incorporated by reference in this Base Prospectus and none of the Arrangers or any of the Dealers makes any representation as to the suitability or contents thereof.

Certain restatements and reclassifications

The IASB issued amendments to IFRS 16 in May 2020, providing relief for lessees in accounting for rent concessions granted as a direct consequence of COVID-19. This is applicable for periods beginning on or after 1 June 2020, with early application permitted. The Group has early adopted the amendment to the standard and has applied the relief to eligible rent concessions received during 2020. The amendments provide the Group, as a lessee, with an exemption from the requirements to determine whether a COVID-19 related rent concession is a lease modification, provided that certain conditions are satisfied. Accordingly, the Group recognised rent concessions amounting to AED 133 million within its operating expenses for the year ended 31 December 2020. See Note 6.1 to the 2020 Group Financial Statements for further details.

These financial statements have been prepared in accordance with IFRS. The Trustee has not published (and is not required to publish under the laws of the Cayman Islands) any interim financial statements.

USE OF ALTERNATIVE PERFORMANCE MEASURES

This Base Prospectus includes certain financial information which has not been prepared in accordance with IFRS and which constitutes alternative performance measures ("APMs") for the purposes of the European Securities and Markets Association's Guidelines on Alternative Performance Measures (the "ESMA Guidelines"). The Group believes that the APMs presented in this Base Prospectus provide useful supplementary information to both investors and to the Group's management as they facilitate the evaluation of underlying business performance and enhance comparability between reporting periods. However, investors are cautioned not to place undue reliance on this information and should note that, since not all companies calculate financial measurements such as the APMs presented by the Group in this Base Prospectus in the same manner, these are not always directly comparable to performance metrics used by other companies (including similarly titled performance metrics used by other companies).

Additionally, the APMs presented by the Group in this Base Prospectus are unaudited and have not been prepared in accordance with IFRS or any other accounting standards. Accordingly, these financial measures should not be seen as a substitute for measures defined according to IFRS.

In particular, the Group's management has used, and expects to use, EBITDA-based measures to assess operating performance and to make decisions about allocating resources among the Group's various business lines. In assessing the Group's overall performance and the performance of each of the Group's business lines, management reviews EBITDA-based measures as a general indicator of performance compared to prior periods. EBITDA has important limitations as an analytical tool and should not be considered in isolation from, or as a substitute for an analysis of, the Group's or any other company's operating results as reported under IFRS. Some of the limitations are:

- EBITDA does not reflect all cash expenditures or future requirements for capital expenditures or contractual commitments;
- EBITDA does not reflect changes in, or cash requirements for, working capital needs;
- EBITDA does not reflect the interest expense or the cash requirements necessary to service interest or principal payments on debt;
- although depreciation and amortisation are non-cash charges, the assets being depreciated and amortised will often have to be replaced in the future and EBITDA does not reflect any cash requirements for such replacements; and
- other companies may calculate EBITDA differently, limiting its usefulness as a comparative measure.

The Group considers that the following metrics (which are set out below along with their reconciliation, to the extent that such information is not defined according to IFRS and not included in the Financial Statements incorporated by reference into this Base Prospectus) presented in this Base Prospectus constitute APMs for the purposes of the ESMA Guidelines:

APM	Definition/method of calculation	Reconciliation with Financial Statements
Debt/capital	This ratio is used to measure the Group's capital structure, financial solvency and degree of leverage.	Calculated as debt divided by capital. Debt comprises bank overdraft, short-term loans, current maturity of long-term loans and long-term loans (each as set out in the

		consolidated statement of financial position in the 2020 Group Financial Statements).
		Capital comprises total equity (as set out in the consolidated statement of financial position in the 2020 Group Financial Statements).
EBITDA (and adjusted EBITDA)	The Group's or, as the case may be, Majid Al Futtaim Properties' earnings before interest, tax, non-controlling interests, depreciation, amortisation, impairment and other exceptional items of charges or credits that are one-off in nature and significance and used to measure the Group's or, as the case may be, Majid Al Futtaim Properties' operating profitability. To ensure consistency and relevance of EBITDA as a measure of operating performance, EBITDA has been adjusted with the impact of fixed rent expense, which has been derecognised on adoption of IFRS 16 in 2019.	See " <i>Summary of Group Financial Information – EBITDA and Other Ratios</i> " (for the Group) and " <i>Summary of Majid Al Futtaim Properties Financial Information – EBITDA</i> " (for Majid Al Futtaim Properties).
EBITDA/interest	Also known as the EBITDA interest coverage ratio, this ratio is used to assess the Group's ability to pay its interest expenses.	Calculated as EBITDA divided by net finance costs. For EBITDA, see above (EBITDA). Net finance costs are finance costs (excluding interest expense on lease liabilities and capitalised interest on development expenditure) <i>less</i> finance income (each as set out in Note 13.2 to the 2020 Group Financial Statements).
EBITDA margin	This ratio is used to measure the Group's operating profit as a percentage of its revenue in order to analyse the Group's operational efficiency.	Calculated as EBITDA divided by revenue. For EBITDA, see above (EBITDA). Revenue is as set out in the consolidated statement of profit or loss and other comprehensive income in the 2020 Group Financial Statements.
LTV	The loan to value (or LTV) ratio provides an assessment of lending risk. Generally, a high LTV indicates a high level of lending risk.	Calculated as net debt divided by tangible fixed assets. Net debt comprises bank overdraft, current maturity of long-term loans and long-term loans <i>less</i> cash in hand and at bank (each as set out in the consolidated statement of financial position in the 2020 Group Financial Statements). Tangible fixed assets comprise property, plant and equipment, investment properties and right-of-use assets (each as set out in the consolidated statement of financial position in the 2020 Group Financial Statements).
Net debt/EBITDA	This ratio is a measurement of the Group's leverage.	Calculated as net debt divided by EBITDA. For net debt, see above (LTV). For EBITDA, see above (EBITDA).
Net debt/equity (or total net debt to total equity)	Also known as the gearing ratio, this ratio indicates the proportion of shareholders' equity to net debt being used by the Group to finance its assets.	Calculated as net debt divided by total equity. For net debt, see above (LTV). Total equity is as set out in the consolidated statement of financial position in the 2020 Group Financial Statements.

Operating income	This is a measure of the Group's profitability.	Calculated as revenue less cost of sales. Revenue and cost of sales are as set out in the consolidated statement of profit or loss and other comprehensive income in the 2020 Group Financial Statements.
Operating margin	This is a measure of the Group's profitability.	Calculated as profit before tax divided by revenue. Profit before tax and revenue are as set out in the consolidated statement of profit or loss and other comprehensive income in the 2020 Group Financial Statements.
Sales margin	This indicates the amount of profit generated from the sale of a product or service.	Calculated as gross profit divided by revenue. Gross profit is calculated as revenue minus cost of sales. Revenue and cost of sales are as set out in the consolidated statement of profit or loss and other comprehensive income in the 2020 Group Financial Statements.
Tangible net worth	This indicates the net worth of the Group (i.e., an approximation of the liquidation value of the Group).	Calculated as total assets less total liabilities. Total assets and total liabilities are as set out in the consolidated statement of financial position in the 2020 Group Financial Statements.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Some statements in this Base Prospectus may be deemed to be "forward-looking statements". Forward-looking statements include statements concerning Majid Al Futtaim Properties' or, as the case may be, Majid Al Futtaim Holding's plans, objectives, goals, strategies and future operations and performance and the assumptions underlying these forward-looking statements. When used in this Base Prospectus, the words "anticipates", "estimates", "expects", "believes", "intends", "plans", "aims", "seeks", "may", "will", "should" and any similar expressions generally identify forward-looking statements. These forward-looking statements are contained in the sections entitled "*Risk Factors*", "*Group Financial Review*", "*Majid Al Futtaim Properties Financial Review*" and "*Description of the Group*" and other sections of this Base Prospectus. Each of Majid Al Futtaim Properties and Majid Al Futtaim Holding has based these forward-looking statements on the current view of its management with respect to future events and financial performance. Although Majid Al Futtaim Properties or, as the case may be, Majid Al Futtaim Holding believes that the expectations, estimates and projections reflected in its forward-looking statements are reasonable as of the date of this Base Prospectus, if one or more of the risks or uncertainties materialise, including those identified below or which Majid Al Futtaim Properties or Majid Al Futtaim Holding have otherwise identified in this Base Prospectus, or if any of Majid Al Futtaim Properties' or, as the case may be, Majid Al Futtaim Holding's underlying assumptions prove to be incomplete or inaccurate, Majid Al Futtaim Properties' or, as the case may be, Majid Al Futtaim Holding's actual results of operation may vary from those expected, estimated or predicted. Investors are therefore strongly advised to read the sections "*Risk Factors*", "*Group Financial Review*", "*Majid Al Futtaim Properties Financial Review*" and "*Description of the Group*", which include a more detailed description of the factors that might have an impact on the Group's business development and on the industry sector in which the Group operates.

The risks and uncertainties referred to above include:

- the economic and political conditions in the markets in which the Group operates;
- increased exposure to adverse events affecting any part of the Group's business due to the inter-dependence of the Group's businesses;
- the Group's ability to successfully manage the growth of its business;
- operational risks that may arise as a result of the Group companies being party to a number of joint ventures and franchise arrangements; and
- limitations on the Group's flexibility in operating its businesses due to restrictions contained in debt agreements.

Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed under "*Risk Factors*".

Any forward-looking statements contained in this Base Prospectus speak only as at the date of this Base Prospectus. Without prejudice to any requirements under applicable laws and regulations (including, without limitation, the Central Bank's and Euronext Dublin's rules and regulations regarding ongoing disclosure obligations), each of Majid Al Futtaim Properties and Majid Al Futtaim Holding expressly disclaims any obligation or undertaking to disseminate after the date of this Base Prospectus any updates or revisions to any forward-looking statements contained herein to reflect any change in expectations thereof or any change in events, conditions or circumstances on which any such forward-looking statement is based.

VOLCKER RULE

The Volcker Rule, which became effective on 1 April 2014, but was subject to a conformance period for certain entities that concluded on 21 July 2015, generally prohibits "banking entities" (which is broadly defined to include U.S. banks and bank holding companies and many non-U.S. banking entities, together with their respective subsidiaries and other affiliates) from: (a) engaging in proprietary trading; (b) acquiring or retaining an ownership interest in or sponsoring a "covered fund"; and (c) entering into certain relationships with "covered funds". The general effects of the Volcker Rule remain uncertain; any prospective investor in the Certificates and any entity that is a "banking entity" as defined under the Volcker Rule which is considering an investment in the Certificates should consult its own legal advisers and consider the potential impact of the Volcker Rule in respect of such investment. If investment by "banking entities" in the Certificates is prohibited or restricted by the Volcker Rule, this could impair the marketability and liquidity of such Certificates. No assurance can be made as to the effect of the Volcker Rule on the ability of certain investors subject thereto to acquire or retain an interest in the Certificates, and accordingly none of the Trustee, Majid Al Futtaim Properties, the Guarantor, the Arrangers, the Delegate, the Agents or the Dealers, or any of their respective affiliates makes any representation regarding: (a) the status of the Trustee under the Volcker Rule (including whether it is a "covered fund" for their purposes); or (b) the ability of any purchaser to acquire or hold the Certificates, now or at any time in the future.

- (a) the Tangible Asset Percentage of the aggregate face amount of the relevant Certificates (as specified in the applicable Final Terms and which (in the case of the first Tranche of any Series) shall not be less than 55 per cent. of the aggregate face amount of the Series and (in the case of each subsequent Tranche) shall be an amount such that immediately following such issuance the Tangibility Ratio for the relevant Series shall be more than 50 per cent.) as the purchase price (the "**Purchase Price**") to purchase from Majid Al Futtaim Properties (in its capacity as seller, the "**Seller**") of all its rights, title, interests, benefits and entitlements in, to and under the following assets (in the case of the first Tranche of the relevant Series of Certificates, the "**Initial Asset Portfolio**" or, in the case of each subsequent Tranche of such Series, the "**Additional Portfolio Assets**", and as may be substituted or added to from time to time, the "**Asset Portfolio**", and each asset comprising such portfolio, a "**Portfolio Asset**"): (i) real estate related assets which are externally leased by the Seller to a third party and which generate (or will generate) cashflows relating to an activity which does not conflict with the principles of *Shari'a* (the "**Real Estate Assets**"); and (ii) non-real estate tangible assets which are externally leased by the Seller to a third party (the "**Other Shari'a Compliant Tangible Assets**"); and

In relation to a Series, the Initial Asset Portfolio, (if applicable) the Additional Portfolio Assets and (if applicable) each Commodity Murabaha Investment and all other rights arising under or with respect thereto (including the right to receive payment of the Deferred Sale Prices and any other amounts or distributions due in connection therewith) shall comprise the "**Wakala Portfolio**" in respect of such Series. For the avoidance of doubt, the Wakala Portfolio for a relevant Series of Certificates may comprise solely Portfolio Assets, without any Issue Proceeds being applied towards a Commodity Murabaha Investment.

Periodic distribution payments

In relation to a Series, all returns generated by the relevant Asset Portfolio (the "**Asset Portfolio Revenues**") during the relevant Return Accumulation Period will be credited by the Services Agent to a book-entry ledger account (in respect of each Series, an "**Asset Collection Account**") maintained by the Services Agent.

Prior to each Periodic Distribution Date:

- (a) the amounts standing to the credit of the Asset Collection Account will be applied by the Services Agent to pay to the Trustee (by way of a payment into the relevant Transaction Account) an amount equal to the lesser of: (i) the Required Amount (as defined below) less any other payments made into the Transaction Account pursuant to any other Transaction Document; and (ii) the balance of the Asset Collection Account; and
- (b) the Buyer will pay to the Trustee (by way of a payment into the relevant Transaction Account) the relevant portion of the Deferred Sale Price (being the "**Murabaha Profit Instalment**") pursuant to the Murabaha Contract,

and such amounts, together, are intended to be sufficient to fund the Periodic Distribution Amounts payable by the Trustee in respect of the relevant Certificates on the immediately following Periodic Distribution Date (the "**Required Amount**") and shall be applied by the Trustee for that purpose.

Following such payment, any amounts still standing to the credit of the Asset Collection Account shall be debited from the Asset Collection Account and credited by the Services Agent to a book-entry ledger

account (in respect of each Series, an "**Asset Reserve Account**" and, together with the Asset Collection Account, the "**Collection Accounts**") maintained by the Services Agent.

If, on the due date for such payment (and after taking into account: (1) payment of the relevant amounts standing to the credit of the Asset Collection Account into the Transaction Account; and (2) any other payments made or to be made into the Transaction Account pursuant to any other Transaction Document), there is a shortfall between the amounts standing to the credit of the Transaction Account and the relevant Required Amount (a "**Shortfall**"), the Services Agent shall first apply the amounts standing to the credit of the relevant Asset Reserve Account towards such Shortfall by transferring into the relevant Transaction Account from such Asset Reserve Account on the relevant due date an amount equal to the Shortfall (or such lesser amount as is then standing to the credit of such Asset Reserve Account). If, having applied such amounts standing to the credit of the relevant Asset Reserve Account, any part of the Shortfall still remains, the Services Agent may either provide *Shari'a*-compliant funding to the Trustee itself or procure *Shari'a*-compliant funding from a third party to be paid to the Trustee, in each case, to the extent necessary to ensure that the Trustee receives on the relevant due date the Required Amount payable by it in accordance with the Conditions of the relevant Series on the immediately following Periodic Distribution Date, by payment of the same into the Transaction Account and on terms that such funding will be settled: (x) from Asset Portfolio Revenues received in respect of a subsequent period; or (y) from: (A) the relevant exercise price payable pursuant to the terms of the Purchase Undertaking or the Trustee Sale and Purchase Undertaking, as the case may be; or (B) the full reinstatement value payable pursuant to the terms of the Service Agency Agreement, as the case may be, on the relevant Dissolution Date (such funding in relation to a Series, a "**Liquidity Facility**").

Dissolution payments on scheduled dissolution

On the business day prior to the relevant Scheduled Dissolution Date in relation to each Series:

- (a) all remaining amounts of the Deferred Sale Prices of that Series (if any) shall become immediately due and payable; and
- (b) the Trustee will have the right under the Purchase Undertaking to require Majid Al Futtain Properties to purchase all of its rights, title, interests, benefits and entitlements in, to and under the Asset Portfolio at the relevant Exercise Price,

and such amounts are intended to fund the relevant Dissolution Amount payable by the Trustee under the Certificates of the relevant Series on the Scheduled Dissolution Date.

For this purpose, the "**Exercise Price**" shall be an amount in the Specified Currency equal to the aggregate of:

- (i) the aggregate outstanding face amount of the Certificates on the relevant Dissolution Date;
- (ii) an amount equal to all accrued and unpaid Periodic Distribution Amounts (if any) relating to the Certificates;
- (iii) without double counting, an amount representing any amounts payable by the Trustee (in any capacity) pursuant to Condition 4.2(a);
- (iv) without double counting, any other amounts payable in relation to the redemption of the Certificates as specified in any applicable Final Terms relating to that Series; and
- (v) the sum of any outstanding: (1) amounts payable in respect of any Liquidity Facility; and (2) any Service Liabilities Amounts (as defined in the Service Agency Agreement) payable pursuant to the Service Agency Agreement,

less the aggregate of each outstanding Deferred Sale Price relating to that Series, provided that a Commodity Murabaha Investment forms part of the Wakala Portfolio of the relevant Series and the outstanding Deferred Sale Prices have been paid into the Transaction Account in accordance with the terms of the Master Murabaha Agreement and the relevant Murabaha Contract and are available for the redemption of the relevant Certificates.

Dissolution payments on early redemption

In the case of paragraph (a), paragraph (d), paragraph (e) and paragraph (f) above, the relevant Dissolution Amount payable by the Trustee under the Certificates of the relevant Series shall be funded in the same manner as for the payment of the relevant Dissolution Amount on the Scheduled Dissolution Date.

In the case of paragraph (b), paragraph (c) and paragraph (g), the relevant Dissolution Amount payable by the Trustee under the Certificates of the relevant Series shall be funded by:

- (i) all remaining amounts of the Deferred Sale Prices of that Series (if any) becoming immediately due and payable; and
- (ii) Majid Al Futtaim Properties exercising its right under the Trustee Sale and Purchase Undertaking to require the Trustee to sell all of its rights, title, interests, benefits and entitlements in, to and under the Asset Portfolio at the relevant Exercise Price.

In the case of paragraph (h) above, the relevant Dissolution Amount payable by the Trustee under the Certificates of the relevant Series shall be funded by:

- (1) all remaining amounts of the Deferred Sale Prices of that Series (if any) becoming immediately due and payable; and
- (2) the proceeds of the Insurances and/or (if applicable) the Total Loss Shortfall Amount becoming due and payable pursuant to the Service Agency Agreement.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision. Words and expressions defined in "Structure Diagram and Cashflows", "Overview of the Programme", "Form of the Certificates" and "Terms and Conditions of the Certificates" shall have the same meanings in this section.

FACTORS THAT MAY AFFECT THE TRUSTEE'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER CERTIFICATES ISSUED UNDER THE PROGRAMME

The Trustee has a limited operating history

The Trustee is a special purpose vehicle and, with the exception of issuances under the Programme, has no operating history. The Trustee will not engage in any business activity other than the issuance of Certificates under the Programme, the acquisition of the Trust Assets as described herein, acting in the capacity as Trustee and other activities incidental or related to the foregoing or as required under the Transaction Documents.

The Trustee's only material assets, which will be held on trust for Certificateholders, will be the Trust Assets relating to each Series, including its right to receive payments under the relevant Transaction Documents. The ability of the Trustee to pay amounts due on the Certificates of each Series will primarily be dependent upon receipt by the Trustee of all amounts due from Majid Al Futtaim Properties under the relevant Transaction Documents (failing which, from Majid Al Futtaim Holding in accordance with the terms of the Guarantee). Therefore the Trustee is subject to all the risks to which each of Majid Al Futtaim Properties and Majid Al Futtaim Holding is subject to the extent that such risks could limit Majid Al Futtaim Properties' or Majid Al Futtaim Holding's ability to satisfy in full and on a timely basis their respective obligations under the Transaction Documents to which they are a party. See "*Risks Factors – Risks Relating to the Group*", "*Risk Factors – Risks Relating to Majid Al Futtaim Properties*", "*Risk Factors – Risks Relating to Majid Al Futtaim Retail*" and "*Risk Factors – Risks Relating to Majid Al Futtaim Ventures*" for a further description of these risks.

RISKS RELATING TO THE GROUP

The risks set out below apply to all of the Group's businesses. In addition, certain specific risks apply to the particular businesses carried on by Majid Al Futtaim Properties, Majid Al Futtaim Retail and Majid Al Futtaim Ventures and these are discussed separately below.

All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic

The macroeconomic environment (both globally and within the MENA region) has been materially affected by the novel coronavirus disease, COVID-19, which was first identified in Wuhan, Hubei Province, China in late 2019. Since then, COVID-19 has spread rapidly, infecting people globally and causing a substantial number of deaths around the world, leading the World Health Organisation to declare the outbreak a global pandemic on 11 March 2020. Almost all countries that were significantly affected, including countries within the MENA region (and in which the Group has a presence), introduced measures to try to contain the spread of the virus, including border closures and restricting the movement of their citizens. These measures resulted in the temporary closure of numerous businesses in those countries and widespread job losses. To address these factors many governments introduced significant support programmes for qualifying citizens and businesses.

For instance, in the UAE, both the Federal government and the Abu Dhabi government announced a range of support measures, including a federal programme of reduced utility bills for entities in the tourism, hospitality and trade sectors as well as Abu Dhabi measures to: (a) subsidise water and electricity for

citizens and commercial and industrial activities; (b) provide up to 20 per cent. rental rebates for the restaurant, tourism and entertainment sectors; and (c) suspend tourism and municipality fees for 2020 in the tourism and entertainment sectors.

The Group operates principally in the mall operations, hospitality, retail and leisure and entertainment services sectors (see further "*Description of the Group – Overview*"). To-date, the impact of COVID-19 on the Group's operations has been as follows:

- **mall operations:** the Group's mall operations were significantly impacted as a result of: (a) border closures resulting in reduced visitors to the countries in which the Group operates (for instance, according to data made available by the Department of Tourism and Commerce, overnight visitors to Dubai decreased by 67.0 per cent. in 2020 compared to 2019¹); (b) temporary closures (for instance, the Group's shopping malls in the UAE were closed from 25 March 2020 to 24 April 2020); (c) restrictions on customer occupancy (for instance, although malls in the UAE were re-opened in April 2020, they were limited to 30 per cent. capacity); and (d) rent deferrals and rebates, in each case, as mandated by the relevant authorities and governments. As a result, footfall in the Group's shopping malls decreased by 29.6 per cent. in 2020 compared to 2019 although, due to proactive management by the Group (including through rent deferrals and rebates), tenant occupancy at the Group's malls remained fairly stable;
- **hospitality:** the Group's hotel operations were significantly impacted for similar reasons as its mall operations (in particular, border closures and restrictions on customer occupancy). For instance, average hotel occupancy in Dubai declined to 54 per cent. in 2020 compared to 75 per cent. in 2019². The occupancy rate of the Group's hotels decreased by 60 per cent. in 2020 compared to 2019 while the Group's average revenue per available room ("**RevPAR**", which is calculated by multiplying the average daily rate by the occupancy rate over a given period) decreased by 61 per cent. in 2020 compared to 2019 (see further "*Description of the Group – Majid Al Futtaim Properties – Hotels Business Unit – Operating hotels*");
- **leisure and entertainment services:** since the Group's leisure and entertainment services are predominantly provided in the Group's shopping malls, this segment was impacted for similar reasons as the mall operations segment. As a result of these factors, Majid Al Futtaim Ventures' revenue decreased by 48.9 per cent. in 2020 compared to 2019. In addition, since leisure and entertainment services are predominantly provided through in-person interactions between the Group's employees and customers, the Group also had to implement additional safeguards and protocols to ensure the safety of its employees and customers (see also "*Risk Factors – Risks Relating to the Group – The Group's businesses expose it to health and safety risks*"); and
- **retail:** although similar factors applied to this segment (in particular, restrictions on customer occupancy), the Group's retail operations were not as severely impacted as the other segments principally due to online ordering and home-delivery processes. As a result of these factors, Majid Al Futtaim Retail's revenue decreased slightly by 0.6 per cent. in 2020 compared to 2019 (with online sales increasing by 188 per cent. over the same period). Similar to the Group's leisure and entertainment services, the Group had to implement additional safeguards and protocols to ensure the safety of its employees and customers.

In addition, the fair values of the Group's investment properties (including properties under construction) and its property, plant and equipment (including shopping malls and hotels) were re-assessed to account for the potential impact of COVID-19. Such re-assessment included: (a) new assumptions (for instance, in respect of timing and strength of the recovery from the COVID-19 pandemic, creditworthiness of tenants and the associated impact of changes in consumer behaviour (such as an increase in online sales)); and (b) an off-trend decrease in key parameters for management judgment (such as a significant decrease in the Group's hotel occupancy rate which impacted the fair value of the hotel portfolio). Accordingly, the Group recognised a net valuation loss of AED 3,454 million for 2020 (2019: AED 3,028 million), comprising a net valuation loss of AED 500 million (2019: AED 241 million) recognised in other comprehensive income

and a net valuation loss of AED 2,954 million (2019: AED 2,787 million) recognised in profit or loss. For further information, see Note 17 to the 2020 Group Financial Statements.

As at the date of this Base Prospectus, although vaccination drives have commenced globally, the duration and severity of the restrictions implemented by various countries remains unclear and the ultimate impact of the pandemic on global and local economies is uncertain. Accordingly, the Group may be materially adversely affected by COVID-19 and/or the measures enacted in various jurisdictions to contain its spread, including:

- continued restrictions on tourists and customer capacity and the other factors set out above;
- overall macroeconomic impact on the jurisdictions in which the Group has operations (see further *"Risk Factors – Risks Relating to the Group – All of the Group's businesses are affected by the economic and political conditions in the markets in which they operate"*); and
- impact on the Group's counterparties (such as ability of the tenants in the Group's malls to pay rental on time or at all) or any lasting impact on consumer behaviour (for instance, a sustained shift away from in-person retail to online retail),

each of which may further exacerbate the impact on the Group and could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

It should also be noted that the impact of COVID-19, including actions taken to contain it, might heighten many of the other risks set out in *"Risk Factors"*, including through increasing both the probability of negative impact as well as the severity of such impact.

All of the Group's businesses are affected by the economic and political conditions in the markets in which they operate

All of the Group's businesses are, and will continue to be, affected by economic and political developments in or affecting the UAE and the MENA region. The Group currently has a significant proportion of its operations and interests in the UAE, with a particular focus on Dubai (see further *"Risk Factors – Risks Relating to the Group – As the Group derives the majority of its revenue and EBITDA from its activities in the UAE, it is particularly exposed to any adverse developments affecting the UAE and Dubai in particular"*). Investors should also note that the Group's business and financial performance could be materially adversely affected by political, economic or related developments outside the MENA region because of inter-relationships within the global financial markets.

For instance, while the UAE is currently seen as a relatively stable political environment, certain other jurisdictions in the Middle East are not and there is a risk that regional geopolitical instability could impact the UAE. Further, there is no guarantee that the UAE will continue to have a stable political environment in the future.

Instability in the Middle East may result from a number of factors, including government or military regime change, civil unrest or terrorism. For instance, there has been political unrest in a range of countries in the MENA region over the last decade, including Libya, Syria, Egypt, Lebanon and the Republic of Yemen. This unrest has ranged from public demonstrations to, in extreme cases, armed conflict (including the multinational conflict with Islamic State (also known as Daesh, ISIS or ISIL)) and has given rise to increased political uncertainty across the region. In addition, in June 2017, Saudi Arabia, the UAE, Bahrain and Egypt officially cut diplomatic ties with Qatar, cut trade and transport links and imposed sanctions, attributing the move to Qatar's relations with various terrorist and sectarian groups aimed at destabilising the GCC region. Measures taken by the boycotting countries included the closure of land, sea and air links to Qatar, and requesting certain Qatari officials, residents and visitors to leave the territories of the boycotting countries. In January 2021, Qatar and the boycotting GCC countries agreed to a resolution including the re-opening of borders and commencing the reconciliation process.

Moreover, from 2019, tensions in the Gulf region have increased following the seizure by Iran of a British tanker in July 2019 and, more broadly, due to several incidents with oil tankers in the Strait of Hormuz. On 14 September 2019, the Abqaiq processing facility and the Kurais oil field in Saudi Arabia were damaged to a significant extent in apparent drone attacks, which caused an immediate significant reduction in the output of Saudi Aramco, Saudi Arabia's national oil company. There can be no assurance that a similar

incident could not occur elsewhere in the Gulf region. Furthermore, the 2 January 2020 killing of the prominent Iranian military commander, General Qasem Soleimani, and subsequent political developments in Iraq have resulted in military action being taken by Iran against the United States and its interests in the region. Any continuation of, or increase in, international or regional tensions with Iran, including further attacks on or seizures of oil tankers that disrupt international trade and impair trade flows through the Strait of Hormuz, or any military action, may have a destabilising impact on the Gulf region.

It is not possible to predict the occurrence of events or circumstances, such as war or hostilities, or the impact of such occurrences, and no assurance can be given that the Group would be able to sustain the operation of its business or its current profit levels if adverse political events or circumstances were to occur (particularly in countries where the Group has operations). Accordingly, any such occurrence could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Similarly, the macroeconomic situation in the region could adversely affect the Group's business, financial condition, results of operations and prospects. For instance, the MENA region (and, in the particular, the GCC) is highly dependent on hydrocarbon revenues. Therefore, any fluctuation or decline in international prices for crude oil could lead to a slowing of growth in the gross domestic product in the affected economies, decrease in national budgets resulting in a material curtailment of the industrial and economic infrastructure development that is currently underway across the MENA region, an increase in inflation and cost of living and/or a devaluation in the relevant currency. Further, mitigating action by regional governments may include expropriation or nationalisation of assets, increased levels of protectionism (via controls on import and export, customs and immigration, capital transfers, foreign exchange and currency), restrictions on contractual rights or repatriation of profits and/or imposition of taxes. Any of the foregoing would not only impact the Group's own business but also the businesses of its customers. Rising regional inflation may, for instance, result in a decline in the expatriate labour force which, in turn, would impact the size of the Group's customer base as well as their purchasing power (see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses are affected by consumer behaviour*").

There can be no assurance that either the economic performance of the countries in which the Group currently operates or may in the future operate can or will be sustained. If the economic growth or performance in these countries or the MENA region as a whole or globally slows or begins to decline, this could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Natural disasters such as floods, fires and disease outbreaks may have a similar effect on the Group's operations (for instance, see "*Risk Factors – Risks Relating to the Group – All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic*").

As the Group derives the majority of its revenue and EBITDA from its activities in the UAE, it is particularly exposed to any adverse developments affecting the UAE and Dubai in particular

For the financial year ended 31 December 2020, 47.6 per cent. of the Group's revenue and 60.2 per cent. of the Group's EBITDA (compared to 48.4 per cent. of the Group's revenue and 62.8 per cent. of the Group's EBITDA for the financial year ended 31 December 2019) were attributable to its operations in the UAE, principally Dubai. This reflects the fact that a significant proportion of the Group's malls and Carrefour stores and 11 of its 13 hotels which are currently operating are located in the UAE. In part, this is due to the fact that Dubai is a significant tourist destination. As a result, the Group is particularly exposed to adverse events affecting the UAE and Dubai in particular, including events which impact Dubai's attractiveness as a tourist destination and to the occurrence of factors that result in a decline in consumer spending in the UAE, such as a downturn in general economic conditions, an increase in the cost of living, an increase in unemployment or a decline in tourism or business travel to Dubai. The occurrence of any or all of these factors could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

All of the Group's businesses are affected by consumer behaviour

All of the Group's businesses are, and will continue to be, affected by changes in consumer demands and behaviours. For instance, the Group's businesses may be impacted by lower consumer spending which may, in turn, be attributable to extraneous factors such as the general politico-economic conditions that affect purchasing power and disposable income (see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic*" and "*Risk*

Factors – Risks Relating to the Group – All of the Group's businesses are affected by the economic and political conditions in the markets in which they operate"). Alternatively, lower consumer spending may be attributable to consumer preference changes, any major change in demographics and/or any failure to anticipate, identify or react to these changes or offer high-quality appealing products could result in reduced demand. For instance, "digital disruptions" or innovations in platforms may cause changes in consumer demands and behaviours by offering real-time, personalised online engagement tools. According to data made available by Statista, the UAE's e-commerce market volume is projected to reach U.S.\$11,034 million with a user penetration of 66.1 per cent. by 2025 (compared to market volume of U.S.\$2,788 million and U.S.\$5,754 million in 2017 and 2020, respectively, and a user penetration of 54.0 per cent. and 67.8 per cent. in 2017 and 2020, respectively)³. Whilst an increase in e-commerce may not negatively impact the Group's revenues from its retail operations, it may affect the tenants in the Group's malls, particularly if the Group is unable to continue to successfully adjust its tenant mix to offer an attractive retail experience (including, for instance, destination attractions, food courts, cinemas and parking facilities with ease of access) (see also "Risk Factors – Risks Relating to Majid Al Futtaim Properties – Majid Al Futtaim Properties' rental revenues depend upon its ability to find tenants for its shopping malls and offices and the ability of such tenants to fulfil their lease obligations as well as on Majid Al Futtaim Properties achieving an optimal tenant mix for its shopping malls. In addition, Majid Al Futtaim Properties is exposed to tenant concentration").

In order to compete in such circumstances, the Group may be required to make further expenditure or investments (such as marketing, customer incentives or pricing changes) (see further "Risk Factors – Risks Relating to the Group – The Group's businesses face significant competition in the markets in which they operate").

Any such change in consumer spending patterns and/or preferences could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Group's businesses are inter-dependent to a significant extent and this could increase its exposure to adverse events affecting any part of its business

The Group's businesses are inter-dependent to a significant extent and will be affected by factors that impact the retail industry as a whole (see "Risk Factors – Risks Relating to Majid Al Futtaim Retail"). For example, the financial performance of the Group's hypermarkets, other retail businesses, leisure and entertainment businesses and hotels are, in large part, dependent on the ability of the shopping malls in or close to which they are located to attract footfall. Conversely, the success of the Group's shopping malls is, to an extent, dependent on the extent to which its other businesses located in or close to the shopping malls act as an incentive to potential customers to visit the malls. As a result of this inter-dependence, adverse events affecting one part of the Group's business could also impact other parts of the business and therefore could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Group's growth strategy depends on its ability to successfully manage its growth

The Group's strategy of continuing to expand its existing operations in its target markets is dependent on a number of factors. These include its ability to:

- identify suitable investments and/or development opportunities;
- reach agreements with joint venture and strategic partners on terms satisfactory to it;
- maintain, expand or develop relationships with customers, suppliers, contractors, lenders and other third parties;
- increase the scope of its operational and financial systems to handle the increased complexity and expanded geographic area of operations;
- secure adequate financing on commercially reasonable terms;

³ Source: Statista, "eCommerce – United Arab Emirates", <https://www.statista.com/outlook/243/332/ecommerce/> (accessed 16 February 2021).

- recruit, train and retain qualified staff to manage its growing business efficiently and without losing operational focus; and
- obtain necessary permits or approvals from governmental authorities and agencies.

These efforts will require significant capital and management resources, further development of the Group's financial and internal controls and information technology ("IT") systems, and additional training and recruitment of management and other key personnel. At the same time, the Group must maintain a consistent level of customer service across its operations to avoid loss of business or damage to its reputation. Any failure by the Group to manage its growth effectively could have a material adverse effect on its business, financial condition, results of operations and prospects.

The Group's businesses face significant competition in the markets in which they operate

Several of the markets in which the Group operates are highly competitive. In particular, the Group faces increased shopping mall and hotel competition in Dubai, where the majority of its business is concentrated. The population growth of Dubai from 1.3 million in 2005 (census figure) to an estimated 3.4 million in 2019⁴, along with the growth in business and leisure travel to Dubai, contributed to the opening and announced development of a number of new shopping malls and hotels over this period. The COVID-19 pandemic has placed additional competitive pressure on these businesses (see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic*"). The Group's Carrefour stores also face significant competition in many of the markets in which the Group operates, including the UAE and Saudi Arabia in particular.

Certain of the Group's competitors may have greater financial, technical, marketing or other resources, either attributable to the scale of their operations or to their ownership. For instance, competitors that are controlled by regional governments may have easier access to prime land and infrastructure, government permits and licences and/or lower costs of capital. Such competitors may therefore be able to withstand price competition and volatility more successfully than the Group. Similarly, some of the Group's competitors in markets outside the UAE may have a deeper cultural understanding or longer or broader operational experience in such markets, which may reduce the time and therefore the costs necessary for them to execute competing projects. Moreover, due to their deeper understanding of consumer behaviour in the region, such competitors may be able to attract and retain customers more effectively than the Group.

In light of recent technological advancements, certain of the Group's competitors may adopt alternative channels of distribution (such as multichannel e-commerce) which may impact consumer behaviour and/or pricing paradigms in the industry. For instance, an increase in online shopping may impact the revenues of the Group's physical stores while a shift towards hotel aggregator sites may exert downward pressure on the Group's hotels business.

As a result of the foregoing, the Group may not be able to achieve a market share that allows it to remain profitable or increase its market share in the markets in which it operates. Moreover, as a result of the foregoing, the Group's operating expenses may be higher than that of its competitors and, therefore, the Group may have less flexibility or resilience vis-à-vis its competitors in terms of responding to market pressures (including any market movements resulting from macroeconomic factors; see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses are affected by the economic and political conditions in the markets in which they operate*"). Accordingly, if the Group is unable to compete effectively, this could have a material adverse effect on its business, financial condition, results of operations and prospects.

The countries in which the Group operates may introduce new laws and regulations that adversely affect the way in which the Group is able to conduct its businesses

The countries in which the Group operates are emerging market economies which are characterised by less comprehensive legal and regulatory environments. However, as these economies mature, the governments of these countries have begun, and the Group expects they will continue, to implement new laws and regulations which could impact the way the Group conducts many of its businesses. For instance, the laws of Dubai restrict the annual amount by which a landlord is legally able to increase rental charges on

commercial premises. As at the date of this Base Prospectus, the permitted rent increase is zero per cent., 5 per cent., 10 per cent., 15 per cent. or 20 per cent. The actual percentage of the permitted rent increase (between this range of zero per cent. and 20 per cent.) is dependent on how low the existing rent of the unit is compared to the average market rent applicable to the unit as determined by the Dubai Real Estate Regulatory Agency. In the case of Majid Al Futtaim Properties, lease terms for anchor tenants typically do not exceed 10 years (except MAF Group companies, which typically have lease terms of between 10 and 20 years), for major tenants from between five to 10 years and for line stores from between one to five years (see further "*Description of the Group – Majid Al Futtaim Properties – Shopping Malls Business Units (SMBU and SMDBU) – Lease arrangements*"). Therefore, although the market rents chargeable for its retail space may increase, Majid Al Futtaim Properties may be unable to fully realise any such increases from its existing tenants, which could adversely affect its profit margins, particularly if associated costs are rising at a faster rate than permissible and/or achievable rental rates. Similarly, the countries in which the Group operates may introduce more stringent environment regulations or labour policies, compliance with which may adversely impact the Group's operating costs.

There can be no assurance that if new tax or other laws or regulations were imposed in respect of the products and services offered by the Group it would not adversely affect the way in which the Group conducts its business. In addition, given the relatively illiquid nature of the Group's property assets, a change in law or regulation that results in the Group ceasing to conduct business in a particular country could result in a significant loss to the Group on the sale of its material properties in that country.

Any of the foregoing could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Group may operate in countries which are subject to international sanctions and operates in countries which are affected by terrorist activities and any failure to comply with these sanctions or the occurrence of any such terrorist activities could adversely affect the Group

European, U.S. and other international sanctions have in the past been imposed on companies engaging in certain types of transactions with specified countries or companies or individuals in those countries. Companies operating in certain countries in the Middle East and Africa have been the subject of such sanctions in the past. The terms of legislation and other rules and regulations which establish sanctions regimes are often broad in scope and difficult to interpret.

Although the Group has in the past conducted business activities in countries which have been subject to sanctions, as at the date of this Base Prospectus, no Group company is in violation of any existing European, U.S. or other international sanctions. Should any Group company in the future violate any existing or further European, U.S. or international sanctions, penalties could include a prohibition or limitation on such company's ability to conduct business in certain jurisdictions or on the Group's ability to access the U.S. or international capital markets. Any such sanction could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Group has operations in Pakistan, which has, in recent times, been affected by terrorist activities. To the extent further terrorist acts are carried out, in particular in the cities where the Group has stores, this may adversely affect demand for its services or products in those areas, which may in turn have a material adverse effect on its business, financial condition, results of operations and prospects.

Many of the Group's businesses are subject to licensing requirements and any failure to obtain such licences or to comply with their terms could adversely affect the Group's businesses

Many of the Group's businesses are subject to licensing requirements, both at the local and national level. Because of the complexities involved in procuring licences and permits, as well as in ensuring continued compliance with different and sometimes inconsistent local and national licensing regimes, the Group cannot give any assurance that it will at all times be in compliance with all of the licensing requirements to which it is subject although it is not aware of any material breaches that currently exist. Any failure by the Group to comply with applicable laws and regulations and to obtain and maintain requisite approvals, certifications, permits and licences, whether intentional or unintentional, could lead to substantial sanctions, including criminal, civil or administrative penalties, revocation of its licences and/or increased regulatory scrutiny, and liability for damages. It could also trigger a default under one or more of its financing agreements or invalidate or increase the cost of the insurance that the Group maintains for its businesses (insofar as it is covered for any consequential losses). For the most serious violations, it could also be forced

to suspend operations until it obtains required approvals, certifications, permits or licences or otherwise brings its operations into compliance. In addition, any adverse publicity resulting from any compliance failure, particularly as regards the safety of its leisure and entertainment venues and the food sold in its Carrefour stores, could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Furthermore, changes to existing, or the introduction of new, laws or regulations or licensing requirements in the jurisdictions in which it operates are beyond the Group's control and may be influenced by political or commercial considerations not aligned with the Group's interests. Any such laws, regulations or licensing requirements could adversely affect its business by reducing its revenue and/or increasing its operating costs, and the Group may be unable to mitigate the impact of such changes. Any of these occurrences could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Group companies are party to a number of joint ventures and franchise arrangements which give rise to specific operational risks

Group companies may enter into joint venture agreements for a number of reasons, including to gain access to land or where it is required to operate with a local partner in a particular jurisdiction. Joint venture transactions present certain operational risks, including the possibility that the joint venture partners may have economic, business or legal interests or goals that are inconsistent with those of the Group, may become bankrupt, may refuse to make additional investments that the Group deems necessary or desirable or may prove otherwise unwilling or unable to fulfil their obligations under the relevant joint venture agreements. In addition, there is a risk that such joint venture partners may ultimately become competitors of the Group. Many of the Group's joint venture partners are governmental agencies which exposes the Group to additional risks, including the need to satisfy both political and regulatory demands and the need to react to differences in focus or priorities between successive governments, both of which can lead to delays in decision making, increased costs and greater exposure to competition.

To the extent that the Group does not control a joint venture, the joint venture partners may take action that is not in accordance with Group policies or objectives. Should a joint venture partner act contrary to the Group's interests, this could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Group's ability to expand successfully through joint ventures will depend upon the availability of suitable and willing joint venture partners, the Group's ability to consummate such transactions and the availability of financing on commercially acceptable terms. The Group cannot give any assurance that it will be successful in establishing any future joint ventures or that, once established, a joint venture will be profitable for the Group. If a joint venture is unsuccessful, the Group may be unable to recoup its initial investment and its financial condition and results of operations may be materially adversely affected.

The Group's most significant joint venture is currently with Carrefour (see "*Risk Factors – Risks Relating to Majid Al Futtaim Retail – Majid Al Futtaim Retail is dependent on its relationship with Carrefour and the market perception of Carrefour*"). Certain matters identified in this joint venture agreement require the approval of Carrefour (see "*Description of the Group – Majid Al Futtaim Retail – Agreements with Carrefour*").

The Group is party to a number of franchise agreements, of which the most important is the franchise agreement with Carrefour. As such, the Group is exposed to the risk of such agreements not being renewed when they expire and to the risk of non-performance by the relevant franchisor, which could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Certain of the Group's debt agreements contain restrictions that may limit the flexibility of the Group in operating its businesses

Certain of the Group's debt agreements contain covenants that limit its ability to engage in specified types of transactions. These include covenants requiring the Group's operating subsidiaries to maintain certain net worth, interest coverage and debt to equity ratios. Certain of the Group's debt agreements also contain covenants limiting the Group's and its operating subsidiaries' ability to, among other things:

- incur or guarantee additional financial indebtedness;

- grant security or create any security interests; and
- sell, lease, transfer or otherwise dispose of any of its assets without the consent of the relevant lender, unless the disposal is made in the ordinary course of business or to another Group company.

The Master Trust Deed will contain covenants from each of Majid Al Futtaim Holding and Majid Al Futtaim Properties similar to certain of those described above, see "*Summary of the Principal Transaction Documents – Trust Deed*". The terms and conditions of any notes issued under the U.S.\$3 billion global medium term note programme (the "**GMTN Programme**") established by Majid Al Futtaim Holding and Majid Al Futtaim Properties and most recently updated on 30 March 2021 also contains similar covenants.

In addition, certain of the Group's outstanding debt contains, and its future debt may contain, cross-default clauses whereby a default under one debt obligation may constitute an event of default under other debt obligations. Any of these covenants could prevent the Group from engaging in certain transactions that it may view as desirable.

Although the Group believes that it is currently in compliance with its covenants and is not currently aware of any circumstances which indicate that the Group may in the future be in breach of any such covenants, there can be no assurance that the Group will continue to comply with all such covenants in the future. The Group's continued compliance with these covenants depends on a number of factors, some of which are outside of the Group's control. For instance, the Group's activities in all of its operating segments are affected by the global economic environment and the economic environment in the jurisdictions in which it operates (see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses are affected by the economic and political conditions in the markets in which they operate*"). Further, in the event that the financial results of the Group deteriorate, the Group may no longer be able to comply with financial covenants (such as those mentioned above) under certain of its debt agreements. In these circumstances, the Group may be required to either obtain a waiver from its creditors, renegotiate its credit facilities, raise additional financing from its shareholders or repay or refinance borrowings in order to avoid the consequences of a default. If the Group were unable to obtain such a waiver, to renegotiate its credit facilities, to raise additional financing from its shareholders or to repay or refinance its borrowings on terms that are acceptable to it, or at all, the Group's creditors would be entitled to declare an event of default and, as a result of cross-default provisions, there would be a strong possibility that default would also arise in respect of a substantial portion of the Group's other financial indebtedness. Such an event would permit the Group's creditors to demand immediate payment of the outstanding borrowings under the relevant debt agreements and instruments and to terminate all commitments to extend further credit to the Group. Such an event would also affect the Group's ability to raise additional capital at an acceptable cost in order to fund its operations. Any of these occurrences could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

As at 31 December 2020, the Group's short-term borrowings comprised its short-term borrowings from related parties of AED 44 million. As at 31 December 2020, the Group also had bank overdraft facilities amounting to AED 1,514 million and a short-term revolving facility of U.S.\$100 million. None of the Group's existing long-term borrowings as at 31 December 2020 fell due to be repaid within one year. To the extent that it needs to, there is no assurance that the Group will be able to refinance maturing borrowings as they fall due on terms acceptable to it or at all.

As at 31 December 2020, the Group had AED 15,496 million in outstanding borrowings (excluding bank overdrafts and short-term borrowings from related parties), none of which had the benefit of security (see "*Group Financial Review – Liquidity and Borrowings*"). However, subject to the covenants referred to above, the Group can obtain secured indebtedness. As unsecured creditors, the claims of Certificateholders will rank behind the claims of the Group's secured creditors to the extent of the security granted.

The Group's business may be materially adversely affected by changes in interest rates

Interest rates are highly sensitive to many factors beyond the Group's control, including the interest rate and other monetary policies of governments and central banks in the jurisdictions in which it operates. As at 31 December 2020, a portion of the Group's interest bearing loans and borrowings carried interest at floating rates. A hypothetical 100 basis point increase in interest rates (assuming all other relevant factors remained constant) would have resulted in the Group's other comprehensive income decreasing by AED 58 million in 2020. The Group's interest-bearing loans and borrowings are subject to interest rate risk resulting from fluctuations in the relevant reference rates underlying such instruments. Consequently, any increase

in such reference rates would result in an increase in the Group's interest rate expense and could have a material adverse effect on the Group's business, financial condition, results of operations and prospects. Although the Group seeks to hedge part of its interest rate risk, there can be no assurance that this hedging will be successful or will protect the Group fully against its interest rate risk. Such failure to successfully hedge against changes in interest rates could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Foreign exchange movements may adversely affect the Group's profitability

The Group maintains its accounts and reports its results in dirham, the currency in which the majority of its revenue is earned. A portion of the Group's income and expenses are incurred in the currencies of other countries in the MENA region. As a result, the Group is exposed to movements in foreign exchange rates. Although there can be no assurance that foreign currency fluctuations will not adversely affect the Group's results of operations in the future, the Group's management believes that the Group is not currently subject to significant foreign exchange risk given the fact that the majority of its revenue and expenses is incurred in dirham or in currencies which, like the dirham, are pegged to the U.S. dollar at a fixed exchange rate. In relation to its other currency earnings and expenses, the Group's management believes that its foreign exchange rate risk is reduced by the fact that to a large extent its revenue in a local currency is matched by its expenses being incurred in the same currency.

As at the date of this Base Prospectus, the dirham remains pegged to the U.S. dollar. However, there can be no assurance that the UAE government will not de-peg the dirham from the U.S. dollar, or alter the fixed exchange rate between the two currencies, in the future, which may have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

If the Group fails to attract and retain qualified and experienced employees, its businesses may be harmed

The Group's ability to carry on and grow its businesses will depend, in part, on its ability to continue to attract, retain and motivate qualified and skilled personnel to manage its day-to-day operations. In particular, the Group depends on finance, technical and engineering staff at both middle management and senior management level. Experienced and capable personnel with these skill sets generally and in the industries in which the Group operates in particular remain in high demand, and there is significant competition in the MENA region for their talents. Consequently, when any such employees leave, the Group may have difficulty replacing them. In addition, the loss of key members of the Group's senior management team or staff with institutional knowledge may result in (amongst other things): (a) a loss of organisational focus; (b) poor execution of operations and the Group's corporate strategy; and (c) an inability to identify and execute potential strategic initiatives such as future investments and acquisitions. These adverse results could, among other things, reduce potential revenue, expose the Group to downturns in the markets in which it operates and/or otherwise have a material adverse effect on its business, financial condition, results of operations and prospects.

The Group's businesses expose it to health and safety risks

Due to the people-based nature of its business, the Group's operations are subject to health and safety risks, particularly in relation to its shopping malls and leisure and entertainment businesses. Although all of the shopping malls currently comply with applicable health and safety standards, there can be no assurance that a major health and safety hazard, such as a fire, will not occur. Given the high number of shoppers that visit the Group's shopping malls on a daily basis, such an event could have serious consequences, particularly in the event of fatalities. Similarly, although the Group's leisure and entertainment facilities and hotels also comply with currently applicable health and safety standards, there can be no assurance that the customers of these facilities will not engage in inappropriate behaviour, endangering their safety and the safety of others (see also "*Risk Factors – Risks Relating to the Group – All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic*"). Any of the foregoing incidents could expose the Group to material liability and adversely affect its reputation and could have a material adverse effect on its business, financial condition, results of operations and prospects.

The Group may not be able to secure full insurance coverage for the risks associated with the operation of its businesses

Management believes that the Group's insurance coverage for all material aspects of its operations is comparable to that of other companies operating in the sectors and markets in which the Group operates. The Group's operations may, however, be affected by a number of risks for which full insurance cover is either not available or not available on commercially reasonable terms. In addition, the severity and frequency of various other events, such as accidents and other mishaps, business interruptions or potential damage to its facilities, property and equipment caused by inclement weather, human error, pollution, labour disputes, natural catastrophes and other eventualities, may result in losses or expose the Group to liabilities in excess of its insurance coverage or significantly impair its reputation. There is no assurance that the Group's insurance coverage will be sufficient to cover the loss arising from any or all such events or that it will be able to renew existing insurance cover on commercially reasonable terms, if at all.

Should an incident occur for which the Group has no, or insufficient, insurance cover, the Group could lose all or part of the capital invested in, and anticipated future revenues relating to, any property that is damaged or destroyed. Any of these occurrences could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The interests of the Group's controlling shareholder may, in certain circumstances, be different from the interests of the Certificateholders

The Group's controlling shareholder is Mr. Majid Al Futtaim who beneficially owns almost all of the shares in Majid Al Futtaim Holding. As a result, Mr. Majid Al Futtaim is in a position to control the outcome of actions requiring shareholders' approval and also has the ability to approve the election of all the members of the board of directors (the "**Board**") of Majid Al Futtaim Holding and thus influence Board decisions. The interests of Mr. Al Futtaim may be different from those of the Group's creditors (including the Certificateholders).

The Group's operations are in emerging markets which are subject to greater risks than more developed markets, including significant political, social and economic risks

All of the Group's operations are conducted, and its assets are located in emerging markets. Investors should also be aware that emerging markets are subject to greater risks than more developed markets, including in some cases significant legal, economic and political risks. Accordingly, investors should exercise particular care in evaluating the risks involved and must decide for themselves whether, in light of those risks, their investment is appropriate. Generally, investment in developing markets is only suitable for sophisticated investors who fully appreciate the significance of the risks involved. Any unexpected changes in the political, social, economic or other conditions in the countries in which the Group operates or neighbouring countries could have a material adverse effect on the Group's business, financial condition, results of operations and prospects (see also "*Risk Factors – Risks Relating to the Group – All of the Group's businesses are affected by the economic and political conditions in the markets in which they operate*").

The Group is dependent on its information and technology systems which are subject to potential cyberattack

The Group is dependent on information technology networks and systems to securely process, transmit and store electronic information and to communicate internally and with its customers, tenants, partners and vendors. As the breadth and complexity of this infrastructure continues to grow, including as a result of the use of mobile technologies, social media and cloud-based services, the potential risk of security breaches and cyberattacks increases. Such breaches could lead to shutdowns or disruptions of the Group's systems and potential unauthorised disclosure of sensitive or confidential information, including personal data. Cybersecurity threats are constantly evolving, thereby increasing the difficulty of detecting and defending against them.

The Group often manages, utilises and stores sensitive or confidential customer, tenant or company data, including personal data, and the Group expects these activities to increase. Unauthorised disclosure of sensitive or confidential customer, tenant or company data, whether through systems failure, employee negligence, fraud or misappropriation, could damage the Group's reputation, cause the Group to lose customers and tenants and could result in significant financial exposure. Similarly, unauthorised access to or through the Group's information systems or those it develops for, or supplies to, its customers and tenants,

whether by employees or third parties, including a cyberattack by computer programmers, hackers, members of organised crime and/or state-sponsored organisations, who may develop and deploy viruses or other malicious software programs or social engineering attacks, could result in contractual and other legal liability, a loss of business or customers or tenants, damage to the Group's reputation and government sanctions, and could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

RISKS RELATING TO MAJID AL FUTTAIM PROPERTIES

Majid Al Futtaim Properties' business is capital intensive and it may not be able to raise sufficient capital to make all future investments and capital expenditures that it deems necessary or desirable

Majid Al Futtaim Properties engages in projects which require a substantial amount of capital and other long-term expenditures, including the development of new shopping malls, hotels and mixed-use developments. The capital commitments associated with these projects generally exceed Majid Al Futtaim Properties' cash inflows over the period of the project. In the past, these expenditures and investments have been financed through a variety of means, including internally-generated cash and external borrowings.

Majid Al Futtaim Properties' and the Group's ability to arrange external financing and the cost of such financing are dependent on numerous factors, including its future financial condition, general economic and capital market conditions, interest rates, credit availability from banks or other lenders or investors, lender and investor confidence in Majid Al Futtaim Properties' and the Group's businesses and the markets in which they operate, the credit rating assigned to Majid Al Futtaim Properties and the Group by credit rating agencies, applicable provisions of tax and securities laws, and political and economic conditions in any relevant jurisdiction. Neither Majid Al Futtaim Properties nor the Group can provide any assurance that it will be able to arrange any such external financing on commercially reasonable terms, if at all, and it may be required to secure financing with a lien over its assets and those of its subsidiaries and/or agree to contractual limitations on the operation of its businesses. Majid Al Futtaim Properties or the Group's failure to obtain adequate funding as required to satisfy its contractual commitments could result in defaults on existing contracts, completion delays and damage to Majid Al Futtaim Properties' and the Group's reputation as a reliable contractual counterparty, and could have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Properties and the Group as a whole.

A significant proportion of Majid Al Futtaim Properties' and the Group's assets as at 31 December 2020 comprised real estate held either as property, plant and equipment or investment property. The valuation of these assets is inherently subjective, the values attributed to these assets may not accurately reflect their market value at any future date and they may be difficult to sell

The Group appoints an independent external Royal Institute of Chartered Surveyors ("RICS") valuer to determine the fair value of its real estate assets bi-annually as at 30 June and 31 December in each year. However, real estate valuations are inherently subjective because they are made on the basis of assumptions that may prove to be incorrect. No assurance can be made that the valuations of the Group's real estate assets will reflect actual sale prices, even where any such sale occurs shortly after the relevant valuation date. Significant differences between valuations and actual sales prices could have a material adverse effect on the financial condition and results of operations of Majid Al Futtaim Properties (which is the owner of the majority of the assets) and the Group as a whole (see also *"Risk Factors – Risks Relating to the Group – All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic"*).

Given that real estate assets in general are relatively illiquid, the ability of Majid Al Futtaim Properties to sell promptly one or more of its properties in response to changing political, economic, financial and investment conditions is limited. Majid Al Futtaim Properties is susceptible to decreases in demand for commercial property in the MENA region, and in particular Dubai, given its exposure to the real estate market there. Majid Al Futtaim Properties cannot predict the length of time needed to find a willing purchaser and to close the sale of a property or whether it would be able to sell a property on commercially reasonable terms, if at all. Majid Al Futtaim Properties' inability to promptly sell its properties or on commercial terms could have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Properties and the Group as a whole.

The success of Majid Al Futtaim Properties' business strategy and profitability depends upon its ability to locate and acquire or lease land suitable for development at attractive prices

Majid Al Futtaim Properties' growth and profitability to-date have been attributable, in part, to its ability to locate and acquire or lease land at attractive prices, and the success of Majid Al Futtaim Properties' business strategy and future profitability depends upon its continued ability to do so. Many of Majid Al Futtaim Properties' most significant competitors are owned by the government of the countries in which they operate and, therefore, they may be accorded preferential treatment when acquiring land. In the past, Majid Al Futtaim Properties has been able to acquire land suitable for its planned shopping malls, hotels and other developments, but there can be no assurance that it will continue to be able to acquire land suitable for development in the future at attractive prices. In addition, Majid Al Futtaim Properties faces the risk that competitors may anticipate and capitalise on certain potential investment opportunities in advance of Majid Al Futtaim Properties doing so, which could have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Properties and the Group as a whole.

The MENA region in which Majid Al Futtaim Properties operates is characterised by a lack of real estate transparency

According to a real estate transparency survey conducted by Jones Lang LaSalle in 2020, the real estate markets in which Majid Al Futtaim Properties and the Group operate are categorised as semi-transparent (the UAE, Kenya and Saudi Arabia), low-transparent (Bahrain, Egypt, Kuwait, Qatar, Jordan, Kazakhstan and Pakistan) and opaque (Oman, Lebanon and Iraq). The degree of transparency of a real estate market is determined by reference to a number of factors, including comparable transactions, accessibility of information relating to counterparties and land title, reliability of market data, clarity of regulations relating to all matters of real estate conveyance and access to government agencies to verify information provided by counterparties in connection with real estate transactions. Although Majid Al Futtaim Properties endeavours to undertake comprehensive due diligence with respect to its real estate investments in order to mitigate any risks in connection with the markets in which it operates, there can be no assurance that the factors described above will not result in its discovery at a later date of information or liabilities in association with its investments that could affect their value, expected purpose or returns on investment, which could, in turn, have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Properties and the Group as a whole.

Majid Al Futtaim Properties does not have unrestricted title to all of its land parcels

In a limited number of cases, Majid Al Futtaim Properties acquires title to land parcels which are subject to certain conditions as to the timeframe within which the land should be developed. If Majid Al Futtaim Properties fails to comply with any such conditions, it may lose title to the land parcel concerned. Registration of title to Majid Al Futtaim Properties' land parcels may also be subject to conditions in relation to the completion of construction thereon.

If Majid Al Futtaim Properties loses title or is unable to acquire title to its properties, this could have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Properties and the Group as a whole.

Majid Al Futtaim Properties has not to-date experienced a situation where its title or interest in its properties or land parcels has been lost, has been the subject of legal proceedings leading to the loss of title or interest in its properties or land parcels. However, Majid Al Futtaim Properties is subject to the risk that it may not in the future be able to acquire or be granted unrestricted title or interest to any land and/or that it could be determined to be in violation of applicable law should it violate any restrictions applicable to any such title or interest. Any such outcome could have a material adverse effect on the business, financial condition, results of operations and prospects business, financial condition, results of operations and prospects of Majid Al Futtaim Properties and the Group as a whole.

Majid Al Futtaim Properties is exposed to a range of development and construction risks

Majid Al Futtaim Properties is subject to a number of construction, financing, operating and other risks associated with project development which have resulted, and may in the future result, in significant cost overruns and delays in the delivery of its projects. For instance, shortages in raw materials (such as steel and other commodities common in the construction industry), energy, building equipment (including, in particular, cranes), labour (including project managers, contractors and construction specialists) or other

necessary supplies may result in delays to a project. Such shortages may also result in an increase of the cost of the relevant resource and may therefore result in a cost overrun vis-à-vis the original budget.

Majid Al Futtaim Properties is also exposed to significant counterparty risk associated with project development. These risks include default or delays by contractors and other counterparties, design or construction defects and inadequate infrastructure as a result of failure by third parties to provide utilities and transportation and other links that are necessary or desirable for the successful operation of a project. The foregoing could not only adversely impact the project costs but may also result in an adverse impact on the overall marketability of that project (including consumer demand) and may have an adverse impact on the Group's reputation.

The occurrence of one or more of these events may prevent Majid Al Futtaim Properties from achieving projected internal rates of return for its projects, which could in turn have a material adverse effect on the business, financial condition, results of operations and prospects business, financial condition, results of operations and prospects of Majid Al Futtaim Properties and the Group as a whole. In addition, there can be no assurance that the revenues that Majid Al Futtaim Properties is able to generate from its development and construction projects will be sufficient to cover the associated construction costs.

Majid Al Futtaim Properties' rental revenues depend upon its ability to find tenants for its shopping malls and offices and the ability of such tenants to fulfil their lease obligations as well as on Majid Al Futtaim Properties achieving an optimal tenant mix for its shopping malls. In addition, Majid Al Futtaim Properties is exposed to tenant concentration

There can be no guarantee that Majid Al Futtaim Properties will find or be able to retain tenants for its shopping malls and other properties on terms and conditions that are satisfactory to it. In addition, Majid Al Futtaim Properties' tenants may be materially adversely affected by a range of factors which may affect their ability to perform their obligations under the relevant lease agreements and may therefore adversely affect the financial performance of the properties leased by Majid Al Futtaim Properties and the cash flows generated by them. For instance, rental deferrals and rebates provided by Majid Al Futtaim Properties due to COVID-19 (see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic*") resulted in direct reductions to Majid Al Futtaim Properties' revenue in 2020.

Further, certain jurisdictions in which Majid Al Futtaim Properties operates as a landlord, including the UAE, have imposed restrictions on rental increases and these restrictions may also adversely impact Majid Al Futtaim Properties' business.

Majid Al Futtaim Properties seeks to ensure that it has the right mix of retail outlets in its shopping malls to cater to the consumer preferences of its local customers. In pursuit of this strategy, Majid Al Futtaim Properties has sought in the past, and may seek in the future, to terminate lease agreements of existing tenants in order to replace them with new tenants to its shopping malls. In addition, Majid Al Futtaim Properties may seek to terminate the lease agreements of tenants who default under their leases. It is relatively difficult to evict tenants under the laws of the jurisdictions in which Majid Al Futtaim Properties operates. Therefore, Majid Al Futtaim Properties may experience delays in evicting tenants for cause or changing its tenant mix to meet strategic directives prior to the expiry of relevant lease terms, and efforts to do so could require considerable expense. Although Majid Al Futtaim Properties' tenants have rarely defaulted in performing their obligations under the lease agreements they have entered into with Majid Al Futtaim Properties, should one or more tenants stop paying rent for a period of time, whether with or without cause, this could reduce Majid Al Futtaim Properties' cash flows and could have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Properties and the Group as a whole.

A significant proportion of the tenants in Majid Al Futtaim Properties' shopping malls are members of a limited number of large retail groups. As a result, Majid Al Futtaim Properties could be materially adversely affected should any of these retail groups cease to carry on business with Majid Al Futtaim Properties.

Majid Al Futtaim Properties' shopping malls depend on anchor stores or major tenants to attract shoppers and could be materially adversely affected by the loss of, or a store closure by, one or more of these tenants

Shopping malls are typically anchored by hypermarkets, department stores and other large nationally recognised tenants. Many of Majid Al Futtaim Properties' major tenants are owned by a limited number of large retail groups. The performance of some of Majid Al Futtaim Properties' shopping malls could be materially adversely affected if these tenants fail to comply with their contractual obligations, seek concessions in order to continue operations, or cease their operations. Concessions made to existing tenants may also be made to potential new tenants with a view to attracting such potential new tenants. There is no assurance that any such concessions made will achieve their purpose or will not materially adversely affect Majid Al Futtaim Properties' and the Group's revenue or profitability. In addition, the closure of tenants' operations may enable other tenants to negotiate a modification to the terms of their existing leases, and such closures could result in decreased customer traffic which could adversely affect the performance of the shopping mall concerned and, as a result, could have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Properties and the Group as a whole.

Majid Al Futtaim Properties' hotels are all managed by independent third-party operators and Majid Al Futtaim Properties is, therefore, exposed to the performance of these operators

Majid Al Futtaim Properties has entered into hotel management agreements with Accor S.A. ("**Accor**"), Kempinski Hotels S.A. ("**Kempinski**"), Hilton International Manage LLC ("**Hilton**") and Marriott International ("**Marriott**"). While Majid Al Futtaim Properties has close relationships with the operators of its hotels and a successful track record of working with them to make property and operational improvements, Majid Al Futtaim Properties does not have the means to compel any hotel to be operated in a particular manner or to govern any particular aspect of its operations. Therefore, even if Majid Al Futtaim Properties believes its properties are being operated inefficiently or in a manner that does not result in satisfactory revenues or operating profits, it will generally not have rights under the management agreements to change who operates the properties or how they are operated until the expiry of the term of the agreements unless there is a breach of specific contractual provisions permitting such termination. Majid Al Futtaim Properties can only seek redress if an operator breaches the terms of the management agreements or, in the case of the agreements with Kempinski, if the hotel does not reach certain prescribed levels of profitability for three consecutive years, and then only to the extent of the remedies provided for under the terms of that agreement. In the event that Majid Al Futtaim Properties were to seek to replace any of its current hotel operators, it would likely experience significant disruptions at the affected properties, which could have a material adverse effect on the business, results of operations, financial condition and prospects of Majid Al Futtaim Properties and the Group as a whole.

The hotel industry is subject to certain general risks

In addition to the general political and economic factors which affect all of the Group's businesses (see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses are affected by the economic and political conditions in the markets in which they operate*"), the hotel industry depends on a number of factors, many of which are outside the control of Majid Al Futtaim Properties and the Group, which could negatively affect the number of visitors to the regions in which the Group operates hotels and therefore impact the number of guests staying at the Group's hotel properties. For instance, visitor volumes are impacted by major travel impediments (such as airline strikes, border closures, extreme weather conditions, natural disasters, outbreaks of diseases (including COVID-19), deterioration in the political or economic conditions in the destination market or onerous changes in visa requirements or other similar regulations). The hotel industry in the MENA region is also impacted by seasonality, particularly in the very hot summer months when the number of visitors to the region is usually significantly reduced when compared to the winter months.

In addition, the hotel industry is susceptible to an increase in operating costs due to reasons outside the operators' control (for instance, due to an increase in utility costs, taxes or insurance costs).

Any negative changes in such factors could result in increased competition and periods of oversupply of hotel and guest accommodation which may affect occupancy and room rates, which could have a material adverse effect on the business, results of operations, financial condition and prospects of Majid Al Futtaim Properties and the Group as a whole.

RISKS RELATING TO MAJID AL FUTTAIM RETAIL

Majid Al Futtaim Retail's results of operations and financial performance could be materially adversely affected by a change in consumer preferences, perception and/or spending

Majid Al Futtaim Retail accounted for 85.9 per cent. of the Group's revenue and 43.4 per cent. of the Group's EBITDA for the financial year ended 31 December 2020. Majid Al Futtaim Retail's performance depends on factors which may affect the level and patterns of consumer spending in the UAE and the MENA region. Such factors include consumer preferences, confidence, incomes and perceptions of the quality of certain products. A general decline in purchases at Majid Al Futtaim Retail's Carrefour stores could occur as a result of a change in consumer preferences, perceptions and spending habits at any time and Majid Al Futtaim Retail's future success will depend partly on its ability to anticipate or adapt to such changes and to offer, on a timely basis, new products that match consumer demand. Such changes, and a failure to adapt its offering to respond to them, may result in reduced demand for the products sold at Majid Al Futtaim Retail's Carrefour stores, a decline in the market share of its products and increased levels of selling and promotional expenses. Any changes in consumer preferences could result in lower sales of the products sold at Majid Al Futtaim Retail's Carrefour stores or put pressure on pricing, and could materially adversely affect the business, financial condition, results of operations and prospects of Majid Al Futtaim Retail and the Group as a whole.

Majid Al Futtaim Retail is dependent on its relationship with Carrefour and the market perception of Carrefour

All of Majid Al Futtaim Retail's revenue and EBITDA for the financial year ended 31 December 2020 was derived from the operations of its Carrefour stores. The business, financial condition, results of operations and prospects of Majid Al Futtaim Retail and the Group as a whole could be materially and adversely affected to the extent that Majid Al Futtaim Retail's franchise rights with Carrefour become compromised in any material respect.

In addition, the willingness of the public to shop at Carrefour, which is considered by many to be associated with France, is also subject to various factors outside Majid Al Futtaim Retail's control, including the public's perception of Carrefour and, more generally, of France. Should any of these factors be perceived in a negative manner, this would have a material adverse effect on the financial condition and results of operations of Majid Al Futtaim Retail and the Group as a whole. For instance, political tensions between France and the Middle East resulted in a boycott of French products in the MENA region in the second half of 2020 which resulted in a decrease in Carrefour's sales (see further "*Group Financial Review – Results of Operations for the Financial Year Ended 31 December 2020 and the Financial Year Ended 31 December 2019 – Revenue – Sale of goods*").

The planned increase in the number of Carrefour stores may not be achieved

Majid Al Futtaim Retail plans to open 14 Carrefour hypermarkets (one store each in Georgia and Iraq and two each in Egypt, Oman, Pakistan, Saudi Arabia, the UAE and Uzbekistan) and 86 Carrefour supermarkets in 2021. However, there can be no assurance that it will be able to expand its store network as planned or that all of such new stores will be profitable. While the Group's management believes that Majid Al Futtaim Retail has identified areas in the MENA region where Majid Al Futtaim Retail could increase the number of its stores, unforeseen factors could result in potential sites not becoming available on acceptable terms. Furthermore, if competitors are able to secure high-quality sites, they may be able to gain market share and may effectively restrict Majid Al Futtaim Retail's ability to grow. This could adversely affect the business, reputation, financial condition, results of operations and prospects of Majid Al Futtaim Retail and the Group as a whole.

In addition, Majid Al Futtaim Retail's ability to open new stores, convert or refurbish existing stores, change the use of part of an existing store or implement any of these activities without delay may be significantly restricted by regulatory obstacles associated with obtaining the approvals, permits, consents and/or registrations necessary to construct and/or operate its stores, which could have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Retail and the Group as a whole.

Interruptions in the availability of products from suppliers or any changes in the costs to Majid Al Futtaim Retail of obtaining such products could adversely affect its business

Majid Al Futtaim Retail's operations may be interrupted or otherwise materially adversely affected by delays or interruptions in the supply of its products or the termination of any product supplier arrangement where an alternative source of product supply is not readily available on substantially similar terms. Any breakdown or change in Majid Al Futtaim Retail's relationships with product suppliers could materially adversely affect the business, financial condition, results of operations and prospects of Majid Al Futtaim Retail and the Group as a whole. If Majid Al Futtaim Retail is forced to change a supplier of products, there is no guarantee that this would not interrupt supply continuity or result in additional cost. Further, Majid Al Futtaim Retail is currently able to secure significant rebates and other supplier benefits from its product suppliers. Should these benefits decline or become unavailable, this could have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Retail and the Group as a whole.

In addition, the price of the products which Majid Al Futtaim Retail sells at its Carrefour stores may be significantly affected by the cost of the raw materials used to produce those products in the source markets of Majid Al Futtaim Retail's suppliers. Wherever practicable, Majid Al Futtaim Retail seeks to put in place supply contracts which ensure the supply of products for the period that they are anticipated to be offered by the Carrefour stores and in such quantities as its forecasts require. Failure to continue to source products at competitive cost from international markets or to forecast accurately the required quantities could result in Majid Al Futtaim Retail having to buy products from other suppliers on short-term contracts which could result in additional cost. Any increases in the prices of products where prices have not been fixed under contractual supply agreements could materially adversely affect the business, financial condition, results of operations and prospects of Majid Al Futtaim Retail and the Group as a whole.

Interruptions in or changes to the terms of Majid Al Futtaim Retail's shipping or distribution arrangements could adversely affect its business

Majid Al Futtaim Retail is reliant on the services of third-party distribution, shipping and haulage companies for the movement and storage of its private label goods and the entire range of products for its Carrefour supermarkets within the regions in which it operates and the jurisdictions from which it sources its products. Although it has entered into management contracts with three third-party distribution, shipping and haulage companies, any change in the terms of, or interruption or failure in, the services of one or more of these service providers could affect Majid Al Futtaim Retail's ability to supply and distribute its products and consequently could materially adversely affect the business, financial condition, results of operations and prospects of Majid Al Futtaim Retail and the Group as a whole. Such interruption or failure could potentially involve significant additional costs to Majid Al Futtaim Retail in obtaining an alternative source of supply or distribution.

Majid Al Futtaim Retail faces the risk of product liability claims and associated adverse publicity

The packaging, marketing, distribution and sale of food products purchased from others, as well as production of foods under Carrefour's private labels, entail an inherent risk of contamination or deterioration, which could potentially lead to product liability claims, product recalls and associated adverse publicity. Any contaminated products inadvertently distributed by Majid Al Futtaim Retail may, in certain cases, result in illness, injury or death, or lead to product liability claims asserted against Majid Al Futtaim Retail and/or require product recalls. There can be no assurance that such claims will not be asserted against it in the future, or that such recalls will not be necessary. While the Group has product liability insurance, such policy does not include insurance cover against product recall specifically and there is no certainty that any product liability insurance available to the Group will be sufficient to cover all claims, or any product recall claims, that may be asserted against it (see further "*Risk Factors – Risks Relating to the Group – The Group may not be able to secure full insurance coverage for the risks associated with the operation of its businesses*").

In addition, because Majid Al Futtaim Retail's success is linked to the reputation of Carrefour, any product liability claims or product recalls that cause adverse publicity involving Carrefour stores not owned by Majid Al Futtaim Retail may have an adverse effect on Majid Al Futtaim Retail, regardless of whether such claim or recall involves any products sold by Majid Al Futtaim Retail's Carrefour franchises. Further, even if a product liability claim is not successful or is not fully pursued, the negative publicity surrounding any assertion that the products it sells caused illness or injury could have a material adverse effect on Carrefour's

reputation with existing and potential customers, as well as the business, financial condition, results of operations and prospects of Majid Al Futtaim Retail and the Group as a whole.

RISKS RELATING TO MAJID AL FUTTAIM VENTURES

Majid Al Futtaim LEC may not be able to manage its growth successfully

Majid Al Futtaim Ventures has experienced a period of significant growth over the last few years and, once it is established as a separate legal entity, Majid Al Futtaim LEC is expected to continue such growth in future years (see further "*Description of the Group – Majid Al Futtaim Ventures – Overview*"). Such expansion may expose Majid Al Futtaim LEC to numerous risks, including challenges in managing the increased scope and geographic diversity of the operations of the Group's companies.

Future growth may place a strain on the Group's managerial, operational, financial and other resources. The need to manage such expansion may require continued development of procedures and management controls, hiring additional personnel, as well as training and retaining its employee base. Such growth may also increase costs, including the cost of compliance arising from exposure to additional activities and jurisdictions. If the Group is not successful in meeting the challenges associated with such expansion, this could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Majid Al Futtaim Ventures' wholesale finance and credit card businesses may require higher costs of funding and expose it to credit risk

Majid Al Futtaim Ventures, through Majid Al Futtaim Finance, issues credit cards by way of a third party credit card provider. As the Group does not have a consumer banking operation, which is considered to be one of the principal means of achieving inexpensive funding to support such business, such operations are funded through intra-Group and third party loans, which may be more costly than the funding to which certain of its competitors, particularly local and regional banking groups, have access to. A decrease in Majid Al Futtaim Finance's access to external funding in particular, or a rise in the cost of intra-Group funding, could have an adverse effect on the results of operations and prospects of Majid Al Futtaim Venture's credit card business.

In addition, the target customers of its credit card business are principally UAE residents. Although Al Etihad Credit Bureau is a federal government company specialised in providing UAE based credit reports and other financial information, there can be no assurance that such information is accurate. Majid Al Futtaim Finance and its competitors do not share customer information. Therefore, this business is unable to confirm with complete certainty information provided by credit applicants regarding the extent of their credit exposure. As a result, customers may be over-extended by virtue of other credit obligations about which Majid Al Futtaim Finance is unaware. To some extent, Majid Al Futtaim Finance is therefore exposed to credit risks which it may not be able to accurately assess or provide for and, in the case of expatriates, may be unable to enforce a judgment obtained against defaulting creditors who no longer live in the UAE. If such credit risks were to materialise, this could have a material adverse effect on the business, financial condition, results of operations and prospects of Majid Al Futtaim Ventures and the Group as a whole.

As at the date of this Base Prospectus, Majid Al Futtaim Finance is held for sale since the Group intends to transfer the credit card portfolio to a third party, wind-down and exit the Majid Al Futtaim Finance business (see further Note 24 to the 2020 Group Financial Statements).

FACTORS WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE MARKET RISKS ASSOCIATED WITH CERTIFICATES ISSUED UNDER THE PROGRAMME

Risks relating to the Portfolio Assets

Ownership and transfer of the Portfolio Assets

The *Shari'a* analysis is as follows: an ownership interest in the Portfolio Assets comprised within the relevant Wakala Portfolio will pass to the Trustee under the relevant Purchase Agreement. The Trustee will declare a trust in respect of the Portfolio Assets and the other Trust Assets in favour of the Certificateholders of the relevant Series pursuant to the relevant Trust Deed. Accordingly, from a *Shari'a* perspective,

Certificateholders should, through the ownership interest obtained by the Trustee pursuant to the terms of the Purchase Agreement, have an undivided ownership interest in the relevant Portfolio Assets.

The Portfolio Assets will be selected by Majid Al Futtaim Properties, and the Certificateholders, the Trustee, the Delegate and the Agents will have no ability to influence such selection. Only limited representations will be obtained from Majid Al Futtaim Properties in respect of the Portfolio Assets. No steps are intended to be taken to perfect the legal transfer of the ownership interest (including registration, if necessary) in the Portfolio Assets with any relevant regulatory authority in the UAE or otherwise give notice to any lessee or obligor in respect thereof and no investigation will be made as to whether Majid Al Futtaim Properties is in actual or constructive possession, custody or control of any of the Portfolio Assets at any time. Therefore, Certificateholders shall have no legal interest in any Portfolio Assets which require perfection in order to legally transfer any ownership interest therein.

Further, although the *Shari'a* analysis is such that an ownership interest in the Portfolio Assets should pass to the Trustee under the Purchase Agreement, the Certificateholders will not have any rights of enforcement as against the Portfolio Assets and their rights are limited to enforcement against Majid Al Futtaim Properties of its obligation to purchase all (or the applicable portion thereof, as the case may be) of the Portfolio Assets pursuant to the terms of the Purchase Undertaking.

Majid Al Futtaim Properties has undertaken in the Purchase Undertaking and the Master Trust Deed that, in relation to any Series: (a) if, at the time of delivery of an Exercise Notice in accordance with the provisions of the Purchase Undertaking, Majid Al Futtaim Properties (acting in any capacity) remains in actual or constructive possession, custody or control of all or any part of the Asset Portfolio (with this condition being conclusively satisfied if the Trustee has not delivered a notice in writing to the Services Agent to terminate its appointment under the Service Agency Agreement); and (b) if, following delivery of an Exercise Notice in accordance with the provisions of the Purchase Undertaking, Majid Al Futtaim Properties fails to pay the relevant Exercise Price for any reason whatsoever, Majid Al Futtaim Properties shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the outstanding Certificates in respect of which the Exercise Notice is delivered and, accordingly, the amount payable under any such indemnity claim will equal the relevant Exercise Price.

Subject to the satisfaction of the conditions set out in the above paragraph, if Majid Al Futtaim Properties fails to pay the relevant Exercise Price in accordance with the Purchase Undertaking, the Delegate may, subject to the matters set out in Condition 14 and the terms of the Master Trust Deed, seek to enforce, *inter alia*, the provisions of the Purchase Undertaking and the Master Trust Deed against Majid Al Futtaim Properties by commencing proceedings in the courts of the Dubai International Financial Centre (the "**DIFC Courts**"). The DIFC Courts should respect the choice of English law as the governing law of the Purchase Undertaking and the Master Trust Deed. However, see further "*Risk Factors – Factors which are Material for the Purpose of Assessing the Market Risks Associated with Certificates Issued under the Programme – Risk factors relating to enforcement – Investors may experience difficulties in enforcing arbitration awards and foreign judgments in Dubai*".

Risk factors relating to taxation

Taxation risks on payments

Payments made by Majid Al Futtaim Properties and/or the Guarantor to the Trustee under the Transaction Documents or by the Trustee in respect of the Certificates could become subject to taxation. The Service Agency Agreement requires the Services Agent, the Purchase Undertaking requires Majid Al Futtaim Properties, the Master Trust Deed requires the Guarantor and the Master Murabaha Agreement requires Majid Al Futtaim Properties to pay additional amounts in the event that any withholding or deduction is required by applicable law to be made in respect of payments made by it to the Trustee which are intended to fund Periodic Distribution Amounts and Dissolution Amounts. Condition 11 provides that the Trustee is required to pay additional amounts in respect of any such withholding or deduction imposed by Cayman Islands law in certain circumstances. In the event that the Trustee fails to pay any such additional amounts in respect of any such withholding or deduction on payments due in respect of the Certificates to Certificateholders, Majid Al Futtaim Properties (failing which the Guarantor in accordance with the Master Trust Deed) has unconditionally and irrevocably undertaken (irrespective of the payment of any fee), as a continuing obligation, to pay to the Trustee (for the benefit of the Certificateholders) an amount equal to the liabilities of the Trustee in respect of any and all additional amounts required to be paid in respect of

the Certificates pursuant to Condition 11 in respect of any withholding or deduction in respect of any tax as set out in that Condition.

Risk factors relating to enforcement

Investors may experience difficulties in enforcing arbitration awards and foreign judgments in Dubai

The payments under the Certificates are dependent upon Majid Al Futtaim Properties, failing which the Guarantor, making payments to the Trustee in the manner contemplated under the Transaction Documents. If Majid Al Futtaim Properties or the Guarantor fails to do so, it may be necessary to bring an action against Majid Al Futtaim Properties and the Guarantor (or either of them) to enforce their respective obligations and/or to claim damages, as appropriate, which may be costly and time-consuming.

Furthermore, to the extent that enforcement of remedies must be pursued in the UAE, it should be borne in mind that there is limited scope for self-help remedies under UAE law and that generally enforcement of remedies in the UAE must be pursued through the courts.

Under current Dubai law, the Dubai courts are unlikely to enforce an English court judgment without re-examining the merits of the claim and may not observe the choice by the parties of English law as the governing law of the transaction. In the UAE, foreign law is required to be established as a question of fact and the interpretation of English law, by a court in the UAE, may not accord with the interpretation of an English court. In principle, courts in the UAE recognise the choice of foreign law if they are satisfied that an appropriate connection exists between the relevant transaction agreement and the foreign law which has been chosen. They will not, however, honour any provision of foreign law which is contrary to public policy, order or morals in the UAE, or to any mandatory law of, or applicable in, the UAE.

The UAE is a civil law jurisdiction and judicial precedents in Dubai have no binding effect on subsequent decisions. In addition, there is no formal system of reporting court decisions in Dubai. These factors create greater judicial uncertainty than would be expected in other jurisdictions.

Each Transaction Document (other than the Master Purchase Agreement, any Supplemental Purchase Contract, the Title Nominee Agreement, any Additional Sale Agreement or Sale Agreement or Transfer Agreement entered into under the Trustee Sale and Purchase Undertaking and any Sale Agreement entered into under the Purchase Undertaking) is governed by English law and the parties to such documents (other than in the case of the Purchase Undertaking) have agreed to refer any unresolved dispute in relation to such documents to arbitration under the LCIA Arbitration Rules in London, England.

The New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards 1958 (the "**New York Convention**") entered into force in the UAE on 19 November 2006. In the absence of any other multilateral or bilateral enforcement convention, an arbitration award rendered in London should be enforceable in the UAE in accordance with the terms of the New York Convention. Under the New York Convention, the UAE has an obligation to recognise and enforce foreign arbitration awards, unless the party opposing enforcement can prove one of the grounds under Article V of the New York Convention to refuse enforcement, or the UAE courts find that the subject matter of the dispute is not capable of settlement by arbitration or enforcement would be contrary to the public policy of the UAE.

There is no established track record as to how the New York Convention provisions would be interpreted and applied by the UAE courts in practice and whether the UAE courts will enforce a foreign arbitration award in accordance with the New York Convention (or any other multilateral or bilateral enforcement convention). This is reinforced by the lack of a system of binding judicial precedent in the UAE and the independent existence of different Emirates within the UAE, some with their own court systems, and whose rulings may have no more than persuasive force cross border. Although there are examples of foreign arbitral awards being enforced in the UAE under the New York Convention, there are other cases where the enforcement of foreign arbitral awards have been refused. Federal Cabinet Resolution No. 57 of 2018 (the "**Resolution**") also governs the enforcement of foreign arbitral awards in the UAE. The Resolution confirms that arbitral awards issued in a foreign state may be enforced in the UAE and that the conditions for enforcement of foreign arbitral awards set out in the New York Convention shall not be prejudiced by the Resolution. However, there is not established track record as to how the overlapping provisions of the New York Convention and the Resolution will be interpreted and applied by the UAE courts in practice. There is also a risk that, notwithstanding the New York Convention, the Resolution or the terms of any other applicable multilateral or bilateral enforcement convention, the UAE courts may in practice consider

and apply the grounds for enforcement of domestic UAE arbitral awards set out in Federal Law No. 6 of 2018 (the "**UAE Arbitration Law**") to the enforcement of any non-UAE arbitral award. The UAE Arbitration Law and the Resolution are both new and it is unclear how they will be applied by the UAE courts in practice. Accordingly, there is a risk that a non-UAE arbitral award will be refused enforcement by the UAE courts.

Majid Al Futtaim Properties has agreed under the terms of the Purchase Undertaking to submit to the exclusive jurisdiction of the DIFC Courts in respect of any dispute, claim, difference or controversy arising out of or in connection with the Purchase Undertaking, subject to the right of the Trustee (or the Delegate on behalf of the Certificateholders) to elect to bring proceedings in any other court or courts of competent jurisdiction. Investors should note that there is a risk that the DIFC Courts may rule that the DIFC Courts are not the appropriate forum to resolve any dispute relating to Majid Al Futtaim Properties and, in particular, that any dispute relating to any real estate assets which comprise the Wakala Portfolio should be resolved by the courts where those assets are located. However, any dispute relating to a failure by Majid Al Futtaim Properties to purchase the relevant Portfolio Assets is likely to arise in the context of a challenge by Majid Al Futtaim Properties (or by any administrator, liquidator or receiver of Majid Al Futtaim Properties) of the validity of the Purchase Undertaking on the basis that the Trustee does not hold a valid interest in the relevant real estate-based Portfolio Assets purported to be purchased under the Purchase Undertaking. This argument is likely to be based on the failure to register with the Dubai Lands Department (or any equivalent department or authority which is responsible for such registration at the applicable time) the initial sale and transfer of those Portfolio Assets under the relevant Supplemental Purchase Contract or, as the case may be, the Additional Sale Agreement (or any other sale or transfer of the Portfolio Assets pursuant to any Transaction Document). If Majid Al Futtaim Properties (or any administrator, liquidator or receiver of Majid Al Futtaim Properties) disputes or challenges the rights, benefits and entitlements of the Trustee to any of the Portfolio Assets in this way, Majid Al Futtaim Properties has agreed in the Purchase Undertaking and the Master Trust Deed to indemnify the Trustee for the purpose of redemption in full (or in part, as the case may be) of the relevant Series in an amount equal to the relevant Exercise Price, and the Delegate (subject as set out above) would be able to bring proceedings in the DIFC Courts to enforce this obligation. See further "*Risk Factors – Factors which are Material for the Purpose of Assessing the Market Risks Associated with Certificates Issued under the Programme – Risks relating to the Portfolio Assets – Ownership and transfer of the Portfolio Assets*".

Any final and unappealable judgment, order or award made by the DIFC Courts in favour of the Delegate (on behalf of the relevant Certificateholders) must, upon application by the Delegate to the Dubai Court of Execution, be enforced against Majid Al Futtaim Properties by the Dubai Court of Execution without that court being able to reconsider the merits of the case.

There are limitations on the effectiveness of guarantees in the UAE

Under the laws of the UAE the obligation of a guarantor is incidental to the obligations of the principal debtor, and the obligations of a guarantor will only be valid to the extent of the continuing obligations of the principal debtor. The laws of the UAE do not contemplate a guarantee by way of indemnity of the obligations of the debtor by the guarantor and instead contemplate a guarantee by way of suretyship. Accordingly, it is not possible to state with any certainty whether a guarantor could be obliged by the Dubai courts to pay a greater sum than the debtor is obliged to pay or to perform an obligation that the debtor is not obligated to perform.

In order to enforce a guarantee under the laws of the UAE, the underlying obligation for which such guarantee has been granted may need to be proved before the Dubai courts.

Compliance with UAE bankruptcy law may affect each of Majid Al Futtaim Properties' and the Guarantor's ability to perform its obligations under the Transaction Documents to which it is a party

In the event of either Majid Al Futtaim Properties' or the Guarantor's insolvency, UAE bankruptcy law may adversely affect Majid Al Futtaim Properties' or the Guarantor's, as the case may be, ability to perform its obligations under the Transaction Documents to which it is a party and, in turn, affect the Trustee's ability to perform its obligations in respect of the Certificates. There is little precedent to predict how claims by or on behalf of the Certificateholders and/or the Delegate would be resolved, and therefore there can be no assurance that Certificateholders will receive payment of their claims in full or at all in these circumstances.

A court may not grant an order for specific performance

In the event that either Majid Al Futtaim Properties or the Guarantor fails to perform its obligations under any Transaction Document to which it is a party, the potential remedies available to the Trustee and the Delegate include: (a) obtaining an order for specific performance of Majid Al Futtaim Properties' and/or the Guarantor's obligations; or (b) a claim for damages.

There is no assurance that a court will provide an order for specific performance, as this is generally a matter for the discretion of the relevant court. The amount of damages which a court may award in respect of a breach will depend upon a number of possible factors, including an obligation on the Trustee and the Delegate to mitigate any loss arising as a result of such breach. No assurance is provided on the level of damages which a court may award in the event of a failure by either Majid Al Futtaim Properties or the Guarantor to perform its obligations set out in the Transaction Documents to which it is a party.

Shari'a requirements in relation to interest awarded by a court

In accordance with applicable *Shari'a* principles, each of the Trustee and the Delegate will waive all and any entitlement it may have to interest awarded in its favour by an arbitrator as a result of any arbitration and/or by a court in connection with any dispute under any of the Transaction Documents. Should there be any delay in the enforcement of a judgment or arbitral award given against Majid Al Futtaim Properties and/or the Guarantor, judgment interest may accrue in respect of that delay and, as a result of the waiver referred to above, Certificateholders will not be entitled to receive any part of such interest.

Risks Relating to the Certificates

The Certificates are limited recourse obligations

Certificates to be issued under the Programme are not debt obligations of the Trustee. Instead, the Certificates represent an undivided ownership interest solely in the relevant Trust Assets. Recourse to the Trustee in respect of each Series is limited to the Trust Assets of that Series and proceeds of such Trust Assets are the sole source of payments on the relevant Certificates. Upon the occurrence of a Dissolution Event, the sole rights of each of the Delegate and, through the Delegate, the Certificateholders of the relevant Series will be against Majid Al Futtaim Properties (failing which the Guarantor in accordance with the Guarantee) to perform their respective obligations under the Transaction Documents to which they are a party. Certificateholders will have no recourse to any assets of the Trustee, Majid Al Futtaim Properties or the Guarantor in respect of any shortfall in the expected amounts due under the relevant Trust Assets. Majid Al Futtaim Properties (failing which the Guarantor in accordance with the Guarantee) is obliged to make certain payments under the Transaction Documents to which it is a party directly to the Trustee, and the Delegate will have direct recourse against Majid Al Futtaim Properties (failing which the Guarantor in accordance with the Guarantee) to recover such payments due to the Trustee pursuant to the Transaction Documents to which it is a party. In the absence of default by the Delegate, investors have no direct recourse to Majid Al Futtaim Properties or the Guarantor and there is no assurance that the net proceeds of any enforcement action with respect to the Trust Assets (which, as described above, will be by way of enforcing each of Majid Al Futtaim Properties', the Guarantor's and the Trustee's respective obligations under the Transaction Documents to which they are a party) will be sufficient to make all payments due in respect of the relevant Certificates. After enforcing the rights in respect of the Trust Assets of a Series (in the manner described above) and distributing the net proceeds of such Trust Assets in accordance with Condition 4.2, the obligations of the Trustee in respect of the Certificates of the relevant Series shall be satisfied and neither the Delegate nor any Certificateholder may take any further steps against the Trustee to recover any further sums in respect of such Certificates and the right to receive any such sums unpaid shall be extinguished. Furthermore, under no circumstances shall the Trustee, the Delegate or any Certificateholder have any right to cause the sale or other disposition of any of the Trust Assets except pursuant to the Transaction Documents. The sole right of the Trustee, the Delegate and the Certificateholders against Majid Al Futtaim Properties and the Guarantor shall be to enforce the obligation of each of Majid Al Futtaim Properties and the Guarantor to perform its obligations under the Transaction Documents to which it is a party.

The Certificates may be subject to early redemption

In the event that the amount payable on the Certificates of any Series is required to be increased to include additional amounts in certain circumstances and/or Majid Al Futtaim Properties and/or the Guarantor is

required to pay additional amounts pursuant to certain Transaction Documents, in each case as a result of certain changes affecting taxation in the Cayman Islands or the UAE (as the case may be), or in each case any political sub-division or any authority thereof or therein having power to tax, the Trustee may redeem all but not some only of the Certificates upon giving notice in accordance with the Terms and Conditions of the relevant Certificates.

If so provided in the applicable Final Terms, a Series may be redeemed early at the option of the Trustee. Any such early redemption feature of any Certificate is likely to limit its market value. During any period when the Trustee may elect to redeem Certificates, the market value of those Certificates generally will not rise substantially above the dissolution amount payable. This also may be true prior to any redemption period. The Trustee may be expected to redeem Certificates when Majid Al Futtaim Properties' cost of financing is lower than the profit rate on the Certificates. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective profit rate as high as the profit rate on the Certificates being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider re-investment risk in light of other investments available at that time.

The use of proceeds of the Certificates may not meet investor expectations or requirements, including the expectations and requirements of environmentally focused investors

The use of proceeds of the Certificates subsequently received by Majid Al Futtaim Properties may not meet investor expectations or requirements. Majid Al Futtaim Properties will exercise its judgement and sole discretion in determining the businesses and projects that will be financed by the proceeds of the Certificates. If the use of the proceeds of the Certificates is a factor in an investor's decision to invest in the Certificates, they should consider the disclosure in "Use of Proceeds" in the applicable Final Terms prepared for each relevant Series of Certificates, including any green certificates, and consult with their legal or other advisers before making an investment in the Certificates. There can be no assurance that any of the businesses and projects funded with the proceeds from the Certificates will meet the Majid Al Futtaim Green Finance Framework or an investor's expectations or requirements. Furthermore, there is no contractual obligation to investors to allocate the proceeds of the Certificates to finance eligible businesses and projects or to provide annual progress reports as described in "Use of Proceeds" in the applicable Final Terms. Majid Al Futtaim Properties' failure to so allocate or report the failure of any of the businesses and projects funded with the proceeds from the Certificates to meet the Green Finance Framework will not constitute a Dissolution Event (as defined in the Terms and Conditions) with respect to the Certificates and may affect the value and/or the trading price of the Certificates and/or have adverse consequences for certain investors with portfolio mandates to invest in green assets.

Furthermore, it should be noted that there is currently no clearly-defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green" or "sustainable" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green" or "sustainable" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors (whether by the Trustee, Majid Al Futtaim Properties, the Guarantor, the Arrangers, the Dealers, the Delegate, the Agents or any other person) that any projects or uses the subject of, or related to, any of the businesses and projects funded with the proceeds from the Certificates will meet any or all investor expectations regarding such "green", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any of the businesses and projects funded with the proceeds from the Certificates.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by Majid Al Futtaim Properties) which may be made available in connection with the issue of the Certificates and in particular with any of the businesses and projects funded with the proceeds from the Certificates to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Trustee, Majid Al Futtaim Properties, the Guarantor, the Arrangers, the Dealers, the Delegate, the Agents or any other person to buy, sell or hold the Certificates. Any such opinion or certification is only current as at the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification

for the purpose of any investment in the Certificates. The providers of such opinions and certifications are not currently subject to any specific regulatory or other regime or oversight.

If the Certificates are at any time listed or admitted to trading on any dedicated "green", "environmental", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Trustee, Majid Al Futtaim Properties, the Guarantor, the Arrangers, the Dealers, the Delegate, the Agents or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own bylaws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any of the businesses and projects funded with the proceeds from the Certificates. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Trustee, Majid Al Futtaim Properties, the Guarantor, the Arrangers, the Dealers, the Delegate, the Agents or any other person that any such listing or admission to trading will be obtained in respect of the Certificates or, if obtained, that any such listing or admission to trading will be maintained during the life of the Certificates.

Certain benchmark rates, including LIBOR and EURIBOR, may be discontinued or reformed in the future – including the potential phasing-out of LIBOR after 2021

LIBOR, EURIBOR and other rates and indices which are deemed to be "benchmarks" are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Certificates linked to such a "benchmark".

The EU Benchmarks Regulation applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Similarly, it prohibits the use in the EEA by EEA supervised entities of benchmarks of administrators that are not authorised by ESMA or registered in the ESMA register (or, if non-EEA based, not deemed to be equivalent or recognized or endorsed). The UK Benchmarks Regulation, among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed to be equivalent or recognized or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Certificates linked to LIBOR, EURIBOR or another "benchmark" rate or index, in particular, if the methodology or other terms of the "benchmark" are changed in order to comply with the terms of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, (amongst other things) have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level, of the benchmark. In addition, the EU Benchmarks Regulation, and/or the UK Benchmarks Regulation stipulates that each administrator of a "benchmark" regulated thereunder must be licensed by the competent authority of the Member State where such administrator is located. There is a risk that administrators of certain "benchmarks" will fail to obtain a necessary licence, preventing them from continuing to provide such "benchmarks". Other administrators may cease to administer certain "benchmarks" because of the additional costs of compliance with the EU Benchmarks Regulation, and/or the UK Benchmarks Regulation and other applicable regulations, and the risks associated therewith.

As an example of such benchmark reforms, on 27 July 2017, the FCA announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the "**FCA Announcement**"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. In a further speech on 12 July 2018, the FCA announced that the LIBOR benchmark may cease to be a regulated benchmark under the EU Benchmarks Regulation and that market participants should not rely on the continued publication of LIBOR after the end of 2021. On 5 March 2021, the head of the FCA, which regulates the LIBOR administrator, announced that 35 LIBOR-setting will either cease to be provided by such administrator or will no longer be representative as of the end of 2021 and, for some USD LIBOR settings, as of 30 June 2023. It is not possible to predict whether,

and to what extent, panel banks will continue to provide LIBOR submissions to the administrator of LIBOR going forward. The potential elimination of the LIBOR benchmark or any other benchmark, or changes in the manner of administration of any benchmark could require or result in an adjustment to the profit provisions of the terms and conditions, or result in other consequences, in respect of any Certificates linked to such benchmark. In certain circumstances the ultimate fallback of profit for a particular Return Accumulation Period may result in the rate for the last preceding Return Accumulation Period being used. This may result in the effective application of a fixed rate for floating rate Certificates based on the rate which was last observed on the Relevant Screen Page or determined in accordance with the benchmark replacement provisions in the Conditions. Further, in certain circumstances, the Trustee may, in its discretion, determine the applicable rate for a given period. Any such consequences could have a material adverse effect on the value and return on any such Certificates.

More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the following effects on certain "benchmarks" (including LIBOR or EURIBOR): (a) discourage market participants from continuing to administer or contribute to the "benchmark"; (b) trigger changes in the rules or methodologies used in the "benchmark"; or (c) lead to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Certificates linked to or referencing the relevant benchmark.

The elimination of LIBOR or any other benchmark, or changes in the manner of administration of any benchmark, could require or result in an adjustment to the profit rate provisions of the Conditions (as further described in Condition 7.6).

The Conditions provide for certain fallback arrangements if a Benchmark Event occurs, including the possibility that the rate could be set by reference to a successor rate or an alternative reference rate and that such successor rate or alternative reference rate may be adjusted (if required) by an Adjustment Spread (in each case, without a requirement for the consent or approval of Certificateholders). Any such changes may result in the Certificates performing differently (which may include payment of a lower rate) than if the original benchmark continued to apply. In certain circumstances the ultimate fallback for a particular Return Accumulation Period may result in the rate for the last preceding Return Accumulation Period being used. The consent or approval of the Certificateholders shall not be required in connection with effecting a successor rate or an alternative reference rate (as applicable) and/or (in either case) an Adjustment Spread or any of the other changes set out in Condition 7.6.

This may result in the effective application of a fixed rate for floating rate Certificates based on the rate which was last observed on the Relevant Screen Page. In addition, due to the uncertainty concerning the availability of successor rates and alternative reference rates and the involvement of an Independent Adviser (as defined in the Conditions), the relevant fallback provisions may not operate as intended at the relevant time.

Any such consequences could have a material adverse effect on the value of and return on any such Certificates.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, reforms or possible cessation or reform of certain reference rates in making any investment decision with respect to any Certificates linked to or referencing a benchmark.

Additional risk factors

Investors must make their own determination as to Shari'a compliance

The Internal Sharia Supervisory Committee of Abu Dhabi Islamic Bank PJSC, the Internal Sharia Supervisory Committee of Dubai Islamic Bank PJSC, the Internal Shariah Supervision Committee of HSBC Bank Middle East Limited and the Global Shariah Supervisory Committee of Standard Chartered Bank have each confirmed that the Transaction Documents are, in their view, in compliance with the principles of *Shari'a*, as applicable to, and interpreted by, them. However, there can be no assurance that the Transaction Documents or any issue and trading of any Certificates will be deemed to be *Shari'a*-compliant

by any other *Shari'a* board or *Shari'a* scholars. None of the Trustee, Majid Al Futtaim Properties, the Guarantor, the Arrangers, the Dealers, the Delegate or the Agents makes any representation as to the *Shari'a* compliance of any Certificates and/or any trading thereof, the Transaction Documents or the above pronouncements and prospective investors are reminded that, as with any *Shari'a* views, differences in opinion are possible and different *Shari'a* standards may be applied by different *Shari'a* boards. In addition, none of the Arrangers, the Dealers, the Delegate or the Agents will have any responsibility for monitoring or ensuring compliance with any *Shari'a* principles of debt trading for the purposes of Condition 10.5 or Condition 10.6 nor shall it be liable to any Certificateholder or any other person in respect thereof. Prospective investors should not rely on the above pronouncements in deciding whether to make an investment in the Certificates and should obtain their own independent *Shari'a* advice as to the compliance of the Transaction Documents and whether the Certificates will meet their individual standards of compliance and the issue and trading of the Certificates with *Shari'a* principles, including the tradability of the Certificates on any secondary market. Questions as to the *Shari'a* compliance of the Transaction Documents or the *Shari'a* permissibility of the issue and the trading of the Certificates may limit the liquidity and adversely affect the market value of the Certificates.

In addition, prospective investors are reminded that the enforcement of any obligations of any of the parties under the Transaction Documents (other than the Master Purchase Agreement, any Supplemental Purchase Contract, the Title Nominee Agreement, any Additional Sale Agreement or Sale Agreement or Transfer Agreement entered into under the Trustee Sale and Purchase Undertaking and any Sale Agreement entered into under the Purchase Undertaking) would be, if in dispute, the subject of arbitration in London under the LCIA Arbitration Rules. Majid Al Futtaim Properties has also agreed under the Transaction Documents to which it is a party (other than the Master Purchase Agreement, any Supplemental Purchase Contract, the Title Nominee Agreement, any Additional Sale Agreement or Sale Agreement or Transfer Agreement entered into under the Trustee Sale and Purchase Undertaking and any Sale Agreement entered into under the Purchase Undertaking) to submit to the exclusive jurisdiction of the courts of England or the DIFC Courts, at the option of the Trustee or the Delegate. In such circumstances, the arbitrator or judge (as applicable) should apply the governing law of the relevant Transaction Document in determining the obligations of the parties.

Consents to variation of Transaction Documents and other matters

The Conditions of the Certificates contain provisions for calling meetings of Certificateholders to consider and vote upon matters affecting their interests generally, or to pass resolutions in writing or by way of electronic consents. These provisions permit defined majorities to bind all Certificateholders including Certificateholders who did not attend and vote at the relevant meeting or, as the case may be, did not sign the written resolution or give their consent electronically, and including those Certificateholders who voted in a manner contrary to the majority.

The Master Trust Deed contains provisions permitting the Delegate from time to time and at any time without any consent or sanction of the Certificateholders to make any modification to the Master Trust Deed if, in the opinion of the Delegate, such modification: (a) is of a formal, minor or technical nature; (b) is made to correct a manifest error; or (c) is not materially prejudicial to the interests of the relevant Certificateholders and is other than in respect of a Reserved Matter (as defined in the Master Trust Deed). Unless the Delegate otherwise agrees, any such modification shall as soon as practicable thereafter be notified to the relevant Certificateholders and shall in any event be binding upon the relevant Certificateholders.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to Majid Al Futtaim Properties, the Guarantor and/or the Certificates issued under the Programme. The ratings may not reflect the potential impact of all risks related to the transaction structure, the market, the additional factors discussed above, or any other factors that may affect the value of the Certificates. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the relevant rating agency at any time. There is no assurance that the rating will remain in effect for any given period of time or that the rating will not be lowered or withdrawn entirely if circumstances in the future so warrant.

In general, European regulated investors are restricted under the EU CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation (and such registration has not been

withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the EU CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by ESMA on its website in accordance with the EU CRA Regulation is not conclusive evidence of the status of the relevant rating agency being included in such list as there may be delays between certain supervisory measures being taken against a relevant rating agency and publication of an updated ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to: (i) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended; and (ii) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied.

If the status of the rating agency rating the Certificates changes for the purposes of the EU CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Certificates may have a different regulatory treatment, which may impact the value of the Certificates and their liquidity in the secondary market. Certain information with respect to the credit rating agencies and ratings will be disclosed in the applicable Final Terms. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by its assigning rating agency at any time.

Reliance on Euroclear and Clearstream, Luxembourg procedures

The Certificates of each Tranche will be represented on issue by a Global Certificate that will be deposited with a common depository for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in each Global Certificate, investors will not be entitled to receive Certificates in definitive form. Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the ownership interests in Global Certificates. While the Certificates of any Tranche are represented by a Global Certificate, investors will be able to trade their ownership interests only through Euroclear and Clearstream, Luxembourg and their respective participants.

While the Certificates of any Tranche are represented by a Global Certificate, the Trustee will discharge its payment obligation under the Certificates by making payments through the relevant clearing systems. A holder of an ownership interest in a Global Certificate must rely on the procedures of the relevant clearing system and its participants to receive payments under the relevant Certificates. The Trustee has no responsibility or liability for the records relating to, or payments made in respect of, ownership interests in any Global Certificate.

Holders of ownership interests in a Global Certificate will not have a direct right to vote in respect of the relevant Certificates. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade

In relation to any issue of Certificates which have a denomination consisting of the minimum Specified Denomination (as defined in the Conditions) plus a higher integral multiple of another smaller amount, it is possible that the Certificates may be traded in amounts in excess of such minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a Certificateholder who, as a result of trading such amounts, holds a face amount of less than the minimum Specified Denomination would need to purchase an additional amount of Certificates such that it holds an amount equal to at least the minimum Specified Denomination to be able to trade such Certificates.

Certificateholders should be aware that Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

If a Certificateholder holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time such Certificateholder may not receive a definitive Certificate in respect of such holding (should definitive Certificates be printed) and would need to purchase a face amount of Certificates such that its holding amounts to at least a Specified Denomination in order to be eligible to receive a definitive Certificate.

If definitive Certificates are issued, holders should be aware that definitive Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Absence of secondary market/limited liquidity

There is no assurance that a secondary market for the Certificates of any Series will develop or, if it does develop, that it will provide the Certificateholders with liquidity of investment or that it will continue for the life of those Certificates. Accordingly, a Certificateholder may not be able to find a buyer to buy its Certificates readily or at prices that will enable the Certificateholder to realise a desired yield. The market value of Certificates may fluctuate and a lack of liquidity, in particular, can have a material adverse effect on the market value of the Certificates. Accordingly, the purchase of Certificates is suitable only for investors who can bear the risks associated with a lack of liquidity in the relevant Certificates and the financial and other risks associated with an investment in the relevant Certificates. An investor in Certificates must be prepared to hold the relevant Certificates for an indefinite period of time or until their maturity. Applications have been made for the listing of certain Series to be issued under the Programme on Euronext Dublin and/or on Nasdaq Dubai but there can be no assurance that any such listing will occur or will enhance the liquidity of the Certificates of the relevant Series.

European Monetary Union may cause Certificates denominated in certain currencies to be redenominated in euro

If Certificates are issued under the Programme which are denominated in the currency of a country which, at the time of issue, has not adopted the euro as its sole currency and, before the relevant Certificates are redeemed, the euro becomes the sole currency of that country, a number of consequences may follow including, but not limited to: (a) all amounts payable in respect of the relevant Certificates may become payable in euro; (b) applicable law may allow or require such Certificates to be redenominated into euro and additional measures to be taken in respect of such Certificates; and (c) there may no longer be available published or displayed rates for deposits in such currency used to determine the rates of Periodic Distribution Amount on such Certificates. Any of these or any other consequences could adversely affect the holders of the relevant Certificates.

Exchange rate risks and exchange controls

The Trustee will make all payments on the Certificates and the Guarantor will make any payments under the Guarantee in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls which could adversely affect an applicable exchange rate. The Trustee does not have any control over the factors that generally affect these risks, such as economic, financial and political events and the supply and demand for applicable currencies. In recent years, exchange rates between certain currencies have been volatile and volatility between such currencies or with other currencies may be expected in the future. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease: (a) the Investor's Currency-equivalent yield on the Certificates; (b) the Investor's Currency equivalent value of the principal payable on the Certificates; and (c) the Investor's Currency equivalent market value of the Certificates.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate as well as the availability of a specified foreign currency at the time of any payment of any Periodic Distribution Amount or Dissolution Amount on a Certificate.

As a result, investors may receive less amounts under the Certificates than expected, or no such amounts. Even if there are no actual exchange controls, it is possible that the Specified Currency for any particular Certificate may not be available at such Certificate's maturity.

FORM OF THE CERTIFICATES

The Certificates of each Tranche will be in registered form. Certificates will be issued outside the United States to persons who are not U.S. persons in reliance on Regulation S under the Securities Act.

Each Tranche will initially be represented by a global certificate in registered form (a "**Global Certificate**"). Global Certificates will be deposited with a common depository for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking, S.A. ("**Clearstream, Luxembourg**") and will be registered in the name of a nominee for the common depository. Persons holding ownership interests in Global Certificates will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Certificates in fully registered form.

Payments of any amount in respect of each Global Certificate will, in the absence of any provision to the contrary, be made to the person shown on the relevant Register (as defined in the Conditions) as the registered holder of the relevant Global Certificate. None of the Trustee, the Delegate, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments made on account of ownership interests in the Global Certificates or for maintaining, supervising or reviewing any records relating to such ownership interests.

Payment of any amounts in respect of Certificates in definitive form will, in the absence of any provision to the contrary, be made to the persons shown on the relevant Register on the relevant Record Date (as defined in the Conditions) immediately preceding the due date for payment in the manner provided in the Conditions.

Interests in a Global Certificate will be exchangeable (free of charge), in whole but not in part, for definitive Certificates only upon the occurrence of an Exchange Event. The Trustee will promptly give notice to Certificateholders in accordance with Condition 17 if an Exchange Event occurs. For these purposes, "**Exchange Event**" means that: (a) a Dissolution Event (as defined in the Conditions) has occurred and is continuing; or (b) the Trustee has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system satisfactory to the Trustee is available. In the event of the occurrence of an Exchange Event, any of the Trustee or Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Global Certificate) may give notice to the Registrar requesting exchange.

In such circumstances, the relevant Global Certificate shall be exchanged in full for definitive Certificates and the Trustee will, at the cost of the Trustee (but against such indemnity as the Registrar or any relevant Transfer Agent may require in respect of any tax or other duty of whatever nature which may be levied or imposed in connection with such exchange), cause sufficient definitive Certificates to be executed and delivered to the Registrar within 15 days following the request for exchange for completion and dispatch to the relevant Certificateholders. A person having an interest in a Global Certificate must provide the Registrar with a written order containing instructions and such other information as the Trustee and the Registrar may require to complete, execute and deliver such definitive Certificates.

General

For so long as any of the Certificates is represented by a Global Certificate held on behalf of Euroclear and/or Clearstream, Luxembourg each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular face amount of such Certificates in which regard any certificate or other document issued by

Euroclear or Clearstream, Luxembourg as to the face amount of such Certificates standing to the account of any person shall be conclusive and binding for all purposes (save in the case of manifest error) shall be treated by the Trustee, the Delegate and their respective agents as the holder of such face amount of such Certificates for all purposes other than with respect to any payment on such face amount of such Certificates, for which purpose the registered holder of the relevant Global Certificate shall be treated by the Trustee, the Delegate and their respective agents as the holder of such face amount of such Certificates in accordance with and subject to the terms of the relevant Global Certificate and the expressions "**Certificateholder**" and "**holder of Certificates**" and related expressions shall be construed accordingly.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

TERMS AND CONDITIONS OF THE CERTIFICATES

The following is the text of the Terms and Conditions of the Certificates which (subject to modification and except for the text in italics) will be endorsed on each Certificate in definitive form issued under the Programme and will apply to each Global Certificate.

The applicable Final Terms in relation to any Series may specify other terms and conditions which complete the following Terms and Conditions for the purpose of such Series.

MAF Sukuk Ltd. (in its capacities as issuer and trustee, the "**Trustee**") has established a programme (the "**Programme**") for the issuance of up to U.S.\$3,000,000,000 in aggregate face amount of trust certificates. In these Terms and Conditions (the "**Conditions**"), references to "**Certificates**" shall be references to the trust certificates which are the subject of the "applicable Final Terms" and references to the applicable Final Terms are to Part A of the Final Terms (or the relevant provisions thereof) attached to or endorsed on this Certificate.

Each of the Certificates will represent an undivided ownership interest in the Trust Assets (as defined in Condition 4.1) which are held by the Trustee on trust (the "**Trust**") for, *inter alios*, the benefit of the registered holders of the Certificates pursuant to: (a) an amended and restated master trust deed (the "**Master Trust Deed**") dated 26 August 2021 and made between the Trustee, Majid Al Futtaim Properties LLC ("**Majid Al Futtaim Properties**"), Majid Al Futtaim Holding LLC (the "**Guarantor**") and Citibank, N.A., London Branch (the "**Delegate**" which expression shall include any co-Delegate or any successor); and (b) a supplemental trust deed (the "**Supplemental Trust Deed**" and, together with the Master Trust Deed, the "**Trust Deed**") having the details set out in the applicable Final Terms.

As used herein, "**Tranche**" means Certificates which are identical in all respects (including as to listing and admission to trading) and "**Series**" means a Tranche of Certificates together with any further Tranche or Tranches of Certificates which are: (i) expressed to be consolidated and form a single series; and (ii) identical in all respects (including as to listing and admission to trading) except for their respective Issue Dates and/or Issue Prices.

Payments relating to the Certificates will be made pursuant to an amended and restated agency agreement dated 26 August 2021 (the "**Agency Agreement**") made between the Trustee, the Delegate, Majid Al Futtaim Properties, the Guarantor, Citibank, N.A. in its capacities as principal paying agent (in such capacity, the "**Principal Paying Agent**", which expression shall include any successor and, together with any further or other paying agents appointed from time to time in accordance with the Agency Agreement, the "**Paying Agents**", which expression shall include any successors) and calculation agent (in such capacity, the "**Calculation Agent**", which expression shall include any successor) and Citigroup Global Markets Europe AG in its capacities as a registrar (in such capacity, the "**Registrar**", which expression shall include any successor) and Citibank, N.A., London Branch as transfer agent (in such capacity, the "**Transfer Agent**", which expression shall include any successors). The Paying Agents, the Calculation Agent and the Transfer Agent are together referred to in these Conditions as the "**Agents**".

Words and expressions defined in the Transaction Documents (as defined below) shall have the same meanings where used in these Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between any such document and the applicable Final Terms, the applicable Final Terms will prevail. In addition, in these Conditions:

- (1) any reference to face amount shall be deemed to include the relevant Dissolution Amount (as defined in Condition 8.1), any additional amounts (other than relating to Periodic Distribution Amounts (as defined in Condition 6.2)) which may be payable under Condition 11, and any other amount in the nature of face amounts payable pursuant to these Conditions;
- (2) any reference to Periodic Distribution Amounts shall be deemed to include any additional amounts in respect of profit distributions which may be payable under Condition 11 and any other amount in the nature of a profit distribution payable pursuant to these Conditions;

Each initial Certificateholder, by its acquisition and holding of its interest in a Certificate, shall be deemed to authorise and direct MAF Sukuk Ltd., on behalf of the Certificateholders: (i) to apply the sums paid by it in respect of its Certificates in accordance with the Purchase Agreement and the relevant Murabaha Contracts; and (ii) to enter into each Transaction Document to which it is a party, subject to the provisions of the Trust Deed and these Conditions.

1. **FORM, DENOMINATION AND TITLE**

1.1 **Form and denomination**

The Certificates are issued in registered form in the Specified Denominations and, in the case of Certificates in definitive form, are serially numbered.

For so long as any of the Certificates is represented by a Global Certificate held on behalf of Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking, S.A. ("**Clearstream, Luxembourg**"), each person (other than another clearing system) who is for the time being shown in the records of either such clearing system as the holder of a particular face amount of such Certificates (in which regard any certificate or other document issued by a clearing system as to the face amount of such Certificates standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Trustee, the Delegate, Majid Al Futtaim Properties, the Guarantor and the Agents as the holder of such face amount of such Certificates for all purposes other than with respect to payment in respect of such Certificates, for which purpose the registered holder of the Global Certificate shall be treated by the Trustee, the Delegate, Majid Al Futtaim Properties, the Guarantor and any Agent as the holder of such face amount of such Certificates in accordance with and subject to the terms of the relevant Global Certificate and the expressions "**Certificateholder**" and "**holder**" in relation to any Certificates and related expressions shall be construed accordingly.

In determining whether a particular person is entitled to a particular face amount of Certificates as aforesaid, the Delegate may rely on such evidence and/or information and/or certification as it shall, in its absolute discretion, think fit and, if it does so rely, such evidence and/or information and/or certification shall, in the absence of manifest error, be conclusive and binding on all concerned.

Each holder must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for its share of each payment made to the registered holder of the Global Certificate. References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

1.2 **Register**

The Registrar will maintain a register (the "**Register**") of Certificateholders in respect of the Certificates in accordance with the provisions of the Agency Agreement. In the case of Certificates in definitive form, a definitive Certificate will be issued to each Certificateholder in respect of its registered holding of Certificates.

1.3 **Title**

The Trustee, the Delegate, Majid Al Futtaim Properties, the Guarantor and the Agents may (to the fullest extent permitted by applicable laws) deem and treat the person in whose name any outstanding Certificate is for the time being registered (as set out in the Register) as the holder of such Certificate or of a particular face amount of the Certificates for all purposes (whether or not such Certificate or face amount shall be overdue and notwithstanding any notice of ownership thereof or of trust or other interest with regard thereto, and any notice of loss or theft or any writing thereon), and the Trustee, the Delegate, Majid Al Futtaim Properties, the Guarantor and the Agents shall not be affected by any notice to the contrary.

All payments made to such registered holder shall be valid and, to the extent of the sums so paid, effective to satisfy and discharge the liability for moneys payable in respect of such Certificate or face amount.

2. **TRANSFERS OF CERTIFICATES**

2.1 **Transfers of interests in the Global Certificate**

Transfers of interests in the Global Certificate will be effected by Euroclear or Clearstream, Luxembourg, as the case may be, and, in turn, by other participants and, if appropriate, indirect

participants in such clearing systems acting on behalf of transferors and transferees of such interests. An interest in the Global Certificate will, subject to compliance with all applicable legal and regulatory restrictions, be transferable for Certificates in definitive form only in the Specified Denomination or integral multiples thereof and only in accordance with the rules and operating procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be, and in accordance with the terms and conditions specified in the Trust Deed and the Agency Agreement.

2.2 **Transfers of Certificates in definitive form**

Upon the terms and subject to the conditions set forth in the Trust Deed and the Agency Agreement, a Certificate in definitive form may be transferred in whole or in part (in the Specified Denomination or an integral multiple thereof). In order to effect any such transfer: (a) the holder or holders must: (i) surrender the definitive Certificate for registration of the transfer thereof (or the relevant part thereof) at the specified office of any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing; and (ii) complete and deposit such other certifications as may be required by the relevant Transfer Agent; and (b) the relevant Transfer Agent must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request. Any such transfer will be subject to such regulations as MAF Sukuk Ltd., Majid Al Futtaim Properties, the Guarantor, the Delegate and the Registrar may from time to time prescribe (the initial such regulations being scheduled to the Master Trust Deed).

Subject as provided above, the relevant Transfer Agent will, within five business days (being for this purpose a day on which banks are open for business in the city where the specified office of the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), deliver at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail to such address as the transferee may request a new Certificate in definitive form of a like aggregate face amount to the Certificate (or the relevant part of the Certificate) transferred. In the case of the transfer of part only of a Certificate in definitive form, a new Certificate in definitive form in respect of the balance of the Certificate not transferred will be so delivered or (at the risk of the transferor) sent to the transferor.

No Certificateholder may require the transfer of a Certificate in definitive form to be registered during the period of 15 days ending on a Periodic Distribution Date, the Scheduled Dissolution Date, a Dissolution Date or any other date on which any payment of the face amount or payment of any profit in respect of a Certificate falls due.

2.3 **Costs of registration**

Certificateholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Trustee may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

3. **STATUS; GUARANTEE AND LIMITED RECOURSE**

3.1 **Status**

Each Certificate evidences an undivided ownership interest in the Trust Assets, subject to the terms of the Trust Deed and these Conditions, and is a direct, unsubordinated, unsecured and limited recourse obligation of the Trustee. Each Certificate ranks *pari passu*, without any preference or priority, with the other Certificates.

3.2 **Guarantee**

The Guarantor has in the Trust Deed unconditionally and irrevocably guaranteed in favour of the Trustee (the "**Guarantee**") the due and punctual payment of the Guaranteed Amounts. The proceeds received by or on behalf of the Trustee following a valid claim under the Guarantee shall be paid into the Transaction Account for distribution to the Certificateholders in accordance with these Conditions.

In these Conditions:

"Asset Portfolio" has the meaning given in the Service Agency Agreement;

"Asset Portfolio Revenue" means, in relation to a Series, all rental and other amounts payable by the relevant lessee or obligor under the relevant Portfolio Asset Contract, and all sale proceeds or consideration, damages, insurance proceeds, compensation or other sums, in each case as received by the Services Agent or Majid Al Futtain Properties in whatever currency in respect of or otherwise in connection with the relevant Portfolio Assets;

"Commodity Murabaha Investment" means, in relation to each Tranche of Certificates under a Series, the sale of certain *Shari'a*-compliant commodities (the **"Commodities"**) by the Seller to the Buyer for a Deferred Sale Price (which shall include the cost price of the Commodities as well as a profit mark-up), initially purchased and received by the Seller for the relevant Commodity Purchase Price, pursuant to the Master Murabaha Agreement and having the terms set out in the relevant Murabaha Contract;

"Deferred Sale Price" means, in relation to a Murabaha Contract, the amount specified as such in the relevant Letter of Offer and shall be the aggregate of: (a) the relevant Commodity Purchase Price specified in the applicable Final Terms; and (b) the relevant profit amount specified in the relevant Letter of Offer;

"Exercise Price" has the meaning given in the Trustee Sale and Purchase Undertaking or, as applicable, the Purchase Undertaking;

"Guaranteed Amounts" means the amounts guaranteed by the Guarantor, in respect of each Series, being: (a) the Asset Portfolio Revenues to be paid into the relevant Transaction Account by the Services Agent in accordance with the terms of the Service Agency Agreement; (b) any Deferred Sale Price to be paid into the relevant Transaction Account pursuant to the Master Murabaha Agreement and relevant Murabaha Contract; (c) any Total Loss Shortfall Amount; (d) any Exercise Price payable under the Purchase Undertaking and the Trustee Sale and Purchase Undertaking; and (e) any amount payable by Majid Al Futtain Properties under clause 2.3 of the Purchase Undertaking;

"Portfolio Asset Contract" means contracts and/or other agreements and/or documents evidencing or otherwise related to or associated with a Portfolio Asset forming part of a Wakala Portfolio;

"Portfolio Assets" means, in relation to a Series, the assets comprised in the relevant Asset Portfolio;

"Total Loss Shortfall Amount" has the meaning given in the Service Agency Agreement;

"Transaction Account" means, in relation to each Series, the non-interest bearing account in London in the Trustee's name held with the Principal Paying Agent and into which Majid Al Futtain Properties will deposit all amounts due to the Trustee under the Transaction Documents, details of which are specified in the applicable Final Terms; and

"Wakala Portfolio" has the meaning given in the Service Agency Agreement.

3.3 Limited recourse

The proceeds of the Trust Assets are the sole source of payments on the Certificates. Save as provided in the next sentence, the Certificates do not represent an interest in or obligation of any of the Trustee, Majid Al Futtain Properties, the Guarantor, the Delegate, the Agents, the Trustee Administrator or any of their respective affiliates. Accordingly, Certificateholders, by subscribing for or acquiring the Certificates, acknowledge that they will have no recourse to any assets of the Trustee (including, in particular, other assets comprised in other trusts, if any), Majid Al Futtain Properties (to the extent that it fulfils all of its obligations under the Transaction Documents to which it is a party) or the Guarantor (to the extent that it fulfils all of its obligations under the Guarantee), or the Delegate, or the Agents, or the Trustee Administrator, or any of their respective affiliates in respect of any shortfall in the expected amounts from the Trust Assets to the extent the

Trust Assets have been exhausted following which all obligations of the Trustee shall be extinguished.

Majid Al Futtaim Properties is obliged to make certain payments under the Transaction Documents directly to the Trustee (for and on behalf of the Certificateholders), and the Delegate will have direct recourse against Majid Al Futtaim Properties (failing which, against the Guarantor under the Guarantee) to recover such payments.

The net proceeds of realisation of, or enforcement with respect to, the Trust Assets may not be sufficient to make all payments due in respect of the Certificates. If, following the distribution of such proceeds, there remains a shortfall in payments due under the Certificates, subject to Condition 15, no holder of Certificates will have any claim against MAF Sukuk Ltd., Majid Al Futtaim Properties (to the extent that it fulfils all of its obligations under the Transaction Documents) or the Guarantor (to the extent that it fulfils all of its obligations under the Guarantee), or the Delegate, or the Agents, or the Trustee Administrator, or any of their respective affiliates or against any assets (other than the Trust Assets to the extent not exhausted) in respect of such shortfall and any unsatisfied claims of Certificateholders shall be extinguished. In particular, no holder of Certificates will be able to petition for, or join any other person in instituting proceedings for, the reorganisation, liquidation, winding-up or receivership of MAF Sukuk Ltd., Majid Al Futtaim Properties (to the extent that it fulfils all of its obligations under the Transaction Documents), the Guarantor (to the extent that it fulfils all of its obligations under the Guarantee), the Delegate, the Agents, the Trustee Administrator or any of their respective affiliates as a consequence of such shortfall or otherwise.

In these Conditions, "**Trustee Administrator**" means MaplesFS Limited as the administrator of the Trustee pursuant to a corporate services agreement dated 11 August 2021.

3.4 **Agreement of Certificateholders**

By purchasing Certificates, each Certificateholder is deemed to have agreed that notwithstanding anything to the contrary contained in these Conditions or any Transaction Document:

- (a) no payment of any amount whatsoever shall be made by or on behalf of MAF Sukuk Ltd. except to the extent funds are available therefor from the Trust Assets and further agrees that no recourse shall be had for the payment of any amount owing hereunder or under any Transaction Document to which it is a party, whether for the payment of any fee or other amount hereunder or any other obligation or claim arising out of or based upon any Transaction Document, against MAF Sukuk Ltd. to the extent the Trust Assets have been exhausted following which all obligations of MAF Sukuk Ltd. shall be extinguished;
- (b) prior to the date which is one year and one day after the date on which all amounts owing by MAF Sukuk Ltd. under the Transaction Documents have been paid in full, it will not institute against, or join with any other person in instituting against, MAF Sukuk Ltd. any bankruptcy, reorganisation, arrangement or liquidation proceedings or other proceedings under any bankruptcy or similar law; and
- (c) no recourse (whether by institution or enforcement of any legal proceedings or assessment or otherwise) in respect of any breaches of any duty, obligation or undertaking of MAF Sukuk Ltd. arising under or in connection with these Conditions by virtue of any customary law, statute or otherwise shall be had against any shareholder, officer, director or corporate administrator of MAF Sukuk Ltd. in their capacity as such and any and all personal liability of every such officer or director in their capacity as such for any breaches by MAF Sukuk Ltd. of any such duty, obligation or undertaking is hereby expressly waived and excluded to the extent permitted by law.

4. **THE TRUST**

4.1 **Trust Assets**

The "**Trust Assets**", in relation to each Series, shall comprise:

- (a) all of the Trustee's rights, title, interest and benefit, present and future, in, to and under the Wakala Portfolio (including all rights arising under or with respect to the relevant Asset Portfolio and Commodity Murabaha Investment);
- (b) all of the Trustee's rights, title, interest and benefit, present and future, in, to and under the Transaction Documents (other than: (i) in relation to any representations given to the Trustee by Majid Al Futtain Properties or the Guarantor pursuant to the Transaction Documents and any rights which have been expressly waived by the Trustee in any of the Transaction Documents; and (ii) the covenant given to the Trustee pursuant to clause 14.1 of the Master Trust Deed);
- (c) all moneys which may now be, or hereafter from time to time are, standing to the credit of the Transaction Account; and
- (d) all proceeds of the foregoing.

4.2 **Application of proceeds from the Trust Assets**

On each Periodic Distribution Date and on the Scheduled Dissolution Date or any earlier Dissolution Date, the monies standing to the credit of the Transaction Account shall be applied in the following order of priority:

- (a) *first*, to the Delegate in respect of all amounts owing to it under the Transaction Documents in its capacity as Delegate;
- (b) *second*, to the Principal Paying Agent for application in or towards payment *pari passu* and rateably of all Periodic Distribution Amounts due and unpaid;
- (c) *third*, only if such payment is made on the Scheduled Dissolution Date or a Dissolution Date, to the Principal Paying Agent for application in or towards payment *pari passu* and rateably of the relevant Dissolution Amount or the amount payable on a Total Loss Event, as the case may be; and
- (d) *fourth*, only if such payment is made on the Scheduled Dissolution Date or a Dissolution Date, to the Services Agent to retain as an Incentive Payment in accordance with the Service Agency Agreement.

5. **COVENANTS**

The Trustee covenants that, for so long as any Certificate is outstanding, it will not (without the prior written consent of the Delegate):

6. FIXED PERIODIC DISTRIBUTION PROVISIONS

6.1 Application

This Condition is applicable to the Certificates only if the Fixed Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable.

6.2 Periodic Distribution Amount

Subject to Condition 4.2 and Condition 8, the Principal Paying Agent shall distribute to holders *pro rata* to their respective holdings, out of amounts transferred to the Transaction Account, a distribution in relation to the Certificates on each Periodic Distribution Date equal to the Periodic Distribution Amount payable in respect of the Return Accumulation Period ending immediately before that Periodic Distribution Date.

In these Conditions:

"Periodic Distribution Amount" means, in relation to a Certificate and a Return Accumulation Period, the amount of profit distribution payable in respect of that Certificate for that Return Accumulation Period which amount may be a Fixed Amount, a Broken Amount or an amount otherwise calculated in accordance with this Condition 6 or Condition 7; and

"Return Accumulation Period" means the period from (and including) a Periodic Distribution Date (or the Return Accrual Commencement Date) to (but excluding) the next (or first) Periodic Distribution Date.

6.3 Determination of Periodic Distribution Amount

The Periodic Distribution Amount payable in respect of each Certificate in definitive form for any Return Accumulation Period shall be the Fixed Amount or, if so specified in the applicable Final Terms, the Broken Amount so specified.

Except in the case of Certificates in definitive form where a Fixed Amount or Broken Amount is specified in the applicable Final Terms, the Periodic Distribution Amount payable in respect of each Certificate shall be calculated by applying the rate or rates (expressed as a percentage per annum) specified in the applicable Final Terms or calculated or determined in accordance with the provisions of these Conditions and/or the applicable Final Terms (the "**Rate**") applicable to the relevant Return Accumulation Period to:

- (a) in the case of Certificates which are represented by a Global Certificate, the aggregate outstanding face amount of the Certificates represented by such Global Certificate; or
- (b) in the case of Certificates in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Certificate in definitive form is a multiple of the Calculation Amount, the amount of profit distribution payable in respect of such Certificate shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In these Conditions:

"Day Count Fraction" means, in respect of the calculation of Periodic Distribution Amount in accordance with this Condition:

- (a) if "**30/360**" is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Periodic Distribution Date (or, if none, the Return Accrual Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360; and
- (b) if "**Actual/Actual (ICMA)**" is specified in the applicable Final Terms:
 - (i) in the case of Certificates where the number of days in the relevant period from (and including) the most recent Periodic Distribution Date (or, if none, the Return Accrual Commencement Date) to (but excluding) the relevant payment date (the "**Accrual Period**") is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of: (1) the number of days in such Determination Period; and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (ii) in the case of Certificates where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of: (x) the number of days in such Determination Period; and (y) the number of Determination Dates that would occur in one calendar year; and
 - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of: (x) the number of days in such Determination Period; and (y) the number of Determination Dates that would occur in one calendar year; and

"Determination Period" means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Return Accrual Commencement Date or the final Periodic Distribution Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

"sub-unit" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

6.4 Cessation of profit entitlement

No further amounts will be payable on any Certificate from and including: (a) the Scheduled Dissolution Date or, as the case may be, the relevant Dissolution Date (excluding a Total Loss Dissolution Date), unless default is made in the payment of the relevant Dissolution Amount, in which case Periodic Distribution Amounts will continue to accrue in respect of the Certificates in the manner provided in this Condition 6.4 to the earlier of: (i) the Relevant Date; or (ii) the date on which a sale agreement is executed pursuant to the Trustee Sale and Purchase Undertaking or the Purchase Undertaking, as the case may be; and (b) the date on which a Total Loss Event occurs.

7. FLOATING PERIODIC DISTRIBUTION PROVISIONS

7.1 Application

This Condition is applicable to the Certificates only if the Floating Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable.

7.2 Periodic Distribution Amount

Subject to Condition 4.2 and Condition 8, the Principal Paying Agent shall distribute to holders *pro rata* to their respective holdings, out of amounts transferred to the Transaction Account, a distribution in relation to the Certificates on either:

- (a) the Specified Periodic Distribution Date(s) in each year specified in the applicable Final Terms; or
- (b) if no Specified Periodic Distribution Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Periodic Distribution Date, a "**Periodic Distribution Date**") which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Periodic Distribution Date or, in the case of the first Periodic Distribution Date, after the Return Accrual Commencement Date.

In relation to each Periodic Distribution Date, the distribution payable will be equal to the Periodic Distribution Amount payable in respect of the Return Accumulation Period ending immediately before that Periodic Distribution Date.

If a Business Day Convention is specified in the applicable Final Terms and: (i) if there is no numerically corresponding day in the calendar month in which a Periodic Distribution Date should occur; or (ii) if any Periodic Distribution Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 7.2(b), the Floating Rate Convention, such Periodic Distribution Date: (x) in the case of (i) above, shall be the last day that is a Business Day in the relevant month and the provisions of paragraph (2) shall apply *mutatis mutandis*; or (y) in the case of (ii) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event: (A) such Periodic Distribution Date shall be brought forward to the immediately preceding Business Day; and (B) each subsequent Periodic Distribution Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Periodic Distribution Date occurred; or
- (2) the Following Business Day Convention, such Periodic Distribution Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention, such Periodic Distribution Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Periodic Distribution Date shall be brought forward to the immediately preceding Business Day; or

- (4) the Preceding Business Day Convention, such Periodic Distribution Date shall be brought forward to the immediately preceding Business Day.

In these Conditions:

"Business Day" means a day which is both:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any Additional Business Centre specified in the applicable Final Terms; and
- (b) either: (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than London and any Additional Business Centre); or (ii) in relation to any sum payable in euro, a TARGET Settlement Day; and

"TARGET Settlement Day" means any day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the **"TARGET2 System"**) is open.

7.3 Screen Rate Determination

If Screen Rate Determination is specified in the applicable Final Terms as the manner in which the rate or rates (expressed as a percentage per annum) specified in the applicable Final Terms or calculated or determined in accordance with the provisions of these Conditions and/or the applicable Final Terms (the **"Rate"**) is to be determined, the Rate applicable to the Certificates for each Return Accumulation Period will be determined by the Calculation Agent on the following basis:

- (a) if the Reference Rate specified in the applicable Final Terms is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Periodic Distribution Determination Date;
- (b) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Periodic Distribution Determination Date;
- (c) if, in the case of Condition 7.3(a), such rate does not appear on that page or, in the case of Condition 7.3(b), fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (i) request each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Periodic Distribution Determination Date to prime banks in the London or Eurozone interbank market, as the case may be, in an amount that is representative for a single transaction in that market at that time; and
 - (ii) determine the arithmetic mean of such quotations; and
- (d) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates quoted by major banks in the principal financial centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the principal financial centre of the Specified Currency) on the first day of the relevant Return Accumulation Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Return Accumulation Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate for such Return Accumulation Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined, provided that, if the Calculation Agent is

unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Return Accumulation Period, the Rate applicable to the Certificates during such Return Accumulation Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Certificates in respect of a preceding Return Accumulation Period.

In these Conditions:

"Reference Banks" means the principal London office of each of four major banks engaged in the London or Eurozone interbank market selected by or on behalf of the Trustee, provided that once a Reference Bank has first been selected by or on behalf of the Trustee, such Reference Bank shall not be changed unless it ceases to be capable of acting as such; and

"Relevant Screen Page" means the page, section or other part of a particular information service specified as the Relevant Screen Page in the applicable Final Terms, or such other page, section or other part as may replace it on that information service or such other information service, in each case, as may be nominated by the person providing or sponsoring the information appearing there for the purpose of displaying rates or prices comparable to the Reference Rate.

7.4 Calculation of Periodic Distribution Amount

The Calculation Agent will, as soon as practicable after the time at which the Rate is to be determined in relation to each Return Accumulation Period, calculate the Periodic Distribution Amount payable in respect of each Certificate for such Return Accumulation Period. The Periodic Distribution Amount will be calculated by applying the Rate applicable to the relevant Return Accumulation Period to:

- (a) in the case of Certificates which are represented by a Global Certificate, the aggregate outstanding face amount of the Certificates represented by such Global Certificate; or
- (b) in the case of Certificates in definitive form, the Calculation Amount;

and, in each case, multiplying the product by the relevant Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). Where the Specified Denomination of a Certificate in definitive form is a multiple of the Calculation Amount, the Periodic Distribution Amount payable in respect of such Certificate shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In these Conditions:

"Day Count Fraction" means, in respect of the calculation of a Periodic Distribution Amount in accordance with this Condition:

- (a) if **"30/360"** **"360/360"** or **"Bond Basis"** is specified in the applicable Final Terms, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y₁" is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Return Accumulation Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"D₁" is the first calendar day, expressed as a number, of the Return Accumulation Period, unless such number is 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (b) if "30E/360" or "Eurobond Basis" is specified in the applicable Final Terms, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y₁" is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Return Accumulation Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"D₁" is the first calendar day, expressed as a number, of the Return Accumulation Period, unless such number would be 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless such number would be 31, in which case D₂ will be 30;

- (c) if "30E/360 (ISDA)" is specified in the applicable Final Terms, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y₁" is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Return Accumulation Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"D₁" is the first calendar day, expressed as a number, of the Return Accumulation Period, unless: (i) that day is the last day of February; or (ii) such number would be 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless: (i) that day is the last day of February but not the Scheduled Dissolution Date; or (ii) such number would be 31, in which case D₂ will be 30.

- (d) if "**Actual/360**" is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 360;
- (e) if "**Actual/365 (Fixed)**" is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 365;
- (f) if "**Actual/365 (Sterling)**" is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 365 or, in the case of a Periodic Distribution Date falling in a leap year, 366; and
- (g) if "**Actual/Actual (ISDA)**" or "**Actual/Actual**" is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 365 (or, if any portion of that Return Accumulation Period falls in a leap year, the sum of: (i) the actual number of days in that portion of the Return Accumulation Period falling in a leap year divided by 366; and (ii) the actual number of days in that portion of the Return Accumulation Period falling in a nonleap year divided by 365).

7.5 **Linear Interpolation**

Where Linear Interpolation is specified as applicable in respect of a Return Accumulation Period in the applicable Final Terms, the Periodic Distribution Amount for such Return Accumulation Period shall be calculated by the Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Return Accumulation Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Return Accumulation Period however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

"**Designated Maturity**" means the period of time designated in the Reference Rate.

7.6 **Benchmark replacement**

Notwithstanding any other provisions of this Condition 7, if the Trustee, Majid Al Futtaim Properties and the Guarantor determine that a Benchmark Event has occurred in relation to the relevant Reference Rate specified in the applicable Final Terms when any Rate applicable to the Certificates for any Return Accumulation Period remains to be determined by such Reference Rate, then the following provisions shall apply:

- (a) the Trustee, Majid Al Futtaim Properties and the Guarantor shall use their reasonable endeavours to appoint, as soon as reasonably practicable, an Independent Adviser to determine no later than five Business Days prior to the relevant Return Accumulation Period relating to the next succeeding Return Accumulation Period (the "**IA Determination Cut-Off Date**"), a Successor Rate or, alternatively, if there is no Successor Rate, an Alternative Reference Rate and, in either case, if applicable, an Adjustment Spread for the purposes of determining the Rate applicable to the Certificates;
- (b) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with the preceding provisions, such Successor Rate or, failing which, Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Return Accumulation Periods in respect of such Certificates (subject to the subsequent operation of, and to adjustment as provided in, this Condition 7.6);
- (c) the Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Reference Rate (as the case may be);

- (d) if any Successor Rate, Alternative Reference Rate and/or Adjustment Spread is determined in accordance with this Condition 7.6 and the Independent Adviser (following consultation with the Trustee, Majid Al Futtaim Properties and the Guarantor) determines: (i) that amendments to these Conditions (including, without limitation, amendments to the definitions of Day Count Fraction, Business Day, Business Day Convention, Periodic Distribution Determination Date or Relevant Screen Page) are necessary to ensure the proper operation of such Successor Rate, Alternative Reference Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**"); and (ii) the terms of the Benchmark Amendments, then, at the direction and expense of the Trustee, Majid Al Futtaim Properties and the Guarantor and subject to delivery of a notice in accordance with Condition 7.6(f), the Trustee, Majid Al Futtaim Properties, the Guarantor, the Delegate and the Agents shall, without a requirement for the consent or approval of Certificateholders, vary these Conditions, the Master Trust Deed and the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice, provided that neither the Delegate nor any Agent shall be required to effect any such Benchmark Amendments if the same would impose, in its opinion, more onerous obligations upon it or expose it to any liability against which it is not adequately indemnified and/or secured and/or prefunded to its satisfaction or impose any additional duties, responsibilities or liabilities or reduce or amend its rights and/or the protective provisions afforded to it. Prior to any such Benchmark Amendments taking effect:

- (1) the Trustee shall provide a certificate signed by a director or a duly authorised signatory of the Trustee to the Delegate and the Principal Paying Agent;
- (2) Majid Al Futtaim Properties shall provide a certificate signed by a duly authorised signatory of Majid Al Futtaim Properties to the Trustee, the Delegate and the Principal Paying Agent; and
- (3) the Guarantor shall provide a certificate signed by a duly authorised signatory of the Guarantor to the Trustee, Majid Al Futtaim Properties, the Delegate and the Principal Paying Agent,

certifying that such Benchmark Amendments are: (x) in the Trustee's, Majid Al Futtaim Properties' and the Guarantor's (as the case may be) reasonable opinion (following consultation with the Independent Adviser), necessary to give effect to any application of this Condition 7; and (y) in each case, have been drafted solely to such effect, and the Trustee, Majid Al Futtaim Properties, the Guarantor, the Delegate and the Principal Paying Agent (as the case may be) shall be entitled to rely on such certificates without further enquiry or liability to any person.

For the avoidance of doubt, neither the Delegate or the Agent shall be liable to the Certificateholders or any other person for so acting or relying on such notice, irrespective of whether any such modification is or may be prejudicial to the interests of any such Certificateholders or person;

- (e) the Trustee (failing whom, Majid Al Futtaim Properties and the Guarantor) shall promptly, following the determination of any Successor Rate or Alternative Reference Rate (as applicable) and the specific terms of any Benchmark Amendments, give notice to the Agents and, in accordance with Condition 17, the Certificateholders confirming: (i) that a Benchmark Event has occurred; (ii) the Successor Rate or Alternative Reference Rate (as applicable); (iii) any applicable Adjustment Spread; and (iv) the specific terms of the Benchmark Amendments (if any);
- (f) if, following the occurrence of a Benchmark Event and in relation to the determination of the Reference Rate on the immediately following Periodic Distribution Determination Date, no Successor Rate or Alternative Reference Rate (as applicable) is determined pursuant to the above provisions, then the Rate shall be determined as at the last preceding Periodic Distribution Determination Date or, if there has not been a first Periodic Distribution Date, the Reference Rate shall be determined as for the first Return Accumulation Period. For the avoidance of doubt, this Condition 7.6(f) shall apply to the relevant immediately following Return Accumulation Period only and any subsequent

Return Accumulation Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 7.6; and

- (g) the Independent Adviser appointed pursuant to this Condition 7.6 shall act and make all determinations pursuant to this Condition 7.6 in good faith and in a commercially reasonable manner and the Independent Adviser, shall act as an expert. In the absence of bad faith, wilful default or fraud, the Independent Adviser shall not have any liability whatsoever to the Certificateholders in connection with any determination made by it pursuant to this Condition 7.6.

In these Conditions, unless the context otherwise requires:

- (ii) (if no such recommendation has been made, or in the case of an Alternative Reference Rate) the Independent Adviser (following consultation with the Trustee, Majid Al Futtaim Properties and the Guarantor) determines is customarily applied to the relevant Successor Rate or the Alternative Reference Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the relevant Reference Rate;
- (iii) (if the Independent Adviser (following consultation with the Trustee, Majid Al Futtaim Properties and the Guarantor) determines that no such spread, formula or methodology is customarily applied) the Independent Adviser (following consultation with the Trustee, Majid Al Futtaim Properties and the Guarantor) determines is recognized or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the relevant Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as the case may be); or
- (iv) (if the Independent Adviser (following consultation with the Trustee, Majid Al Futtaim Properties and the Guarantor) determines that there is no such industry standard) the Independent Adviser (following consultation with the Trustee, Majid Al Futtaim Properties and the Guarantor) determines (acting in good faith and in a commercially reasonable manner) in its sole discretion to be appropriate;

"Alternative Reference Rate" means an alternative benchmark or screen rate which the Independent Adviser (following consultation with the Trustee, Majid Al Futtaim Properties and the Guarantor) determines, in accordance with this Condition 7.6, is customarily applied in international debt capital markets transactions for the purposes of determining interest rates in the same Specified Currency as the Certificates and of a comparable duration to the relevant Return Accumulation Period or, if the Independent Adviser determines that there is no such rate, such other rate as the Independent Adviser determines in its sole discretion is most comparable to the relevant Reference Rate;

"Benchmark Event" means:

- (a) the relevant Reference Rate ceasing to be published on the Relevant Screen Page as a result of such benchmark ceasing to be calculated or administered;
- (b) a public statement by the administrator of the relevant Reference Rate that it has ceased or that it will, by a specified future date (a **"Specified Future Date"**), cease publishing the relevant Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the relevant Reference Rate);

- (c) a public statement by the supervisor of the administrator of the relevant Reference Rate that the relevant Reference Rate has been or will, by a Specified Future Date, be permanently or indefinitely discontinued;
- (d) a public statement by the supervisor of the administrator of the relevant Reference Rate as a consequence of which the relevant Reference Rate will, by a Specified Future Date, be prohibited from being used either generally, or in respect of the Certificates;
- (e) a public statement by the supervisor of the administrator of the relevant Reference Rate that, in the view of such supervisor, such Reference Rate is no longer representative of an underlying market or the methodology to calculate such Reference Rate has materially changed; or
- (f) it has, or will by a specified date within the following six months, become unlawful for the Trustee, Majid Al Futtaim Properties and the Guarantor to calculate any payments due to be made to any Certificateholder using the relevant Reference Rate,

provided that, where the relevant Benchmark Event is a public statement within paragraph (b), paragraph (c) or paragraph (d) and the Specified Future Date in the public statement is more than six months after the date of that public statement, the Benchmark Event shall not be deemed to occur until the date falling six months prior to such Specified Future Date;

"Successor Rate" means the rate that the Independent Adviser (in consultation with the Trustee, Majid Al Futtaim Properties and the Guarantor) determines is a successor to or replacement of the relevant Reference Rate which is formally recommended by any Relevant Nominating Body.

7.7 **Cessation of profit entitlement**

No further amounts will be payable on any Certificate from and including: (a) the Scheduled Dissolution Date or, as the case may be, the relevant Dissolution Date (excluding a Total Loss Dissolution Date), unless default is made in the payment of the relevant Dissolution Amount, in which case Periodic Distribution Amounts will continue to accrue in respect of the Certificates in the manner provided in this Condition 7.7 to the earlier of: (i) the Relevant Date; or (ii) the date on which a sale agreement is executed pursuant to the Trustee Sale and Purchase Undertaking or the Purchase Undertaking, as the case may be; and (b) the date on which a Total Loss Event occurs.

7.8 **Publication**

If so requested in writing by the holders of at least one-fifth of the then aggregate face amount of the Certificates outstanding or if so directed by an Extraordinary Resolution (as defined in Condition 18.1) of the holders of the Certificates (each a "**Dissolution Request**"), the Delegate shall (subject in each case to being indemnified and/or secured and/or prefunded to its satisfaction) give notice of the Dissolution Request to the Trustee, Majid Al Futtain Properties, the Guarantor and all the holders of the Certificates in accordance with Condition 17 whereupon the Certificates shall be immediately redeemed at the Dissolution Amount specified in the applicable Final Terms, together with any accrued but unpaid Periodic Distribution Amounts on the date of such notice. 15. ENFORCEMENT AND EXERCISE OF RIGHTS

15.1 Enforcement

Upon the occurrence of a Dissolution Event and the giving of notice of a Dissolution Request to the Trustee by the Delegate, to the extent that the amounts payable in respect of the Certificates have not been paid in full pursuant to Condition 14, subject to Condition 15.2, the Delegate shall (subject to being indemnified and/or secured and/or prefunded to its satisfaction), take one or more of the following steps:

15.2 Delegate and Trustee not obliged to take action

Neither the Delegate nor the Trustee shall be bound in any circumstances to take any action to enforce or to realise the Trust Assets or take any action against (as applicable) the Trustee, Majid Al Futtaim Properties and/or the Guarantor under any Transaction Document unless directed or requested to do so: (a) by an Extraordinary Resolution; or (b) in writing by the holders of at least one-fifth of the then aggregate face amount of the Certificates outstanding and in either case then only if it shall be indemnified and/or secured and/or prefunded to its satisfaction against all liabilities to which it may thereby render itself liable or which it may incur by so doing, provided that neither the Delegate nor the Trustee shall be liable for the consequences of exercising its discretion or taking any such action and may do so without having regard to the effect of such action on individual Certificateholders.

15.3 Direct enforcement by Certificateholder

No Certificateholder shall be entitled to proceed directly against the Trustee, Majid Al Futtaim Properties or the Guarantor or provide instructions (not otherwise permitted by the Trust Deed) to the Delegate to proceed against the Trustee and/or the Guarantor and/or Majid Al Futtaim Properties under any Transaction Document unless: (a) the Delegate, having become bound to proceed pursuant to Condition 15.2, fails to do so within a reasonable period of becoming so bound, or is unable for any reason so to do, and such failure or inability is continuing; and (b) the relevant Certificateholder (or such Certificateholder together with the other Certificateholders who propose to proceed directly against any of the Trustee, Majid Al Futtaim Properties or the Guarantor as the case may be) holds at least one-fifth of the then aggregate face amount of the Certificates outstanding. Under no circumstances shall the Delegate or any Certificateholder have any right to cause the sale or other disposition of any of the Trust Assets (other than pursuant to the Transaction Documents) and the sole right of the Delegate and the Certificateholders against the Trustee, Majid Al Futtaim Properties and the Guarantor shall be to enforce their respective obligations under the Transaction Documents.

In particular, no holder of the Certificates shall be entitled in respect thereof to petition or to take any other steps for the winding-up of MAF Sukuk Ltd.

16. REPLACEMENT OF DEFINITIVE CERTIFICATES

Should any definitive Certificate be lost, stolen, mutilated, defaced or destroyed it may be replaced at the specified office of the Registrar (and if the Certificates are then admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent or Transfer Agent in any particular place, the Paying Agent or Transfer Agent having its specified office in the place required by such competent

authority, stock exchange and/or quotation system), subject to all applicable laws and competent authority, stock exchange and/or quotation system requirements, upon payment by the claimant of the expenses incurred in connection with the replacement and on such terms as to evidence and indemnity as the Trustee, Majid Al Futtain Properties, the Registrar, the Paying Agent or the Transfer Agent may require. Mutilated or defaced Certificates must be surrendered before replacements will be issued.

17. **NOTICES**

All notices to Certificateholders will be valid if:

- (a) published in a daily newspaper having general circulation in London (which is expected to be the Financial Times); or

The Trustee shall also ensure that notices are duly given or published in a manner which complies with the rules and regulations of any listing authority, stock exchange and/or quotation system (if any) by which the Certificates have then been admitted to listing, trading and/or quotation. Any notice shall be deemed to have been given on the day after being so mailed or on the date of publication or, if so published more than once or on different dates, on the date of the first publication.

Until such time as any definitive Certificates are issued, there may, so long as any Global Certificate representing the Certificates is held on behalf of one or more clearing systems, be substituted for such publication in such newspaper(s) the delivery of the relevant notice to the relevant clearing systems for communication by them to the Certificateholders and, in addition, for so long as any Certificates are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the Certificateholders on the day after the day on which the said notice was given to the relevant clearing systems.

Notices to be given by any Certificateholder shall be in writing and given by lodging the same with the Principal Paying Agent. Whilst any of the Certificates are represented by a Global Certificate held on behalf of one or more clearing systems, such notice may be given by any holder of a Certificate to the Principal Paying Agent through the clearing system in which its interest in the Certificates is held in such manner as the Principal Paying Agent and the relevant clearing system may approve for this purpose.

18. **MEETINGS OF CERTIFICATEHOLDERS MODIFICATION, WAIVER, AUTHORISATION AND DETERMINATION**

- 18.1 The Master Trust Deed contains provisions for convening meetings of Certificateholders to consider any matter affecting their interests, including the modification or abrogation by Extraordinary Resolution of any of these Conditions or the provisions of the Trust Deed. No such direction or request will affect a previous consent, waiver, authorisation or determination.
- 18.3 In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation or determination), the Delegate shall have regard to the general interests of the Certificateholders as a class (but shall not have regard to any interests arising from circumstances particular to individual Certificateholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Certificateholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof) and the Delegate shall not be entitled to require, nor shall any Certificateholder be entitled to claim from the Delegate or any other person, any indemnification or payment in respect of any tax consequence of any such exercise upon individual Certificateholders.
- 18.4 Any modification, abrogation, waiver, authorisation or determination shall be binding on all the Certificateholders and shall be notified to the Certificateholders as soon as practicable thereafter in accordance with Condition 17.

19. **INDEMNIFICATION AND LIABILITY OF THE DELEGATE AND THE TRUSTEE**

- 19.1 The Trust Deed contains provisions for the indemnification of each of the Delegate and the Trustee in certain circumstances and for its relief from responsibility, including provisions relieving it from taking action unless indemnified and/or secured and/or prefunded to its satisfaction as well as provisions entitling the Delegate to be paid its costs and expenses in priority to the claims of the Certificateholders.
- 19.2 Neither the Delegate nor the Trustee makes any representation and assumes no responsibility for the validity, sufficiency or enforceability of the obligations of either Majid Al Futtam Properties under the Transaction Documents or the Guarantor under the Guarantee and shall not under any circumstances have any liability or be obliged to account to the Certificateholders in respect of any payments which should have been made by either Majid Al Futtam Properties or the Guarantor but are not so made and shall not in any circumstances have any liability arising from or in relation to the Trust Assets other than as expressly provided in these Conditions or in the Trust Deed.
- 19.3 Each of the Trustee and the Delegate is exempted from: (a) any liability in respect of any loss or theft of the Trust Assets or any cash; (b) any obligation to insure the Trust Assets or any cash; and (c) any claim arising from the fact that the Trust Assets or any cash are held by or on behalf of the Trustee or on deposit or in an account with any depositary or clearing system or are registered in the name of the Trustee or its nominee, unless such loss or theft arises as a result of wilful default by the Trustee or the Delegate, as the case may be.
- 19.4 The Trust Deed also contains provisions pursuant to which the Delegate is entitled, *inter alia*: (a) to enter into business transactions with Majid Al Futtam Properties, the Guarantor and/or any of their respective Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to Majid Al Futtam Properties, the Guarantor and/or any of their respective Subsidiaries; (b) to exercise and enforce its rights, comply with its obligations and

perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Certificateholders; and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

20. **FURTHER ISSUES**

The Trustee shall be at liberty from time to time (including during a Return Accumulation Period) without the consent of the Certificateholders, to create and issue additional Certificates ("**Additional Certificates**") having terms and conditions the same as the Certificates or the same in all respects save for the amount and date of the first payment of Periodic Distribution Amounts thereon and so that the same shall be a consolidated and form a single Series with the Certificates.

- (b) pursuant to the Master Murabaha Agreement the Trustee and Majid Al Futtain Properties will enter into a Commodity Murabaha Investment in respect of a portion of the proceeds of the related issuance of Additional Certificates equal to the face amount of the Additional Certificates less the Value of the additional Portfolio Assets.

The purchase of the additional Portfolio Assets will become effective upon the Trustee and Majid Al Futtain Properties entering into an Additional Sale Agreement in accordance with the terms of the Trustee Sale and Purchase Undertaking. Pursuant to the terms of the Service Agency Agreement: (i) the additional Portfolio Assets shall: (1) be commingled with the Portfolio Assets of the relevant Series and collectively comprise the Asset Portfolio of such Series; and (2) for the purposes of the Transaction Documents constitute Portfolio Assets comprised in the relevant Asset Portfolio; and (ii) any Commodity Murabaha Investment entered into in respect of the Additional Certificates shall be commingled with the other Commodity Murabaha Investment(s) of the relevant Series and the relevant Asset Portfolio of the relevant Series and collectively comprise the Wakala Portfolio of that Series.

21. **CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999**

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of these Conditions, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

22. **GOVERNING LAW AND DISPUTE RESOLUTION**

22.1 The Trust Deed, the Certificates and these Conditions (including the remaining provisions of this Condition 22) and any non-contractual obligations arising out of or in connection with the Trust Deed, the Certificates and these Conditions are governed by, and shall be construed in accordance with, English law.

22.2 Subject to Condition 22.3, any dispute, claim, difference or controversy arising out of, relating to or having any connection with the Trust Deed, the Certificates and these Conditions (including any dispute as to their existence, validity, interpretation, performance, breach or termination of the Trust Deed, the Certificates and these Conditions or the consequences of the nullity of any of them or a dispute relating to any non-contractual obligations arising out of or in connection with them) (a "**Dispute**") shall be referred to and finally resolved by arbitration under the LCIA Arbitration Rules (the "**Rules**"), which Rules (as amended from time to time) are incorporated by reference into this Condition. For these purposes:

- (a) the seat of arbitration shall be London;
- (b) there shall be three arbitrators, each of whom shall be disinterested in the arbitration, shall have no connection with any party thereto and shall be an attorney experienced in international securities transactions. The parties to the Dispute shall each nominate one arbitrator and both arbitrators in turn shall appoint a further arbitrator who shall be the chairman of the tribunal. In cases where there are multiple claimants and/or multiple respondents, the class of claimants jointly, and the class of respondents jointly shall each nominate one arbitrator. If one party or both fails to nominate an arbitrator within the time limits specified by the Rules, such arbitrator(s) shall be appointed by the LCIA. If the party nominated arbitrators fail to nominate the third arbitrator within 15 days of the appointment of the second arbitrator, such arbitrator shall be appointed by the LCIA; and
- (c) the language of the arbitration shall be English.

22.3 Notwithstanding Condition 22.2, the Delegate (or, but only where permitted to take action in accordance with the terms of the Trust Deed, any Certificateholder) may, in the alternative, and at its sole discretion, by notice in writing to the Trustee:

- (a) within 28 days of service of a Request for Arbitration (as defined in the Rules); or
- (b) in the event no arbitration is commenced,

require that a Dispute be heard by a court of law. If such notice is given, the Dispute to which such notice refers shall be determined in accordance with Condition 22.4 and, subject as provided below, any arbitration commenced under Condition 22.2 in respect of that Dispute will be terminated. With the exception of the Delegate (whose costs will be borne by the Trustee, failing which Majid Al Futtaim Properties or the Guarantor), each of the parties to the terminated arbitration will bear its own costs in relation thereto.

If any notice to terminate is given after service of any Request for Arbitration in respect of any Dispute, the Trustee must promptly give notice to the LCIA Court and to any Tribunal (each as defined in the Rules) already appointed in relation to the Dispute that such Dispute will be settled by the courts. Upon receipt of such notice by the LCIA Court, the arbitration and any appointment of any arbitrator in relation to such Dispute will immediately terminate. Any such arbitrator will be deemed to be *functus officio*. The termination is without prejudice to:

- (c) the validity of any act done or order made by that arbitrator or by the court in support of that arbitration before his appointment is terminated;
- (d) his entitlement to be paid his proper fees and disbursements; and
- (e) the date when any claim or defence was raised for the purpose of applying any limitation bar or any similar rule or provision.

22.4 In the event that a notice pursuant to Condition 22.3 is issued, the following provisions shall apply:

- (a) subject to Condition 22.4(c), the courts of England shall have exclusive jurisdiction to settle any Dispute and each of the Trustee, Majid Al Futtaim Properties and the Guarantor submits to the exclusive jurisdiction of such courts;
- (b) each of the Trustee, Majid Al Futtaim Properties and the Guarantor agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary;
- (c) this Condition 22.4 is for the benefit of the Trustee, the Delegate and the Certificateholders only. As a result, and notwithstanding Condition 22.4(a), the Trustee, the Delegate and any Certificateholder (where permitted so to do) may take proceedings relating to a Dispute (Proceedings) in any other courts with jurisdiction. To the extent allowed by law, the Trustee, the Delegate and the Certificateholders may take concurrent Proceedings in any number of jurisdictions.

- 22.5 In the Trust Deed, each of the Guarantor, Majid Al Futtain Properties and the Trustee has appointed Maples and Calder at its registered office at 11th Floor, 200 Aldersgate Street, London, EC1A 4HD, United Kingdom as its agent for service of process. Each of the Trustee, the Guarantor and Majid Al Futtain Properties has undertaken that, in the event of Maples and Calder ceasing so to act or ceasing to be registered in England, it will appoint another person approved by the Delegate as its agent for service of process in England in respect of any Proceedings or Disputes. Nothing herein shall affect the right to serve proceedings in any matter permitted by law.
- 22.6 Under the Trust Deed, each of Majid Al Futtain Properties and the Guarantor has agreed that, to the extent that it may claim for itself or its assets or revenues immunity from jurisdiction, enforcement, prejudgment proceedings, injunctions and all other legal proceedings and relief and to the extent that such immunity (whether or not claimed) may be attributed to it or its assets or revenues, it will not claim and has irrevocably and unconditionally waived such immunity in relation to any Proceedings or Disputes. Further, each of Majid Al Futtain Properties and the Guarantor has irrevocably and unconditionally consented to the giving of any relief or the issue of any legal proceedings, including, without limitation, jurisdiction, enforcement, prejudgment proceedings and injunctions in connection with any Proceedings or Disputes.
- 22.7 Each of the Trustee, the Delegate, Majid Al Futtain Properties and the Guarantor has agreed in the Trust Deed that, if any arbitration is commenced in relation to a Dispute and/or any Proceedings are brought by or on behalf of a party under the Trust Deed, it will:
- (a) not claim interest under, or in connection with, such arbitration and/or Proceedings; and
 - (b) waive all and any entitlement it may have to interest awarded in its favour by any arbitrator as a result of such arbitration and/or by a court as a result of such Proceedings.
- 22.8 For the avoidance of doubt, nothing in Condition 22.7 shall be construed as a waiver of rights in respect of Periodic Distribution Amounts payable under the Certificates, the amount of any Asset Portfolio Revenues collected in accordance with the Service Agency Agreement, the amount of any Deferred Sale Price payable pursuant to the Master Murabaha Agreement and the relevant Murabaha Contract, any other amounts payable under the Transaction Documents, or profit of any kind howsoever described payable pursuant to the Transaction Documents and/or the Conditions, howsoever such amounts may be described or re-characterised by any court or arbitral tribunal.

USE OF PROCEEDS

The net proceeds of each Tranche issued will be paid: (a) by the Trustee (as Purchaser) to the Seller for the purchase from the Seller of all of its rights, title, interests, benefits and entitlements in, to and under the relevant Initial Asset Portfolio (in the case of the first Tranche of Certificates issued under a Series) or the relevant Additional Portfolio Assets (in the case of each subsequent Tranche of Certificates under a Series); and (b) if applicable, by the Trustee, acting on behalf of the Certificateholders, towards the purchase of the Commodities in connection with the relevant Commodity Murabaha Investment.

GROUP FINANCIAL REVIEW

The following review of the Group's financial position and results of operations is based upon and should be read in conjunction with the Group Financial Statements, which have been incorporated by reference into this Base Prospectus.

This discussion contains forward-looking statements that involve risks and uncertainties (see further "*Cautionary Statement Regarding Forward-Looking Statements*"). Actual results for the Group could differ materially from those indicated in any forward-looking statements as a result of various factors, including those discussed below and in "*Risk Factors*".

OVERVIEW

Based on the Group's own internal research, the Group is one of the largest developers and operators of shopping malls and hypermarkets in the MENA region. Founded in Dubai in 1992 to bring the first regional shopping mall to the Middle East, the Group's activities have since grown to include hotel development and the provision of synergistic leisure and entertainment products and services. As at 31 December 2020, the Group had operations in 16 countries predominantly in the MENA region.

Prior to 1 January 2021, the Group's operations were carried out by three complementary operating companies, Majid Al Futtaim Properties, Majid Al Futtaim Retail and Majid Al Futtaim Ventures, in each of which Majid Al Futtaim Holding held a 99 per cent. ownership interest. With effect from 1 January 2021, Majid Al Futtaim Ventures was restructured and its operations were segregated under two operational segments – Majid Al Futtaim LEC and Majid Al Futtaim Lifestyle. As at the date of this Base Prospectus, Majid Al Futtaim Ventures still operates as a separate legal entity within the Group while Majid Al Futtaim LEC and Majid Al Futtaim Lifestyle have not been established as separate legal entities. The Group is in the process of reflecting this segmental restructuring into its legal organisational structure and intends for Majid Al Futtaim Holding to ultimately hold a 99 per cent. ownership interest in Majid Al Futtaim LEC and Majid Al Futtaim Lifestyle, once incorporated as separate legal entities (with the remaining 1 per cent. ownership interest to be held by another wholly-owned Group entity).

Majid Al Futtaim Properties develops and manages shopping malls, which is the Group's core business. As at 31 December 2020, Majid Al Futtaim Properties owned and operated 27 shopping malls in Bahrain, Egypt, Lebanon, Oman and the UAE and had an additional three developments and one re-development or expansion project at various stages of planning, design or construction. The new projects, including new malls in Oman, Saudi Arabia and the UAE, represent an additional 583,000 square metres of gross leasable area ("**GLA**"). Majid Al Futtaim Properties also develops hotels adjacent to or in close proximity to shopping mall destinations and, on a selective basis, undertakes mixed-use developments, in each case where this adds value to its core mall development business. As at 31 December 2020, Majid Al Futtaim Properties owned 13 hotels, of which 11 were located in the UAE and two were located in Bahrain. Majid Al Futtaim Properties operates through its four business units: the Shopping Malls Business Unit ("**SMBU**"), the Shopping Malls Development Business Unit ("**SMDBU**"), the Hotels Business Unit and the Communities Business Unit. For the year ended 31 December 2020, Majid Al Futtaim Properties' revenue decreased by 24.4 per cent. to AED 3,489 million compared to AED 4,613 million for the year ended 31 December 2019 whereas its EBITDA decreased by 21.3 per cent. to AED 2,342 million compared to AED 2,974 million for the year ended 31 December 2019.

Majid Al Futtaim Retail first introduced the hypermarket model to the Middle East in 1995 through Majid Al Futtaim Hypermarkets, originally established as a joint venture company with Carrefour in which Majid Al Futtaim Retail had a 75 per cent. interest. Since June 2013, Majid Al Futtaim Hypermarkets has been a wholly-owned subsidiary of the Group, managed by Majid Al Futtaim Retail in which Majid Al Futtaim Retail has a 99.9 per cent. interest and Majid Al Futtaim Holding has a 0.1 per cent. interest. For further detail on the history of Majid Al Futtaim Hypermarkets, please see "*Description of the Group – Majid Al Futtaim Retail*". Carrefour stores are a key anchor tenant in each of the Group's shopping malls and the Group has also opened Carrefour stores outside its shopping malls. Majid Al Futtaim Retail has expanded the Carrefour concept across the UAE and into Armenia, Bahrain, Egypt, Georgia, Iraq, Jordan, Kenya, Kuwait, Lebanon, Oman, Pakistan, Qatar, Saudi Arabia, Uganda and Uzbekistan. As at 31 December 2020, Majid Al Futtaim Retail operated 126 Carrefour hypermarkets and 228 Carrefour supermarkets as well as an online store (principally selling light and heavy household goods and grocery for delivery within Armenia, Bahrain, Egypt, Georgia, Iraq, Jordan, Kenya, Kuwait, Lebanon, Oman, Pakistan, Qatar, Saudi Arabia, the UAE and Uganda). For the year ended 31 December 2020, Majid Al Futtaim Retail's revenue

decreased by 0.6 per cent. to AED 27,979 million compared to AED 28,137 million for the year ended 31 December 2019 whereas its EBITDA increased by 13.6 per cent. to AED 1,631 million compared to AED 1,436 million for the year ended 31 December 2019.

Prior to 1 January 2021, Majid Al Futtaim Ventures operated the Group's leisure and entertainment services, including a unique leisure offering in three of its super-regional shopping malls (for example Ski Dubai and Ski Egypt which are located in Mall of the Emirates (the Group's flagship mall) and Mall of Egypt). As at 31 December 2020, Majid Al Futtaim Ventures operated 33 Magic Planet entertainment centres located in all of the shopping malls owned by Majid Al Futtaim Properties and elsewhere and 53 cinemas located in 16 shopping malls owned by Majid Al Futtaim Properties and elsewhere. With effect from 1 January 2021, following the segmental restructuring of Majid Al Futtaim Ventures, the Group's leisure and entertainment operations were moved to Majid Al Futtaim LEC. Prior to 1 January 2021, Majid Al Futtaim Ventures also operated a fashion retail business operating as a licensee of a number of international brands via Majid Al Futtaim Fashion, offered Najm Visa credit cards via its Majid Al Futtaim Finance consumer finance business and had a small portfolio of other investments in the mobile payments and facilities management sectors. With effect from 1 January 2021, following the segmental restructuring of Majid Al Futtaim Ventures, the Group's fashion retail business and its portfolio of other investments were moved to Majid Al Futtaim Lifestyle. As at the date of this Base Prospectus: (a) the Group intends to restructure Majid Al Futtaim Fashion as a direct wholly-owned subsidiary of Majid Al Futtaim Holding and re-brand it as Majid Al Futtaim Lifestyle; and (b) Majid Al Futtaim Finance is held for sale since the Group intends to transfer the credit card portfolio to a third party, wind-down and exit the Majid Al Futtaim Finance business (see further Note 24 to the 2020 Group Financial Statements). For the year ended 31 December 2020, Majid Al Futtaim Ventures' revenue decreased by 48.9 per cent. to AED 1,427 million compared to AED 2,795 million for the year ended 31 December 2019 whereas its EBITDA decreased to negative AED 92 million compared to AED 416 million for the year ended 31 December 2019.

SIGNIFICANT ACCOUNTING POLICIES AND CRITICAL ACCOUNTING JUDGMENTS

The preparation of the Group Financial Statements requires management to make certain estimates and judgments, some of which are subjective and complex, often as a result of the need to make estimations of future events. The Group's significant accounting policies are set out in Note 6 to the 2020 Group Financial Statements and a summary of the critical accounting estimates and judgments that are made in preparing the consolidated financial statements is set out in Note 4 to the 2020 Group Financial Statements.

Impact of COVID-19

On March 11 2020, the World Health Organisation declared the novel coronavirus disease, COVID-19, a global pandemic and recommended containment and mitigation measures worldwide. The COVID-19 pandemic had a significant impact on economic and market conditions around the world during 2020 and continues to adversely impact economic activity. The Group's businesses were also impacted by COVID-19 and measures taken by governments and authorities to contain its spread (see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic*"). The Group has assessed the impact of COVID-19 on its businesses and how it is reflected in its consolidated financial position and performance, which involved significant judgements, estimates and assumptions that were subject to a lesser degree of certainty as compared to those made in 2019. See Note 3 to the 2020 Group Financial Statements in respect of the Group's assessment of the impact of COVID-19 on its business.

REPORTING SEGMENTS

As at and for the year ended 31 December 2020, the Group had the following financial reporting segments:

- **Retail:** which principally corresponds to Majid Al Futtaim Retail and its consolidated companies;
- **Ventures:** which principally corresponds to Majid Al Futtaim Ventures and its consolidated companies; and

- **Head Office:** which principally corresponds to the activities carried out in Majid Al Futtaim Holding.

Note 8.2 to the 2020 Group Financial Statements presents certain financial information for each segment. In revenue terms, Majid Al Futtaim Retail is the most significant segment, accounting for 85.9 per cent. of the Group's revenue in 2020. In terms of assets, Majid Al Futtaim Properties is the most significant segment, accounting for 68.2 per cent. of the Group's assets (prior to eliminations and adjustments) as at 31 December 2020.

With effect from 1 January 2021, Majid Al Futtaim Ventures was restructured and its operations were segregated under two operational segments – Majid Al Futtaim LEC and Majid Al Futtaim Lifestyle. With effect from the same date, a new reporting segment "Global Solutions" was included (with its principal activities including provision of finance, human capital, technology and procurement services across the Group). Unless otherwise stated, the following discussion is based upon the Group Financial Statements and, therefore, does not extend to the period after 31 December 2020. Accordingly, the following discussion refers to Majid Al Futtaim Ventures as the relevant operating segment in respect of the Group's leisure and entertainment services and does not include any references to Global Solutions.

RESULTS OF OPERATIONS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 AND THE FINANCIAL YEAR ENDED 31 DECEMBER 2019

Revenue

The Group's principal source of revenue is the sales that it makes in its Carrefour stores. In addition, the Group earns rental income (principally from the tenants in its shopping malls), fees and commissions (from a range of sources), leisure and entertainment revenue (from its leisure and entertainment facilities, including its cinemas, Magic Planet entertainment centres and Ski Dubai and Ski Egypt among others), hospitality revenue (from its hotels) and fashion goods revenue (from its fashion outlets owned by Majid Al Futtaim Ventures).

The table below shows a breakdown of the Group's revenue for the financial year ended 31 December 2020 and the financial year ended 31 December 2019, respectively.

	Year ended 31 December			
	2020		2019	
	(AED millions)	(%)	(AED millions)	(%)
Revenue from contracts with customers:				
Sale of goods.....	25,881	79.5	26,071	74.2
Service income and commissions.....	2,406	7.4	2,454	7.0
Leisure and entertainment.....	881	2.7	2,183	6.2
Hospitality revenue.....	236	0.7	614	1.7
Others.....	109	0.3	105	0.3
Other revenue:				
Rental income.....	2,837	8.7	3,418	9.7
Financial services revenue.....	225	0.7	311	0.9
Total revenue.....	32,575	100.0	35,156	100.0

The Group's total revenue decreased by AED 2,581 million, or 7.3 per cent., in 2020 (from AED 35,156 million in 2019 to AED 32,575 million in 2020). This decrease was principally attributable to asset closures during the year resulting in decline in rental income from shopping malls, revenue from leisure and entertainment and cinemas and hotels.

In geographical terms, in 2020, 47.6 per cent. of the Group's revenue was derived from the UAE, 10.4 per cent. was derived from Saudi Arabia, 9.9 per cent. was derived from Egypt, 8.3 per cent. was derived from Qatar, 4.9 per cent. was derived from Oman and the remaining 18.9 per cent. was derived from other countries.

A more detailed analysis of the Group's three principal sources of revenue is set out below. Together, these revenue streams comprised 95.6 per cent. and 90.9 per cent. of the Group's total revenue in 2020 and 2019, respectively.

Sale of goods

The Group's revenue from the sale of goods decreased by AED 190 million, or 0.7 per cent., in 2020 (from AED 26,071 million in 2019 to AED 25,881 million in 2020). This decrease was principally attributable to reduced operating hours, boycott of French products due to political tensions between France and the Middle East and depressed footfall across the region.

Rental income

The Group's rental income decreased by AED 581 million, or 17.0 per cent., in 2020 (from AED 3,418 million in 2019 to AED 2,837 million in 2020). This decrease was principally attributable to temporary closure of shopping malls during the government mandated lockdowns along with tenant rent relief packages covering the closure period. See "*Description of the Group – Majid Al Futtaim Properties – Shopping Malls Business Units (SMBU and SMDBU) – Lease arrangements*" for further details regarding the process for charging rent.

Service income and commissions

The Group earns service income and commissions from: (a) listing fees, which are fees paid by suppliers of new items in the Carrefour range; (b) fees paid by the producers of goods sold in the Group's Carrefour stores to display their goods on the prominent shelves at the end of aisles (known as gondola-ends); and (c) commissions paid to the Group in respect of sales where it acts as an agent in the transaction. Accordingly, the Group's service income and commissions is related to the number of its Carrefour stores.

The Group's fees and commissions decreased by AED 48 million, or 2.0 per cent., in 2020 (from AED 2,454 million in 2019 to AED 2,406 million in 2020). This decrease was principally attributable to lower sales volumes.

Cost of sales

The Group's cost of sales almost entirely consists of the cost of it acquiring the goods sold by its Carrefour stores. Cost of sales is presented net of any rebates which the Group is able to secure from its suppliers. The Group's cost of sales decreased by AED 799 million, or 3.4 per cent., in 2020 (from AED 23,658 million in 2019 to AED 22,859 million in 2020). The Group's sales margin was 29.8 per cent. in 2020 (compared to 32.7 per cent. in 2019).

Operating expenses

The table below shows the Group's operating expenses for the financial year ended 31 December 2020 and the financial year ended 31 December 2019, respectively.

Other general and administrative expenses	(311)	4.3	(308)	3.7
Total operating expenses	(7,220)	100.0	(8,218)	100.0

The Group's total operating expenses decreased by AED 998 million, or 12.1 per cent., in 2020 (from AED 8,218 million in 2019 to AED 7,220 million in 2020). This decrease was principally attributable to reduction in discretionary spending and temporary suspension of certain staff allowances and bonuses.

A more detailed analysis of the Group's two principal operating expenses is set out below. Together, these operating expenses comprised 72.7 per cent. and 69.9 per cent. of the Group's total operating expenses in 2020 and 2019, respectively.

Staff costs

The Group's staff costs (which exclude staff costs capitalised as part of projects under construction) decreased by AED 509 million, or 14.3 per cent., in 2020 (from AED 3,563 million in 2019 to AED 3,054 million in 2020), principally reflecting temporary suspension of certain allowances and bonuses during 2020. The number of employees decreased by 5.0 per cent. in 2020 (from 42,735 at the start of the year to 40,622 at the end of 2020).

Depreciation and amortisation

The Group's depreciation and amortisation charge increased by AED 12 million, or 0.6 per cent., in 2020 (from AED 2,181 million in 2019 to AED 2,193 million in 2020).

Finance costs – net

The table below shows the Group's net finance cost recognised in profit or loss for the financial year ended 31 December 2020 and the financial year ended 31 December 2019, respectively.

	Year ended 31 December

The Group's net finance cost charged to profit and loss decreased by AED 119 million, or 15.4 per cent., in 2020 (from AED 772 million in 2019 to AED 653 million in 2020). This decrease was principally attributable to a decline in interest rates.

Other income/(expenses) – net

The Group's other income and expenses comprise any net foreign exchange gain or loss, fixed assets or project costs written-off, development expenses written-off, development expenses written-off, any gain or loss on transfer of an investment in an associate to a related party or in a joint venture, any gain or loss on the disposal of non-current assets and other income. The Group's other income in 2020 was AED 42 million compared to other expenses of AED 106 million in 2019.

Impairment loss – net

The Group believes that its policy for taking impairments is conservative. The Group recognised a net impairment loss of AED 1,389 million in 2020, compared to AED 1,191 million in 2019, on non-financial assets. This net impairment loss on non-financial assets was primarily attributable to shopping malls under construction.

In addition, the Group also recognised a net impairment loss of AED 185 million in 2020, compared to AED 196 million in 2019, on financial assets. This net impairment loss on financial assets was primarily attributable to tenant receivables.

Share of profit in equity accounted investees – net

A list of the Group's material associates and joint ventures is set out in Notes 18.3.2 and 18.4.2, respectively, to the 2020 Group Financial Statements. Associates and joint ventures are accounted for using the equity method and, as a result, the Group's proportionate share of the profit or loss made by each associate or joint venture is included under this line item.

The table below shows the Group's share of the profit or loss of its associates and joint ventures for the financial year ended 31 December 2020 and the financial year ended 31 December 2019, respectively.

Share of profit accounted through profit or loss (joint ventures).....	18	13
Total	48	49

The Group's share of the net profit in associates and joint ventures decreased by AED 1 million, or 2.0 per cent., in 2020 (from AED 49 million in 2019 to AED 48 million in 2020).

Net valuation loss on land and buildings

Developed properties classified as property, plant and equipment in accordance with IAS 16 are revalued on each reporting date.

Any increase arising on the revaluation of developed properties is credited to the revaluation reserve in equity, except to the extent that it reverses a revaluation decrease for the same property previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged.

Any decrease in carrying amount arising on the revaluation of developed properties is charged to profit or loss except to the extent that it reverses a revaluation gain previously recognised in reserve in respect of the asset concerned, in which case it is debited to the revaluation reserve in equity.

Investment properties are properties held either to earn rental income, for capital appreciation or both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Following initial recognition at cost, investment property, principally comprising land with undetermined use, certain shopping malls and properties being construed for future use as investment property, is stated at fair value at each reporting date.

The net valuation change on land and buildings comprises the sum of: (a) any losses incurred on the revaluation of developed properties classified as property, plant and equipment; (b) any increases arising on the revaluation of developed properties classified as property, plant and equipment to the extent they reverse losses previously charged to profit and loss; and (c) the fair value gains or losses on investment property.

In 2020, the Group recorded AED 3,454 million fair value loss on the revaluation of certain property, plant and equipment and investment property. Of this, AED 500 million loss was recognised in the revaluation reserve within equity and AED 2,954 million valuation loss was recognised through profit or loss (principally comprising valuation loss of City Centre Mirdif, Mall of the Emirates, City Centre Deira, City Centre Beirut, City Centre Muscat and City Centre Sharjah). The fair value loss on revaluation of certain property, plant and equipment and investment property described above is primarily attributable to the negative impact on mall as well as hotel revenues from challenging market conditions and the relative strength of the U.S. dollar.

Loss before tax

Reflecting the above factors, the Group's loss before tax was AED 2,595 million in 2020, compared to AED 1,723 million in 2019.

Income tax expense – net

The Group is subject to tax on the income earned by it in certain jurisdictions in which it operates. The Group's operations in these jurisdictions gave rise to a net income tax expense of AED 114 million in 2020, compared to AED 200 million in 2019. In 2020, a deferred tax credit of AED 14 million was credited, compared to a deferred tax charge of AED 71 million in 2019.

Loss for the year

Reflecting the above factors, the Group's loss for the year was AED 2,709 million in 2020, compared to a loss of AED 1,923 million in 2019.

Other comprehensive income

In 2020, the Group's other comprehensive income decreased by AED 1,216 million, or 1,066.7 per cent. (from negative AED 114 million in 2019 to negative AED 1,330 million in 2020). This decrease was principally attributable to higher revaluation loss in equity and currency translation loss from Lebanon operations.

Total comprehensive income

Reflecting the Group's loss for the year and its other comprehensive income, the Group's total comprehensive income for the year was negative AED 4,039 million in 2020, compared to a total comprehensive income of negative AED 2,037 million in 2019.

Net valuation gain on land and buildings

For the six month period ended 30 June 2021, the Group recorded AED 284 million fair value gain on the revaluation of certain property, plant and equipment and investment property which was primarily attributable to external valuers adjusting their assumptions from 2020 pertaining to negative growth and vacancy to reflect that the downside of COVID-19 have been partially reversed/flattened out.

Profit/(loss) for the period

LIQUIDITY AND BORROWINGS

The Group's long-term financing needs are established based on five-year plans from each operating subsidiary. The Group targets available liquidity (defined as cash in hand and committed facilities available for drawing) sufficient to cover at least 18 months of financing requirements. As at 30 June 2021, the Group had undrawn facilities of AED 10,157 million as well as cash in hand and at bank of AED 1,155 million. This is sufficient to cover the Group's liquidity needs for a period of at least 18 months. In addition, as a matter of practice, the Group ensures it is flexible in its capital expenditure plans.

The table below summarises the Group's borrowings as at 30 June 2021, 31 December 2020 and 31 December 2019, respectively.

The majority of the Group's outstanding borrowings as at 30 June 2021 were denominated in non-AED currencies (see further "*Group Financial Review – Financial Risk Management – Market risk – Foreign currency risk*"). The Group's floating rate loans carried margins ranging from 1.0 per cent. to 1.35 per cent. per annum over the base lending rate, whilst its senior unsecured debt capital securities had returns ranging from 3.15 per cent. to 4.75 per cent. per annum. As at 30 June 2021, the Group did not have any secured loans (see Note 21.1 to the H1 2021 Group Financial Statements).

The Group's borrowings comprise long-term loans from commercial banks and overdraft facilities. The Group has to date incurred debt at three levels:

- project financing, typically through special purpose vehicles on a non-recourse or limited recourse to other Group companies basis;
- senior secured or unsecured debt where Majid Al Futtaim Properties or one of its subsidiaries is the borrower; and
- senior unsecured debt where Majid Al Futtaim Holding is the borrower and Majid Al Futtaim Properties guarantee is given.

Revaluation reserve

The revaluation reserve principally reflects changes in the fair value of land and buildings classified as property, plant and equipment as required by IAS 16.

Any increase in value arising on the revaluation of properties is credited to the revaluation reserve in equity, except to the extent that it reverses a revaluation decrease for the same property previously recognised in

profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged.

Any decrease in carrying amount arising on the revaluation of properties is charged to profit or loss except to the extent that it reverses a revaluation gain previously recognised in reserve in respect of the asset concerned, in which case it is debited to the revaluation reserve in equity.

Other reserves

Group companies maintain a statutory reserve as required by applicable law. Typically a percentage of profit of the relevant company is transferred to the statutory reserve each year until the reserve equals the limit prescribed by applicable law. Under UAE law, a company is required to set aside 10 per cent. of its net profit to maintain this statutory reserve until the reserve reaches half of the company's capital. In addition, the Group maintains fair value reserves in respect of hedging instruments as well as a currency translation reserve in respect of foreign currency differences arising from the translation of the financial statements of Group companies whose functional currency is other than the UAE dirham.

RELATED PARTY TRANSACTIONS

The Group's related party transactions are described in Note 18 to the H1 2021 Group Financial Statements and Note 28 to the 2020 Group Financial Statements and principally comprise transactions with other Group companies, Majid Al Futtaim Holding's parent company and its shareholders, companies under common control with Majid Al Futtaim Holding and key management personnel and/or their close family members.

OFF-BALANCE SHEET LIABILITIES

The Group has significant off-balance sheet liabilities (as described in Note 25 to the H1 2021 Group Financial Statements and Note 37 to the 2020 Group Financial Statements) in the form of capital commitments, letters of credit granted by banks in the normal course of business and guarantees given by Group companies. FINANCIAL RISK MANAGEMENT

Note 36 to the 2020 Group Financial Statements describes the principal financial risks faced by the Group and the principal procedures used by the Group to manage these risks. The principal financial risks faced by the Group are credit risk, liquidity risk and interest rate risk as further described below.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or a counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. The majority of the Group's income is by way of cash and advance receipts and is supported by a deposit equivalent to one month's advance rental. Credit evaluations are performed on all customers requiring credit over a certain amount and there is no concentration of credit risk. Cash is placed with a diversified portfolio of reputable banks and the risk of default is considered remote. As at 31 December 2020, the Group's management assessed the recoverability of its trade receivables and considers them to be recoverable. As at 31 December 2020, amounts due from related parties were considered by the Group's management to be fully recoverable. As at 31 December 2020, all non-current receivables were due within five years of 31 December 2020 and the fair values of trade and other receivables were approximately equal to the carrying value.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities when they become due without incurring unacceptable losses or risking damage to the Group's reputation. The Group manages liquidity risk through the use of bank overdrafts, bank loans and credit facilities (see "*Group Financial Review – Liquidity and Borrowings*").

Market risk

Market risk is the risk of changes in market prices, such as foreign exchange rates, interest rates and equity prices, which will affect the Group's income or the value of its holdings of financial instruments. The Group seeks to apply hedge accounting to manage volatility in its profit or loss in relation to its exposure to interest rate risk.

Foreign currency risk

The Group is exposed to foreign currency risk on its net investments in foreign subsidiaries and operations. The Group is also exposed to foreign currency risk on purchases denominated in foreign currencies.

The Group hedges the risk by obtaining foreign exchange forward contracts on all material foreign currency purchases. As at 31 December 2020, all of the forward exchange contracts had maturities of less than five years after 31 December 2020. Where necessary, foreign exchange contracts are rolled over at maturity.

Interest rate risk

Interest rate risk is managed within the framework of the Group's interest rate risk management policy. The Group adopts a policy of maintaining target duration on its liability portfolio of about half a year to three and a half years. This is achieved through cash and/or by using derivative financial instruments which are eligible for hedge accounting.

Capital management

The Group uses, amongst other metrics, the net debt to equity ratio to monitor its capital. See "*Presentation of Financial Information – Use of Alternative Performance Measures*" for a further description of this APM (including reconciliation to the Group Financial Statements) and "*Summary of Group Financial Information – EBITDA and Other Ratios*" for the Group's net debt to equity ratio as at 31 December 2020.

Majid Al Futtaim Finance, in which Majid Al Futtaim Ventures owned 99 per cent. of the share capital, was involved in credit card operations and was required by the UAE Central Bank to maintain its capital at a minimum of 15 per cent. of its total available funds. As at the date of this Base Prospectus, Majid Al Futtaim Finance is held for sale since the Group intends to transfer the credit card portfolio to a third party, wind-down and exit the Majid Al Futtaim Finance business (see further Note 24 to the 2020 Group Financial Statements).

The Group has various borrowing arrangements which require it to comply with net worth, interest cover and debt/equity ratios. The Group was in compliance with all such requirements as at 31 December 2020 and remains in compliance with all such requirements as at the date of this Base Prospectus.

DIVIDEND POLICY

Majid Al Futtaim Holding is the only company within the Group to have a set dividend policy, the conditions for which are as follows:

- (a) Majid Al Futtaim Holding intends to distribute approximately 10 per cent. of its annual consolidated net income to its shareholders (the "**distribution**"), which distribution shall be made no later than six months after the end of the financial year to which the distribution relates or at such other intervals as the Board may determine from time to time;
- (b) the terms of any distribution (including the final amount and timing of such distribution) will at all times remain at the sole and absolute discretion of the Board, who will be required to approve every distribution by separate resolution in advance of declaring such distribution. Final payment

of any declared distribution will be subject to the final approval by the company's shareholders; and

- (c) the Majid Al Futtaim Holding Board shall take into consideration a number of factors before declaring or making such distribution, including (without limitation):
 - (i) general economic and business conditions, Majid Al Futtaim Holding's and the Group's strategic plans, Majid Al Futtaim Holding's financial results and conditions, its cash requirements and the benefits of investing any future earnings in the development and growth of the Group's business;
 - (ii) any legal requirements and any contractual obligations or limitations, whether currently applicable or which may become relevant in the future, which affect, or may affect, the ability of Majid Al Futtaim Holding to approve or make such distribution;
 - (iii) the requirements of any future financing agreements to which Majid Al Futtaim Holding may be a party; and
 - (iv) any other factors which the Board may deem relevant in respect of the distribution in question.

Actual results for Majid Al Futtain Properties could differ materially from those indicated in any forward-looking statements as a result of various factors, including those discussed below and in "*Risk Factors*".

SIGNIFICANT ACCOUNTING POLICIES AND CRITICAL ACCOUNTING JUDGMENTS

Majid Al Futtain Properties' significant accounting policies are set out in Note 5 to the 2020 Majid Al Futtain Properties Financial Statements and a summary of the critical accounting estimates and judgments that are made in preparing the financial statements is set out in Note 4 to the 2020 Majid Al Futtain Properties Financial Statements.

Impact of COVID-19

On March 11 2020, the World Health Organisation declared the novel coronavirus disease, COVID-19, a global pandemic and recommended containment and mitigation measures worldwide. The COVID-19 pandemic had a significant impact on economic and market conditions around the world during 2020 and continues to adversely impact economic activity. Majid Al Futtain Properties' businesses were also impacted by COVID-19 and measures taken by governments and authorities to contain its spread (see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic*"). Majid Al Futtain Properties has assessed the impact of COVID-19 on its businesses and how it is reflected in its consolidated financial position and performance, which involved significant judgements, estimates and assumptions that were subject to a lesser degree of certainty as compared to those made in 2019. See Note 3 to the 2020 Majid Al Futtain Properties Financial Statements in respect of Majid Al Futtain Properties' assessment of the impact of COVID-19 on its business.

In geographical terms, in 2020, 72.8 per cent. of Majid Al Futtaim Properties' revenue was derived from the UAE, 11.9 per cent. was derived from Egypt, 8.6 per cent. was derived from Bahrain, 5.0 per cent. was derived from Oman and 1.7 per cent. was derived from Lebanon.

Rental income

Majid Al Futtaim Properties derives almost all of its rental income from renting units in its shopping malls and a very small proportion from renting offices in three office buildings (of which, one is partially occupied by Group companies).

Majid Al Futtaim Properties' rental income decreased by AED 639 million, or 19.9 per cent., in 2020 (from AED 3,215 million in 2019 to AED 2,576 million in 2020). This decrease was principally attributable to temporary closure of shopping malls during the government mandated lockdowns along with tenant rent relief packages covering the closure period.

Revenue from hospitality

Majid Al Futtaim Properties earns hotel revenue from the rooms, food and beverages and other services provided at its hotels. All hotel revenue is stated gross, with the fees paid to the hotel management companies and the costs incurred by Majid Al Futtaim Properties in providing services at its hotels being included in operating expenses.

Majid Al Futtaim Properties' hotel revenue decreased by AED 378 million, or 61.6 per cent., in 2020 (from AED 614 million in 2019 to AED 236 million in 2020). This decrease was principally attributable to temporary asset closures and impact of movement restrictions.

Revenue from leisure and entertainment

Leisure and entertainment revenue decreased by AED 115 million, or 55.6 per cent., in 2020 (from AED 207 million in 2019 to AED 92 million in 2020). This decrease was principally attributable to temporary asset closures and government imposed capacity restrictions.

This decrease was principally attributable to a reduction in discretionary spending and temporary suspension of certain staff allowances and bonuses.

Majid Al Futtaim Properties' principal operating expenses are depreciation and employee benefits, which together comprised 53.3 per cent. and 53.0 per cent. of its total operating expenses in 2020 and 2019, respectively. Each of these items is analysed in more detail below.

Depreciation

Majid Al Futtaim Properties' depreciation charge decreased by AED 53 million, or 11.2 per cent., in 2020 (from AED 472 million in 2019 to AED 419 million in 2020) principally attributable to the Hotels Business Units' furniture, fixtures and equipment that are now fully depreciated (particularly in the Kempinski Mall of Emirates and the Sheraton Mall of Emirates) and the re-categorisation of assets, with varying useful life, in Aloft City Centre Deira.

Employee benefits

Majid Al Futtaim Properties' employee benefits (which exclude staff costs capitalised as part of projects under construction) decreased by AED 227 million, or 36.0 per cent., in 2020 (from AED 631 million in 2019 to AED 404 million in 2020). This decrease was principally attributable to temporary suspension of certain allowances and bonuses during 2020.

Finance costs – net

The table below shows Majid Al Futtaim Properties' net finance cost recognised in profit or loss for the financial year ended 31 December 2020 and the financial year ended 31 December 2019, respectively.

	Year ended 31 December	
	2020	2019
	<i>(AED millions)</i>

Total finance costs	(348)	(416)
Total finance income	6	11
Finance costs – net	(342)	(405)

Majid Al Futtaim Properties' net finance cost charged to profit and loss decreased by AED 63 million, or 15.6 per cent., in 2020 (from AED 405 million in 2019 to AED 342 million in 2020). This decrease was principally attributable to the full settlement of a term loan obtained by a subsidiary in Lebanon during the year and a decrease in interest rates.

Share of results of equity accounted investees – net of tax

A list of Majid Al Futtaim Properties' material joint ventures is set out in Note 9.1.2 to the 2020 Majid Al Futtaim Properties Financial Statements. Associates and joint ventures are accounted for using the equity method, which means that Majid Al Futtaim Properties' proportionate share of the profit or loss made by each associate or joint venture is included under this line item.

The table below shows Majid Al Futtaim Properties' share of the profit or loss of its associates and joint ventures for the financial year ended 31 December 2020 and the financial year ended 31 December 2019, respectively.

	Year ended 31 December	
	2020	2019
	(AED millions)	
Share of results of equity-accounted investees – net of tax	18	13
Total.....	18	13

Majid Al Futtaim Properties' share of profit in associates and joint ventures increased by AED 5 million, or 38.5 per cent., in 2020 (from AED 13 million in 2019 to AED 18 million in 2020). This increase was principally attributable to the increase in sales of Waterfront City (see further "*Description of the Group – Majid Al Futtaim Properties – Communities Business Unit – Waterfront City, Beirut, Lebanon*").

Impairment charges

Majid Al Futtaim Properties recognised an impairment loss of AED 1,273 million in 2020, compared to AED 1,104 million in 2019, on non-financial assets. This impairment loss on non-financial assets was primarily attributable to shopping malls under construction.

In addition, the Group also recognised an impairment loss charge of AED 100 million in 2020, compared to AED 63 million in 2019, on financial assets. This impairment loss on financial assets was primarily attributable to specific provisions against major tenant groups and additional impairment loss on lease receivables due to additional overlays using revised macroeconomic factors in order to capture the current market conditions.

Other income/(expenses) – net

Majid Al Futtaim Properties' other income and expenses comprise project costs provided for or written-off once the Group determines not to proceed with a particular project, development expenses written-off that cannot be capitalised to a project per IFRS, service charges levied on related parties, any net foreign exchange gain or loss and other income. Majid Al Futtaim Properties' other income was AED 144 million in 2020, compared to an other expense of AED 8 million in 2019. This change was principally attributable to favourable impact of lesser project costs written-off (compared to previous year) and foreign exchange gain as a result of the full settlement of a bank loan in Lebanon using a favourable exchange rate.

Net valuation loss on land and buildings

Developed properties classified as property, plant and equipment in accordance with IAS 16 are revalued on each reporting date. Any increase arising on the revaluation of developed properties is credited to the revaluation reserve in equity, except to the extent that it reverses a revaluation decrease for the same property previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. A decrease in carrying amount arising from the revaluation of properties is charged to profit and loss, except to the extent that it reverses a previously recognised revaluation gain on the property in which case it is debited to revaluation reserve in equity.

Investment properties are properties held either to earn rental income, for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Following initial recognition at cost, investment property, principally comprising land with undetermined use, certain shopping malls and property being constructed for future use as investment property, is stated at fair value at the reporting date.

The net valuation change on land and buildings comprises the sum of: (a) any losses incurred on the revaluation of properties classified as property, plant and equipment; (b) any increases arising on the revaluation of properties classified as property, plant and equipment to the extent they reverse losses previously charged to the profit and loss; and (c) the fair value gains or losses on investment property.

In 2020, Majid Al Futtaim Properties recognised a net valuation loss of AED 482 million on property, plant and equipment. Of this, a valuation loss of AED 400 million (mainly for the Kempinski Mall of Emirates, the Sheraton Mall of Emirates, Hilton Garden Inn Mall of Emirates and Pullman City Centre Hotel and

Residences) was charged to other comprehensive income and a valuation loss of AED 82 million was charged to the profit and loss account. The valuation loss of AED 82 million was mainly on account of Aloft City Centre Deira and the Westin City Centre in Bahrain. A loss on valuation of investment property of AED 3,129 million was also charged to the profit and loss account in 2020. This valuation loss reflects fair value losses across a large number of properties (particularly in City Centre Mirdif, Mall of the Emirates, City Centre Deira, City Centre Bahrain, City Centre Ajman, City Centre Sharjah, shopping malls in Oman, City Centre Shindagha, City Centre Me'Aisem and My City Centre Masdar). Furthermore, City Centre Beirut recorded a loss as a result of currency devaluation. However, valuation gain was recorded in the malls in Egypt reflecting strong lease renewal performance and the success and ramp-up of City Centre Almaza.

Loss before tax

Reflecting the above factors, Majid Al Futtaim Properties' loss before tax was AED 2,819 million in 2020, compared to AED 2,078 million in 2019.

Income tax expense

Majid Al Futtaim Properties is subject to tax on the income earned by it in certain jurisdictions in which it operates. Majid Al Futtaim Properties' operations in these jurisdictions gave rise to an income tax charge of AED 20 million in 2020 and an income tax charge of AED 147 million in 2019. In 2020, Majid Al Futtaim Properties recognised a deferred tax charge of AED 5 million, compared to AED 98 million in 2019. Majid Al Futtaim Properties recognises deferred tax on the temporary differences arising between the tax base and asset base on fair valuation of properties in Egypt, Lebanon and Oman.

Net loss after tax

Reflecting the above factors, Majid Al Futtaim Properties' loss after tax was AED 2,839 million in 2020, compared to AED 2,225 million in 2019.

Other comprehensive income for the year – net of tax

In 2020, Majid Al Futtaim Properties' other comprehensive income was negative AED 1,113 million compared to other comprehensive income of AED 37 million in 2019. This change was principally attributable to the currency devaluation in Lebanon and loss on revaluation of property, plant and equipment.

Total comprehensive income for the year

Reflecting Majid Al Futtaim Properties' loss after tax for the year and its other comprehensive income, Majid Al Futtaim Properties' total comprehensive income for the year was negative AED 3,952 million in 2020, compared to a total comprehensive income of negative AED 2,188 million in 2019.

LAND AND BUILDINGS

Majid Al Futtaim Properties' land and buildings are categorised either as investment property or as property, plant and equipment. Investment properties are properties held either to earn rental income, for capital appreciation or both, but not for sale in the ordinary course of business, use in the production or supply of goods and services or for administrative purposes.

Certain of Majid Al Futtaim Properties' properties include a portion that is held to generate rental income or capital appreciation and another portion that is held for own use in the supply of services or for administrative purposes. These properties may be split between the two categories where applicable law provides that separate title could be granted to each portion.

The fair value of the investment properties and land and buildings included within property, plant and equipment is determined twice a year at the reporting date (i.e. 31 December and 30 June) by independent external RICS Chartered Surveyors and Valuers having sufficient current local and national knowledge of the respective property markets. The valuation has been prepared in accordance with the RICS Valuation Global Standards-2017 including the International Valuations Standards and the RICS Professional Standards (revised April 2015) (the Red Book). For the valuation of shopping malls the discounted cash flows ("DCF") approach is used to determine the present value of the estimated future net cash flows, generally for a period of 10 years, for each property adopting an asset specific discount rate. An exit yield that reflects the specific risks inherent in the asset is then applied to the final cash flow to arrive at the property valuation. The fair value derived using DCF for shopping malls is benchmarked against the net initial yield methodology. Properties Under Construction ("PUC") are measured at fair value once the valuer determines that a substantial part of the project's uncertainty has been eliminated, such that a reliable value can be determined. PUC are valued by estimating the fair value of the completed property using the income capitalisation approach and deducting the estimated costs to complete the construction. When the value is deemed not to be reliably determinable, the PUC is carried at cost of the land plus work in progress less impairment until the earlier of the date that construction is completed or the date at which fair value becomes reliably measurable. For valuation of hotels, the fair value is derived using DCF and is benchmarked against capital value per key and net initial yield. For valuation of offices, the fair value is derived by applying an asset specific capitalisation rate on the net operating income of the property benchmarked to market rates. Properties held for future development (land bank) are valued using comparable methodology, which involves analysing other relevant market transactions. Comparable methodology can involve a parcelisation approach where it is assumed a larger plot is sub-divided and sold in smaller lot sizes over a period of time.

The table below shows the value of Majid Al Futtaim Properties' land and buildings as at 31 December 2020 and 31 December 2019, respectively.

Share capital

As at 31 December 2020, Majid Al Futtaim Properties' share capital comprised 3,500,000 shares of AED 1,000 each, all of which are fully paid and owned by Majid Al Futtaim Holding.

Shareholder contribution

In 2009, Majid Al Futtaim Properties issued subordinated capital loan instruments of AED 2,500 million in five loan instruments of AED 500 million each. In 2010, an additional loan instrument of AED 250 million was issued by Majid Al Futtaim Properties. These instruments (collectively referred to as the "**hybrid instruments**") are fully subscribed to by Majid Al Futtaim Holding in accordance with the terms of a master capital loan agreement and a separate capital loan agreement for each loan, in each case, dated 5 October 2009. During 2020, the agreement with Majid Al Futtaim Holding was amended resulting in a change in the coupon payment rate to a fixed rate of 6.375 per cent. (compared to 8 per cent. as at 31 December 2019) per annum payable semi-annually in arrear. The hybrid instruments do not have a final maturity date. The coupon is non-cumulative in nature and can be deferred indefinitely at Majid Al Futtaim Properties' discretion without constituting a default. In case of Majid Al Futtaim Holding ceasing to hold control of Majid Al Futtaim Properties, the prevailing coupon rate on the hybrid instruments will be permanently increased by 5 per cent. and such coupons will become cumulative. Based on the terms of the hybrid instruments, these are accounted for as equity instruments. The hybrid instruments were subscribed to through a debt to equity swap transaction.

In 2012, Majid Al Futtaim Properties novated all of its rights and obligations under two bank facilities agreement, which cumulatively amounted to U.S.\$900 million of term loans, to Majid Al Futtaim Holding and converted external facilities to related party funding. However, Majid Al Futtaim Properties continues to use these facilities under an inter-company funding agreement signed with Majid Al Futtaim Holding. These derivative instruments, which were hedged by way of interest rate collar and interest rate swap, had a negative fair value of AED 188 million at the time of novation. Majid Al Futtaim Holding waived its contractual obligation of recovering the liability from Majid Al Futtaim Properties and accordingly this balance was classified within shareholder contribution.

Revaluation reserve

The revaluation reserve principally reflects changes in the fair value of Majid Al Futtaim Properties' land and buildings classified as property, plant and equipment as required by IAS 16. Any increase in value arising on each revaluation of such assets is credited to the revaluation reserve unless and to the extent it reverses a decrease in the value of the same asset previously recognised in profit and loss, in which case the increase in value is recognised in profit and loss instead. Any decrease in value arising on each revaluation of such assets is debited from the revaluation reserve to the extent that the revaluation reserve contains a credit balance in respect of the asset concerned. If and to the extent there is no such credit balance, the decrease is charged to profit and loss.

Other reserves

Majid Al Futtaim Properties and its subsidiaries maintain a statutory reserve as required by applicable law. Typically a percentage of profit of the relevant company is transferred to the statutory reserve each year until the reserve equals the limit prescribed by applicable law. In addition, Majid Al Futtaim Properties maintains a currency translation reserve in respect of foreign currency differences arising from the translation of the financial statements of Majid Al Futtaim Properties' group companies whose functional currency is not the dirham.

RELATED PARTY TRANSACTIONS

Majid Al Futtaim Properties' related party transactions are described in Note 31 to the 2020 Majid Al Futtaim Properties Financial Statements and principally comprise transactions with other Group companies and key management personnel and/or their close family members. The shareholder contributions described under "*Majid Al Futtaim Properties Financial Review – Shareholders' Equity – Shareholder contribution*", the guarantees given by and to Majid Al Futtaim Properties in respect of borrowings by it and other Group companies as referred to under "*Group Financial Review – Liquidity and Borrowings*" and the additional transactions described in Note 31 to the 2020 Majid Al Futtaim Properties Financial Statements comprise the principal related party transactions for the year ended 31 December 2020 and the year ended 31 December 2019.

With effect from 1 January 2021, Majid Al Futtaim Ventures was restructured and its operations were segregated under two operational segments – Majid Al Futtaim LEC and Majid Al Futtaim Lifestyle. As at the date of this Base Prospectus, Majid Al Futtaim Ventures still operates as a separate legal entity within the Group while Majid Al Futtaim LEC and Majid Al Futtaim Lifestyle have not been established as separate legal entities. The Group is in the process of reflecting this segmental restructuring into its legal organisational structure and intends for Majid Al Futtaim Holding to ultimately hold a 99 per cent. ownership interest in Majid Al Futtaim LEC and Majid Al Futtaim Lifestyle, once incorporated as separate legal entities (with the remaining 1 per cent. ownership interest to be held by another wholly-owned Group entity).

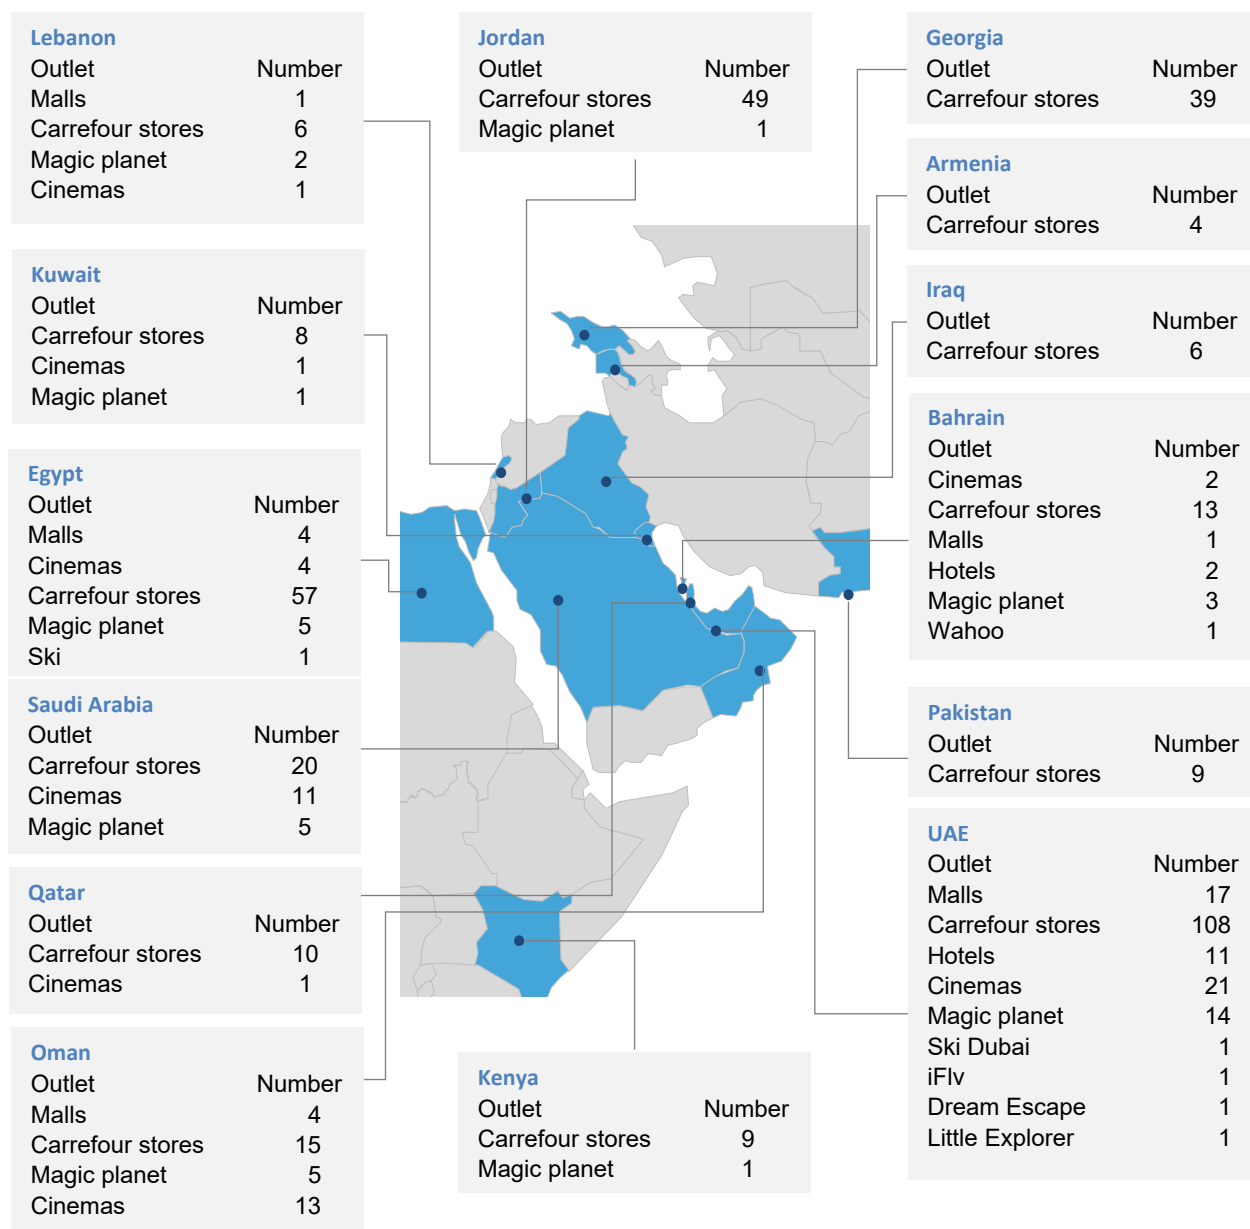

Majid Al Futtaim Properties develops and manages shopping malls, which is the Group's core business. As at 31 December 2020, Majid Al Futtaim Properties owned and operated 27 shopping malls in Bahrain, Egypt, Lebanon, Oman and the UAE and had an additional three developments and one re-development or expansion project at various stages of planning, design or construction. The new projects, including new malls in Oman, Saudi Arabia and the UAE, represent an additional GLA of 583,000 square metres. Majid Al Futtaim Properties also develops hotels adjacent to or in close proximity to shopping mall destinations and, on a selective basis, undertakes mixed-use developments, in each case where this adds value to its core mall development business. As at 31 December 2020, Majid Al Futtaim Properties owned 13 hotels, of which 11 were located in the UAE and two were located in Bahrain. Majid Al Futtaim Properties operates through its four business units: SMBU, SMDBU, the Hotels Business Unit and the Communities Business Unit. For the year ended 31 December 2020, Majid Al Futtaim Properties' revenue decreased by 24.4 per cent. to AED 3,489 million compared to AED 4,613 million for the year ended 31 December 2019 whereas its EBITDA decreased by 21.3 per cent. to AED 2,342 million compared to AED 2,974 million for the year ended 31 December 2019.

Majid Al Futtaim Retail first introduced the hypermarket model to the Middle East in 1995 through Majid Al Futtaim Hypermarkets, originally established as a joint venture company with Carrefour in which Majid Al Futtaim Retail had a 75 per cent. interest. Since June 2013, Majid Al Futtaim Hypermarkets has been a wholly-owned subsidiary of the Group, managed by Majid Al Futtaim Retail in which Majid Al Futtaim Retail has a 99.9 per cent. interest and Majid Al Futtaim Holding has a 0.1 per cent. interest. For further detail on the history of Majid Al Futtaim Hypermarkets, please see "*Description of the Group – Majid Al Futtaim Retail*". Carrefour stores are a key anchor tenant in each of the Group's shopping malls and the Group has also opened Carrefour stores outside its shopping malls. Majid Al Futtaim Retail has expanded the Carrefour concept across the UAE and into Armenia, Bahrain, Egypt, Georgia, Iraq, Jordan, Kenya, Kuwait, Lebanon, Oman, Pakistan, Qatar, Saudi Arabia, Uganda and Uzbekistan. As at 31 December 2020, Majid Al Futtaim Retail operated 126 Carrefour hypermarkets and 228 Carrefour supermarkets as well as an online store (principally selling light and heavy household goods and grocery for delivery within Armenia, Bahrain, Egypt, Georgia, Iraq, Jordan, Kenya, Kuwait, Lebanon, Oman, Pakistan, Qatar, Saudi Arabia, the UAE and Uganda). For the year ended 31 December 2020, Majid Al Futtaim Retail's revenue decreased by 0.6 per cent. to AED 27,979 million compared to AED 28,137 million for the year ended 31 December 2019 whereas its EBITDA increased by 13.6 per cent. to AED 1,631 million compared to AED 1,436 million for the year ended 31 December 2019.

Prior to 1 January 2021, Majid Al Futtaim Ventures operated the Group's leisure and entertainment services, including a unique leisure offering in three of its super-regional shopping malls (for example Ski Dubai and Ski Egypt which are located in Mall of the Emirates (the Group's flagship mall) and Mall of Egypt). As at 31 December 2020, Majid Al Futtaim Ventures operated 33 Magic Planet entertainment centres located in all of the shopping malls owned by Majid Al Futtaim Properties and elsewhere and 53 cinemas located in 16 shopping malls owned by Majid Al Futtaim Properties and elsewhere. With effect from 1 January 2021, following the segmental restructuring of Majid Al Futtaim Ventures, the Group's leisure and entertainment operations were moved to Majid Al Futtaim LEC. Prior to 1 January 2021, Majid Al Futtaim Ventures also operated a fashion retail business operating as a licensee of a number of international brands via Majid Al Futtaim Fashion, offered Najm Visa credit cards via its Majid Al Futtaim Finance consumer finance business and had a small portfolio of other investments in the mobile payments and facilities management sectors. With effect from 1 January 2021, following the segmental restructuring of Majid Al Futtaim Ventures, the Group's fashion retail business and its portfolio of other investments were moved to Majid Al Futtaim Lifestyle. As at the date of this Base Prospectus: (a) the Group intends to restructure Majid Al Futtaim Fashion as a direct wholly-owned subsidiary of Majid Al Futtaim Holding and re-brand it as Majid Al Futtaim Lifestyle; and (b) Majid Al Futtaim Finance is held for sale since the Group intends to transfer

the credit card portfolio to a third party, wind-down and exit the Majid Al Futtaim Finance business (see further Note 24 to the 2020 Group Financial Statements). For the year ended 31 December 2020, Majid Al Futtaim Ventures' revenue decreased by 48.9 per cent. to AED 1,427 million compared to AED 2,795 million for the year ended 31 December 2019 whereas its EBITDA decreased to negative AED 92 million compared to AED 416 million for the year ended 31 December 2019.

The following map sets out details of the Group's principal operations in each of the countries in which it operated as at 31 December 2020:

In addition to the above, the Group had one Carrefour store in each of Uganda and Uzbekistan as at 31 December 2020. In geographical terms, during the year ended 31 December 2020, 47.6 per cent. of the Group's revenue was derived from the UAE, 10.4 per cent. was derived from Saudi Arabia, 9.9 per cent. was derived from Egypt, 8.3 per cent. was derived from Qatar and the remaining 23.8 per cent. was derived from other countries predominantly in the MENA region.

HISTORY

Founded in 1992 in Dubai, the Group operated solely in Dubai until 1999. During that period, the joint venture with Carrefour was established, and the Group operated shopping malls, hypermarkets, hotels and cinemas. Between 1999 and 2001, the Group expanded across the UAE and into Oman. Between 2001 and 2003, the Group expanded into Egypt. Between 2003 and 2005, the Group expanded into Saudi Arabia. Between 2005 and 2008, the Group expanded into Kuwait, Bahrain, Jordan and Qatar and invested in a mixed-use development in Oman. Between 2008 and 2010, the Group expanded into Pakistan. The Group's geographic expansion has principally been driven by its retail business, with five Carrefour hypermarkets operating by the end of 2000, 18 by the end of 2005, 48 by the end of 2012, 108 by the end of 2018 and 126 by the end of 2020.

As at the date of this Base Prospectus, the franchise agreement between Majid Al Futtaim Hypermarkets and Carrefour covers over 30 countries in the Middle East, Africa and Asia regions.

STRENGTHS

Management believes that the Group's credit strength is bolstered by the following factors:

- **low volatility in operating income:** reflecting the fact that a significant majority of its revenue is derived from food retailing (which is relatively unaffected by economic cycles) and, to a lesser extent, from rental income from tenants in its shopping malls (which is also generally a stable source of income), the Group experiences low levels of volatility in its operating income (revenue minus cost of sales). The Group's operating income in each of 2020 and 2019 was AED 9,716 million and AED 11,498 million, respectively (for a description of this APM (including reconciliation to the Group Financial Statements), please see "*Presentation of Financial Information – Use of Alternative Performance Measures*");
- **leadership in markets where the Group competes:** the Group's principal market is the UAE and Dubai in particular (which is generally considered as a mature global leading retail and brand destination). The Group believes that it has a leading position as a shopping mall developer in Dubai as it owns three of the leading shopping malls currently operating in Dubai. The Group also believes that it has a leading position as a shopping mall developer in the MENA region as no other company operating in the region has a geographic spread of shopping malls to match the Group's and that its experience of operating in a wide range of markets within the MENA region will help the Group as it seeks to expand into new markets;
- **steady cash flows and balanced financial profile:** the Group benefits both from a sound asset base in Majid Al Futtaim Properties, which accounted for 68.2 per cent. and 71.7 per cent. of the Group's assets (prior to eliminations and adjustments) as at 31 December 2020 and 31 December 2019, respectively, and also from a stable source of operating cash flow from: (a) the retailing business carried on by Majid Al Futtaim Retail, which accounted for 85.9 per cent. and 80.0 per cent. of the Group's revenue in the years ended 31 December 2020 and 31 December 2019, respectively; and (b) its shopping malls and certain other properties. The Group believes that this combination of sound asset base and stable cash flow is a significant differentiator from other property development companies in the region;
- **complementary businesses:** the Group has a focused strategy aimed to ensure that it delivers outstanding shopping destinations, in significant part, through creating and exploiting a range of synergies in its businesses. For example, having Carrefour as an anchor tenant helps to drive significant footfall in the Group's shopping malls which makes the malls more attractive to prospective tenants. In addition, the Group's hotels and leisure businesses help to differentiate its shopping malls and provide additional attractions to shoppers, particularly tourist shoppers in Dubai and Bahrain. Management of Majid Al Futtaim Holding believes that these synergies were a major factor in insulating the Group against the worst effects of the financial impact of the COVID-19 pandemic during 2020;
- **strong corporate governance:** management of Majid Al Futtaim Holding believes that the Group has robust corporate governance procedures in place. In particular, the Group has voluntarily adopted the principles of the Combined Code on Corporate Governance for listed companies in the United Kingdom across all areas of its business and has established principles of corporate

governance and defined their application across each of the Group's operating companies. In addition, the Group has established strong operating company board structures reporting to the Board of Majid Al Futtain Holding, has segregated shareholdings in and management of the Group's operating companies and ensures that all applicable laws and regulations in the countries in which it operates are complied with. Although the Chief Executive Officer ("CEO") and Chairman of Majid Al Futtain Holding are in regular contact with Mr. Majid Al Futtain, the Majid Al Futtain family does not actively participate in the day-to-day operations of the Group;

- **presence in locations with strong business potential:** when considering a new shopping mall or standalone Carrefour store project, the Group conducts extensive due diligence and market research in order to identify the best sites. In particular, factors such as current and anticipated population, catchment areas, accessibility to the proposed shopping mall or store, potential rate of urbanisation and known or planned competing facilities are all considered and, in the case of additional shopping malls or stores in a single city, enhanced market research is conducted into relevant catchment areas to ensure that competition between the Group's facilities is minimised. The Group believes that it has been able to secure prime locations for many of its assets. In addition, particularly in Dubai (where it has seven shopping malls) and Bahrain, the Group is not solely reliant on the local population and benefits from significant tourist footfall in its shopping malls. In all of the countries in which the Group operates, it also benefits from factors such as the generally high temperatures which encourage indoor shopping and the fact that shopping malls are perceived as family-friendly places to socialise and engage in wider activities other than just shopping;
- **low leverage:** the Group's net debt to EBITDA ratios in each of 2020, 2019 and 2018 were 3.3, 2.7 and 2.7, respectively (for a description of this APM (including reconciliation to the Group Financial Statements), please see "*Presentation of Financial Information – Use of Alternative Performance Measures*");
- **operating in markets with long-term macroeconomic potential:** the Group's principal market is the UAE but other markets which are significant to the Group are Bahrain, Egypt, Oman, Qatar and Saudi Arabia. Historically, each of these markets has experienced significant increases in nominal GDP, population growth and growth in private consumption, enabling strong retail sales performance within Majid Al Futtain Retail; and
- **prudent financial management and track record:** the Group believes that it has implemented strong risk management policies, particularly as regards managing its liquidity and credit risks (see "*Group Financial Review – Financial Risk Management*"). The Group has experienced steady revenue and EBITDA growth. Although the Group's revenue decreased by 7.3 per cent. and its EBITDA decreased by 18.8 per cent. in 2020 (principally due to the impact of COVID-19 on the Group's operations, see further "*Risk Factors – Risks Relating to the Group – All of the Group's businesses have been adversely affected in 2020 by the COVID-19 pandemic*"), the Group's revenue increased by 1.4 per cent. in 2019 and 7 per cent. in 2018 whilst its EBITDA increased by 0.6 per cent. in 2019 and 9 per cent. in 2018. In addition, the Group follows a conservative investment capital expenditure policy, typically entering new markets with lower cost hypermarket developments before committing to capital intensive shopping mall developments, adhering to a defined and rigorous process for making investment decisions, seeking to pre-fund its capital expenditure, entering into joint ventures where appropriate and by retaining the flexibility to scale back its developments in adverse market conditions.

STRATEGY

The Group's long-term strategy is to become a regionally-focused lifestyle conglomerate with a stellar reputation. The Group intends to focus on core sectors and markets where it has existing market leadership or where it sees an opportunity to establish itself as a leader in an under-developed market and to continue to create and exploit the synergies between its different businesses. In particular, the Group intends to:

- **enhance and grow its shopping destination business:** the Group intends to continue to undertake shopping mall developments on a regional basis both within and outside the UAE in markets which it believes are currently under-developed and offer a combination of increasing consumer spending power, increasing openness to international markets and low levels of international competitiveness. The Group intends, over time, to continue to diversify away from Dubai, where

its revenues are currently concentrated. This strategy is in line with general regional trends. In addition, as a result of the general economic environment, assets are in the process of being repriced across the MENA region giving rise to many opportunities;

- **control and grow its retail businesses:** the Group expects to continue to develop its Carrefour hypermarket and supermarket business, both as anchor tenants for its new shopping mall developments and also on a standalone basis. In particular, the Group expects to continue to expand its portfolio of Carrefour supermarkets to meet customer preferences for more convenient food retail outlets and to exploit other synergies within its business (see "*Description of the Group – Majid Al Futtaim Retail – Development pipeline*");
- **strengthen its core capabilities to compete in the future:** the Group intends to strengthen certain aspects of its individual businesses to further support its retail-focused corporate strategy. One of the Group's core capabilities is its ability to identify retail potential in specific catchment areas within a city, which is critical to the decision regarding location of a new shopping mall, Carrefour store or other relevant asset. To this end, the Group continues to invest in proprietary research methods based on primary ground research and its accumulated experience gained in relation to the Carrefour stores and shopping malls which are already operational. In 2012, Carrefour developed a personalised loyalty programme in the UAE which allows Carrefour to capture data in relation to individual shoppers while, in 2019, the Group launched its first company-wide loyalty programme, SHARE, allowing customers to earn and spend reward points across the Majid Al Futtaim ecosystem. The Group continues to focus on end-to-end customer experience and aims to develop a seamless and integrated omnichannel offering, including through further enhancement of its digital capabilities. In 2017, the Group established its Advanced Analytics Centre to further strengthen its core capability in accumulation and integration of customer data which allows the Group to better serve the needs of its final consumers. The Group is therefore well-positioned to respond in an agile manner to shifting consumer behaviour. For instance, in 2020, the Group launched a number of new e-commerce channels which offer a virtual shopping experience to customers, with direct delivery to customers' homes. The Group also continues to invest further in the training of its employees (training is currently offered through the Majid Al Futtaim Leadership Institute), to ensure that its responsible leadership model and values pervade throughout the organisation; and
- **sustainable economic development:** the Group's sustainability strategy, "Dare Today, Change Tomorrow", brings together all of the Group's businesses under one overarching sustainability vision. The Group aims to provide for a positive future and is committed to an ambitious set of sustainability targets across three focus areas of "Transforming Lives", "Rethinking Resources" and "Empowering Our People". To support this strategy, the Group has implemented a suite of policies and procedures in line with global best practice. These policies and procedures are reviewed and updated on an annual basis and support the translation of the Group's sustainability strategy into achievable and measurable actions. These measures, and the Group's progress in meeting its targets, places it track to meet its 2022 Sustainable Business Commitments and meaningfully contribute towards 10 of the United Nations Sustainable Development Goals. In 2021, the Group joined more than 60 leading global organisations in agreeing to report on stakeholder capitalism metrics. These environmental, social and governance metrics and disclosures (released by the World Economic Forum and its International Business Council in September 2020) measure the long-term enterprise value creation for all stakeholders. In becoming a signatory, the Group joined a community of companies dedicated to supporting the effort to provide concise, consistent and comparable metrics and disclosures for the shared value creation of all stakeholders.

GREEN FINANCE FRAMEWORK

From time to time and pursuant to the Programme, the Trustee intends to issue securities ("**green certificates**") whose net proceeds would be used to fund or refinance, in whole or in part, a portfolio of eligible projects ("**Eligible Projects**") within eligible categories ("**Eligible Categories**") as set out in the Group's green finance framework (the "**Green Finance Framework**"). On an annual basis, the Group will publish an allocation report and an impact report in respect of its green Eligible Projects portfolio. For the avoidance of doubt, finance provided to any business or project that is not eligible under the criteria set out in the Green Finance Framework will not be considered as the use of proceeds of a green certificate issued under this framework.

The Group has broadly defined the Eligible Categories in accordance with the "Green Bond Principles" promulgated by the International Capital Market Association. Eligible Categories include:

- renewable energy;
- energy efficiency;
- sustainable water management; and
- green buildings.

Up to 100 per cent. of the proceeds of any green certificates issue may be applied to refinance existing Eligible Projects within the Eligible Categories listed above. Where any portion of the proceeds of a green certificate issue has not been applied to finance Eligible Projects within Eligible Categories, proceeds may be deployed according to the Group's funding requirements. The proceeds of any green certificate issue may be applied globally without geographical restriction.

The Group intends to publish the Green Finance Framework on its website. Further, the Group has appointed Sustainalytics to provide an external review of the Group's Green Finance Framework, which will also be published on the Group's website at the following address:

<https://majidalfuttaim.com/en/investor-relations/bond-and-credit-rating>.

For the avoidance of doubt, the information contained on the websites referred to in this paragraph is not incorporated by reference into, or otherwise included in, this Base Prospectus.

MAJID AL FUTTAIM PROPERTIES

Overview

Majid Al Futtai Properties' vision is to be recognised as the market leader in the development, ownership and management of shopping malls in the MENA region. Majid Al Futtai Properties' goal is to create long-term sustainable wealth for the Group through:

- the entrepreneurial development and management of a diversified portfolio of shopping centres; and
- the development of hotels and, on a selective basis, mixed-use projects where they add synergistic value to its shopping centres.

Majid Al Futtai Properties operates through three independent business units as follows:

- **Shopping malls:** with effect from 1 January 2020, the shopping malls business is managed by the SMBU (which is responsible for the management of shopping malls operations) and the newly constituted SMDBU (which is responsible for the delivery of future malls and retail development). As at 31 December 2020, the SMBU owned and operated 27 shopping malls with a GLA of approximately 1,507,506 square metres, including five neighbourhood community malls held in joint ventures. In 2020, the SMDBU completed one community mall (Matajer Al Musalla (5,459 square metres)) and two re-development projects (City Centre Deira (2,400 square metres food hall and 28,000 square metres related to re-merchandising works) and City Centre Alexandria (14,330 square metres)). Combined, the portfolio of malls attracted 140 million visitors in 2020. As at 31 December 2020, the SMDBU had an additional three developments and one re-development or expansion project at various stages of planning, design or construction. Along with new developments and expansions, Majid Al Futtai Properties also undertakes enhancement and upgrades of existing assets on a continuous basis. The new projects, including new malls in Oman, Saudi Arabia and the UAE, represent an additional 583,000 square metres of GLA. Strategy

Majid Al Futtaim Properties' strategy is to focus on the development and operation of shopping malls within the MENA region. This is done as its core business through developing different product types: (a) super-regional shopping malls (malls with in excess of 100,000 square metres of GLA); (b) regional shopping malls (malls with between 60,000 and 100,000 square metres of GLA); (c) community malls (malls with between 20,000 and 60,000 square metres of GLA); and (d) neighbourhood community malls (malls with less than 20,000 square metres of GLA). Majid Al Futtaim Properties expects to continue to build a network of malls covering differing catchment areas in selected cities in which it believes it can achieve a dominant position and/or capture unique market opportunities and aims to continue to develop hotels and undertake mixed-use projects preferably where there are clear synergistic benefits to the Group's core shopping mall business. In relation to its hotel developments, Majid Al Futtaim Properties' strategy is to outsource the day-to-day operational management of the hotels to specialist hotel management companies, such as Accor, Hilton, Kempinski and Marriott.

Majid Al Futtaim Properties intends to prioritise its future capital expenditures on existing and new markets, utilising existing land owned by it, new land acquisition where practicable and through joint ventures where it can secure development and asset management agreements. It also expects to realise value through the sale of non-strategic properties within its land bank and to provide development, management and other shopping centre related services to third parties where this generates knowledge or other benefits to its existing shopping malls and provided it can ensure that reputational and conflict risks are properly controlled. Wherever possible, Majid Al Futtaim Properties intends to add value to its non-strategic land, for example through planning approvals, prior to its sale.

Competitive advantages

Majid Al Futtaim Properties believes that its competitive advantages include:

- **established track record and reputation:** Majid Al Futtaim Properties' first mall, City Centre Deira, was opened in November 1995. As at 31 December 2020, Majid Al Futtaim Properties owned and operated 27 shopping malls in Bahrain, Egypt, Lebanon, Oman and the UAE (including five neighbourhood community malls held in joint ventures), including its flagship mall, the Mall of the Emirates in Dubai, which was opened in 2005 and had an annual footfall of approximately 28.2 million in 2020. As at 31 December 2020, the average occupancy rates of Majid Al Futtaim Properties' shopping mall portfolio was around 92 per cent. Majid Al Futtaim Properties believes that this track record, along with its established reputation, give it a significant competitive advantage in attracting consumers and customers (tenants) both to its existing and future shopping malls;
- **locations:** in the countries and markets in which it operates, Majid Al Futtaim Properties' operations are located in prime locations with established and growing catchment areas. The company focuses internal resources on constantly developing and improving the relevance of its shopping malls within its target markets;
- **in-house expertise:** Majid Al Futtaim Properties benefits from having integrated development, project management, asset management and mall management teams. Majid Al Futtaim Properties outsources on-site project management and construction activities to reputable firms and construction contractors with which it has established relationships;
- **alliances and partnerships:** through its alliance with Majid Al Futtaim Retail (i.e. the Carrefour franchisee) and its established relationships with a number of regional retail franchise groups, Majid Al Futtaim Properties is able to secure a strong tenant base for each of its shopping malls (see "*Risk Factors – Risks Relating to Majid Al Futtaim Properties – Majid Al Futtaim Properties' rental revenues depend upon its ability to find tenants for its shopping malls and offices and the ability of such tenants to fulfil their lease obligations as well as on Majid Al Futtaim Properties*").

achieving an optimal tenant mix for its shopping malls. In addition, Majid Al Futtaim Properties is exposed to tenant concentration"); and

- **unique leisure offers:** through its collaboration with Majid Al Futtaim LEC and Majid Al Futtaim Lifestyle, Majid Al Futtaim Properties' super-regional shopping malls are each able to provide a unique leisure offering to their customers. These offerings comprise Dreamscape (located in Mall of the Emirates (Dubai)), iFly (located in City Centre Mirdif (Dubai)), Little Explorers (located in City Centre Mirdif (Dubai)), Mall of Egypt (Cairo) and Riyadh Park (Saudi Arabia), Ski Dubai (located in Mall of the Emirates (Dubai)) and Ski Egypt (located in Mall of Egypt (Cairo)). These unique leisure offerings are owned by Majid Al Futtaim Properties, except Dreamscape (located in Mall of the Emirates (Dubai)) and Little Explorers (located in Riyadh Park (Saudi Arabia)), which are owned by Majid Al Futtaim Leisure and Entertainment. Majid Al Futtaim Properties' regional and community shopping malls benefit from other leisure and entertainment facilities such as cinemas and 'Family Entertainment Centres' ("FECs"), in each case where appropriate to the shopping mall concerned.

Project development model

Majid Al Futtaim Properties has three asset creation functions, namely business development, project development and project management, which are responsible for conceptualising, sourcing, developing and delivering projects for each of the four business units (the SMBU, the SMDBU, the Hotels Business Unit and the Communities Business Unit). The business development function pursues project opportunities and assesses their feasibility prior to acquisition. The project development function is responsible for producing business plans, detailed master plans and concept designs for each project. The project management function manages project construction with the goal of delivering projects on time, in scope and within budget.

All development projects undertaken by Majid Al Futtaim Properties follow a rigorous standard operating process designed to ensure consistent oversight and that all development projects are executed in line with overall Group strategy, represent economically sound investments which add shareholder value and are able to be funded. Majid Al Futtaim Properties' project development model is a nine-stage process which is followed for all asset classes. The expertise of Majid Al Futtaim Properties' business development and project development functions is utilised at each step of the process. The nine-stage process is set out in more detail below.

Stage 1: Sourcing, due diligence and land acquisition

The first of the nine stages principally involves potential site identification and the preparation and approval of a due diligence scope and budget for each potential development site. Target markets and geographies are identified within Majid Al Futtaim Properties' strategic priorities which are approved by senior management in line with Majid Al Futtaim Properties' strategic plan.

Stage 2: Land purchase and outline master plan

During this stage, a high level feasibility study is undertaken. This seeks to identify the potential options for the project and key success criteria. Additional due diligence is undertaken, including background market research by internal and external research providers (including current and projected population and household numbers in the catchment area, any current and potential future competitors, potential tenant interest and any environmental or other material factors affecting the site concerned), traffic assessment (including ease of accessibility) and financial criteria such as indicative land, construction and other development costs, as well as possible financing strategies. This research is updated at each later stage of the project. Exit options are also identified for any non-strategic assets and approval by both senior management and the Board of Majid Al Futtaim Properties is required before the identified land is purchased and the next stage can commence. Majid Al Futtaim Properties prefers to acquire 100 per cent. ownership of its properties and to develop its assets itself, but will enter into joint ventures where appropriate, for example as a result of legal restrictions on foreign ownership in some of the countries in which it operates. Key considerations for entering into a joint venture agreement include property location, identity of the joint venture partner and clarity of land ownership as well as control over development and operations. Although it has not done so to date, Majid Al Futtaim Properties will also consider acquiring existing companies or properties where economically attractive to do so. When constructing a new shopping mall, Majid Al Futtaim Properties seeks to purchase sufficient land to allow for future expansion projects

and may also seek to plan the development in stages (see "*Risk Factors – Risks Relating to Majid Al Futtaim Properties – The success of Majid Al Futtaim Properties' business strategy and profitability depends upon its ability to locate and acquire or lease land suitable for development at attractive prices*").

Stage 3: Master plan approval and development budget

During this stage, the proposed structure of the project is identified and the high level feasibility study is developed into an indicative business and financial plan and more detailed success criteria (such as cash yield, internal rates of return, payback and net present value) are developed and analysed together with benchmarking and sensitivities, with a view to establishing a clear understanding of the financial, resourcing and risk implications of the proposed project. A financing strategy is also formulated at this stage. In the case of a new shopping mall project, the proposed merchandising mix is identified and for all new projects any necessary statutory approvals are applied for and obtained. Approval by the project control group is required for the key elements of this stage. The project control group is comprised of:

- the CEO and Head of Finance of business units;
- the head of development and project management divisions;
- the projects specific developments directors, project manager and asset manager;
- the country head and country representative; and
- the representatives of specialist functions (such as leasing, marketing and finance) (the "**Project Control Group**").

Stage 4: Concept design

During this stage, a detailed business plan is prepared. Financial assumptions (including revenues, costs, financing, taxation and discount rates as well as revenue assumptions) are clearly identified and updated at each later stage of the project. Based on the approved financing strategy (approved in the previous stage), funding proposals are sought from third parties, a preliminary leasing (or mixed-use sales) plan is prepared and a project development brief containing all relevant data in relation to the proposed project is presented to the Project Control Group for approval.

Stage 5: Schematic design

During this stage, a scheme design and planning report is prepared with a view to achieving a high level of confidence that the proposed project can meet or exceed its objectives. The purpose of the scheme design and planning report is to allow a commitment to be made on detailed design and procurement, and to secure lease commitments from anchor tenants in the case of shopping malls. The detailed business plan is revised in the light of any new information and the financing strategy and preliminary leasing or sales plans are also finalised and approved. In the case of a new shopping mall project, commitments from anchor tenants are sought at this stage and in the case of a new hotel project, management agreements (both for technical services and hotel management) are entered into at this stage, whilst in the case of residential and office projects, off-plan sales reservations are commenced. Qualified contractors are identified and pre-qualification activity is undertaken. Approval by the Project Control Group is required for the key elements of this stage.

Stage 6: Detailed design

During this stage, a detailed design, procurement and construction report is prepared and any required funding is negotiated and secured in accordance with the approved financing strategy and further pre-leasing and off-plan sales reservations are undertaken. Typically projects are funded with a combination of debt and equity financing. Additionally the project development team seeks to ensure flexibility in the construction costs and commitments to minimise potential exit costs in the event of a significant adverse change in the feasibility of a project. Detailed designs are finalised, tenders are undertaken and any required building permits are obtained at this stage. The business plan is finalised and investment indicators are further revised in the light of any new information. Approval by the Project Control Group is required for the key elements of this stage.

Stage 7: Main construction contract award

During this stage, the business plan is finalised. A tender report is prepared summarising the outcome of the tender process and recommending proposed contractors. The main construction contractor is appointed and enabling works and any necessary site preparation commence, although, in the case of a new shopping mall project, historically this has taken place once tenants have been secured for about 50 per cent. of the GLA (or in the case of residential or office developments, a 50 per cent. off-plan sales reservation target is achieved). Approval by the Project Control Group is required for the key elements of this stage.

Stage 8: Construction

During this stage, construction is undertaken in accordance with the detailed designs prepared. The costs, time and associated construction risks are closely monitored throughout this stage with a view to achieving handover on time, within scope and budget. During this stage, in the case of a new shopping mall project the leasing process continues and space is allocated within the shopping mall to committed tenants. In the case of residential and office developments, further sales reservations are undertaken and staged payments are collected from clients under contracted agreements. Approval by the Project Control Group is required for the key elements of this stage and any adverse construction or project results such as cost overruns are referred to the Board of Majid Al Futtaim Properties.

Stage 9: Project completion

During this stage, post-completion evaluations are conducted for each project at the first and third year following delivery.

The development of a new project, from concept to completion, typically averages between four and seven years depending on asset class. In the case of shopping malls, the first three stages set out above typically take between one to two years and account for around 15 to 20 per cent. of the total project investment. Each of the fourth and fifth stages and the sixth and seventh stages described above typically takes between six months and one year to complete and accounts for around 5 per cent. of the total project investment. The final two stages typically take between two and three years to complete and account for approximately 70 to 75 per cent. of the total project investment.

Shopping Malls Business Units (SMBU and SMDBU)

As at 31 December 2020, the SMBU owned and operated 27 shopping malls with a GLA of approximately 1,507,506 square metres, including five neighbourhood community malls held in joint ventures. In 2020, the SMDBU completed one community mall (Matajer Al Musalla (5,459 square metres)) and two re-development projects (City Centre Deira (2,400 square metres food hall and 28,000 square metres related to re-merchandising works) and City Centre Alexandria (14,330 square metres)). Combined, the portfolio of malls attracted 140 million visitors in 2020. As at and for the year ended 31 December 2020, SMBU and SMDBU together generated revenues of AED 3,197 million and EBITDA of AED 2,363 million and its assets were AED 34,991 million. As at 31 December 2020, the SMDBU had an additional three developments and one re-development or expansion project at various stages of planning, design or construction. Along with new developments and expansions, Majid Al Futtaim Properties also undertakes enhancement and upgrades of existing assets on a continuous basis. The new projects, including new malls in Oman, Saudi Arabia and the UAE, represent an additional 583,000 square metres of GLA. Shopping malls are classified in terms of their size and type. Each shopping mall is designed to have large anchor stores and various leisure amenities, including entertainment facilities and food and beverage facilities (such as food courts, fast food and speciality restaurants). Where feasible, Majid Al Futtaim Properties seeks to maximise the synergies across Group businesses in new shopping mall developments (for example, Carrefour hypermarkets operated by Majid Al Futtaim Retail as the food retail anchor store, entertainment facilities such as cinemas or Magic Planet centres operated by Majid Al Futtaim LEC, and facilities management services operated by Group company Enova).

The SMDBU seeks to maintain a balanced portfolio of shopping malls, ensuring that it has the right mix of super-regional, regional, community and neighbourhood malls and that the format it chooses to develop in a particular location will be attractive to its potential customer and consumer base. The SMDBU strategically locates its shopping mall destinations close to residential areas to attract local residents with the convenience of shopping close to home. The potential customer base is expanded when, in line with the

Group's overall strategy, the Hotels Business Unit and, where relevant, the Communities Business Unit develop hotels or residential properties close to the shopping malls.

The design and type of shopping malls are based on the profile of the relevant catchment area. For example, the SMDBU has to date focused on super-regional malls in growing urban communities or tourism markets such as Dubai, Bahrain, Egypt and Saudi Arabia, and plans to focus on developing community and regional malls in other markets. In addition, the mix of retail outlets is based on the SMBU's and SMDBU's understanding of the consumer preferences of local shoppers and, where appropriate, regional and international tourists within the particular area. This is done with the aim of ensuring an attractive mix of international brands, national retailers and leading local retailers. Market research is performed to evaluate trends, to segment the market and to benchmark against competitors.

The SMBU and SMDBU have strong relationships with key retail franchise groups which control a number of major brands in different countries. Depending on the size and consumer profile of a particular shopping mall, the SMBU will contract with one or more of these retail franchise groups as well as local retailers to establish a selection of retail brands within the shopping mall. In addition, the SMDBU endeavours to cater to the expansion strategies of its tenants by offering them retail space in a variety of preferred locations in a number of its developments. At the same time, the SMBU seeks to increase its footfall across the region by leveraging the increased recognition and popularity of its tenants.

Shopping malls under development

As at 31 December 2020, in addition to the SMBU's portfolio of operating shopping malls, the SMDBU had an additional three developments and one re-development or expansion project at various stages of planning, design or construction. Along with new developments and expansions, Majid Al Futtaim Properties also undertakes enhancement and upgrades of existing assets on a continuous basis. The new projects, including new malls in Oman, Saudi Arabia and the UAE, represent an additional 583,000 square metres of GLA. Key projects for new malls are as follows:

- *City Centre Al Zahia, Sharjah, UAE:* Opened in March 2021. With a GLA of approximately 136,000 square metres, this super-regional mall is located in Sharjah on Sheikh Mohamed bin Zayed Road, the main artery connecting all the Emirates. Land has been acquired for this mall.

Marketing

The SMBU and the SMDBU have a de-centralised marketing structure within the regions, as well as a cross-regional marketing hub that drives strategy, consistency, efficiency and excellence across the Group's various geographies and assets. Marketing is targeted at both retailers (as existing and potential tenants) and end-consumers. The principal marketing activities include, but are not limited to, brand building, internal and external communication, advertising, media buying, loyalty programmes, digital marketing, tactical promotions and sustainability.

The Group's shopping malls have won numerous awards, which most recently included:

- Silver Award in the Best Shopping Mall category at the 2020 Retail and Leisure International's 2020 RLI Awards (City Centre Almaza for its mall opening);
- First place the government of Bahrain's contest hosted by the Capital Governorate for the best decorated building during Bahrain National Day (City Centre Bahrain);
- Gold Award in the Traditional Marketing: Sales Promotions and Events category at the 2019 Middle East Council for Shopping Centres (MECSC) Awards (Mall of the Emirates for "*DHF: Home Away From Home*");
- Gold Award in the Traditional Marketing: Sales Promotions and Events category at the 2019 MECSC Awards (City Centre Mirdif for "*Fortnite Season 6 Event – The First Official Event in Middle East*");

Lease arrangements

Majid Al Futtaim Properties enters into lease agreements with its retail tenants, the duration of which varies by tenant, and typically commences negotiations regarding the renewal of lease agreements approximately six months prior to the expiration of a lease agreement. The lease terms for anchor tenants typically do not exceed 10 years (except MAF Group companies, which typically have lease terms of between 10 and 20 years), for major tenants from between five to 10 years and for line stores from between one to five years. The average lease terms across the Group's malls as at 31 December 2020 ranged from five to seven years. Maximum lease terms are 20 years. Majid Al Futtaim Properties also enters into leases of one year or less for tenants operating counters, carts, kiosks and mall media in each mall. Under the terms of the lease agreements, some major tenants have a restrictive clause preventing them from opening a competing store within a defined radius. In addition, tenants typically do not have the right to rescind their lease agreements except in limited cases and Majid Al Futtaim Properties has the right to rescind certain line tenants' lease agreements in the event they do not achieve certain sales thresholds.

The fit-out of individual stores is the responsibility of the tenant subject to approval by Majid Al Futtaim Properties. Tenants are also responsible for all repairs and maintenance to their leased area over the lease period and must vacate the premises at the end of the lease period as found prior to fit-out.

Lease rental fees contain a number of fixed elements linked to the area of floor space under lease, along with a variable rent element calculated based on the tenant's gross sales. In the event that 90 per cent. of the

variable rent is higher than the contracted rent for any given lease year, the variable rent is converted to the base rent at the start of the next lease year. Each lease is negotiated separately and there is no set formula for rents applied across all tenants.

Some jurisdictions in which Majid Al Futtaim Properties has shopping malls (notably the UAE) have passed laws which limit Majid Al Futtaim Properties' flexibility to increase the rentals paid in those jurisdictions (see "*Risk Factors – Risks Relating to the Group – The countries in which the Group operates may introduce new laws and regulations that adversely affect the way in which the Group is able to conduct its businesses*").

Competition

According to the 2020 Group Financial Statements and the publicly available financial statements of Majid Al Futtaim Properties' main competitors, Majid Al Futtaim Properties is one of the largest shopping mall destination developers in the MENA region with regards to total asset size. However, it still faces competition from a number of real estate developers in each of the markets in which it operates. The principal competitor in the UAE, the Group's main market, is the Emaar Group ("**Emaar**"), which opened its first shopping mall in Dubai (The Dubai Mall) in November 2008. As at the date of this Base Prospectus (and on the basis of publicly available information as at the date of this Base Prospectus), Emaar has launched a number of expansions to its flagship asset, The Dubai Mall. In addition, Emaar is in the process of developing a number of retail projects, including additional re-development works at The Dubai Mall. Emaar has also progressed well on the construction of the Dubai Hills Mall and the Dubai Creek Harbour project. Nakheel Properties is also expanding its portfolio in Dubai (with its latest project being the Palm Mall, which was launched in the last quarter of 2019) and is expected to open multiple mall projects in the coming years. In recent years, non-traditional competition is also emerging, primarily from the Meraas Group (specialising in lifestyle themed malls and open air, food and beverage centric centres). Other notable competitors across the region include the Mabane Group, the Al Hokair Group and the Al Futtaim Group.

Hotels Business Unit

The Hotels Business Unit focuses on maximising the value of existing hotels and the development of new hotels located on or adjacent to Majid Al Futtaim Properties' shopping malls. The Hotels Business Unit currently owns 13 hotels, 11 of which are in the UAE and two are in Bahrain.

The Hotels Business Unit's business model is to asset manage third party international hotel management companies. The Hotels Business Unit currently uses four international hotel management companies, namely Accor, Hilton, Kempinski and Marriott. The Hotels Business Unit enters into management agreements with the hotel management companies to provide each hotel with a brand, experienced international management and access to global distribution systems and customer networks.

Competition

The hotels managed by the Hotels Business Unit face competition from a number of existing hotel operators and developers in the region as well as new market entrants. According to a report published by KPMG, hotel supply is expected to increase by 21.3 per cent. by 2021, compared to the pre-pandemic base year of 2019 (from 127,000 keys to 154,000 keys). However, a prolonged reduction in leisure and business travel

is anticipated due to the impact of the COVID-19 pandemic. Accordingly, it is expected that hotel revenues may contract by more than 50 per cent. for the 2020 financial year and it may take 18-24 months to reach pre-pandemic levels of profitability.⁵

Communities Business Unit

The Communities Business Unit was established to develop sites containing a mix of residential and commercial properties throughout the MENA region. The Communities Business Unit is also responsible for managing Majid Al Futtaim Properties' portfolio of three office buildings in Dubai. The Communities Business Unit is currently involved in developing a mixed-use joint venture in Lebanon and is the joint venture partner with the Governments of Oman and Sharjah for two further master-planned communities as described below.

Waterfront City, Beirut, Lebanon

The Group has invested in a 50/50 joint venture with a Lebanese company, Joseph G. Khoury Holdings & Fils S.A.L. The joint venture owns around 193,700 square metres of reclaimed land surrounding a marina located in Dbayyeh, 15 kilometres north of central Beirut in Lebanon. The mixed-use development, called Waterfront City, will be completed by the joint venture in a number of phases. The first phase included the development of 388 residential units along with 48 retail units, food and beverage outlets and other retail outlets directly overlooking the marina, in addition to an indoor and outdoor gym of 4,561 square metres. Phase 1 was launched in July 2011, its construction started in 2012 and handover was completed in 2018. The next phase was launched in May 2013 and consists of 282 residential units and nine retail units aimed at broadening the depth of the products on offer. Construction started in April 2015 and handover commenced in the third quarter of 2018. Phase 3 includes the development of the business park with 12 low rise buildings and a retail component, separated in two super plots each of six buildings. The business park (first six buildings out of 12) was launched in February 2014 and has achieved 68 per cent. off-plan sales to date. Construction of the business park started in December 2016 and is planned to complete in 2021. All the phases are expected to be funded by off-plan strata sales executed by a local Majid Al Futtaim team. During 2020, despite hyper-inflationary economic conditions, Waterfront City sold almost its entire inventory of residential/commercial units. The Group's strategy is to retain the retail components in Waterfront City for leasing and asset management.

Al Mouj, Muscat, Oman

Located in Muscat, the capital city of Oman, Al Mouj Muscat is a mixed-use development project occupying a total area of 2.5 million square metres along over six kilometres of natural beach. Al Mouj Muscat is being developed as a joint venture between the Oman-based Waterfront Investments, Oman National Investments Development Company, representing the Omani pension funds, and Majid Al Futtaim Properties, which holds 50 per cent. of the joint venture entity called Al Mouj Muscat SAOC ("**Al Mouj JV**"). Al Mouj JV has been established as an independent joint venture that has its own employees and operations, with Majid Al Futtaim Properties having 50 per cent. voting powers and representation on the board. Al Mouj Muscat has launched and sold 2,842 units to date out of a total of 6,516 units planned for the project. Al Mouj JV does not require funding from Majid Al Futtaim Properties and is financed independently, including through the receipt of advance cash payments for the sale of units which are currently being used to finance construction of further development work.

Al Zahia and Matajer, Sharjah Holding, UAE

Located in close proximity to Sharjah University City, Sharjah International Airport, SAIF Zone and the major road links to Dubai and the Northern Emirates, Al Zahia is an integrated mixed-use community, featuring a range of villas, apartments and commercial units. Al Zahia is being developed under Sharjah Holding, a 50/50 joint venture between the Government of Sharjah and Majid Al Futtaim Properties.

Phase 1 of the development was completed and handed over in 2014. Phase 2, comprising 197 villas, was completed in December 2016. The handover in respect of Phase 2 commenced in 2016 and was completed in the second quarter of 2017. Additionally, Phase 3, comprising 224 villas and 342 garden apartments, was

launched in the first quarter of 2015 and was completed in 2017. As at the date of this Base Prospectus, Lilac villas are in an advanced stage of construction and will be handed over in 2021.

In addition to Al Zahia, Sharjah Holding is developing a range of Matajer community shopping malls in the Emirate of Sharjah. As at 31 December 2020, Sharjah Holding owned and operated five Matajer malls with a GLA of over 24,128 square metres.

Other property

In addition to the properties described above, the Communities Business Unit is responsible for the development of land, which is designated as investment property with no immediate construction plan or planned sales to third parties. Majid Al Futtaim Properties has not yet initiated the project development phase for these properties, and therefore, appropriate Board approvals have not yet been received and financing has not yet been secured for the development of these projects.

In addition to its land bank held for development, the Communities Business Unit is responsible for managing Majid Al Futtaim Properties' portfolio of three office buildings in Dubai, which are fully or partially occupied by the Group and the remainder is leased to third parties.

MAJID AL FUTTAIM RETAIL

Overview

The Group first introduced the hypermarket model to the Middle East in 1995 under a partnership with Promodes S.A. ("**Promodes**") using the brand "Continent". A joint venture agreement with Promodes established Majid Al Futtaim Hypermarkets, a joint venture company 75 per cent. owned by the Group and 25 per cent. owned by Promodes. In 2000, Promodes merged with Carrefour and the joint venture agreement was updated and amended. Over the past 40 years, France's Carrefour group has grown to become one of the world's leading distribution groups. As the world's second-largest retailer and the largest in Europe (according to the Carrefour website), the Carrefour group currently operates four main grocery store formats: hypermarkets, supermarkets, hard discount and convenience stores. In May 2013, Majid Al Futtaim Holding entered into an agreement with Carrefour France SA whereby Majid Al Futtaim Holding acquired Carrefour France SA's 25 per cent. interest in Majid Al Futtaim Hypermarkets and further agreed to extend the franchise agreement in place between the two parties until 2025 (see "*Description of the Group – Majid Al Futtaim Retail – Agreements with Carrefour*" for more detail).

Pursuant to the franchise agreement with Carrefour, Majid Al Futtaim Hypermarkets currently has the right to establish Carrefour stores in over 30 countries predominantly in the Middle East, Africa and Asia regions. The franchise agreement was extended in June 2013 to expand Majid Al Futtaim Hypermarkets' use of the Carrefour brand into new jurisdictions and in new formats (see "*Description of the Group – Majid Al Futtaim Retail – Agreements with Carrefour*"). As at 31 December 2020, Majid Al Futtaim Retail had expanded the Carrefour concept across the UAE and into Armenia, Bahrain, Egypt, Georgia, Iraq, Jordan, Kenya, Kuwait, Lebanon, Oman, Pakistan, Qatar, Saudi Arabia, Uganda and Uzbekistan. Following the extension of the franchise agreement in June 2013, Majid Al Futtaim Retail has the ability to expand the Carrefour concept into new jurisdictions, predominantly across Africa and Asia. As at 31 December 2020, Majid Al Futtaim Retail operated 126 Carrefour hypermarkets and 228 Carrefour supermarkets as well as an online store (principally selling light and heavy household goods and grocery for delivery within Armenia, Bahrain, Egypt, Georgia, Iraq, Jordan, Kenya, Kuwait, Lebanon, Oman, Pakistan, Qatar, Saudi Arabia, the UAE and Uganda).

Majid Al Futtaim Retail initially opened Carrefour supermarkets in 2007 on a trial basis in the UAE in an attempt to take advantage of its large store network and the regional suburban demand for smaller stores allowing easier access to the local population. Majid Al Futtaim Retail has rolled out the new format in three sizes, ranging from approximately 500 square metres to 2,500 square metres, depending on factors including target product range, population density and catchment area. The Carrefour supermarkets focus mainly on food products, with food sales contributing approximately 95 per cent. of total sales per year.

Majid Al Futtaim Retail's workforce of more than 34,800 employees processed almost 224 million transactions at its Carrefour stores in 2020, resulting in sales of AED 25,357 million for the year (excluding fees and commissions which amounted to AED 2,615 million). The following map shows the location of Majid Al Futtaim Retail's Carrefour hypermarkets and supermarkets as at 31 December 2020:

With effect from 1 July 2017, Majid Al Futtaim Retail acquired Retail Arabia B.S.C. from BMA International E.C. As a result, Majid Al Futtaim Retail acquired 25 Geant hypermarkets and supermarkets in the UAE, Kuwait and Bahrain as well as four Gulfmart supermarkets in Bahrain.

Majid Al Futtaim Retail had revenue of AED 27,979 million and EBITDA of AED 1,631 million during the financial year ended 31 December 2020 as well as assets (prior to eliminations and adjustments) of AED 12,118 million as at 31 December 2020, representing 85.9 per cent., 43.4 per cent. and 19.6 per cent., respectively, of the Group's revenue, EBITDA and assets (prior to eliminations and adjustments) as at and for the financial year ended 31 December 2020.

Majid Al Futtaim Retail had revenue of AED 28,137 million and EBITDA of AED 1,436 million during the financial year ended 31 December 2019 as well as assets (prior to eliminations and adjustments) of AED 12,477 million as at 31 December 2019, representing 80.0 per cent., 31.0 per cent, and 19.0 per cent., respectively, of the Group's revenue, EBITDA and assets (prior to eliminations and adjustments) as at and for the financial year ended 31 December 2019.

The following graph shows the number of hypermarkets Majid Al Futtaim Retail has had in operation year-on-year since 1995:

Strategy

Majid Al Futtaim Retail aims to reinforce Carrefour's leading position as the retailer of choice for consumers throughout the MENA region. Majid Al Futtaim Retail also aims to provide the most competitive offerings for its customers by effectively utilising its negotiation and purchasing power to create an attractive customer shopping experience, while maintaining stable commercial margins.

Majid Al Futtaim Retail intends to continue to focus on the hypermarket format (with an average of 8,000 square metres of selling space) and smaller store formats to fill market gaps (see "*Description of the Group – Majid Al Futtaim Retail – Store rollout and development strategy*"). Majid Al Futtaim Retail is also focused on further developing private-label products in conjunction with Carrefour and increasing the proportion of such products in its sales mix.

In order to further enhance the Group's customer experience, Majid Al Futtaim Retail has been developing the "omni-channel" solution, providing customers with online options for food and non-food categories, unlimited access to the full range of products through in-store tablets, various home delivery options and

mobile payment solutions. Majid Al Futtaim Retail's ultimate aim is to be as prominently present in the "omni-channel" market as its physical store presence across its geographies of operation.

Finally, management believes that Majid Al Futtaim Retail's growth, coupled with its strong relationship with Carrefour, will allow it to take advantage of Carrefour's reputation internationally and further improve its purchasing power from international suppliers.

Agreements with Carrefour

In 1995, the Group entered into a joint venture agreement with Promodes, now part of the Carrefour group, creating Majid Al Futtaim Hypermarkets, which was initially 75 per cent. owned by Majid Al Futtaim Retail. Pursuant to a separate franchise agreement, Majid Al Futtaim Hypermarkets initially became the exclusive franchisee of Carrefour for 15 countries in the MENA region – Bahrain, Egypt, Iran, Iraq, Jordan, Kuwait, Lebanon, Libya, Oman, Pakistan, Qatar, Saudi Arabia, Syria, UAE and Yemen. Under the terms of the franchise agreement, Carrefour provides trade signs, operating procedures and know-how (particularly in relation to hypermarket design, quality, health and safety standards and administration), assistance in supply chain management as well as access to product sourcing networks and training. In addition Carrefour is responsible for the sourcing of its private-label products, "Carrefour" and "N1".

On 31 May 2011, the management of each of Majid Al Futtaim Retail and Carrefour agreed to the extension of the franchise agreement between Majid Al Futtaim Hypermarkets and Carrefour to four countries – Armenia, Azerbaijan, Georgia and Kazakhstan. An amended franchise agreement reflecting these arrangements was entered into on 6 July 2011.

Majid Al Futtaim Holding entered into an agreement dated 22 May 2013 with Carrefour France SA (the "**Sale and Purchase Agreement**") whereby Majid Al Futtaim Holding acquired Carrefour France SA's 25 per cent. ownership interest in Majid Al Futtaim Hypermarkets for a consideration of AED 2,555 million (the "**Acquisition**"). The Acquisition became effective on 25 June 2013.

The Acquisition did not have a material impact on the financial position of the Group as Majid Al Futtaim Hypermarkets was, prior to completion of the Acquisition, a fully consolidated subsidiary of Majid Al Futtaim Holding for accounting purposes, save that, as the purchase consideration was higher than 25 per cent. of the net assets of Majid Al Futtaim Hypermarkets, the Acquisition resulted in a reduction in shareholders' equity in accordance with IFRS of approximately AED 2.1 billion on a Group consolidated basis. The impact of such reduction was substantially offset by an issuance of hybrid bonds, the proceeds of which were used to refinance the indebtedness incurred to finance the purchase price for the Acquisition and the hybrid bonds received full equity accounting treatment in accordance with IFRS.

In addition, Majid Al Futtaim Hypermarkets and Carrefour France SA have agreed to extend the franchise agreement currently in place between the two parties. The revised franchise agreement extends Majid Al Futtaim Hypermarkets' use of the Carrefour brand name until 2025 and provides Majid Al Futtaim Hypermarkets with the opportunity to expand its use of the Carrefour brand into new jurisdictions (predominantly in Africa and in certain jurisdictions within Asia) and in new formats (such as, for example, in relation to convenience stores and cash-and-carries) across the regions in which the Group currently operates.

Majid Al Futtaim Retail has agreed, for the duration of the franchise agreement, not to utilise any know-how gained in the operation of independent hypermarkets or supermarkets and is not permitted to sell the products of any of Carrefour's competitors.

Carrefour charges Majid Al Futtaim Retail a franchise fee based on sales made. Majid Al Futtaim Retail is responsible for the day-to-day operation of each store, seeking approval from Carrefour for new store openings and new country entry.

The Carrefour hypermarket in the Mall of the Emirates, which opened in 2005, is Majid Al Futtaim Retail's largest hypermarket. As at 31 December 2020, Majid Al Futtaim Retail

had 33 hypermarkets in the UAE, 12 in Oman, nine in Bahrain, five in Qatar and three in Kuwait and a total of 92 Carrefour supermarkets in the five countries.

Egypt

Majid Al Futtaim Retail opened its first Carrefour hypermarket in Egypt in 2002. The hypermarket is located in the City Centre Maadi shopping mall in Cairo, the most populous city in the Arab world. As at 31 December 2020, Majid Al Futtaim Retail had 16 Carrefour hypermarkets and 41 Carrefour supermarkets in Egypt.

Saudi Arabia

Majid Al Futtaim Retail entered Saudi Arabia in 2004 with its first Carrefour hypermarket on Khurais Road in Riyadh. As at 31 December 2020, Majid Al Futtaim Retail had 18 Carrefour hypermarkets and two Carrefour supermarkets in Saudi Arabia.

Other countries

Majid Al Futtaim Retail was the first hypermarket chain entrant into Jordan when it opened a Carrefour hypermarket within the Amman Mall in December 2006. In 2009, Majid Al Futtaim Retail opened a hypermarket in Pakistan followed by Iraq and Georgia in 2012 and Lebanon in 2013. The first hypermarket opened in Armenia during 2015, the first hypermarket in Kenya opened during 2016, the first hypermarket in Uganda opened during 2019 and the first supermarket in Uzbekistan opened during 2020. During 2017, Majid Al Futtaim Retail closed its hypermarket in Kazakhstan (which was opened in 2016). As at 31 December 2020, Majid Al Futtaim Retail has a total of 30 hypermarkets and 93 supermarkets in these 10 countries.

Development pipeline

Majid Al Futtaim Retail plans to open 14 Carrefour hypermarkets (one store each in Georgia and Iraq and two each in Egypt, Oman, Pakistan, Saudi Arabia, the UAE and Uzbekistan) and 86 Carrefour supermarkets in 2021.

Operational leases

Majid Al Futtaim Retail currently leases the properties at which it operates Carrefour stores. Properties are leased from both Majid Al Futtaim Properties and, if applicable in order to gain quicker access to a target market, third-parties, including third-party shopping mall developers. As at 31 December 2020, 19 hypermarkets and four supermarkets were leased from Majid Al Futtaim Properties, with the remaining 107 hypermarkets and 226 supermarkets leased from third parties.

It takes approximately six months for Majid Al Futtaim Retail to open a new hypermarket from the point at which the store is handed over and, in the case of hypermarkets located in shopping malls, it can take up to two and a half years to develop the mall in which the hypermarket is to be located from the point at which Majid Al Futtaim Retail commits to lease the store. In the case of supermarkets, it takes around four months to carry out refurbishment works and around two months to obtain necessary licences and approvals. Majid Al Futtaim Retail prefers to lease sites for its Carrefour stores to ensure a faster time to market and to expedite the return on its investment. However, Majid Al Futtaim Retail will consider other options, such as owning a limited number of properties or leasing land and constructing a store, where it determines that it is more commercially viable to do so.

Majid Al Futtaim Retail aims to maintain long-term lease agreements (typically with terms of approximately 20 years for hypermarkets and approximately 10 years for supermarkets). As at 31 December 2020, the average lease period for its hypermarkets was approximately 20 years and for its supermarkets was approximately 10 years. Under most of the lease agreements, Majid Al Futtaim Retail has a conditional right to renew the lease subject to agreement on lease terms and retains termination rights at certain points during the lease.

Majid Al Futtaim Retail undertakes refurbishment of its hypermarkets approximately every seven to 10 years. In addition, store managers are responsible for reviewing and analysing inventory turnover and consumer trends, in order to plan potential changes to the store layout.

Store rollout and development strategy

Majid Al Futtaim Retail has created a development team to oversee the rollout of its Carrefour store network. The development team has representatives covering the countries in which Majid Al Futtaim Retail traditionally operates. Development within the new countries is managed by the corporate office development team with local management support. These development teams identify store location opportunities and negotiate with local suppliers and are supported by Majid Al Futtaim Retail country managers who are present in all countries of the region.

When rolling out a new store, the local development teams (under the supervision and with the support of the head office development team) are responsible for sourcing suitable real estate, negotiating lease or purchase agreements, conducting tenders for construction and installation services, store design and store launch. They also co-ordinate contacts with the external parties involved in the rollout process such as real estate agents, licensing authorities, lawyers and construction companies. There is a close dialogue between the regional teams and the Majid Al Futtaim Retail corporate office, although significant responsibility is given to the regional teams to facilitate efficient decision making. However, all important decisions require the involvement of the corporate office development team and Majid Al Futtaim Retail's legal and finance departments and significant financial commitments require approval by Majid Al Futtaim Retail's CEO or Board, depending on the size of the commitment.

Majid Al Futtaim Retail Board approval is required prior to entering into a new store project and a new geographical market. When considering a new geography, the corporate office development team first seeks to identify appropriate locations and conducts all necessary diligence to estimate future sales for each proposed site. Based on the results of the diligence, the development team prepares a feasibility study which, among other matters, considers the financial criteria that are required to be met (including: (a) a positive net present value of the expected cash flows from the investment for the period of the lease; and (b) an internal rate of return and return on capital employed in excess of the country hurdle rate set by Majid Al Futtaim Retail). Majid Al Futtaim Retail evaluates potential store feasibility based on projected cash flows for the proposed lease period, which depend on factors such as current population, catchment area, customer access to the hypermarket, potential rate of urbanisation and existing and planned competing properties. The feasibility study is approved by the Investment Committee (which comprises the CEO, Head of Development, Chief Operating Officer, CFO and General Counsel) and submitted to the Majid Al Futtaim Retail Board for final approval. Projects for supermarkets involving capital expenditure of less than AED 10 million are approved by Majid Al Futtaim Retail's CEO, otherwise such projects are approved by Majid Al Futtaim Retail's Board.

Following completion of a development, an annual review process for each store is conducted. Among other matters, results to date, the latest five-year plan and a conservative projection to cover the full lease period are considered. The return and profitability key performance indicators are compared with those identified at the initial project approval stage and the results of each review are presented to the Majid Al Futtaim Retail Board.

Typically, Majid Al Futtaim Retail's Carrefour hypermarkets are the anchor tenants of choice for Majid Al Futtaim Properties' shopping mall developments. However, Carrefour hypermarkets and supermarkets are also located outside Majid Al Futtaim Properties shopping malls in order to support the expected growth of Majid Al Futtaim Retail.

Product range and quality control

Product range

Majid Al Futtaim Retail's Carrefour hypermarkets stock five categories of products: consumer goods, fresh food, light household, textile and heavy household goods. Consumer goods are all food products excluding fresh produce; fresh food goods are fresh produce; light household goods are non-food household products falling outside the heavy household category; textile goods are principally clothing and linen merchandise; and heavy household goods consist of large appliances and electronic goods. For the year ended 31 December 2020, food products and non-food products accounted for 73 per cent. and 27 per cent., respectively, of Majid Al Futtaim Retail's total sales.

Depending on the size of the individual store, Majid Al Futtaim Retail's Carrefour hypermarkets stock between 35,000 and 45,000 stock keeping units ("SKUs") per store. The SKUs stocked in a particular store

include mandatory items selected centrally by the relevant country head office sourcing team and products chosen locally by the store's management to ensure the range of products offered is adapted to suit local tastes. As a result, the range of products varies from store-to-store, depending on preferences within a local catchment area, including various ethnic groups' needs.

Majid Al Futtaim Retail's merchandise strategy is aimed at standardising its range of products and optimising its ability to satisfy customer preferences. Based on monthly analyses of results and other relevant data (including competition data, loyalty data and periodic customer feedback), it sets objectives and modifies parameters, including store layout, range and price. Individual stores are then charged with adjusting accordingly the mix of products, prices, products on promotion and the location of products within the store.

A portion of Carrefour hypermarkets' SKUs are private label brands. The private label brands developed by Carrefour include "N1", "Carrefour" and "reflects de France". Majid Al Futtaim Retail intends to increase the proportion of the private label items in its sale mix.

Majid Al Futtaim Retail develops private label brand products in partnership with Carrefour, identifying product specifications based on consumer preferences. All of the private label products must adhere to the Carrefour group's strict quality standards, and Majid Al Futtaim Retail and Carrefour work together to ensure quality control.

Quality control

Majid Al Futtaim Retail has implemented an audit control system for its market goods and private label items. The audit control system covers staff training and audits of suppliers, stores and products across all countries where Majid Al Futtaim Retail has operations. Majid Al Futtaim Retail has appointed several companies to perform audits according to targets set by its management team. As at the date of this Base Prospectus, approximately 51 per cent. of Majid Al Futtaim Retail's hypermarkets have received Hazard Analysis and Critical Control Points ("**HACCP**") certification or an equivalent ISO certification. The stores without HACCP certification are new and are in the process of gaining such certification, which is a time-consuming process. HACCP is a systematic preventive approach to food safety that addresses physical, chemical and biological hazards as a means of prevention rather than finished product inspection. HACCP is used in the food industry to identify potential food safety hazards, so that key actions can be taken to reduce or eliminate the risk of the hazards being realised. The system is used at all stages of food production and preparation processes.

Supply chain, procurement, inventory and distribution

Supply chain and procurement

Majid Al Futtaim Retail uses Carrefour's sourcing network in East Asia and Europe to source products for its Carrefour private label brands and for limited non-food items, allowing Majid Al Futtaim Retail to leverage Carrefour's own purchasing power. Majid Al Futtaim Retail uses its own logistics network in Asia and Europe to deliver from the source to the relevant countries (taking advantage of the Carrefour carriers conditions and volumes).

For all other products, Majid Al Futtaim Retail's central procurement team is responsible for producing an annual list of preferred suppliers by product category. These suppliers are ranked based on performance using benchmarking reports. In order to keep the supplier list relevant and manageable, the central procurement team considers the range required for each product type, the best possible quality for each product type and the target selling price. If a certain product line has not been selling well, the number of suppliers listed will be reduced to reflect the reduced demand or only those suppliers that offer goods at the right quality with competitive prices will be listed. Individual store managers can suggest potential new suppliers to the central sourcing and procurement department. However, the final decision on whether to add a proposed supplier to the list is taken centrally.

The majority of supplier contracts are negotiated and entered into at the country local level based on the supplier list. Negotiations and execution of supplier contracts with certain key suppliers are carried out by the central sourcing team. These suppliers tend to provide key local and imported branded products which are sold in large quantities across all regions allowing Majid Al Futtaim Retail to secure favourable terms

due to its purchasing power (see "*Description of the Group – Majid Al Futtaim Retail – Rebates and supplier benefits*").

Majid Al Futtaim Retail prefers local (country-level) producers but is also focused on increasing volumes of direct imports from the source (instead of imports through intermediaries) and aims to thereby improve the trade conditions and purchase prices. In 2013, Majid Al Futtaim Retail set up a trading company in Hong Kong, China, with the intention of targeting the private label product of the food and non-food departments.

Inventory

Inventory management is a store-managed process. Store requirements are assessed at each individual store and orders are placed directly with suppliers. Order quantities are based on a minimum order level set for each SKU and an order is raised automatically once this minimum quantity has been triggered in-store. All purchase orders are sent automatically to suppliers through the electronic system.

Physical inventory counts are performed for all stores every three to six months (depending on the country in which the store is located), with sections counted on a rotational basis in between as well. Certain high value items at greater risk of theft are counted weekly or monthly. Majid Al Futtaim Retail uses the same inventory system used by Carrefour in its hypermarkets for managing store inventory. When goods arrive, the inventory system is automatically updated and Majid Al Futtaim Retail's accounting system captures invoices upon receipt. Inventory days in Majid Al Futtaim Retail's Carrefour hypermarkets have remained relatively constant over the three years to 31 December 2020.

Distribution

Deliveries are predominantly made directly to stores and the logistical costs of transport are usually borne by the distributor, but included within the purchase cost price. A small proportion of purchases are delivered to distribution centres managed by third party logistics providers before distribution to stores. These goods tend to be centrally purchased imported goods and private label products. The third-party central warehouse facilities also provide storage space for Carrefour supermarkets due to the limited storage capacity available at each supermarket.

Rebates and supplier benefits

Due to its increased market share across each region as its store portfolio expands, Majid Al Futtaim Retail is able to increase its purchasing volumes and, as a result, secure rebates and other supplier benefits from both its local distributors and its brand suppliers. Majid Al Futtaim Retail negotiates a number of different types of rebates and other benefits with its suppliers, generally on an annual basis at a regional level, although negotiations with some of the larger branded importers are conducted centrally. Fixed rebates are obtained on a yearly basis based on an agreed fixed percentage of supplier turnover. Volume discounts are obtained on yearly purchase values by brand or supplier. Other types of benefits include fees charged to suppliers for promotional activities, displays, advertising space, new range and additional shelf space. Rebates and supplier benefits represent a significant driver of Majid Al Futtaim Retail's revenue. A portion of the rebate gains are reinvested in the business to allow Majid Al Futtaim Retail to maintain its price leadership.

Pricing policy

In line with Carrefour's pricing policy, Majid Al Futtaim Retail's business philosophy is to offer its customers the products they want at a competitive price. Management aims to keep prices below those of its competitors by leveraging its market share to achieve volume-based rebates on its supply orders.

The Majid Al Futtaim Retail corporate office sourcing team is responsible for setting prices for all items at the hypermarket and supermarket level.

To ensure its Carrefour hypermarket SKUs are priced competitively, Majid Al Futtaim Retail regularly monitors prices through third party service providers. Additional price surveys are carried out as needed by store clusters according to the competition context, for example in connection with entering a new market or the introduction of a new competitor to one of its existing markets.

Advertising and marketing

For Majid Al Futtaim Retail, customer growth is the most important aspect of sales growth and its marketing effort is, accordingly, focused towards this end. In addition to traditional newspaper, magazine, radio and television advertising, Majid Al Futtaim Retail delivers leaflets door-to-door to local households as well as extending the use of the internet, social media and mobile communication. Majid Al Futtaim Retail also conducts co-branded advertising whereby a supplier pays to promote new items or a range of products in conjunction with Majid Al Futtaim Retail.

Competition

Majid Al Futtaim Retail faces competition from international, regional and local retailers. The competition from international retailers is limited as the only major grocery retailer which has a multi-country and multi-store presence in the region where Majid Al Futtaim Retail operates is Carrefour, and the Group's contractual arrangements with Carrefour mean that it does not compete with Majid Al Futtaim Retail in the countries in which Majid Al Futtaim Retail operates.

Majid Al Futtaim Retail's main regional competitors (being those with a presence in a number of countries in which Majid Al Futtaim Retail operates) are Lulu (Emke Group), Spinneys, Panda (Savola Group) and the Sultan Centre while its main online retail competitors are Amazon and Noon. The Group believes that Majid Al Futtaim Retail faces moderate competition from these entities on a regional basis. Majid Al Futtaim Retail's local competitors vary depending on the country concerned and the level of competition from these competitors also varies in each country. Certain of the regional competitors are also local competitors, such as, Union Cooperative, Lulu and Spinneys in the UAE, Panda and Al Othaim in Saudi Arabia, Metro in Egypt, Al Meera in Qatar, Sameh Mall and the Sultan Centre in Jordan, and the Sultan Centre in Oman.

In 2010, Majid Al Futtaim Ventures acquired the 49 per cent. shareholding of its joint venture partner and became the sole owner of Majid Al Futtaim Cinemas. With effect from 1 January 2021, the operations of Majid Al Futtaim Cinemas were restructured to be under Majid Al Futtaim LEC.

Majid Al Futtaim Cinemas typically serves as a Group shopping mall anchor tenant in the super-regional malls where the cinema complex is generally located in close proximity to the unique leisure offering. Majid Al Futtaim LEC's strategy in relation to Majid Al Futtaim Cinemas is to target growth through expansion outside the region in the medium term as well as to upgrade the services offered, particularly in relation to seating and food and beverage. In 2020, Majid Al Futtaim's VOX cinemas expansion saw the addition of 47 new screens across five locations in Oman and Saudi Arabia.

Majid Al Futtaim Leisure and Entertainment

With effect from 1 January 2021, the operations of Majid Al Futtaim Leisure and Entertainment were restructured to be under Majid Al Futtaim LEC. Majid Al Futtaim Leisure and Entertainment offers leisure and entertainment facilities throughout the Middle East. These facilities are typically located in Group shopping malls to capitalise on existing high footfalls as well as to act as an attraction designed to increase the number of visitors to the shopping mall. Majid Al Futtaim Leisure and Entertainment's facilities include FECs and unique leisure offers ("ULO's"). Majid Al Futtaim LEC's strategy in relation to Majid Al Futtaim Leisure and Entertainment is to continue to use it to strengthen its shopping malls and at the same time to focus on improving efficiency and reducing costs.

Majid Al Futtaim Ventures' investments in joint ventures comprise:

ENOVA by VEOLIA

ENOVA by VEOLIA (previously known as Majid Al Futtaim Dalkia) is a joint venture established in 2002 between Majid Al Futtaim Ventures and Dalkia, a subsidiary of Veolia Environment, in which Majid Al Futtaim Ventures owns 51 per cent. of the shares. In December 2009, the joint venture agreement with Majid Al Futtaim Dalkia (now known as ENOVA by VEOLIA) was amended to reflect the contribution by Majid Al Futtaim Dalkia to the joint venture of related businesses in Bahrain and Saudi Arabia. In return, Majid Al Futtaim Ventures ceded management control of the joint venture to Majid Al Futtaim Dalkia and, whilst retaining its 51 per cent. shareholding, accounted for the joint venture as an associate.

ENOVA by VEOLIA provides solutions designed to optimise the costs involved in managing the energy infrastructure in shopping centres, offices, leisure complexes, hotels, hospitals, universities, airports and any other commercial, industrial, residential or public buildings. Approximately 65 per cent. of ENOVA by VEOLIA's revenue for the financial year ended 31 December 2020 and approximately 56 per cent. of its revenue for the financial year ended 31 December 2019 came from charges to non-Group companies.

As at the date of this Base Prospectus, the Group intends to transfer Majid Al Futtaim Ventures' ownership interest in ENOVA by VEOLIA to Majid Al Futtaim Properties during the course of 2021.

TREASURY AND INTERNAL AUDIT

The Group operates a centralised treasury with a view to benefiting from both internal and external economies of scale and core expertise as well as leveraging the Group's different business profiles.

The treasury function is principally responsible for the overall co-ordination of cash management (payments and operational cash management are managed at an individual business unit level), financing and financial risk management, with all Group borrowings being arranged by the treasury and approved by the Majid Al Futtaim Holding Board. The treasury function has a clear demarcation of responsibility between front, middle and back office functions and its performance is measured by reference to a number of defined benchmarks in terms of capital structure and allocation, liquidity management, funding and investment, financial risk management and other areas.

Each operating company has an internal audit function in order to bring the audit function closer to the business and operational needs specific to each operating company. The prevailing methodology and approach have been maintained to ensure independent oversight and the implementation of strict corporate governance practices.

INFORMATION TECHNOLOGY

The Group utilises IT solutions for a variety of business functions, including financial reporting, supply chain management, project development and human resources. Each of the Group's operating subsidiaries uses software that is tailored to its particular business needs.

The Group does not currently have a separate disaster recovery site although disaster recovery procedures are in place at its data centre and designed to recover data and applications in a disaster scenario. The Group also implements anti-virus and other data security procedures.

HEALTH, SAFETY AND SECURITY

The Group's operating subsidiaries follow comprehensive fire and health and safety policies and procedures appropriate to their respective businesses. In particular, the Group's shopping malls are constructed to international standards, most of Majid Al Futtaim Retail's stores have received HACCP certification (as further described under "*Description of the Group – Majid Al Futtaim Retail – Product range and quality control – Quality control*") and all applicable health and safety regulations applicable to the Group's business are complied with.

The Group is also bolstering contingency plans and implementing other security procedures following the civil unrest in Egypt and Bahrain which affected its properties in those countries.

LITIGATION

During 2010, a joint venture company that is 50 per cent. owned by the Group and 50 per cent. owned by a major UAE-based property development company became involved in arbitration proceedings under which the amount of AED 2,614 million is being claimed from the joint venture for non-payment of instalments of the purchase price of land which the joint venture company had agreed to purchase. This arbitration has been put on hold since the end of 2011. The Group has no indication if, and when, the arbitration will resume. If resumed, the Group does not believe that any arbitration ruling against the joint venture will result in financial liability for any other Group company. In addition to the above, Majid Al Futtaim Holding and its subsidiaries are involved from time to time in legal actions, often as the claimant, and most of which arise in the ordinary course of business.

INSURANCE

The Group has in place insurance coverage for all material aspects of its operations up to a level which management considers to be reasonable and comparable to or in excess of that of other companies operating in the sectors and markets in which the Group operates. The Group's major insurable risks are covered by insurance policies for property all risks (including business interruption), terrorism cover, cyber insurance and public liability. The Group will continue to seek to secure appropriate insurance coverage for these risks at commercially reasonable rates (see "*Risk Factors – Risks Relating to the Group – The Group may not be able to secure full insurance coverage for the risks associated with the operation of its businesses*").

MANAGEMENT AND EMPLOYEES

MANAGEMENT

Each of Majid Al Futtaim Properties, Majid Al Futtaim Retail and Majid Al Futtaim Ventures has its own Board responsible for setting strategic goals and measuring the success of the business in achieving objectives and maintaining corporate accountability.

Independent non-executive chairmen have been appointed to the Majid Al Futtaim Properties and Majid Al Futtaim Retail Boards to define and allow for the implementation of separate and distinct roles for Majid Al Futtaim Holding's Chairman and CEO. This Board structure allows Majid Al Futtaim Holding's CEO to focus on his overriding responsibility of leading the executive management of the Group, while allowing the individual Boards and their management to focus on the increasingly complex and specialised demands of their respective businesses.

Each of the Group's Boards works closely together to review, recommend and approve projects, combining the expertise of the various businesses. To further this goal, Majid Al Futtaim Holding's CEO and at least one other member of the executive committee of Majid Al Futtaim Holding attend the board meetings of each of Majid Al Futtaim Properties, Majid Al Futtaim Retail and Majid Al Futtaim Ventures to ensure that the Group's strategy is implemented consistently.

Each Board undertakes a formal review process with a view to seeking continuous improvement in the Board's performance. - (c) ensure that in the event of a Total Loss Event occurring (unless the Portfolio Assets have been replaced pursuant to the Service Agency Agreement and the Trustee Sale and Purchase Undertaking), all the proceeds of the Insurances against a Total Loss Event are in an amount equal to the Full Reinstatement Value and are paid in the Specified Currency directly into the Transaction Account by no later than the 60th day after the occurrence of the Total Loss Event and that the insurer(s) are directed accordingly; and
- (d) if at any time and for any reason, the Services Agent is not in compliance with paragraph (a), it shall immediately deliver written notice to the Trustee and the Delegate of such non-compliance and the details thereof.

Wherever the Services Agent procures Insurances in accordance with the terms of the Service Agency Agreement (including the renewal of any Insurances in existence on the relevant Issue Date) it will use its reasonable endeavours to obtain such Insurances on a takaful basis if such takaful insurance is available or is available on commercially viable terms. Any breach of this paragraph shall not constitute a Majid Al Futtaim Properties Event.

The delivery of the notice referred to in paragraph (d) to the Trustee and/or the Delegate in relation to non-compliance with paragraph (a) shall constitute a Majid Al Futtaim Properties Event.

If a Total Loss Event has occurred and if:

- (i) the notice referred to in paragraph (d) has not been delivered by the Services Agent to the Trustee and the Delegate prior to the occurrence of such Total Loss Event;
- (ii) the Portfolio Assets have not been replaced pursuant to the Service Agency Agreement and the Trustee Sale and Purchase Undertaking; and

- (iii) the amount (if any) paid into the Transaction Account pursuant to paragraph (c) is less than the Full Reinstatement Value (the difference between the Full Reinstatement Value and the amount credited to the Transaction Account being the "**Total Loss Shortfall Amount**"),

then the Services Agent undertakes to pay (in same day, freely transferable, cleared funds) the Total Loss Shortfall Amount directly to the Transaction Account by no later than close of business in London on the 61st day after the Total Loss Event has occurred. Subject to paying such Total Loss Shortfall Amount in accordance with this paragraph, there will be no further claim against the Services Agent for failing to comply with its insurance obligations. Notwithstanding anything to the contrary contained in the Service Agency Agreement or the other Transaction Documents, the undertaking by the Services Agent to pay the Total Loss Shortfall Amount set forth in this paragraph shall be the sole remedy of the Trustee against the Services Agent for any failure by the Services Agent to perform its obligations under this paragraph.

If a Total Loss Event occurs, the Services Agent shall notify the Trustee and the Delegate of such occurrence and, in accordance with Condition 10.5, the Trustee shall promptly notify Certificateholders of the occurrence of a Total Loss Event and that, from the date of such notice to Certificateholders and until any further notice from the Trustee, in consultation with the Shari'a Adviser, the Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (as determined by AAOIFI *Shari'a* standards).

For this purpose, "**Full Reinstatement Value**" means, in relation to each Series, an amount equal to the aggregate of:

- (1) the aggregate face amount of the Certificates then outstanding;
- (2) an amount equal to all accrued and unpaid Periodic Distribution Amounts (if any) relating to the Certificates;
- (3) an amount equal to the Periodic Distribution Amounts relating to such Certificates, which would have been due (had a Total Loss Event not occurred) during the period beginning on (and including) the date on which the Total Loss Event occurred and ending on (but excluding) the applicable Dissolution Date;
- (4) without double counting, an amount representing any amounts payable by the Trustee (in any capacity) pursuant to Condition 4.2(a);
- (5) without double counting, any other amounts payable in relation to the redemption of the Certificates as specified in any applicable Final Terms relating to that Series; and
- (6) the sum of any outstanding: (x) amounts payable in respect of any Liquidity Facility; and (y) any Service Liabilities Amounts,

less the aggregate of each outstanding Deferred Sale Price relating to that Series, provided that a Commodity Murabaha Investment forms part of the Wakala Portfolio of the relevant Series and the outstanding Deferred Sale Prices have been paid into the Transaction Account in accordance with the terms of the Master Murabaha Agreement and the relevant Murabaha Contract and are available for the redemption of the relevant Certificates.

Replacement of Portfolio Assets

The Trustee and the Services Agent have agreed in the Service Agency Agreement that, on the occurrence of a Total Loss Event, Majid Al Futtaim Properties may provide notice to the Services Agent that replacement Eligible Portfolio Asset(s) (the "**Replacement Asset(s)**") are available on or before the 60th day after the occurrence of the Total Loss Event and, following such notice, Majid Al Futtaim Properties may exercise its rights under the Trustee Sale and Purchase Undertaking to replace the Portfolio Asset(s) comprising the Wakala Portfolio immediately prior to the Total Loss Event with the Replacement Asset(s).

Asset substitutions

In the Service Agency Agreement, the Trustee and the Services Agent have agreed that, in relation to each Series and provided that no Dissolution Event, Total Loss Event or Tangibility Event has occurred and is continuing, the Services Agent may at any time exercise its rights under the Trustee Sale and Purchase Undertaking to substitute (and, upon any default in respect of any Portfolio Asset, shall use all reasonable

endeavours to so substitute) any one or more of the Portfolio Assets as the Services Agent may select (subject to any Portfolio Asset(s) to be substituted being the defaulting Portfolio Asset(s), if applicable) in accordance with the Trustee Sale and Purchase Undertaking.

Commingling of Portfolio Assets

Under the Service Agency Agreement, the Trustee and the Services Agent have each acknowledged and agreed that, in relation to each Series, on the Issue Date of each Tranche of Certificates (other than the first Tranche of Certificates) issued under that Series:

- (a) any Additional Portfolio Assets acquired by the Trustee pursuant to the terms of the Trustee Sale and Purchase Undertaking on the relevant Issue Date and the Portfolio Assets forming part of the Asset Portfolio of that Series immediately prior to that Issue Date shall be commingled on the relevant Issue Date and collectively comprise the Asset Portfolio of that Series;
- (b) any such Additional Portfolio Assets shall for the purposes of the Transaction Documents constitute Portfolio Assets comprised in the relevant Asset Portfolio;
- (c) any Commodity Murabaha Investment concluded on the relevant Issue Date, any Commodity Murabaha Investment forming part of the Wakala Portfolio of that Series immediately prior to that Issue Date and the relevant Asset Portfolio of that Series shall be commingled on the relevant Issue Date and collectively comprise the Wakala Portfolio of that Series.

Collection Accounts

In relation to each Series, the Services Agent will maintain two ledger accounts (such accounts being the Asset Collection Account and the Asset Reserve Account) in its books each of which shall be denominated in the Specified Currency. All Asset Portfolio Revenues in relation to each Series will be recorded in the Asset Collection Account.

In the event that the Services Agent receives any non-*Shari'a* compliant revenues in the course of its collection of the Asset Portfolio Revenues, the Services Agent undertakes that it shall pay such amounts to such *Shari'a*-compliant charity or charities as nominated by the Services Agent and approved by the Shari'a Adviser. For the avoidance of doubt, any such non-*Shari'a* compliant revenues received by the Services Agent in the course of its collection of the Asset Portfolio Revenues shall not be credited to any Collection Account or the Transaction Account. Any breach of this paragraph shall not constitute a Majid Al Futtaim Properties Event.

Amounts standing to the credit of the Asset Collection Account relating to each Series will be applied by the Services Agent on each Wakala Distribution Determination Date (being the Business Day immediately prior to the relevant Periodic Distribution Date under the Certificates of the relevant Series) in the following order of priority:

- (a) *first*, in repayment of any amounts advanced by way of a Liquidity Facility;
- (b) *second*, in payment of any Service Liabilities Amounts for the Wakala Distribution Period ending immediately before the immediately following Wakala Distribution Date;
- (c) *third*, the Services Agent shall pay into the Transaction Account an amount equal to the lesser of:
 - (i) the Required Amount payable on the immediately following Periodic Distribution Date less any other payments made into the Transaction Account pursuant to any other Transaction Document; and
 - (ii) the balance of the Asset Collection Account; and
- (d) any amounts still standing to the credit of the Asset Collection Account immediately following payment of all of the above amounts, shall be debited from the Asset Collection Account and credited to the Asset Reserve Account.

Amounts standing to the credit of the Asset Reserve Account shall be applied by the Services Agent as follows:

- (i) if on a Wakala Distribution Determination Date (after: (1) payment of the relevant amounts standing to the credit of the Asset Collection Account into the Transaction Account in accordance

with paragraph (c); and (2) taking into account any other payments made or to be made into the Transaction Account pursuant to any other Transaction Document) there is a shortfall between: (x) the amounts standing to the credit of the Transaction Account, and (y) the Required Amount payable on the immediately following Periodic Distribution Date (a "**Shortfall**"), by paying into the Transaction Account on that Wakala Distribution Determination Date from the amounts standing to the credit of the Asset Reserve Account (if any) an amount equal to the Shortfall (or such lesser amount as is then standing to the credit of the Asset Reserve Account);

- (ii) the Services Agent will be entitled to deduct amounts standing to the credit of the Asset Reserve Account at any time during the Wakala Services Period and use such amounts for its own account, provided that such amounts shall be repaid by it if so required to fund a Shortfall in accordance with paragraph (i) or upon the occurrence of a Dissolution Event, a Total Loss Event or a Tangibility Event; and
- (iii) following payment of all amounts due and payable under the Certificates on the final Dissolution Date, the Services Agent shall be entitled to retain any amounts that remain standing to the credit of the Asset Reserve Account for its own account as an incentive payment for acting as Services Agent.

Upon the occurrence of a Dissolution Event, a Total Loss Event or a Tangibility Event, all of the Asset Portfolio Revenues credited to the Collection Accounts (including amounts standing to the credit of the Asset Reserve Account) will be paid by the Services Agent into the Transaction Account immediately.

Liquidity Facilities

If, following payment of amounts standing to the credit of the Asset Reserve Account in accordance with the above paragraphs, a Shortfall remains on any Wakala Distribution Determination Date, the Services Agent may either: (a) provide *Shari'a*-compliant funding itself; or (b) procure *Shari'a*-compliant funding from a third party, in each case, to the extent necessary to ensure that the Trustee receives, on each Wakala Distribution Determination Date, the Required Amount payable by it in accordance with the Conditions of the relevant Series on the immediately following Periodic Distribution Date, by payment of the same into the Transaction Account and on terms that such funding will be settled: (i) from Asset Portfolio Revenues as described in the above paragraphs; or (ii) from: (1) the relevant exercise price payable pursuant to the terms of the Purchase Undertaking or the Trustee Sale and Purchase Undertaking, as the case may be; or (2) the Full Reinstatement Value pursuant to the terms of the Service Agency Agreement, as the case may be, on the relevant Dissolution Date (such funding in relation to a Series, a "**Liquidity Facility**").

Service Liabilities Amounts and fees

The Trustee and the Services Agent have agreed that any Service Liabilities Amounts incurred by the Services Agent in providing the Services in relation to a Series shall be paid by the Trustee by way of the application of amounts standing to the credit of the Asset Collection Account by the Services Agent on the Trustee's behalf in payment of such amounts (as described below) or otherwise on the Dissolution Date.

Majid Al Futtaim Properties is entitled to receive a fixed fee of U.S.\$100 for acting as Services Agent under the Service Agency Agreement. In addition, following payment of all amounts due and payable under the Certificates of each Series on the final Dissolution Date, the Services Agent is entitled to retain any amounts that remain standing to the credit of the Asset Reserve Account for its own account as an incentive payment for acting as Services Agent.

Payments under the Service Agency Agreement

The payment obligations of the Services Agent under the Service Agency Agreement will be direct, unconditional, unsubordinated and (subject to the provisions of clause 4.14(a) of the Master Trust Deed) unsecured obligations of the Services Agent which rank (save for certain obligations required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Services Agent.

- (a) if, at the time of delivery of the Exercise Notice in accordance with the provisions of the Purchase Undertaking, Majid Al Futtaim Properties (acting in any capacity) remains in actual or constructive possession, custody or control of all or any part of the Asset Portfolio (with the condition specified in this paragraph being conclusively satisfied if the Trustee has not delivered a notice in writing to the Services Agent to terminate its appointment under the Service Agency Agreement); and

As soon as the Buyer has signed and delivered the relevant Letter of Acceptance, a Murabaha Contract shall be created between the Seller and the Buyer upon the terms of the relevant Letter of Offer and the relevant Letter of Acceptance and incorporating the terms and conditions set out in the Master Murabaha Agreement and ownership of and all risks in and to the relevant Commodities shall immediately pass to and be vested in the Buyer, together with all rights and obligations relating thereto.

All amounts of Deferred Sale Price due and payable in accordance with the Master Murabaha Agreement and the relevant Murabaha Contracts shall be credited by the Buyer to the Transaction Account on the dates and in the amounts specified in the relevant Letter of Offer, subject to certain adjustment in accordance with the provisions of the Master Murabaha Agreement.

The payment obligations of the Buyer under the Master Murabaha Agreement and the relevant Murabaha Contracts will be direct, unconditional, unsubordinated and (subject to the provisions of clause 4.14(a) of the Master Trust Deed) unsecured obligations of the Buyer which rank (save for certain obligations required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Buyer.

A Supplemental Trust Deed between the same parties will be entered into on the Issue Date of each Series and will be governed by English law.

Upon issue of the Global Certificate initially representing any Series, the Master Trust Deed and the relevant Supplemental Trust Deed shall together constitute the Trust declared by the Trustee in relation to such Series.

The Trust Assets in respect of each Series comprise (unless otherwise specified in the relevant Supplemental Trust Deed), *inter alia*, the Trustee's rights, title, interest and benefit, present and future, in, to and under the relevant Wakala Portfolio, its rights, title, interest and benefit, present and future, in, to and under the Transaction Documents (other than: (a) in relation to any representations given to the Trustee by Majid Al Futtaim Properties or the Guarantor pursuant to any of the Transaction Documents and any rights which have been expressly waived by the Trustee in any of the Transaction Documents; and (b) the covenant given to the Trustee pursuant to clause 14.1 of the Master Trust Deed) and any amounts standing to the credit of the relevant Transaction Account.

Each Trust Deed will specify that, on or after the relevant Scheduled Dissolution Date or, as the case may be, Dissolution Date of a Series, the rights of recourse in respect of the relevant Certificates shall be limited to the amounts from time to time available and comprising the Trust Assets of that Series, subject to the priority of payments set out in the Trust Deed, the relevant Certificates and the Conditions. The Certificateholders have no claim or recourse against MAF Sukuk Ltd. in respect of any amount which is or remains unsatisfied and any unsatisfied amounts will be extinguished.

Pursuant to the Trust Deed, the Trustee will, in relation to each Series, *inter alia*:

- (i) hold the relevant Trust Assets on trust absolutely for the relative Certificateholders *pro rata* according to the face amount of Certificates held by each Certificateholder; and
- (ii) act as trustee in respect of the relevant Trust Assets, distribute the income from the relevant Trust Assets and perform its duties in accordance with the provisions of the Trust Deed.

The appointment of such delegate by the Trustee is intended to be in the interests of the Certificateholders and will not affect the Trustee's continuing role and obligations as trustee.

The Delegate has undertaken in the Master Trust Deed that, following it becoming aware of the occurrence of a Dissolution Event in respect of any Series and subject to Condition 14, it shall promptly notify the relevant Certificateholders of the occurrence of such Dissolution Event. Subject to the Delegate being indemnified and/or secured and/or prefunded to its satisfaction against all liabilities to which it may thereby render itself liable or which it may incur by so doing, the Delegate may take all such steps as are necessary to enforce the obligations of Majid Al Futtaim Properties (in whatever capacity it is acting) and the Guarantor under the relevant Trust Deed and any other Transaction Document to which Majid Al Futtaim Properties (in whatever capacity) and the Guarantor is a party.

In addition, Majid Al Futtaim Properties has also undertaken in the Master Trust Deed that if the outstanding Deferred Sale Price is not paid on the relevant Dissolution Date in accordance with the provisions of the Master Murabaha Agreement for any reason whatsoever, Majid Al Futtaim Properties shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Certificates then outstanding and, accordingly, the amount payable under any such indemnity claim will equal the outstanding Deferred Sale Price.

Amendments

Prior to making any modification or amendment or supplement to the Trust Deed, Majid Al Futtaim Properties shall consult with the Shari'a Adviser to procure its opinion that any such proposed modification or amendment or supplement is in compliance with AAOIFI *Shari'a* Standards, provided that, if the Shari'a Adviser notifies Majid Al Futtaim Properties (together with the reasons why) that, in its reasonable opinion, such proposed modification or amendment or supplement is not in compliance with AAOIFI *Shari'a* Standards, and Majid Al Futtaim Properties intends to proceed with such proposed modification or amendment or supplement, Majid Al Futtaim Properties will promptly provide notification to the Trustee of the Shari'a Adviser's opinion (together with the reasons why) and will procure the notification by the Trustee to the Certificateholders of the same in accordance with Condition 17.

SHARI'A COMPLIANCE

(to the extent it is a party to the relevant Transaction Document), Majid al Futtaim Holding LLC (to the extent it is a party to the relevant Transaction Document) and Majid al Futtaim Properties LLC (to the extent it is a party to the relevant Transaction Document), as the case may be, agrees that it has accepted the *Shari'a*-compliant nature of the Transaction Documents to which it is a party and, to the extent permitted by law, further agrees that:

TAXATION

The following is a general description of certain tax considerations relating to Certificates issued under the Programme. It does not purport to be a complete analysis of all tax considerations relating to the Certificates. Prospective purchasers of any Certificates should consult their tax advisers as to the consequences under the tax laws of the country of which they are resident for tax purposes of acquiring, holding and disposing of the relevant Certificates and receiving payments under those Certificates. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.

THE CAYMAN ISLANDS

The following is a discussion on certain Cayman Islands income tax consequences of an investment in the Certificates. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances and does not consider tax consequences other than those arising under Cayman Islands law.

Under existing Cayman Islands laws payments on the Certificates will not be subject to taxation in the Cayman Islands and no withholding will be required on the payments to any holder of Certificates nor will gains derived from the disposal of the Certificates be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance or gift tax.

Subject as set out below, no capital or stamp duties are levied in the Cayman Islands on the issue, transfer or redemption of the Certificates. An instrument transferring title to any Certificates, if brought to or executed in the Cayman Islands, would be subject to Cayman Islands stamp duty. An annual registration fee is payable by the Trustee to the Cayman Islands Registrar of Companies which is calculated by reference to the nominal amount of its authorised capital. At current rates, this annual registration fee is approximately U.S.\$854. The foregoing is based on current law and practice in the Cayman Islands and this is subject to change therein.

UNITED ARAB EMIRATES

The following summary of the anticipated tax treatment in the UAE in relation to payments on the Certificates is based on the taxation law in force as at the date of this Base Prospectus, and does not constitute legal or tax advice. Prospective investors should be aware that the relevant fiscal rules and practice and their interpretation may change.

There is currently in force in the legislation of certain Emirates a general corporate taxation regime (such as the Sharjah Income Tax Act of 1968 (as amended), the Fujairah Income Tax Decree of 1966 (as amended), the Abu Dhabi Income Tax Decree 1965 (as amended) and the Dubai Income Tax Decree 1969 (as amended)). The regime is, however, not enforced save in respect of companies active in the oil industry and some related service industries. It is not known whether the legislation will or will not be enforced more generally or within other industry sectors in the future. Branches of foreign banks operating in the UAE are also taxed under specific regulations at the Emirates level. Under current legislation, there is no requirement for withholding or deduction for or on account of taxation in the UAE in respect of payments made under the Guarantee. In the event of the imposition of any such withholding, the Guarantor have undertaken to gross-up any payments subject to certain limited exceptions.

The Constitution of the UAE specifically reserves to the Federal Government of the UAE the right to raise taxes on a federal basis for purposes of funding its budget. It is not known whether this right will be exercised in the future, and how any future federal tax laws will interact with the ones existing in the Emirates.

The UAE has entered into double taxation arrangements with certain other countries.

THE PROPOSED FINANCIAL TRANSACTIONS TAX

On 14 February 2013, the European Commission published a proposal (the "**Commission's proposal**") for a directive for a common financial transaction tax ("**FTT**") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's proposal has very broad scope and could, if introduced, apply to certain dealings in the Certificates (including secondary market transactions) in certain circumstances. The issuance and subscription of Certificates should, however, be exempt.

Under the Commission's proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Certificates where at least one party is a financial institution and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including: (a) by transacting with a person established in a participating Member State; or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Certificates are advised to seek their own professional advice in relation to the FTT.

FOREIGN ACCOUNT TAX COMPLIANCE ACT

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including the United Kingdom) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Certificates, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Certificates, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Certificates, such withholding would not apply prior to the date that is two years after the date on which final regulations defining "foreign passthru payment" are published in the U.S. Federal Register and Certificates characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are published generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date. However, if additional Certificates (as described under Condition 20) that are not distinguishable from previously issued Certificates are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Certificates, including the Certificates offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Certificates. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Certificates, no person will be required to pay additional amounts as a result of the withholding.

SUBSCRIPTION AND SALE

The Dealers have, in an amended and restated programme agreement (the "**Programme Agreement**") dated 26 August 2021, agreed with the Trustee, Majid Al Futtaim Properties and the Guarantor a basis upon which they or any of them may from time to time agree to purchase Certificates. Any such agreement will extend to those matters stated under "*Terms and Conditions of the Certificates*". In the Programme Agreement, each of the Trustee, Majid Al Futtaim Properties and the Guarantor has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue, offer and sale of Certificates under the Programme.

SELLING RESTRICTIONS

United States

Neither the Certificates nor the Guarantee have been nor will be registered under the U.S. Securities Act of 1933 as amended (the "**Securities Act**"), and the Certificates may not be offered or sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined by Regulation S under the Securities Act ("**Regulation S**")) except in accordance with Regulation S or pursuant to an exemption from the registration requirement of the Securities Act. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that, except as permitted by the Programme Agreement, it will not offer, sell or deliver any Certificates: (a) as part of their distribution at any time; or (b) otherwise until 40 days after the completion of the distribution of all Certificates of the Tranche of which such Regulation S Certificates are a part, within the United States, or for the account or benefit of, U.S. persons, other than pursuant to Rule 144A or in offshore transactions pursuant to Regulation S, and such Dealer will have sent to each dealer to which it sells Certificates during the distribution compliance period relating thereto, a confirmation or other notice setting forth the restrictions on offers and sales of the Certificates within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer who purchases Certificates (or in the case of a sale of Certificates issued to or through more than one Dealer, each of such Dealers as to the Certificates to be purchased by or through it, or, in the syndicated issue, the relevant lead manager) shall determine and certify to the Principal Paying Agent the completion of the distribution of such Certificates. On the basis of such notification or notifications, the Principal Paying Agent has agreed to notify such Dealer/lead manager of the end of the distribution compliance period with respect to such Certificates.

Terms used in the paragraph above have the meaning given to them by Regulation S.

In addition, until 40 days after the commencement of the offering of Certificates comprising any Tranche, any offer or sale of Certificates within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Each Dealer has also agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it, its affiliates or any persons acting on its or their behalf have not engaged and will not engage in any directed selling efforts (as defined in Rule 902(c) under the Securities Act) with respect to any Certificate, and it and they have complied and will comply with the offering restrictions requirement of Regulation S.

For the purposes of this provision, the expression "**an offer**" in relation to any Certificates in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Certificates to be offered so as to enable an investor to decide to purchase or subscribe for the Certificates, and the expression "**EU Prospectus Regulation**" means Regulation (EU) 2017/1129.

Kingdom of Saudi Arabia

No action has been or will be taken in the Kingdom of Saudi Arabia that would permit a public offering of the Certificates. Any investor in the Kingdom of Saudi Arabia or who is a Saudi person (a "**Saudi Investor**") who acquires any Certificates pursuant to an offering should note that the offer of Certificates is a private placement under the "Rules on the Offer of Securities and Continuing Obligations" as issued by the Board of the Capital Market Authority (the "**CMA**") resolution number 3-123-2017 dated 27 December 2017, as amended (the "**KSA Regulations**"), made through a person authorised by the CMA to carry on the securities activity of arranging and following a notification to the CMA and, in each case, in accordance with the KSA Regulations.

The Certificates may thus not be advertised, offered or sold to any person in the Kingdom of Saudi Arabia other than to "sophisticated investors" under Article 9 of the KSA Regulations or by way of a limited offer under Article 10 of the KSA Regulations or as otherwise required by the KSA Regulations. Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree, that any offer of Certificates to a Saudi Investor will be made in compliance with the KSA Regulations.

Each offer of Certificates shall not therefore constitute a "public offer", an "exempt offer" or a "parallel market offer" pursuant to the KSA Regulations, but is subject to the restrictions on secondary market

activity under the KSA Regulations. Any Saudi Investor who has acquired Certificates pursuant to a private placement under Article 9 or Article 10 of the KSA Regulations may not offer or sell those Certificates to any person unless the offer or sale is made in compliance with the restrictions on secondary market activity under the KSA Regulations.
