No comment is made or advice given by Arada, the Trustee, the Delegate, the Arrangers, any Dealer or the Agents in respect of taxation or *Shari'a* matters relating to any Trust Certificates or the legality of the purchase of Trust Certificates by an investor under applicable or similar laws.

Any *Shari'a* non-compliant terminology or term used in this Base Offering Circular has been used to give the correct meaning to a particular definition or a clause (particularly in relation to Arada's business, results of operation and financial condition) and, accordingly, falls outside the scope of and does not impact the *Shari'a* compliant nature of the Transaction Documents or the Trust Certificates.

EACH PROSPECTIVE INVESTOR IS ADVISED TO CONSULT ITS OWN TAX ADVISER, LEGAL ADVISER, BUSINESS ADVISER AND *SHARI'A* ADVISER AS TO TAX, LEGAL,

BUSINESS, *SHARI'A* AND RELATED MATTERS CONCERNING THE PURCHASE OF TRUST CERTIFICATES.

The Trust Certificates are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Trust Certificates which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Trust Certificates will perform under changing conditions, the resulting effects on the value of such Trust Certificates and the impact this investment will have on the potential investor's overall investment portfolio.

The Trust Certificates may not be a suitable investment for all investors. Generally, investment in emerging markets such as the UAE is only suitable for sophisticated investors who fully appreciate the significance of the risks involved in, and are familiar with, investing in emerging markets. Each potential investor in Trust Certificates must determine the suitability of an investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisors, whether it:

- (a) has sufficient knowledge and experience to make a meaningful evaluation of the Trust Certificates and the complex structure thereof, the merits and risks of investing in the Trust Certificates and the information contained in this Base Offering Circular or any applicable supplement;
- (b) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Trust Certificates and the impact the Trust Certificates will have on its overall investment portfolio;
- (c) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Trust Certificates, including where the currency of payment is different from the potential investor's currency;
- (d) understands thoroughly the terms of the Trust Certificates and is familiar with the behaviour of any relevant indices and financial markets;
- (e) is able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect its investment and its ability to bear the applicable risks; and
- (f) is able to evaluate the compliance of the Trust Certificates with *Shari'a* principles.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) the Trust Certificates are legal investments for it, (2) the Trust Certificates can be used as collateral for various types of financing and (3) other restrictions apply to its purchase or pledge of any Trust Certificates. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Trust Certificates under any applicable risk-based capital or similar rules.

None of the Trustee, Arada, the Arrangers, the Dealers, the Delegate or any Agent makes any representation to any investor in the Trust Certificates regarding the legality of its investment under any applicable laws. Any investor in the Trust Certificates should be able to bear the economic risk of an investment in the Trust Certificates for an indefinite period of time.

NOTICE TO UK RESIDENTS

Any Trust Certificates to be issued under the Programme which do not constitute "alternative finance investment bonds" ("**AFIBs**") within the meaning of Article 77A of the Financial Services and Markets Act 2000 (Regulated Activities) (Amendment) Order 2010 will represent interests in a collective investment scheme (as defined in the Financial Services and Markets Act 2000, as amended (the "**FSMA**")) which has not been authorised, recognised or otherwise approved by the FCA. Accordingly, any Trust Certificates to be issued under the Programme must not be marketed in the United Kingdom to the general public and this Base Offering Circular is not being distributed to, and must not be passed on to, the general public in the United Kingdom.

Prospective investors in the United Kingdom in any Trust Certificates are advised that all, or most, of the protections afforded by the United Kingdom regulatory system will not apply to an investment in such Trust Certificates and that compensation will not be available under the United Kingdom Financial Services Compensation Scheme.

Any prospective investor intending to invest in any investment described in this Base Offering Circular should consult its professional adviser and ensure that it fully understands all the risks associated with making such an investment and that it has sufficient financial resources to sustain any loss that may arise from such investment.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance Rules under EU Delegated Directive 2017/593 (the "**EU MiFID Product Governance Rules**"), any Dealer subscribing for any Trust Certificates is a manufacturer in respect of such Trust Certificates, but otherwise neither the Arrangers nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the EU MiFID Product Governance Rules.

Any distributor should take into consideration the target market assessment; however, a distributor subject to the UK MiFIR Product Governance Rules is responsible for undertaking its own target market assessment in respect of the Trust Certificates (by either adopting or refining the target market assessment) and determining appropriate distribution channels. 2001 OF SINGAPORE, AS MODIFIED OR AMENDED FROM TIME TO TIME**

VOLCKER RULE

The Volcker Rule, which became effective on 1 April 2014, but was subject to a conformance period for certain entities that concluded on 21 July 2015, generally prohibits "banking entities" (which is broadly defined to include U.S. banks and bank holding companies and many non-U.S. banking entities, together with their respective subsidiaries and other affiliates) from: (i) engaging in proprietary trading; (ii) acquiring or retaining an ownership interest in or sponsoring a "covered fund"; and (iii) entering into certain relationships with "covered funds". The general effects of the Volcker Rule remain uncertain; any prospective investor in the Trust Certificates and any entity that is a "banking entity" as defined under the Volcker Rule which is considering an investment in the Trust Certificates should consult its own legal advisers and consider the potential impact of the Volcker Rule in respect of such investment. If investment by "banking entities" in the Trust Certificates is prohibited or restricted by the Volcker Rule, this could impair the marketability and liquidity of such Trust Certificates. No assurance can be made as to the effect of the Volcker Rule on the ability of certain investors subject thereto to acquire or retain an interest in the Trust Certificates, and accordingly none of Arada, the Trustee, the Arrangers, the Dealers, the Delegate or the Agents, or any of their respective affiliates makes any representation regarding: (a) the status of the Trustee under the Volcker Rule (including whether it is a "covered fund" for their purposes); or (b) the ability of any purchaser to acquire or hold the Trust Certificates, now or at any time in the future. Any prospective investor in the Trust Certificates should consult its own legal advisers regarding such matters and other effects of the Volcker Rule.

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

Presentation of Financial Information

Historical financial statements

The financial statements relating to the Group and included in this Base Offering Circular are:

- the audited consolidated financial statements as at and for the year ended 31 December 2024, including comparative financial information as at and for the year ended 31 December 2023 (the "**2024 Financial Statements**"); and
- the audited consolidated financial statements as at and for the year ended 31 December 2023, including comparative financial information as at and for the year ended 31 December 2022 (the "**2023 Financial Statements**" and, together with the 2024 Financial Statements, the "**Financial Statements**").

The Financial Statements have been prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board ("**IFRS**") and applicable requirements of UAE law.

Arada's financial year ends on 31 December and references in this Base Offering Circular to "**2024**", "**2023**", and "**2022**" are to the 12-month period ending on 31 December in each such year.

Auditors and unaudited information

The Financial Statements have been audited by KPMG Lower Gulf Limited in accordance with International Standards on Auditing, who have issued unqualified reports on the Financial Statements.

Certain financial information in this Base Offering Circular contained in "*Selected Financial Information – Selected alternative performance measures*" is unaudited financial information which has been extracted without material adjustment from the accounting records of the Group which form the underlying basis of the Financial Statements. This information also constitutes alternative performance measures for the purposes of the ESMA Guidelines on Alternative Performance Measures ("**APMs**"). None of this financial information is subject to any audit or review by independent auditors.

EBITDA

The Group's APMs included in this Base Offering Circular are Adjusted EBITDA, gross profit margin and net profit margin, which are not measures of financial performance under IFRS. In determining "**EBITDA**", the Group adds back to profit for the year the following items:

- income tax expense;
- finance cost; and
- depreciation and amortisation,

and subtracts finance income from profit for the year/period.

The Group then makes adjustments in respect of its property valuation gains and losses to determine "**Adjusted EBITDA**", as these gains and losses do not form part of the operational cash flow generated by the Group.

Arada believes that the presentation of these APMs is helpful to investors because these and other similar measures are widely used by certain investors, security analysts and other interested parties as supplemental measures of performance and liquidity. However, these APMs should not be considered in isolation or as a substitute for operating profit, cash flow from operating activities or other financial measures of the

Group's results of operations or liquidity computed in accordance with IFRS. Other companies, including those in the Group's industry, may calculate these APMs differently from the Group. As all companies do not calculate these APMs in the same manner, the Group's presentation of these APMs may not be comparable to other similarly titled measures of other companies. See further "*Selected Financial Information – Selected alternative performance measures*".

Some of the limitations of using Adjusted EBITDA as a financial measure are:

- it does not reflect the Group's cash expenditures or future requirements for capital expenditure or contractual commitments;
- it does not reflect changes in, or cash requirements for, the Group's working capital needs; and
- although depreciation and amortisation are non-cash charges, the assets being depreciated and amortised will often have to be replaced in the future, and the measure does not reflect any cash requirements for such replacement.

For a reconciliation of reported profit for the period to Adjusted EBITDA for each of the years ended 2024, 2023 and 2022, see "*Selected Financial Information*".

Sales Backlog

The sales backlog data as at 31 December 2024 presented in this Base Offering Circular includes, among other projects, the value of units sold at W Residences and Anantara but not yet recognised as revenue. The joint ventures through which the W Residences and Anantara projects are being undertaken have not been consolidated in the 2024 Financial Statements. As at the date of this Base Offering Circular, the Group expects these joint ventures to be consolidated in future periods. Unless otherwise indicated, all applicable data in respect of the Group's units sold, sales value collected, sales backlog and the value of the Group's property portfolio in this Base Offering Circular includes data in respect of W Residences and Anantara to ensure consistency in the project-related information presented herein.

Trust Certificates shall be redeemed on the Scheduled Dissolution Date at the relevant Final Dissolution Amount specified in the applicable Pricing Supplement.

Optional Dissolution

If so specified in the applicable Pricing Supplement, a Series of Trust Certificates may be redeemed prior to its Scheduled Dissolution Date at the Optional Dissolution Amount (Call) or the Clean Up Call Right Dissolution Amount, as applicable, in the circumstances set out in Condition 11.3 (*Dissolution at the Option of Arada (Optional Dissolution Call Right)*) or Condition 11.8 (*Dissolution at the Option of Arada (Clean Up Call Right)*), as applicable.

Dissolution Events

Upon the occurrence of any Dissolution Event, the Trust Certificates may be redeemed on the Dissolution Event Redemption Date at the Dissolution Event Amount (which shall include any accrued but unpaid Periodic Distribution Amount) and the Return Accumulation Period may be adjusted accordingly, as described in Condition 15 (*Dissolution Events*).

Early Dissolution for Tax Reasons

Where the Trustee has or will become obliged to pay any additional amounts in respect of the Trust Certificates pursuant to Condition 13 (*Taxation*) or Arada has or will become obliged to pay any additional amounts in respect of amounts payable pursuant to any Transaction Document to which it is a party as a result of a change in the laws of a Relevant Jurisdiction and where such obligation cannot be avoided by the Trustee or Arada, as applicable, taking reasonable measures available to it, the Trustee shall, upon

receipt of an exercise notice from Arada pursuant to the Sale and Substitution Undertaking, redeem the Trust Certificates in whole but not in part at the Tax Dissolution Amount on the relevant Dissolution Date in accordance with Condition 11.2 (*Early Dissolution for Tax Reasons*).

Certificateholder Put Right

If so specified in the applicable Pricing Supplement, Certificateholders may, in the circumstances set out in Condition 11.5 (*Dissolution at the Option of the Certificateholders (Certificateholder Put Right)*) elect to redeem their Trust Certificates on any Certificateholder Put Right Date(s), provided that such date is a Periodic Distribution Date, unless otherwise specified in the applicable Pricing Supplement at the applicable Optional Dissolution Amount (Put) specified in, or determined in the manner specified in, the applicable Pricing Supplement together with all accrued and unpaid Periodic Distribution Amounts in accordance with Condition 11.5 (*Dissolution at the Option of the Certificateholders (Certificateholder Put Right)*).

Change of Control Put Right

Upon the occurrence of a Change of Control and provided that a Change of Control Notice has been received by the Trustee in accordance with Condition 11.7 (*Dissolution at the Option of the Certificateholders (Change of Control Put Right)*), Certificateholders may elect to redeem their Trust Certificates on the Change of Control Put Right Date at the Change of Control Dissolution Amount in accordance with Condition 11.7 (*Dissolution at the Option of the Certificateholders (Change of Control Put Right)*).

A "**Change of Control**" shall occur if at any time any person other than H.R.H. Prince Khalid Bin Alwaleed Bin Talal Alsaud or H.R.H. Sheikh Sultan bin Ahmed Al Qasimi or their respective lineal descendants acquires, directly or indirectly, more than 50 per cent. of the issued share capital of Arada.

Clean Up Call Right

If 75 per cent. or more of the aggregate face amount of the Trust Certificates then outstanding have been redeemed and/or purchased and cancelled pursuant to Condition 11 (*Capital Distributions of Trust*) or Condition 12 (*Purchase and Cancellation of Trust Certificates*), the Trustee shall, upon receipt of an exercise notice from Arada in accordance with the Sale and Substitution Undertaking, redeem the Trust Certificates in whole but not in part, at the Clean Up Call Right Dissolution Amount on the Clean Up Call Right Dissolution Date, subject to and in accordance with Condition 11.8 (*Dissolution at the Option of Arada (Clean Up Call Right)*)

Tangibility Event Put Right

If a Tangibility Event occurs, Certificateholders may, in the circumstances set out in Condition 11.6 (*Dissolution at the Option of the Certificateholders (Tangibility Event Put Right)*) exercise their right to redeem their Trust Certificates on any Tangibility Event Put Right Date at the Tangibility Event Dissolution Amount by delivering a Tangibility Event Put Notice within the Tangibility Event Put Period, subject to and in accordance with Condition 11.6 (*Dissolution at the Option of the Certificateholders (Tangibility Event Put Right)*).

Following the occurrence of a Tangibility Event, as determined in consultation with the *Shari'a* Adviser, the Trust Certificates should be tradeable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis).

On the date falling 15 days following the Tangibility Event Put Right Date, the Trust Certificates will be delisted from any stock exchange (if any) on which the Trust Certificates have been admitted to trading.

Total Loss Event

Save where the relevant Wakala Asset(s) is/are replaced in accordance with the Servicing Agency Agreement by no later than the 60th day after the occurrence of a Total Loss Event, the occurrence of a Total Loss Event will result in the redemption in whole of the Trust Certificates of that Series and the consequent dissolution of the relevant Trust no later than close of business in London on the 61st day after the occurrence of such Total Loss Event (being the Total Loss Dissolution Date) in accordance with Condition 11.4 (*Dissolution following a Total Loss Event*).

If a Total Loss Event occurs, the Servicing Agent shall be responsible for ensuring that all proceeds of Insurances in respect thereof (if any) are each paid in the Specified Currency directly into the Transaction Account by no later than the 60th day after the occurrence of the Total Loss Event.

If a Total Loss Event occurs and the relevant Wakala Asset(s) is/are not replaced as discussed above, and the amount of the proceeds of Insurances (if any) paid into the Transaction Account is less than the Full Reinstatement Value (the difference between the Full Reinstatement Value and the amount paid into the Transaction Account being the "**Loss Shortfall Amount**"), and unless the Servicing Agent proves beyond any doubt that any Loss Shortfall Amount is neither attributable to its negligence nor its failing to comply with the relevant terms of the Servicing Agency Agreement, the Servicing Agent shall be responsible for paying the Loss Shortfall Amount directly into the Transaction Account by no later than close of business in London on the 61st day after the Total Loss Event has occurred, such that the amount standing to the credit of the Transaction Account on the Total Loss Dissolution Date represents the aggregate of the proceeds of Insurances payable in respect of a Total Loss Event (if any) and the Loss Shortfall Amount payable by the Servicing Agent in accordance with the terms of the Servicing Agency Agreement.

Wakala Portfolio Revenues (excluding any Deferred Sale Price Instalments) payable under the Servicing Agency Agreement and, therefore, Periodic Distribution Amounts, shall cease to accrue with effect from the date on which a Total Loss Event occurs, and shall only resume from the Replacement Date if the Wakala Assets are replaced pursuant to a Lease Assets Amendment Agreement and/or a Supplemental Purchase Agreement (as applicable). The amount of profit payable on the first Periodic Distribution Date following the acquisition of the Replacement Wakala Asset(s) shall be increased to include the amount of profit that

would have accrued prior to the Replacement Date had such Total Loss Event not occurred.

Upon the occurrence of a Total Loss Event and from the date of the Trading Notice and until any further notice from the Trustee stating otherwise, in consultation with the *Shari'a* Adviser, the Trust Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis) and an application will be made for the Trust Certificates to be delisted from any stock exchange (if any) on which such Trust Certificates have been admitted to trading.

Following a replacement of the Wakala Asset(s) in accordance with the Servicing Agency Agreement, the Servicing Agent shall notify the Trustee of the same and the Trustee shall promptly, following receipt of such notice from the Servicing Agent and in consultation with the *Shari'a* Adviser, deliver a notice to the relevant Certificateholders that: (1) from the date of that notice the Trust Certificates may be traded at any price; and (2) the Trust Certificates shall be re-listed, as soon as reasonably practicable, on the stock exchange (if any) on which the Trust Certificates had previously been admitted to trading.

Partial Loss Event

If a Partial Loss Event shall occur with respect to any of the Lease Assets and provided that: (a) the Lease Assets have not been replaced pursuant to the Servicing Agency Agreement and a notice of termination of the lease on the 61st day after the Partial Loss Event Date (a "**Partial Loss Termination Notice**") has been delivered by the Lessee to the Lessor within a period of 30 days after the Partial Loss Event Date; or (b) such Lease Assets have not been replaced pursuant to the Servicing Agency Agreement, without prejudice to any right or remedy that the Lessor may have under any Transaction Document or by law, the Lease shall automatically terminate on the 61st day after the Partial Loss Event Date (the "**Partial Loss Termination Date**") and further rental payments shall cease to be due on such Partial Loss Termination Date in accordance with the Supplemental Lease Agreement and the Lessor will be entitled to all proceeds of the insurances payable as a result of the Partial Loss Event. The termination of the Lease on the Partial Loss Termination Date as a result of either of the circumstances described in (a) or (b) above shall constitute an Arada Event.

If, as a result of a Partial Loss Event or a Lease Asset(s) Total Loss Event that is not also a Total Loss Event, the ratio of (1) the Value of the Wakala Asset(s) (which for this purpose shall exclude any Wakala Asset(s) that are the subject of such Partial Loss Event or Lease Asset(s) Total Loss Event), to (2) the aggregate Value of the Wakala Asset(s) and, if applicable, the aggregate amounts of Deferred Sale Price then outstanding falls below 33 per cent., the Servicing Agent shall promptly, upon becoming aware of any such occurrence, notify the Trustee, and upon such notification, the Trustee shall promptly deliver a notice to the Certificateholders specifying: (x) the occurrence of such event; (y) that from the date of such notice to the Certificateholders, and until any further notice from the

Trustee, in consultation with the *Shari'a* Adviser, stating otherwise, the Trust Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (z) that, on the date of such notice to the Certificateholders an application will be made for the Trust Certificates to be delisted from any stock exchange (if any) on which such Trust Certificates have been admitted to trading or if such date is not a business day, on the next following business day (business day being, for this purpose, a day on which the stock exchange on which the Certificates are admitted to trading is open for business).

Following a replacement of the relevant Wakala Asset(s), the Servicing Agent shall notify the Trustee and the Delegate of the same and the Trustee shall promptly, following receipt of such notice from the Servicing Agent and in consultation with the *Shari'a* Adviser, deliver a notice to the relevant Certificateholders from the date of that notice the Trust Certificates may be traded at any price the Trust Certificates shall be re-listed, as soon as reasonably practicable, on the stock exchange (if any) on which the Trust Certificates had previously been admitted to trading.

Substitution of Wakala Asset(s)

Pursuant to the Sale and Substitution Undertaking, Arada may, at any time, exercise its right to require the Trustee to substitute on any Substitution Date some or all of the relevant Wakala Asset(s) with New Wakala Asset(s) (as specified in the relevant Substitution Notice, and each as defined in the Sale and Substitution Undertaking) having a value which is equal to or greater than the value of the relevant Wakala Asset(s) being substituted.

Taxation

All payments in respect of Trust Certificates shall be made in the Specified Currency without set-off or counterclaim of any kind and free and clear of, and without withholding or deduction for, any Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within the Relevant Jurisdiction, unless the withholding or deduction is required by law. In that event, the Trustee shall, save in the limited circumstances provided in Condition 12 (*Taxation*), be required to pay such additional amounts as will result in the receipt by the Certificateholders of such amounts as would have been received by them, had no such withholding or deduction been required.

All payments by Arada (in any capacity) under the Transaction Documents to which it is a party shall be made in the Specified Currency without set-off or counterclaim of any kind and free and clear of, and without withholding or deduction for, any Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within the Relevant Jurisdiction unless the withholding or deduction is required by law. In that event, Arada shall be required to pay such additional amounts as will result in the receipt by the Trustee or the Delegate (as applicable) of such amounts as would have been received by it, had no such deduction or withholding been required.

Ratings

Arada has been assigned a long-term rating of B+ with a stable outlook by Fitch and a long-term rating of B1 with a stable outlook by Moody's.

The ratings assigned to each Series of Trust Certificates (if any) to be issued under the Programme will be specified in the applicable Pricing Supplement. A rating is not a recommendation to buy, sell or hold the Trust Certificates (or beneficial interests therein) and may be subject to revision, reduction, downgrade, suspension or withdrawal at any time by the assigning rating organisation. Whether or not each any credit rating applied for in relation to the relevant Series of Trust Certificates will be issued by a credit rating agency established in the EEA or the UK and registered under the EU CRA Regulation or the UK CRA Regulation will be disclosed in the applicable Pricing Supplement.

Certificateholder Meetings

A summary of the provisions for convening meetings of Certificateholders to consider matters relating to their interests as such is set out in Condition 18 (*Meetings of Certificateholders; Modification*).

Listing and Admission to trading

Application has been made to: (i) London Stock Exchange for the Trust Certificates issued under the Programme to be admitted to trading on the ISM during the period of 12 months after the date hereof; and (ii) the DFSA for the Trust Certificates issued under the Programme to be admitted to listing on the DFSA Official List and to Nasdaq Dubai for Trust Certificates issued under the Programme to be admitted to trading on Nasdaq Dubai.

Trust Certificates may be listed or admitted to trading, as the case may be, on other or further stock exchanges or markets agreed between the Trustee, Arada and the relevant Dealer(s) in relation to the relevant Series. Trust Certificates which are neither listed nor admitted to trading on any market may also be issued.

The applicable Pricing Supplement will state whether or not the relevant Trust Certificates are to be listed and/or admitted to trading and, if so, on which stock exchanges and/or markets.

Governing Law and Dispute Resolution

The Trust Certificates shall be governed by, and construed in accordance with, English law.

The Master Declaration of Trust, each Supplemental Declaration of Trust, the Dealer Agreement, each Subscription Agreement, the Agency Agreement, the Master Murabaha Agreement, the Servicing Agency Agreement, the Purchase Undertaking and the Sale and Substitution Undertaking and any non-contractual obligations arising out of or in connection with any such Transaction Document, shall be governed by and construed in accordance with English law. In respect of any dispute under any such Transaction Document to which it is a party, Arada has agreed to arbitration in London under the rules of arbitration of the London Court of International Arbitration (the "LCIA") (with the seat in London). Arada has also agreed to submit to the exclusive jurisdiction of the courts of England at the option of the Trustee or the Delegate (as the case may be), in respect of any dispute under any such Transaction

Document (subject to the right of the Delegate or the Trustee (as the case may be) to require any dispute to be resolved by any other court of competent jurisdiction).

The Master Purchase Agreement, each Supplemental Purchase Agreement, the Title Agency Agreement, the Master Lease Agreement, each Supplemental Lease Agreement and each Sale Agreement will be governed by the laws of the Emirate of Sharjah and, to the extent applicable in the Emirate of Sharjah, the federal laws of the UAE, and will be subject to the exclusive jurisdiction of the Sharjah courts, subject to the right of the Trustee or the Delegate (as the case may be) to require any dispute to be resolved by any other court of competent jurisdiction.

Waiver of Immunity

Arada has agreed in the Transaction Documents to which it is a party that to the extent that it may claim, in any jurisdiction, for itself or its assets or revenues immunity from suit, execution, attachment (whether in aid of execution, before judgment or otherwise) or other legal process and to the extent that such immunity (whether or not claimed) may be attributed in any jurisdiction to it or its assets or revenues, it shall not claim and irrevocably and unconditionally waives such immunity to the fullest extent permitted by the laws of such jurisdiction in relation to any proceedings or disputes.

Limited Recourse

Each Trust Certificate represents solely an undivided ownership interest in the Trust Assets of the relevant Series. No payment of any amount whatsoever shall be made in respect of the Trust Certificates of each Series except to the extent that funds for that purpose are available for the Trust Assets of that Series, as described in Condition 4 (*Status and Limited Recourse*).

Selling Restrictions

There are restrictions on the distribution of this Base Offering Circular and the offer, sale and transfer of Trust Certificates in the United States, the UK, the EEA, the Kingdom of Bahrain, the Sultanate of Oman, the Kingdom of Saudi Arabia, the State of Qatar (including the Qatar Financial Centre), the Cayman Islands, the UAE (excluding the DIFC and the ADGM), the DIFC, the ADGM, the State of Kuwait, Hong Kong, Singapore and Malaysia and such other restrictions as may be required in connection with the offering and sale of a particular Tranche of Trust Certificates, see "*Subscription and Sale*" below.

RISK FACTORS

An investment in the Trust Certificates involves risks. Accordingly, prospective investors should carefully consider, amongst other things, the risks described below, as well as the detailed information set out elsewhere in this Base Offering Circular, and reach their own views before making an investment decision. The risks and uncertainties described below are not the only risks and uncertainties related to the Trustee, Arada and the Trust Certificates. Additional risks and uncertainties not presently known, or currently believed to be immaterial, could also impair the ability to make payments on the Trust Certificates. If any of the following risks actually materialise, the financial condition and prospects of the Trustee and/or Arada could be materially adversely affected. If that were to happen, the trading price of the Trust Certificates could decline, and investors may lose all or part of their investment. Prospective investors should also read the detailed information set out elsewhere in this Base Offering Circular and reach their own views prior to making any investment decision. Words and expression defined elsewhere in this Base Offering Circular (including in the Conditions) shall have the same meanings in this section.

Risk Factors Relating to the Trustee

Factors that may affect the Trustee's ability to fulfil its obligations under or in connection with the Trust Certificates issued under the Programme

The Trustee has limited operating history and no material assets and will depend on receipt of payments from Arada to make payments to Certificateholders

The Trustee was incorporated under the laws of the Cayman Islands on 17 October 2023 as an exempted company with limited liability. The Trustee has not and will not engage in any business activity other than the issuance of the Trust Certificates under the Programme, the acquisition of Trust Assets as described herein, acting in the capacity as Trustee, the issuance of shares in its capital and other activities incidental or related to the foregoing as required under the relevant Transaction Documents relating to each Series. Because the Trustee is a Cayman Islands company, it may not be possible for Certificateholders to effect service of process on it outside the Cayman Islands.

The Trustee's only material assets, which will be held on trust for Certificateholders, will be the Trust Assets relating to each Series of Trust Certificates, including the obligation of Arada to make payments to the Trustee under the relevant Transaction Documents to which it is a party relating to each Series. Therefore, the Trustee is subject to all the risks to which Arada is subject to the extent that such risks could limit Arada's ability to satisfy in full and on a timely basis its obligations under the Transaction Documents.

The ability of the Trustee to pay amounts due on the Trust Certificates will therefore be dependent upon receipt by the Trustee from Arada of amounts to be paid pursuant to the Transaction Documents (which may not be sufficient to meet all claims under the Trust Certificates and the Transaction Documents). As a result, the Trustee is subject to all the risks to which the Group and its business are subject, as described below, to the extent such risks could limit Arada's ability to satisfy in full and on a timely basis, its obligations under the Transaction Documents to which it is a party.

Recourse to the Trustee in respect of the Trust Certificates is limited to the Trust Assets relating to each Series; see "*Risk Factors Relating to the Trust Certificates – The Trust Certificates are limited recourse obligations*".

Risk Factors Relating to the Group's Business and Arada's Ability to Fulfil its Obligations under the Transaction Documents

The concentration of the Group's property portfolio exposes it to fluctuations in demand for residential real estate in the UAE

Almost all of the Group's developed property is located in Sharjah and all of its developed property and property under construction is located in the UAE. As an increasing number of real estate developments are launched and reach completion in the UAE, the number of residential properties available in the UAE market may exceed the demand for such properties, leading to saturation. If the UAE property market were to become saturated, or demand for residential properties in the UAE were to decline or to be lower than expected, the Group might have to sell its properties at reduced prices, or at a loss, or may not be able to sell them at all. In addition, a large portion of the Group's customers purchase properties as investments, generally with a view to selling them for profit or leasing them for rental income. Any perceived or actual

oversupply of residential properties in the UAE for sale may result in potential customers experiencing difficulty selling properties purchased from the Group, either for an expected profit or at all. In addition, any perceived or actual over supply of residential rental properties in the UAE, or a decrease in demand for rental properties, may cause rental rates to decline. This could result in a decrease in demand for the Group's properties from customers who expect to receive revenue from the part- or full-time rental of their properties.

As at 31 December 2024, the Group's sales backlog (determined as the value of units that have been sold but not yet recognised as revenue under IFRS) was AED 9,146.3 million (compared to AED 8,016.2 million as at 31 December 2023)¹. The Group delivered 1,394 residential units in 2024 and is scheduled to deliver 1,149 residential units during 2025. There can be no assurance that the Group's sales backlog will be realised or that there is sufficient demand in the UAE residential real estate market to absorb all of the residential units that the Group will deliver at the prices it anticipates or at all. As the Group's revenue is currently derived almost entirely from the sale of residential units in Sharjah, any adverse change in demand for residential units for the reasons set out above or otherwise could have a material adverse effect on the Group's business, financial condition and results of operations.

All of the Group's completed projects are located in Sharjah and all of its completed and under development properties are located in the UAE, and the Group's financial performance is therefore dependent on economic and political conditions in the UAE and the surrounding regions

All of the Group's completed projects are located in Sharjah and all of its developed property and property under construction is located in the UAE. Consequently, the Group's business, results of operations and financial condition could be adversely affected by changes in economic, political or social conditions in Sharjah, the UAE and the surrounding regions.

The UAE, as well as many of the GCC countries from which the Group sources its customers, depend in particular on revenue from oil and oil products, the prices of which were materially adversely affected in 2020 and have generally been volatile, principally as a result of the global outbreak of coronavirus in 2020 (the "**COVID-19 pandemic**"), the escalation of the Russo-Ukrainian war in February 2022 (the "**Russo-Ukrainian War**") and the escalation of the Israel-Hamas war in October 2023. In addition, the economies of the UAE and Sharjah are heavily dependent upon expatriate workers, who have also historically constituted a significant portion of Arada's customers. If the economies of the UAE or Sharjah suffer another decline, or if government intervention fails to support or otherwise restricts or limits the economic growth of the expatriate or general real estate investment community in the UAE or Sharjah, the Group's business, results of operations and financial condition could be adversely affected.

The property and construction markets in the UAE are affected by macroeconomic factors that are beyond the Group's control, such as real estate market conditions generally, changes in interest/profit rates, consumer spending, inflation rates, real estate taxes, and the availability and cost of financing.

The real estate markets in the UAE have also experienced significant levels of volatility following the global financial crisis. There can be no assurance that the current demand and pricing levels for real estate in the UAE will persist. In addition, the governments of a number of emirates in the UAE have incurred significant deficits and reduced their development expenditure in light of the COVID-19 pandemic and any failure to reduce the deficits and resume previous levels of development expenditure in future years could generate a negative perception of the UAE's development prospects generally and its real estate markets in particular. Any resulting decrease in demand or pricing could cause the Group's financial performance to deteriorate.

Since 2011, the MENA region has experienced (and in some cases, is still experiencing) increased levels of political instability, civil unrest, violence and armed conflict. This has ranged from public demonstrations to terrorist acts and armed conflict and has given rise to increased political uncertainty across the region. These situations have caused significant disruptions to the economies of affected countries and have had a destabilising effect on international oil and gas prices. For example, beginning in October 2023, Israel and Hamas have been involved in a serious and escalating armed conflict. A sharp escalation of the conflict has brought Israel into direct conflict with Iran and led to the involvement of other countries in the conflict, including the United States. The Israel-Hamas war and the wider conflict in the Middle East could materially increase oil prices and decrease global growth as well as further global economic consequences,

¹ See "*Presentation of Financial and Other Information – Presentation of Financial Information – Sales Backlog*". The Group's sales backlog excluding sales at W Residences and Anantara was AED 8,199.1 million as at 31 December 2024.

including but not limited to the possibility of severely diminished liquidity and credit availability, declines in consumer confidence, scarcity in certain raw materials and products, declines in economic growth, increases in inflation rates and uncertainty about economic and political stability. The involvement of the Houthis rebels in Yemen has also disrupted a key global shipping route, increasing the cost of global shipping. Although the length and impact of the ongoing conflict is unpredictable, the conflict in Gaza and the wider conflict in the Middle East could lead to market disruptions, including significant volatility in commodity prices, credit and capital markets, increased construction costs and decreased demand for residential units.

Continuing instability and unrest in the MENA region may significantly affect the UAE and Sharjah. Although the UAE has not been directly affected by the unrest in the MENA region to date, it is unclear what impact this unrest could have on the regional economy, levels of foreign direct investment in the UAE and the UAE's attractiveness as a residential destination. The occurrence of any or all of these factors could have a material adverse effect on the Group's business, results of operations and financial condition.

The continued success of the Group's business is dependent in part upon the wealth of domestic and international investors, as well as the continued appeal of Sharjah and the UAE as real estate investment markets

The Group's business is dependent on the levels of disposable income and investment capital of individuals in the UAE who accounted for 8.5 per cent. of its sales of residential units by value in 2023 and 13.8 per cent. in 2024. In addition, the Group benefits from a strong base of repeat customers, who in 2024, purchased 468 of its residential units and accounted for 28.6 per cent. of its sales of residential units by value in that year (compared to 779 residential units being 27.6 per cent. of sales in 2023). The wealth of these individuals is affected, in part, by the performance of the international real estate, financial and consumer markets, and the deployment of their disposable income is affected by a variety of factors, including alternative investment opportunities and returns, the availability of financing, including mortgages, as well as foreign currency exposure, interest/profit rates, inflation and tax rates. Any factors that adversely affect the wealth of residential real estate investors and/or the desirability of the UAE real estate market as an investment outlet for domestic and international investors could have a material adverse effect on the Group's business, financial condition and results of operations.

The due diligence process that the Group undertakes in connection with new projects may not reveal all relevant facts

Before implementing a new project, the Group conducts due diligence to the extent it deems reasonable and appropriate based on the applicable facts and circumstances. The objective of the due diligence process is to identify attractive investment opportunities and to prepare a framework that may be used from the date of investment to drive operational performance and value creation. When conducting due diligence, the Group evaluates a number of important business, financial, tax, accounting, regulatory, environmental and legal issues in determining whether or not to proceed with a project. Outside consultants, including legal advisers, accountants, investment banks and industry experts, are generally involved in the due diligence process in varying degrees depending on the type of project or investment. Nevertheless, when conducting due diligence and making an assessment regarding a project, the Group can only rely on resources available to it, including, in some circumstances, third party investigations. In some cases, information cannot be verified by reference to the underlying sources to the same extent as the Group could for information produced from its own internal sources. The due diligence process may at times be subjective and the Group can offer no assurance that any due diligence investigation it carries out with respect to any project will reveal or highlight all relevant facts that may be necessary or helpful in evaluating such opportunity. Any failure by the Group to identify relevant facts through the due diligence process may mean that projected rates of return and other relevant factors considered by the Group in making investment decisions prove to be significantly inaccurate over time.

The Group's projects may be delayed, suspended, terminated or materially changed in scope, resulting in delayed recognition of revenue and damage to its reputation

There are a number of construction, financing, operating and other risks associated with property development. Due to their extensive nature, the Group's projects require considerable capital expenditure during the initial phases. The Group recognises revenue from its projects on the basis of the percentage completion of the construction process. Payments by its customers are also tied to construction milestones. Material delays in the construction process will, consequently, delay payments due from customers, as well as the revenue the Group is able to recognise. While the Group frequently experiences construction delays

in the ordinary course of business and, save in the case of the delays caused by the COVID-19 pandemic, such delays have generally been made up in subsequent stages of a project, delays can have a significant impact on the associated timing of revenue recognition, which could lead to potentially significant fluctuations in the Group's financial results on a semi-annual basis. This is particularly true with respect to high value projects where even a small delay in construction progress can result in delays in large amounts of revenue being recognised. The time taken and the costs involved to complete construction can be adversely affected by many factors, including:

- delays in obtaining all, or refusals of any, necessary zoning, land use, building, development, occupancy and other required governmental permits, licences, approvals and authorisations (including due to new regulatory frameworks);
- unforeseen engineering, environmental or geological problems;
- the Group's inability to obtain necessary financing arrangements on acceptable terms, or at all, and otherwise fund construction and capital improvements and provide any necessary performance guarantees;
- defaults by, or the bankruptcy or insolvency of, contractors and other counterparties;
- inadequate supporting infrastructure, including as a result of failure by third parties to provide utilities and transportation and other links that are necessary or desirable for the successful operation of a project;
- design or construction defects and otherwise failing to complete projects according to design specification;
- shortages of, or defective, materials and/or equipment, labour shortages, shortages of other necessary supplies and/or disputes with contractors or sub-contractors;
- increases in the cost of construction materials (for example, raw materials such as steel and other commodities common in the construction industry (the cost of which has increased in recent years as a result of logistical issues being experienced worldwide and the impact of inflation)), energy (the cost of which has also increased recently), building equipment (including, in particular, cranes), labour and/or other necessary supplies (due to rising commodity prices or inflation or otherwise);
- shortages of project managers, contractors and construction specialists, both internally and externally, to ensure that planned projects are delivered both on time and on budget;
- strikes and work stoppages or other labour disputes or disturbances affecting the Group's projects, contractors, sub-contractors or suppliers;
- the failure of contractors to meet agreed timetables, in particular with respect to more complex or technically challenging developments (for example, due to the scale, height or complex design of a development);
- adverse weather conditions, natural disasters, pandemics (such as the COVID-19 pandemic), accidents, force majeure events and/or changes in governmental priorities;
- increases in the supply of properties from competitors; and
- changes in demand trends due to, among other things, a shift in buyer preferences, a downturn in the economy, a change in the surrounding environment of the project, including the location or operation of transportation hubs or population density or otherwise.

Any of these factors could give rise to delays in the completion of construction and/or result in construction costs exceeding budgeted amounts. Projects subject to delays or cost overruns may take longer or fail to generate the revenue, cash flow and profit margins that were originally anticipated. In addition, the targeted return on the investment in the project may not be realised. There can be no assurance that the revenue that the Group is able to generate from its projects will be sufficient to cover the associated construction costs. The occurrence of any of the foregoing factors could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group's off-plan sales model exposes it to reputational risks and liabilities

The Group's business model is based on selling a significant number of its residential units "off-plan" or in the early stages of construction. The completion of a given project is dependent on a number of factors, including macroeconomic conditions, timely delivery on the part of the Group's contractors and sub-contractors and the absence of any force majeure. If a project with pre-sale commitments from customers is delayed or cancelled, customers may bring civil claims against the Group. Even where customers have no contractual right to terminate their contract with the Group and/or to demand repayment of monies paid, if the Group fails to deliver a residential unit, under UAE law, a customer may seek to claim reimbursement from the Group together with interest. In addition, the Group's projects comprise master-planned destinations, which contain amenities and conveniences such as retail areas, supermarkets, clinics and medical centres, schools and parks. If substantial parts of these amenities are delayed, cancelled or changed, customers who have acquired residential units in affected developments may not be able to enjoy the services or the overall environment which they may have expected when the project was originally launched. Delays in completion or cancellation of all or a portion of a project could also adversely affect the Group's reputation and ability to attract future customers. Any of the foregoing factors could have a material adverse effect on the Group's business, results of operations and financial condition.

Real estate valuation is inherently subjective

The Group performs valuations of its property portfolio in connection with the preparation of its annual financial statements. These valuations are conducted annually by an independent professionally qualified valuation firm with experience in property valuations in the locations and segments of the properties being valued and comply with the Appraisal and Valuation Standards published by the Royal Institution of Chartered Surveyors. The Group's property valuations provide a hypothetical value of its properties, based on the assumptions made therein which are not confirmed or investigated by the valuer or any other third party. These assumptions include, among others, special assumptions relating to the status of title, encumbrance of interests and the estimated timing of completion of infrastructure works. Any valuations of the Group's properties stated in this Base Offering Circular may exceed the value that could be obtained in connection with a concurrent sale of the properties.

The Group's properties are inherently difficult to value. Factors such as changes in regulatory requirements and applicable laws (including in relation to building and environmental regulations, taxation and planning), political conditions, the condition of financial markets and real estate markets, the financial condition of customers, potential adverse tax consequences, and interest and inflation rate fluctuations all mean that valuations are subject to uncertainty. The judgement of the Group's management and its valuers significantly impacts the determination of the value of its properties. As a result, any valuations contained in this Base Offering Circular are subject to substantial uncertainty and are made on the basis of assumptions which may not be correct. No assurance can be made that the valuations of the Group's properties will reflect actual sale prices, even where any such sale occurs shortly after the relevant valuation date. Neither should the valuations be taken as an indication of the availability of financing for the potential sale of any of the Group's properties or an indication of continuing demand for any of its properties. Significant differences between valuations and actual sales prices could have a material adverse effect on the Group's business, financial condition and results of operations.

In addition, a key component of determining the value of a property is based on the assessment by management and the valuer of real estate market conditions in the relevant jurisdiction. The UAE real estate market is in turn affected by many factors such as general economic conditions, availability of financing, interest/profit rates and other factors, including supply and demand, that are beyond the Group's control and may adversely impact projects after their most recent valuation date. As a result, any material decline in the real estate market in the UAE could have a material adverse effect on the Group's business, results of operations and financial condition.

Real estate investments are illiquid

Because real estate investments are generally illiquid, and due to the cyclical nature of real estate markets, the Group's ability to promptly sell one or more of its projects in response to changing political, economic, financial and investment conditions is limited. The real estate market is affected by many factors that are beyond the Group's control. In addition, to the extent that the Group requires third-party funding to develop its projects, the Group may be required to grant a mortgage over certain projects, or parts thereof, to secure its payment obligations, which could preclude the Group from selling such projects or affected residential units in the event of a default under such financing arrangements. There can be no assurance that the sale

of units in any of the Group's projects will be at a price which reflects the most recent valuation of the relevant project, particularly if the Group is forced to sell in adverse economic conditions. Any of these factors, alone or in combination, could have a material adverse effect on the Group's real estate portfolio, which could in turn have a material adverse effect on its business, results of operations and financial condition.

The Group faces competition in property development

The Group faces competition for the development of real estate from numerous other property developers operating in the UAE. Competition may affect the Group's ability to sell the residential units in its projects at expected prices, if at all. The Group's competitors may lower their pricing for comparable developments, which could result in downward pricing pressure. In addition, certain of the Group's competitors are supported in differing degrees by the governments of various emirates in the UAE. The Group also faces the risk that competitors may anticipate and capitalise on certain potential investment opportunities in advance of the Group doing so. Increased competition may also increase the Group's costs of financing, materials, contractors and sub-contractors. Reflecting its relatively recent incorporation, many of the Group's competitors have greater financial, technical, marketing or other resources, including in some cases significant land banks, and greater geographical diversity in their operations and, therefore, may be able to withstand increased costs, price competition and volatility more successfully. Any oversupply or increase in competition in the Group's market could have a material adverse effect on the Group's business, results of operations and financial condition.

Property developers may also consolidate to achieve economies of scale. If consolidation in the UAE real estate markets were to occur, there is a risk that the Group would have to operate in a more competitive marketplace and against larger competitors. Furthermore, given economic downturns in recent years, investors may seek to diversify their investments and re-examine the robustness of various real estate markets in the region, which may result in reduced demand for the Group's developments. These circumstances could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group's business depends on its ability to successfully develop its projects and manage its growth

The Group's business plan envisages the completion of existing projects, the launch of new projects in the UAE and Australia and the diversification of its revenue through the ownership and either operation or leasing of assets in its master-planned destinations such as schools, retail concepts, hotels and entertainment facilities (see further "*The Group's revenue diversification strategy may not be successful*").

The successful implementation of its strategy will require the Group to maintain its leadership position in the Sharjah residential real estate market and, over time, establish a strong position in the wider UAE residential real estate markets, actively managing its projects to deliver value for customers, preserving positive working relationships with its joint venture partners and other counterparties and maintaining its sound financial position. Additionally, the Group's strategy envisages expansion into jurisdictions outside of the UAE, notably into Australia where it has purchased land parcels, with initial projects launches expected in the first quarter of 2026 (see further "*Any expansion into new markets will subject the Group to various challenges including lack of familiarity with the market, difficulties in staffing and management and lack of brand recognition*").

Successful development of current and future projects will depend significantly on the Group's ability to complete milestones on time and within budget and on the availability of adequate external financing or cash in hand. As at 31 December 2024, the Group had a sales backlog of AED 9,146.3 million (compared to AED 8,016.2 million as at 31 December 2023)². The Group delivered 1,394 residential units in 2024 and expects to deliver 1,149 residential units in 2025. There can be no assurance that the Group's sales backlog will be realised in full, or that it will deliver all of the planned residential units on time or sell them at expected margins. In addition, while the Group plans to acquire additional land and launch future projects, and there can be no assurance that land will always be available at prices that are attractive to the Group or that any announced projects will be developed within the Group's expected timeframe or at all.

The Group's master-planned destinations take a substantial amount of time to complete, from the initial master planning phase to the completion of construction, and the Group's ability to make changes to its

² See "*Presentation of Financial and Other Information – Presentation of Financial Information – Sales Backlog*". The Group's sales backlog excluding sales at W Residences and Anantara was AED 8,199.1 million as at 31 December 2024.

development plans in response to changing consumer tastes and preferences is limited. While the Group's projects cover a wide range of residential property options, including villas, townhouses and mid- and high-rise apartments, with a variety of community amenities, there can be no assurance that they will remain attractive to prospective customers. In addition, the Group's communities are anchored around educational facilities, retail concepts and entertainment complexes. If these amenities are not viewed positively within the communities in which they are situated because of the existence of better facilities elsewhere in Sharjah or their mix of educational, retail, entertainment and other amenities, the attractiveness of the Group's communities to prospective purchasers could also decrease, which could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group has expanded rapidly since 2017 in terms of residential units delivered in its projects and it has ambitious plans to diversify its revenue in the coming years. Management of growth requires, among other things, the Group's continued application of stringent control over financial systems and operations, the continued development of management controls, the hiring and training of new personnel and continued access to funds to finance the growth. It also may increase costs, including the cost of recruiting, training and retaining a sufficient number of professionals and the cost of compliance arising from exposure to additional activities and jurisdictions.

These challenges will increase as the Group launches new projects and continues to expand into new businesses. As the Group expands its operations, it may become subject to legal uncertainties or regulations to which it is not currently subject or from which it is currently exempt, which may lead to greater exposure to risk or higher compliance costs. There can be no assurance that the Group's existing systems and resources will be adequate to support the growth of its operations.

The Group's revenue diversification strategy may not be successful

The Group's business activity has been focused on real estate development in the UAE and to the date of this Base Offering Circular, the Group's revenue has been almost entirely derived from the sale of residential properties developed by it. One element of the Group's strategy aims to diversify its revenue streams through the generation of revenue, recurring and one-off, both from elements of its projects and through new businesses. For example, the Group currently generates revenue from schools, retail assets, fitness centres, food trucks and farmers' markets and has launched projects which anticipate generating revenue from hotels and hospitality. For the year ended 31 December 2024, these businesses (being other revenue from contracts with customers and lease income, the majority of which was recurring revenue) together generated revenue of AED 239.6 million, equal to 6.1 per cent. of the Group's total revenue (compared to 4.6 per cent. of its total revenue in 2023).

As at the date of this Base Offering Circular, the Group had constructed and operates one school (at Aljada) with plans for three further schools (two at Aljada and one at Masaar).

As at the date of this Base Offering Circular, the Group has announced the construction of five hotels at Aljada, each of which will be owned by the Group and operated by third parties. The Group has agreed with the Emaar Hospitality Group for three of these hotels to be operated on its behalf by Emaar Hospitality. In 2024, the Group launched Anantara with Minor Hotels which includes the construction of one hotel. In 2025, the Group launched Akala which includes the construction of one hotel and serviced apartments and a further hotel at Aljada (Nest Hotel). This expansion into hospitality may subject the Group to various risks and challenges, including those relating to its lack of experience in the hospitality sector, reliance on the expertise and success of its operational partners (including risks associated with any deterioration in the relationships between the Group and these entities, any negative sentiment or publicity surrounding such brands or entities, businesses or individuals associated with such brands or any failure by these partners to achieve the level of customer satisfaction expected by the Group) and a potential lack of brand recognition and reputation in the hospitality sector.

In addition, the Group is building a portfolio of retail assets and, as at 31 December 2024, owned and leased 154 retail units, which were 95 per cent. leased as at 31 December 2024 (compared to 146 retail units which were 99 per cent. leased as at 31 December 2023). There can be no assurance that the Group will find tenants for its retail units on terms satisfactory to it and such tenants may be adversely affected by a range of risks including decreases in customer traffic, disposable income and consumer spending. Rental income and/or occupancy rates could decline if the retail sector were to deteriorate and in the event of tenant default, the Group may experience delays and costs in enforcing its rights as landlord to recover amounts due to it under the terms of its agreements with those parties.

The Group also established Wellfit in October 2020 which operated six fitness centres as at 31 December 2024 ("Wellfit") and in December 2024, the Group purchased three UAE-based gym brands (FitnGlam, The Platform Studios and FITCODE) which has increased its fitness centre portfolio to 15 as at the date of this Base Offering Circular. Furthermore, the Group operates 'Zad', a food truck concept, in Aljada and Masaar and 'Manbat', a farmers' market initiative launched in collaboration with the UAE Ministry of Climate Change and Environment. There can be no assurance that these businesses will prove successful and may be adversely affected by a range of risks including the success of its operational partners and macroeconomic risks impacting customer spending and disposable income.

Although the Group expects to increase its recurring revenue significantly over time as it constructs and leases further schools, builds more hotels, leases more retail space and develops further retail and entertainment concepts, there can be no assurance that these businesses will all prove successful or that the recurring revenue it generates will not be adversely affected by adverse economic conditions or such other factors described herein.

Any expansion into new markets will subject the Group to various challenges including lack of familiarity with the market, difficulties in staffing and management and lack of brand recognition

Although the vast majority of the Group's business activity is based in Sharjah and increasingly in other Emirates in the UAE, the Group has undertaken limited expansion geographically to Australia where it has purchased land parcels, with expected project launch in the first quarter of 2026 and may look to expand into other jurisdictions outside of the UAE. Any expansion into new markets will subject the Group to various challenges including lack of familiarity with the culture and economic conditions of any new countries; difficulties in staffing and managing such operations; lack of brand recognition and reputation in these markets; difficulties in sourcing land at competitive prices and navigating jurisdiction-specific land purchasing methods; competition with established developers; currency fluctuations; compliance with a wide range of laws, regulations and practices (including uncertainties associated with changes in laws, regulations and practices and their implementation); taxes; trade restrictions, exchange controls and currency restrictions; exposure to expropriation or other government actions; and political, economic and social instability.

Since the Group's experience in developing properties outside the UAE is limited, it may not be successful in operating in new markets and it may prove more difficult for it to capitalise on its brand recognition than expected. Any of these factors could have an adverse effect on the Group's business, results of operations or financial condition.

The Group relies on experienced third-party contractors and sub-contractors to construct its projects

All construction activities associated with the Group's projects are undertaken by third-party contractors and sub-contractors. While the Group has historically had access to experienced contractors, there can be no guarantee that it will continue to have such access in the future, or that the costs associated with hiring experienced contractors will not increase due to higher levels of competition for their services or otherwise. Furthermore, the Group's property developments are complex, and in addition to its reliance on the main contractors who oversee their construction and assist in elements of the design and planning process, the Group is also dependent on access to numerous specialist sub-contractors to complete its projects in accordance with its high standards. Accordingly, there can be no assurance that the quality of construction of the Group's completed and ongoing projects will be maintained on its future projects, particularly if the Group has difficulty accessing the specialist sub-contractors that it requires and especially in light of recent bankruptcies or defaults of contractors and sub-contractors (see further "*The Group is exposed to the risk of default by its contractors*"). Although the Group believes that it has a strong reputation for developing high quality projects, any difference in the quality of construction from project to project could adversely affect the Group's brand and have a material adverse effect on its business, results of operations or financial condition.

The Group's contractors typically provide 365-day defects protection against flaws in workmanship or failures in execution methodology for which the contractor is directly liable and generally remain liable for structural defects for a period of 10 years. The contractors are also required to provide extended warranties or manufacturer warranties on certain mechanical, electrical and plumbing equipment, which may vary from two to five years in length. The Group, in turn, typically offers its customers a one-year warranty on the workmanship in their residential unit and all extended warranties or manufacturer warranties it has received from the contractors and generally remains liable for structural defects for a period of 10 years. If a contractor defaults on its warranty or liability in relation to the correction of a workmanship-related or

structural defect which is discovered during the relevant period, the Group may not be able to locate another suitably qualified contractor to rectify the defect in a timely manner or at all and may not be able to recover the cost of any repairs from the defaulting contractor. Furthermore, if a significant number of customers encounter workmanship or structural defects and these are not rectified in a timely and satisfactory manner, the Group's reputation may be adversely affected, which could have a material adverse effect on its business, results of operations and financial condition.

The Group has experienced and may continue to experience contract prices that exceed its original budgets which may affect the profitability of its developments

Demand in the real estate development market in the UAE has intensified competition for materials, labour and specialised contractors causing upward pressure on the Group's construction costs. These cost pressures have been exacerbated by global economic and geopolitical conditions including the recent escalation of the Iran-Israel conflict and the rerouting of shipping through the Strait of Hormuz (see further "*All of the Group's completed projects are located in Sharjah and all of its completed and under development properties are located in the UAE, and the Group's financial performance is therefore dependent on economic and political conditions in the UAE and the surrounding regions*") which, if prolonged, may impact the cost of materials particularly as a result of increased energy, freight and insurance/takaful costs. If prices remain high for an extended time and the Group is unable to pass on these increases in full to its customers, this is likely to adversely affect the Group's profitability and margins in future periods, which could have a material adverse effect on its business, results of operations and financial condition.

If the Group's contractors' relationships with their employees deteriorate, the Group may be faced with labour shortages or stoppages, which could adversely affect its ability to develop its projects

The Group's projects may in the future, be impacted by strikes and work stoppages by its contractors' employees. The contractors that the Group engages for the construction of its projects source the majority of their workers from countries outside of the UAE using recruitment agencies. In recent years, the policies and practices with respect to the recruitment, compensation and treatment of construction workers in the UAE and other GCC countries has come under increased scrutiny. While the Group seeks to impose standards for the compliance with all relevant laws and regulations by its contractors through the Group's agreements with them, the treatment and status of their workers is ultimately outside of the Group's control. The Group's contractors' relations with their employees could deteriorate due to disputes related to the level of wages, accommodation or benefits or their response to changes in government regulation of workers and the workplace. In addition, changes in regulations such as more restrictive visa requirements or immigration laws relating to the employment in the UAE of unskilled labour could lead to a shortage of workers available to the Group's contractors. As the Group relies heavily on its contractors to provide a high-quality service, any labour shortage or stoppage could adversely affect the Group's ability to complete its projects on time, which could expose the Group to liability and damage its reputation and thereby could have a material adverse effect on its business, results of operations and financial condition.

The Group is exposed to the risk of default by its contractors

The market for contractors in the UAE has become increasingly difficult driven by price escalation making their existing contracts unprofitable and resulting in contractors failing to pay their employees on a timely basis (which has resulted in strikes and other forms of employee protest) and delaying payments to their suppliers. In addition, an increasing number of bond calls has impacted the affected contractors financially and resulted in their inability to perform contracted work. In mid-2021, Arabtec Construction (which is a major contractor in the MENA region) was declared bankrupt and other bankruptcies and contractor defaults may also occur.

Should one of the Group's contractors or suppliers default on its arrangements with the Group for any reason, including as a result of its bankruptcy or insolvency, or if the Group's relationship with a contractor or supplier deteriorates, the Group may not be able to find a suitably qualified replacement promptly, on similar terms or at all. In addition, any new contractor or supplier may need time to familiarise itself with the ongoing project and may also face significant challenges in obtaining the necessary supplies needed to progress the project, causing a further delay in the completion of the project. The Group may also be exposed to the risk that the alternative contractor or supplier fails to meet the Group's high standards for workmanship and quality. In addition, some contractors may require licences or permits to work for the Group and there can be no assurance that a successor contractor could be found in a timely manner with the requisite approvals and licences. If any of these events were to occur, it could affect the Group's ability

to complete the affected project, which could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group's projects may be subject to delays due to utility and road infrastructure providers' inability to provide required services and connections to its developments within project delivery times

Access to certain of the Group's projects is dependent on the completion of connecting infrastructure, such as roads and utilities for which third party government utilities and agencies are responsible. There can be no assurance that material delays in delivering the Group's projects will not occur as a result of delays in the connection of infrastructure. For example, across the UAE, the demand for electricity, water and gas has increased substantially in the past decade and may continue to increase in the future if the development and population of the UAE continues to expand. The Group's current projects may be delayed, and future projects may be hindered due to the inability of utility providers to provide the required levels of water and power generation and connections for these utilities in a timely manner. Any delays in the Group's projects, even when outside the Group's control, may adversely affect the Group's brand and reputation, as well as increase the costs associated with affected projects, and could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group's business model relies on cash from off-plan sales to substantially fund construction, and any significant decrease in the level of these sales could lead to the delay in completion or cancellation of projects

The Group finances its projects principally through borrowings/financings and internally generated cash flows that result primarily from the pre-sale of residential units. The Group may also require financing to fund land acquisitions, initial project development costs and capital expenditures and to support the ongoing development and future growth of its project portfolio.

The Group may not have sufficient capital to undertake future land acquisitions and other investments that it may deem necessary or desirable. Where presales of residential units in a particular project are insufficient to fund its completion, the Group may have to seek external financing. The Group's ability to obtain external financing and the cost of such financing are dependent on numerous factors, including general economic and capital market conditions, interest/profit rates, credit availability from banks or other lenders/financiers, investor confidence in the Group and its business focus, the success of the Group's business, provisions of tax and securities laws that may be applicable to the Group's ability to raise capital and political and economic conditions in the UAE. There can be no assurance that additional financing, either on a short-term or long-term basis, will be available or, if available, that the Group will be able to obtain such financing on favourable terms. The Group may also be required to provide security over its assets to obtain any such financing and/or agree to contractual limitations on the operations of its business. An inability to obtain additional financing on terms favourable to the Group or at all could result in defaults on existing contracts, construction delays and damage to the Group's reputation as a reliable contractual counterparty, which, in turn, could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group is exposed to the risk of customers defaulting on their purchase price instalments

The Group begins selling its projects when they are still off-plan. Upon buying a residential unit, the customer contractually agrees to pay the Group the purchase price in instalments on a pre-agreed payment schedule. The cash deposits and subsequent purchase price instalments are used to fund construction of the project. If, due to poor economic conditions, declines in property values or otherwise, a significant portion of customers were to default on paying their subsequent instalments at any particular stage in the construction of a project, the Group would be required to rely on local laws and regulations to seek to recover monies owed/to be paid, which can be a costly and time-consuming process. If the Group is unsuccessful, and is unable to obtain the relevant funds, this could jeopardise the completion of the project, which could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group's projects could be exposed to catastrophic events or acts of terrorism over which it has no control

The Group's projects could be adversely affected or disrupted by natural disasters (such as earthquakes, floods, tsunamis, hurricanes and fires) or other catastrophic events, including:

- changes to predominant natural weather, hydrologic and climatic patterns, including sea levels;
- major accidents, including chemical, radioactive or other material environmental contamination;
- major epidemics or pandemics affecting the health of persons in the MENA region and travel into the MENA region (for example, see "*The Group was adversely affected by the measures taken in response to the COVID-19 pandemic*");
- fires resulting from faulty construction materials; and/or
- criminal acts or acts of terrorism.

The occurrence of any of these events at one or more of the Group's projects, or projects in the UAE or MENA region more generally, may cause disruptions to the Group's operations, which could have a material adverse effect on its business, results of operations and financial condition. In addition, such an occurrence may increase the costs associated with the Group's projects, may subject the Group to liability or impact its brand and reputation and may otherwise hinder the normal operation of the Group's projects.

The effect of any of these events on the Group's business, financial condition and results of operations may be exacerbated to the extent that any such event involves risks for which the Group is uninsured or not fully insured.

The Group relies on its senior management team, certain employees and external sales agencies

The Group relies on its senior management for the implementation of its strategy and its day-to-day operations. The Group's continued success will depend on its ability to continue to retain and attract appropriately qualified personnel, including those with the relevant technical expertise in the real estate development sector, to operate its business. Competition for appropriately qualified technical, marketing and support personnel with the relevant expertise in the property development sector in the UAE is intense, and there can be no assurance that the Group will continue to be able to successfully recruit such personnel. Should the Group experience the loss of one or more of its key members of management or staff and be unable to replace them in a timely fashion (or at all) with other appropriately qualified and experienced individuals, this may result in (among other things): (a) a loss of organisational focus; (b) poor execution of operations and the Group's corporate strategy; and (c) an inability to identify and execute potential strategic initiatives such as future projects. These adverse results could, among other things, reduce potential revenue, expose the Group to downturns in the markets in which it operates and/or otherwise adversely affect the Group's business, results of operations and financial condition.

In addition, as at 31 December 2024, the Group contracted with approximately 1,488 sales agencies in the UAE and internationally to market its projects, and such agencies were responsible for the sales of more than 65 per cent. of the Group's residential units in 2024. The Group's arrangements with these agencies are non-exclusive and on a commission basis. Although no single agency or group of affiliated agencies accounted for more than 10 per cent. of the Group's sales in 2024, the loss of one or more of the Group's most successful third-party sales agencies could adversely affect its business.

The Group has significant capital expenditure commitments and is likely to continue to have material funding requirements and the availability of financing to the Group may be limited

The Group has incurred, and anticipates that it will in the future, continue to incur, significant capital expenditure and that it may have material funding needs in relation to particular projects or to refinance existing indebtedness/financial obligations. The Group intends to fund its future capital expenditures and its financial obligations (including Arada's obligations to pay amounts due under the Transaction Documents) principally through operating cash flows, borrowings/financings from third parties (including by way of the issue of Trust Certificates, through project financing and using committed bank funding lines) and asset sales (principally developed residential units). The availability of operating cash flow to the Group may, in certain cases, be limited. See "*The terms of the Group's current and any future financings may*

restrict it from entering into certain transactions and/or limit its ability to respond to changing market conditions" below.

The Group's ability to obtain external financing and the cost of such financing are dependent on numerous factors including general economic and market conditions, international interest/profit rates, credit availability from banks or other lenders, regulatory or central bank policy changes, investor confidence in the Group and the success of its business. There can be no assurance that external financing, either on a short-term or long-term basis and whether to fund new projects or to repay or pay existing financing, will be available or, if available, that such financing will be obtainable on terms that are not onerous to the Group.

In the event that appropriate sources of financing are not available or are only available on onerous terms and the Group does not have sufficient operating cash flow or cash generated from asset monetisation, this could adversely affect the Group's business through increased borrowing/financing costs and reductions in capital expenditure. In addition, the Group may be forced, amongst other measures, to (a) delay or reduce capital expenditures; (b) forgo business opportunities, including new projects and joint ventures; (c) sell assets on less than optimal terms; and/or (d) restructure or refinance all or a portion of its debt on or before maturity.

The terms of the Group's current and any future financings may restrict it from entering into certain transactions and/or limit its ability to respond to changing market conditions

The Group's current financing arrangements contain various covenants that limit its ability to engage in specified types of transactions, including, among other things, its ability to incur or guarantee additional financial indebtedness/financial obligations and/or grant security or create any security interests, in addition to maintaining certain financial ratios. These provisions may restrict the Group's ability to respond to adverse economic conditions, which could have a material adverse effect on its business, results of operations and financial condition.

If the Group fails to satisfy any of its debt service obligations or breaches any related financial or operating covenants, the lender could declare the full amount of the indebtedness/financial obligations to be immediately due and payable and could foreclose on any assets pledged as collateral. In the case of any borrowing/financing by the Group's joint ventures, this failure could arise through actions taken by one or more of the Group's joint venture partners. As a result, any default under any indebtedness/financial obligations to which the Group is party could result in a substantial loss to the Group.

Furthermore, if the Group obtains additional funding in the future, such funding would increase its leverage and could thereby limit its ability to (a) raise further funding or (b) react to changes in the economy or the markets in which the Group operates and/or could prevent the Group from meeting its debt/financial obligations. Additionally, incurring further debt/financial obligations could also, among other things:

- increase the Group's vulnerability to general economic and industry conditions;
- increase the risk that the Group may be unable to pay the interest, profit payments or principal on any outstanding obligations;
- require the Group to provide additional security over certain of its assets;
- require a substantial portion of cash flow from operations to be dedicated to the payment of financing costs and repayment or payment of principal on the Group's indebtedness/financial obligations, thereby reducing its ability to use its cash flow to fund its operations, capital expenditures and future business opportunities;
- restrict the Group from making strategic acquisitions or cause it to make non-strategic divestitures;
- limit the Group's ability to obtain additional financing for working capital, capital expenditures, project development, debt service requirements, acquisitions and general corporate or other purposes; and
- limit the Group's ability to adjust to changing market conditions and place it at a competitive disadvantage compared to its competitors who are less highly leveraged.

Any of the foregoing consequences could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group is required to maintain and renew numerous licences and permits to operate

The Group's operations are required to comply with numerous laws and regulations, both at the Emirati and federal level, and require the maintenance and renewal of commercial licences and permits to conduct its business from the launch of a master plan, through construction to sales and marketing. Because of the complexities involved in procuring and maintaining numerous licences and permits, as well as in ensuring continued compliance with different and sometimes inconsistent Emirati and federal licensing regimes, the Group cannot give any assurance that it will at all times be in compliance with all of the requirements imposed on each of its projects, although the Group is not aware of any material breaches that currently exist. The Group's potential failure to comply with applicable laws and regulations or to obtain and maintain requisite approvals, certifications, permits and licences, whether intentional or unintentional, could lead to substantial sanctions, including criminal, civil or administrative penalties, revocation of the Group's licences and/or increased regulatory scrutiny, and liability for damages. It could also result in contracts to which the Group is a party being deemed to be unenforceable or invalidate or increase the cost of the insurance/takaful that the Group maintains for its project portfolio. For the most serious violations, the Group could also be forced to suspend operations until it obtains the required approvals, certifications, permits or licences or otherwise bring its operations into compliance. In addition, any adverse publicity resulting from any compliance failure, particularly as regards the safety of projects, could negatively impact the Group's reputation and have a material adverse effect on its business, results of operations and financial condition.

Furthermore, changes to existing, or the introduction of new laws, regulations or licensing requirements are beyond the Group's control and may be influenced by political or commercial considerations not aligned with the Group's interests. Any such laws, regulations or licensing requirements could adversely affect the Group's business by reducing its revenue and/or increasing its operating costs, and the Group may be unable to mitigate the impact of such changes. Any of these occurrences could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group may incur unanticipated costs related to compliance with health and safety and environmental laws and regulations

The Group has adopted safety standards to comply with applicable laws and regulations, and safety requirements are contractually agreed with the Group's contractors. If the Group and/or its contractors fail to comply with the relevant standards, either or both may be liable for penalties and the Group's business and/or reputation might be materially and adversely affected.

In addition, the Group seeks to ensure that it and its contractors comply with all applicable environmental, health and safety laws. While the Group believes that it is in material compliance with such laws, there can be no assurance that it will not be subject to potential liability, including remediation obligations with respect to contaminated project sites or liability in the event of an accident at one of its projects. If an environmental liability arises in relation to, or an accident occurs at, any project owned or developed by the Group and it is not remedied, is not capable of being remedied or is required to be remedied at the Group's cost, this may have a material adverse effect on the relevant project, the Group's reputation and its business, results of operations and financial condition, either because of the cost implications for the Group or because of disruption to services provided at the relevant project. Moreover, it may result in a reduction of the value of the relevant project or affect the Group's ability to dispose of residential units in such project.

Amendments to existing laws and regulations relating to health and safety standards and the environment may impose more onerous requirements on the Group and subject its developments to more rigorous scrutiny than is currently the case. The Group's compliance with such laws or regulations may necessitate further capital expenditure or subject it to other obligations or liabilities, which could have a material adverse effect on its business, results of operations and financial condition.

The Group may not have adequate insurance/takaful to cover potential losses

Although the Group seeks to ensure that its projects are appropriately insured, no assurance can be given that any of its existing insurance/takaful policies will be sufficient to cover losses arising from certain events or will be renewed on equivalent, commercially reasonable terms or at all. In addition, given the volatility and complexity of the Group's market, certain types of risks and losses are either uninsurable or

uneconomical to insure (for example, among others, risks or losses relating to war, terrorism, geo-political climate, threats to cyber security, currency fluctuation, general economic crisis and inadequate succession planning). Furthermore, it may be difficult to identify appropriate insurance/takaful solutions to cover these risks, given the vast variety and complexity of products offered in the insurance/takaful market in recent years.

The Group's properties and business could suffer physical damage from fire or other causes, resulting in losses (including loss of future income) that may not be fully compensated by insurance/takaful. If the Group experiences an uninsured or uninsurable loss in the future or if any insurance/takaful proceeds which it receives are insufficient to repair or replace a damaged or destroyed property, the Group could incur significant capital expenditure and its business results could be materially adversely affected. The Group may also remain liable for any debt or mortgage, indebtedness or other financial obligations related to the relevant project. Any significant insurance/takaful claims in respect of incidents at any of its projects could also result in significantly increased insurance/takaful premiums or make the relevant insurance/takaful more difficult to obtain.

Where the Group experiences an insured-against event, it cannot be certain that the proceeds of insurance/takaful which it receives will fully cover its loss including, for example, in the case where a financing document provides that any insurance/takaful proceeds should be used to prepay the lenders. The Group's insurance/takaful policies may be subject to deductibles or exclusions that could materially reduce the amount that it recovers and, in certain circumstances, the policies could be void or voidable at the option of the insurer/takaful provider. In addition, the Group's insurers/takaful providers may become insolvent and therefore not be able to satisfy any claim in full or at all.

The occurrence of any of these events could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group is dependent on its IT systems, which may fail or be subject to disruption

The Group's operations are dependent on its information technology ("IT") systems, and there is a risk that these systems could fail. The Group cannot be certain that its IT systems will be able to support the volumes of online traffic it may experience. Although the Group maintains business continuity procedures and security measures in the event of IT failures or disruption, including backup IT systems for business-critical systems, these procedures and measures may not anticipate, prevent or mitigate a network failure or disruption and will not protect against an incident to the extent that there is no alternative system or backed-up data in place.

The Group's staff and its IT systems process sensitive personal customer data (including name, address, bank details and credit card details) and therefore must comply with strict data protection and privacy laws. Such laws and regulations restrict the Group's ability to collect and use personal information relating to customers and potential customers including the use of that information for marketing purposes. The Group is also at risk from cyber-crime. Whilst it has implemented procedures to ensure compliance with the relevant data protection regulations by its employees and third-party service providers, and has implemented security measures to help prevent cyber-crime, the Group remains exposed to the risk that sensitive data is wrongfully appropriated, lost or disclosed in breach of applicable regulation. In such a case, the Group could face liability under data protection laws or sanctions by card merchants. This could also result in the loss of customer goodwill and deter new customers which could materially adversely affect the Group's business, results of operations and financial condition.

The Group is exposed to interest/profit rate volatility and inflation

Interest/profit rates are highly sensitive to factors beyond the Group's control, including the interest/profit rate and other monetary policies of governments and central banks where its customers and potential customers are located and in whose currencies the Group borrows/obtains financing. If interest/profit rates increase, the Group will be obliged to pay a higher rate of return on its financing, all of which carries floating rates of return. Paying a higher rate of return on its financing would result in an increase in the Group's finance expense and may have a material adverse effect on its business, results of operations and financial condition.

Interest/profit rates may also impact the attractiveness of real estate as an investment opportunity. If interest/profit rates increase materially, investment in real estate may become less appealing as an alternative to traditional financial investment products and could also deter potential customers from

seeking mortgage financing to purchase the Group's properties, which could have a material adverse effect on the Group's business, results of operations and financial condition.

Inflation can also adversely affect the Group's business by increasing its costs for material and labour, which the Group may not be able to subsequently pass on to its customers. Consumer price inflation in the UAE was 4.8 per cent. in 2022, 1.6 per cent. in 2023 and 1.7 per cent. in 2024, according to the FCSC. In addition, inflation is often accompanied by higher interest/profit rates, which could have a negative impact on demand for the Group's properties and the cost of its financing. Should inflation or interest/profit rates continue to increase in the future, which may be likely in light of recent energy and commodity price increases, the Group's business, results of operations and financial condition could be adversely affected by (a) decreasing sales as a result of decreased spending levels; (b) increasing materials, labour and financing costs, and an inability to receive reimbursement from customers for their share of the increased expenses; (c) higher contractual obligations due to exchange rate fluctuations; and/or (d) other cost overruns.

Any infringement of the Group's trademarks and other intellectual property could materially adversely affect its business

The Group relies on brand recognition and the goodwill associated with the Arada brand and the other brands including Aljada, Masaar, ZAD, Manbat, Wellfit, Jouri Hills, Artal, Yalla, Hungry Wolves, Everwell, Nest, Reformatory Lab, Akala and Rhinotek. A deterioration of the value of the Arada brand or of any its other brands, whether due to property related issues, customer complaints, adverse publicity, legal action, third party infringements or other factors, could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group may be subject to risks associated with its joint ventures

To allow the Group to acquire land with a minimal upfront cash cost, the Group has entered a number of joint ventures whereby a third party contributes land to the joint venture project for the Group to develop. Such joint ventures may be structured as corporate joint ventures, established as joint venture companies with separate legal personality, or contractual joint ventures, by the signing of a RERA standard form development agreement. As at 31 December 2024, three of the Group's joint ventures were established as joint venture companies with separate legal personality. Since 31 December 2024 to the date of this Base Offering Circular, the Group has entered into three further joint ventures. To the extent the Group enters into these types of joint venture as it grows, co-operation and agreement with its joint venture partners on the projects to be implemented will be essential for the smooth operation and financial success of those projects and the Group's future business.

However, there is a risk that the Group's future joint venture partners may have economic or business interests or goals that are inconsistent with those of the Group, may be unable or unwilling to fulfil their obligations under the relevant joint venture or may experience financial or other difficulties. In addition, disputes with the Group's future joint venture partners could arise that may adversely affect its joint venture projects.

In addition, the Group's ability to expand in the future will continue to depend upon the availability to it of land plots, including plots provided by suitable and willing joint venture partners. The Group cannot give any assurance that it will be successful in establishing any future land plot-based joint ventures or that, once established, any such joint venture will be profitable. If a joint venture is unsuccessful, the Group may be unable to recoup its initial investment. In addition, the Group's inability to realise joint venture opportunities may result in it losing access to premium plots of land which might be developed by its competitors and/or require the Group to incur significant capital expenditure to acquire land plots in the future.

Any of these factors, alone or in combination, could adversely impact the Group's future growth.

Risk Factors Relating to the UAE, the MENA Region and Emerging Markets

The regulatory framework governing the UAE and Sharjah real estate market may be subject to change

The Group cannot predict the contents of any future legislation that is imposed or implemented by the Sharjah Real Estate Registration Department ("SRERD"), corresponding departments in other Emirates, the Sharjah Government, the governments of other relevant Emirates or the Federal Government. While many of the real estate laws and regulations recently implemented, and to be implemented in the future, are intended to improve the real estate markets in the UAE, the effects of the implementation of such laws are

often uncertain, there may be difficulties or delays in enforcing them, and there can be no assurance that such laws and regulations will not impose more onerous obligations on the Group or have a material adverse effect on its business, results of operations and financial condition.

Tax changes in the UAE may have an adverse effect on the Group

In 2022, the UAE introduced a corporate income tax ("CIT") on business profits (Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (the "CIT Law")) with effect from 1 June 2023.

During 2023, the UAE Cabinet of Ministers confirmed that a rate of 9 per cent. will apply to taxable income exceeding AED 375,000. For the Group, current tax is accounted for as appropriate in the consolidated financial statements for the period beginning 1 January 2024. For the year ended 31 December 2024, the Group's income tax expense amounted to AED 53.6 million. However, the implementation of tax regimes or the amendment of existing tax regimes in the UAE may have a material adverse effect on the Group's business, results of operations and financial condition and if the UAE authorities impose new tax regimes on the Group in addition to the CIT or introduce any other changes in tax laws which made doing business in the UAE less attractive, this may have a material adverse effect on the Group's business, results of operations and financial condition.

Investments in emerging markets are subject to greater risks than more developed markets, including significant political, social and economic risks

Almost all of the Group's operations and assets are located in the UAE. While the UAE has historically not been affected by political instability, there is no assurance that any political, social, economic and market conditions affecting the MENA region generally (as well as outside the MENA region because of interrelationships within the global financial markets) would not have a material adverse effect on the Group's business, results of operations and financial condition.

Specific risks in the UAE and the MENA region that may have a material impact on the Group's business, results of operations and financial condition include:

- an increase in inflation and the cost of living;
- a devaluation in the dirham or any other currency which has an impact on the Group's business;
- external acts of warfare and civil clashes or other hostilities involving nations in the region;
- governmental actions or interventions, including tariffs, protectionism and subsidies;
- difficulties and delays in obtaining governmental or other approvals, new permits and consents for the Group's operations or renewing existing ones;
- potential lack of transparency or reliability as to title to real property;
- cancellation of contractual rights;
- lack of infrastructure;
- expropriation or nationalisation of assets;
- inability to repatriate profits and/or dividends;
- continued regional political instability and unrest, including government or military regime change, riots or other forms of civil disturbance or violence, including through acts of terrorism which could adversely affect the UAE economy;
- military strikes or the outbreak of war or other hostilities involving nations in the region;
- a material curtailment of the industrial and economic infrastructure development that is currently underway across the MENA region;

- increased government regulations, or adverse governmental activities, with respect to price, import and export controls, the environment, customs and immigration, capital transfers, foreign exchange and currency controls, labour policies, land and water use and foreign ownership;
- changing tax regimes, including the imposition of taxes in currently tax favourable jurisdictions, including the UAE;
- arbitrary, inconsistent or unlawful government action, including capricious application of tax laws and selective tax audits;
- limited availability of capital or debt financing; and
- slowing regional and global economic environment.

Any unexpected changes in the political, social, economic or other conditions in the UAE or its neighbouring countries may have a material adverse effect on the Group's business, results of operations and financial condition. It is not possible to predict the occurrence of events or circumstances such as or similar to those outlined above or the impact of such occurrences and no assurance can be given that the Group would be able to sustain its current profit levels if such events or circumstances were to occur.

Investors should also be aware that emerging markets are subject to greater risks than more developed markets, including in some cases significant legal, economic and political risks. Accordingly, investors should exercise particular care in evaluating the risks involved and must decide for themselves whether, in light of those risks, their investment is appropriate. Generally, investment in developing markets is only suitable for sophisticated investors who fully appreciate the significance of the risks involved.

Legal and regulatory systems may create an uncertain environment for investment and business activities

The UAE's institutions and legal and regulatory systems are not yet as fully matured and as established as those of Western Europe and the United States. Existing laws and regulations may be applied inconsistently with anomalies in their interpretation or implementation. Such anomalies could affect the Group's ability to enforce its rights under its contracts or to defend its business against claims by others. Changes in the UAE legal and regulatory environment, including in the ability of non-UAE residents to own property, in zoning, planning or construction regulations or building codes, in labour, welfare or benefit policies or in tax regulations could have a material impact on the Group's business, financial condition and results of operations.

UAE visa legislation may have an adverse effect on the Group's business

A federal decision No. 281 of 2009 issued by the Minister of the Interior in May 2009 (the "**Visa Resolution**"), which came into effect on 1 June 2009, standardised the terms of residency permits issued to expatriate residential property owners across the UAE. The Visa Resolution allows expatriate property owners to apply for renewable multiple-entry visas with a validity of six months. The residency permit does not entitle the holder to work in the UAE and is in effect a long-term visit visa. In order to successfully apply for the new permit, expatriate property owners must satisfy certain criteria, including a minimum property valuation of at least AED 1 million, earning thresholds and the maintenance of appropriate insurance/takaful. While the Visa Resolution was passed with the intention of standardising the previous rules and stimulating the domestic real estate market, it is not possible to assess whether the Visa Resolution has had a positive or negative effect on levels of foreign investment in the UAE residential property market. The UAE federal government has introduced other new visa measures to make the UAE more appealing to investors, entrepreneurs, skilled personnel and outstanding students, including the 10-year 'Golden' visa. However, any restrictive changes to the UAE's visa policies in the future may discourage foreign nationals from investing in property in the UAE, which would have an adverse effect on the Group's business, results of operations and financial condition.

Risk Factors Relating to the Wakala Assets

Limitations relating to the indemnity provisions under the Purchase Undertaking and the Master Declaration of Trust

Arada has undertaken in the Purchase Undertaking and the Master Declaration of Trust that:

- (i) if, at the time of delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking, Arada remains in actual or constructive possession, custody or control of all or any part of the Wakala Assets, the Certificateholder Put Right Wakala Assets, the Tangibility Event Certificateholder Put Right Wakala Assets or the Change of Control Put Right Wakala Assets (each as defined in the Purchase Undertaking), as the case may be; and
- (ii) if, following delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking, the relevant Exercise Price, the Certificateholder Put Right Exercise Price, the Tangibility Event Certificateholder Put Right Exercise Price or the Change of Control Exercise Price, as the case may be, is not paid in accordance with the provisions of the Purchase Undertaking for any reason whatsoever,

Arada shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Trust Certificates then outstanding or the Certificateholder Put Right Trust Certificates, the Tangibility Event Certificateholder Put Right Trust Certificates or the Change of Control Put Right Trust Certificates (each as defined in the Purchase Undertaking), as the case may be, and, accordingly, the amount payable under any such indemnity claim will equal the Exercise Price, the Certificateholder Put Right Exercise Price, the Tangibility Event Certificateholder Put Right Exercise Price or the Change of Control Exercise Price, as the case may be (and payment of such amount shall evidence the acceptance and conclusion of the purchase, transfer and conveyance of all of the Trustee's rights, title, interests, benefits and entitlements in, to and under the relevant Wakala Asset(s), the Certificateholder Put Right Wakala Asset(s), the Change of Control Put Right Wakala Asset(s) or the Tangibility Event Certificateholder Put Right Wakala Asset(s), as the case may be, to Arada).

Subject to the satisfaction of the conditions in (i) and (ii) as described above, if Arada fails to pay the Exercise Price, the Certificateholder Put Right Exercise Price, the Tangibility Event Certificateholder Put Right Exercise Price or the Change of Control Exercise Price, as the case may be, in accordance with the Purchase Undertaking, the Delegate (on behalf of the Certificateholders) may, subject to the matters set out in Condition 15 (*Dissolution Events*) and the terms of the Master Declaration of Trust, seek to enforce, *inter alia*, the provisions of the Purchase Undertaking and the Master Declaration of Trust against Arada by commencing legal or arbitral proceedings.

However, investors should note that, in the event that Arada does not remain in actual or constructive possession, custody or control of any part of the Wakala Assets, the Certificateholder Put Right Wakala Assets, the Tangibility Event Certificateholder Put Right Wakala Assets or the Change of Control Put Right Wakala Assets, as the case may be, at the time of delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking, the condition in (i) as described above will not be satisfied and, therefore, no amounts will be payable by Arada under the separate indemnity provisions. For the avoidance of doubt, no investigation has been or will be made by the Trustee, the Arrangers, the Dealers or the Delegate as to whether Arada has or will continue to have actual or constructive possession, custody or control of any Wakala Assets.

In such event, the Trustee shall be entitled to exercise the Right to Register (as defined below), subject to approval of such exercise pursuant to an Extraordinary Resolution. See "*Risk Factors Relating to the Wakala Assets – Limitations Relating to the Right to Register*".

Limitations relating to the Right to Register

Pursuant to the Title Agency Agreement, Arada has irrevocably and unconditionally authorised the Trustee to, as soon as is practicable, register the Wakala Asset(s) in the name of the Trustee or its nominee, agent, delegate or assignee at the Sharjah Real Estate Registration Department, in the event that:

- (i) Arada has failed to purchase the Wakala Asset(s) in accordance with the terms of the Purchase Undertaking following an exercise by the Trustee of the rights granted to it under of clause 2.1.1 or 2.1.2 of the Purchase Undertaking and as a result has failed to pay the Exercise Price on the Dissolution Event Redemption Date or, as the case may be, the Payment Business Day immediately preceding the Scheduled Dissolution Date (each an "**Exercise Price Payment Date**"); and
- (ii) on the relevant Exercise Price Payment Date, immediately following such failure by Arada to purchase the Wakala Asset(s), the Trustee is unable to make a claim under the indemnity contained in clause 2.2.4 of the Purchase Undertaking for an amount equal to the relevant Exercise Price as a

result of Arada failing to be in actual or constructive possession, custody or control of all of the Wakala Asset(s) or otherwise claiming that it is not in actual or constructive possession, custody or control of any of the Wakala Asset(s),

provided that, at the relevant time: (1) it is possible to so register the Wakala Asset(s) under all applicable laws; and (2) a Total Loss Event has not occurred and is continuing (the "**Right to Register**").

However, investors should note that, the exercise of the Right to Register may be limited by a number of factors, including:

- (a) the legal framework and regulations governing real estate ownership in Sharjah may impose restrictions on non-UAE entities or persons being able to hold a freehold title to real estate assets located in Sharjah. Accordingly, should the Right to Register be exercised, the Trustee may not be legally able to register the title to the relevant Wakala Asset(s) in its name at the Sharjah Real Estate Registration Department (pursuant to the Title Agency Agreement the Trustee may also select a nominee for this purpose);
- (b) Arada has undertaken in the Title Agency Agreement to do all acts or things as may be reasonably requested by the Trustee or required by applicable law to implement the intended purpose of the Title Agency Agreement or otherwise to preserve or enforce the Trustee's rights under the Title Agency Agreement. However, since the Right to Register shall arise where Arada has failed to pay the relevant Exercise Price on the due date, there can be no assurance that Arada (or any of its subsidiaries) will comply with such obligation and co-operate or otherwise assist with the exercise of the Right to Register (including, without limitation, participating in proceedings at the Sharjah Real Estate Registration Department);
- (c) the exercise of the Right to Register is subject to any bankruptcy, insolvency, composition, liquidation, administration, moratorium, reorganisation or similar laws affecting the rights of creditors and/or secured creditors in Sharjah and/or the UAE. For instance, in such circumstances, there may be a moratorium on Arada's and/or its subsidiaries' assets (including the relevant Wakala Asset(s)). Similarly, the Right to Register may be challenged by other creditors of Arada and/or its subsidiaries and/or an insolvency administrator may determine that the Trustee and/or the Certificateholders are not creditors whose claims are preferred by the applicable bankruptcy and insolvency laws. Accordingly, the Trustee may not be legally able to register the title to the relevant Wakala Asset(s) in its name at the Sharjah Real Estate Registration Department; and
- (d) if the Right to Register is exercised, several obligations may arise in respect of the relevant Wakala Asset(s), including: (1) disclosure requirements in respect of the assets (including regulatory disclosure obligations); (2) requirement to appoint legal advisers, financial advisers and/or valuers in respect of the valuation and transfer of the assets; and (3) process and cost of registration of the assets. Such obligations may be complex, time-consuming and costly. There can be no assurance that Arada (or any of its subsidiaries) will be willing or able to cooperate with the relevant parties and the Certificateholders in respect of such obligations.

If the Right to Register becomes exercisable but is not capable of being exercised (including for the foregoing reasons and whether at the option of the Certificateholders or otherwise), the Certificateholders may be required to establish that there has been a breach of contract by Arada and to prove for damages. Such breach of contract may be due to: (i) a breach by Arada of the requirement to purchase the Trustee's rights, title, interests, benefits and entitlements, present and future, in, to and under the Wakala Assets on the relevant Dissolution Date pursuant to the provisions of the Purchase Undertaking; and/or (ii) a breach by Arada (acting in its capacity as Service Agent) of its undertaking to maintain actual or constructive possession, custody or control of any part of the Wakala Assets.

If the Right to Register becomes exercisable and is exercised, there can be no assurance that any proceeds realised from the disposition of the relevant Wakala Assets following such exercise will be equal to or more than the relevant Exercise Price. Arada has undertaken in the Master Declaration of Trust that, if the Right to Register is exercisable by the Trustee and such right is exercised, Arada shall be in breach of its obligation under the Purchase Undertaking to purchase, and accept the transfer and conveyance of, all of the Trustee's rights, title, interests, benefits and entitlements in, to and under the Wakala Asset(s) of the relevant Series at the Exercise Price specified in the relevant Exercise Notice, whereupon Arada shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Trust Certificates then outstanding, provided that the amount payable under any such

indemnity claim shall not exceed the difference between: (i) any proceeds realised from the disposition of the relevant Wakala Assets following the exercise of the Right to Register; and (ii) the relevant Purchase Price. Accordingly, investors may not be entitled to recover the full Exercise Price.

As a result, the Certificateholders may not be able to recover, or may face significant challenges in recovering, an amount equal to the relevant Exercise Price and, in turn, the amount payable to them upon redemption.

Ownership of the Assets and Additional Assets

In order to comply with the requirements of *Shari'a*, an ownership interest in the Assets and the Additional Assets (if any) should pass to the Trustee under the Master Purchase Agreement, as supplemented by the relevant Supplemental Purchase Agreement (together, the "**Purchase Agreement**"). The Trustee will declare a trust in respect of the Trust Assets in favour of the Certificateholders of the relevant Series pursuant to the Master Declaration of Trust, as supplemented by the relevant Supplemental Declaration of Trust. Accordingly, from a *Shari'a* perspective, Certificateholders should, through the ownership interest obtained by the Trustee pursuant to the terms of the Purchase Agreement, have an undivided ownership interest in the relevant Assets and Additional Assets (if any).

Limited investigation or enquiry will be made and limited due diligence will be conducted in respect of any Assets and Additional Assets (if any). The Assets and Additional Assets (if any) will be selected by Arada, and none of the Certificateholders, the Trustee, the Arrangers, the Dealers, the Delegate and the Agents will have the ability to influence such selection. Only limited representations will be obtained from the Sellers and Arada in respect of the Assets and Additional Assets (if any).

Although Arada has undertaken in the Title Agency Agreement to do all acts or things as may be reasonably requested by the Trustee or required by applicable law to implement the intended purpose of the Master Purchase Agreement or otherwise to preserve or enforce the Trustee's rights under the Master Purchase Agreement, Arada and the Trustee have agreed and acknowledged in the Title Agency Agreement that, except where the Right to Register arises, the title to the Wakala Asset(s) is not intended to be registered (to the extent registrable) in the name of the Trustee and Arada (or its relevant subsidiary) shall (in its capacity as agent of the Trustee) hold the registered title to the relevant Wakala Asset(s) for and on behalf of the Trustee (on behalf of and for the benefit of the relevant Certificateholders). Arada and the Trustee have also agreed that this will not affect the rights and obligations of any party under the Title Agency Agreement, Master Purchase Agreement and the relevant Supplemental Purchase Agreement, any sale agreement entered into pursuant to the Purchase Undertaking or the Sale and Substitution Undertaking and/or any purchase agreement entered into in accordance with the terms of the Servicing Agency Agreement, including, without limitation, the right of ownership, and the associated risks and benefits, from a *Shari'a* perspective of the Trustee to the Wakala Asset(s) under such documents which shall pass to the Trustee at the time of the relevant sale. Therefore, unless the Right to Register is exercised (as to which, see "*Risk Factors Relating to the Wakala Assets – Limitations Relating to the Right to Register*"), the Certificateholders may not have any enforceable claim to any Assets or Additional Assets.

Transfer, possession, custody or control of the Wakala Assets

Limited investigation has been or will be made by Arada, the Trustee, the Arrangers, the Dealers or the Delegate as to whether any legal interest in any Wakala Assets may be transferred as a matter of the law of the jurisdiction where such assets are located or any other relevant law and no investigation has been or will be made by the Trustee, the Arrangers, the Dealers or the Delegate as to whether Arada is in actual or constructive possession, custody or control of any Wakala Assets.

The occurrence of a Loss Event could result in the Trust Certificates being redeemed early

If a Partial Loss Event occurs with respect to the Lease Assets of a Series, the Lessee may, within 30 days after the Partial Loss Event (and provided that the relevant Lease Assets have not already been replaced in accordance with the Servicing Agency Agreement), deliver to the Lessor a Partial Loss Termination Notice, pursuant to which the Lease shall terminate on the 61st day after the date of the Partial Loss Event. If the Lessee does not serve a termination notice within 30 days after the Partial Loss Event and the relevant Lease Assets have not been replaced within 60 days after the date of the Partial Loss Event, the Lease shall automatically terminate on the 61st day after the Partial Loss Event occurred and such termination of the Lease in either of the circumstances set out in this paragraph shall constitute an Arada Event, following

which the Trust Certificates of the relevant Series may be redeemed in full in accordance with the Conditions.

Upon the occurrence of a Total Loss Event, the Lease (if applicable) shall terminate and unless the Wakala Asset(s) is/are replaced as provided in the Servicing Agency Agreement by no later than the 60th day after the occurrence of the Total Loss Event, the Trust Certificates shall be redeemed in full by no later than the close of business in London on the 61st day after the occurrence of the Total Loss Event (or, if such date is not a Payment Business Day, on the immediately following Payment Business Day). If, following the occurrence of a Total Loss Event, the Wakala Asset(s) is/are replaced as provided in the Servicing Agency Agreement and (if applicable) a Lease Asset(s) Amendment Agreement is entered into, the Trust Certificates of the relevant Series shall not be redeemed early as a result of the relevant Total Loss Event and Certificateholders will receive profit that would have otherwise accrued (had a Total Loss Event not occurred) only on the next Periodic Distribution Date following the acquisition of Replacement Wakala Asset(s).

In such event, Certificateholders should note that, in circumstances where a Periodic Distribution Date falls on a day after the occurrence of a Total Loss Event but before the date on which Replacement Wakala Assets are acquired by the Trustee (if any), they will receive, on such Periodic Distribution Date, only part of the Periodic Distribution Amounts that would have otherwise been due to them. However, the amount of profit payable on the first Periodic Distribution Date following the acquisition of the Replacement Wakala Asset(s) shall be increased to include the amount of profit that would have accrued prior to the Replacement Date had such Total Loss Event not occurred and, accordingly, the Certificateholders will receive the Periodic Distribution Amounts that would have otherwise accrued (had a Total Loss Event not occurred) on the next Periodic Distribution Date following the acquisition of such Replacement Wakala Assets by the Trustee, or, if earlier, on the date on which the Trust Certificates are dissolved in accordance with the Conditions.

The occurrence of certain events may have a significant adverse effect on the liquidity and market value of the Trust Certificates

Following the occurrence of a Tangibility Event, the Certificateholders will be promptly notified: (i) that a Tangibility Event has occurred, together with an explanation of the reasons for, and evidence of, such occurrence; (ii) that, as determined in consultation with the *Shari'a* Adviser, the Trust Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); (iii) that, on the date falling 15 days following the Tangibility Event Put Right Date, the Trust Certificates will be delisted from any stock exchange on which the Trust Certificates have been admitted to trading or if such date is not a business day, the next following business day (business day being, for this purpose, a day on which the stock exchange on which the Certificates are admitted to trading is open for business); and (iv) the Tangibility Event Put Period, during which period any Certificateholder shall have the option to require the redemption of all or any of its Trust Certificates. Upon receipt of such notice, the Certificateholders may elect, within the Tangibility Event Put Period, for all or any of their Trust Certificates to be redeemed in accordance with the Conditions.

Similarly: (a) if, as a result of a Partial Loss Event or a Lease Asset(s) Total Loss Event that is not also a Total Loss Event, the ratio of (1) the Value of the Wakala Asset(s) (which for this purpose shall exclude any Wakala Asset(s) that are the subject of such Partial Loss Event or Lease Asset(s) Total Loss Event), to (2) the aggregate Value of the Wakala Asset(s) and, if applicable, the aggregate amounts of Deferred Sale Price then outstanding falls below 33 per cent.; or (b) following the occurrence of a Total Loss Event, the Servicing Agent shall promptly, upon becoming aware of any such occurrence, notify the Trustee, and upon such notification, the Trustee shall promptly deliver a notice to the Certificateholders specifying: (x) the occurrence of such event; (y) that from the date of such notice to the Certificateholders, and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, stating otherwise, the Trust Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (z) that, on the date of such notice to the Certificateholders an application will be made for the Trust Certificates to be delisted from any stock exchange (if any) on which such Trust Certificates have been admitted to trading or if such date is not a business day, on the next following business day (business day being, for this purpose, a day on which the stock exchange on which the Certificates are admitted to trading is open for business). Following a replacement of the relevant Wakala Asset(s), the Servicing Agent shall notify the Trustee and the Delegate of the same and the Trustee shall promptly, following receipt of such notice from the Servicing Agent and in consultation with the *Shari'a* Adviser, deliver a notice to the relevant

Certificateholders from the date of that notice the Trust Certificates may be traded at any price the Trust Certificates shall be re-listed, as soon as reasonably practicable, on the stock exchange (if any) on which the Trust Certificates had previously been admitted to trading.

The occurrence of any of the foregoing events may have a significant adverse effect on the liquidity and market value of the Trust Certificates.

Risk Factors Relating to the Trust Certificates

The Trust Certificates are limited recourse obligations

The Trust Certificates are not debt obligations of the Trustee. Instead, the Trust Certificates represent an undivided ownership interest solely in the Trust Assets. Recourse to the Trustee in respect of the Trust Certificates is limited to the Trust Assets and the proceeds of such Trust Assets are the sole source of payments on the Trust Certificates. Upon the occurrence of a Dissolution Event, the sole rights of each of the Delegate and, through the Delegate, the Certificateholders, will be against Arada to perform its obligations under the Transaction Documents to which it is a party. Certificateholders will have no recourse to any assets of the Trustee or Arada in respect of any shortfall in the expected amounts due under the Trust Assets. Arada is obliged to make certain payments under the Transaction Documents to which it is a party directly to the Trustee, and the Delegate will have recourse against Arada to recover such payments due to the Trustee pursuant to the Transaction Documents to which it is a party. In the absence of default by the Delegate, investors have no recourse to Arada and there is no assurance that the net proceeds of any enforcement action with respect to the Trust Assets (which, as described above, will be by way of enforcing each of Arada's and the Trustee's respective obligations under the Transaction Documents to which they are a party) will be sufficient to make all payments due in respect of the Trust Certificates. After enforcing the rights in respect of the Trust Assets (in the manner described above) and distributing the net proceeds of such Trust Assets in accordance with Condition 6.2 (*Application of Proceeds from the Trust Assets*), the obligations of the Trustee in respect of the Trust Certificates shall be satisfied and neither the Delegate nor any Certificateholder may take any further steps against the Trustee to recover any further sums in respect of the Trust Certificates and the right to receive any such sums unpaid shall be extinguished. Furthermore, under no circumstances shall the Trustee, the Delegate or any Certificateholder have any right to cause the sale or other disposition of any of the Trust Assets except pursuant to the Transaction Documents. The sole right of the Trustee, the Delegate and the Certificateholders against Arada shall be to enforce the obligation of Arada under the Transaction Documents to which it is a party.

Consents to variation of the Conditions, the Trust Certificates and the Transaction Documents

The Conditions, the Trust Certificates, the provisions of the Declaration of Trust or any other Transaction Document can only be amended by the Trustee and Arada with the prior written consent of the Delegate. The Delegate may agree, without the consent of the Certificateholders, to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the Conditions, the Trust Certificates, the Declaration of Trust or any other Transaction Document or determine, without any such consent or sanction as aforesaid, that any Dissolution Event shall not be treated as such, if, in the opinion of the Delegate:

- (a) such modification is of a formal, minor or technical nature; or
- (b) such modification is made to correct a manifest error; or
- (c) such modification, waiver, authorisation or determination is not, in the sole opinion of the Delegate, materially prejudicial to the interests of Certificateholders and is other than in respect of a Reserved Matter,

provided that, in the case of (c) above, no such modification, waiver, authorisation or determination may be made in contravention of any express direction by Extraordinary Resolution or request in writing by the holders of at least 25 per cent. of the outstanding aggregate face amount of Trust Certificates of the relevant Series.

Any such modification, waiver, authorisation or determination may be made on such terms and subject to such conditions (if any) as the Delegate may determine, shall be binding upon the Certificateholders and shall as soon as practicable thereafter be notified by the Trustee to Certificateholders in accordance with

Condition 18 (*Notices*). Further, any such modification, waiver, authorisation or determination in relation to any Trust Certificates may adversely affect their trading price.

Credit ratings assigned to Arada or any Trust Certificates do not reflect all the risks associated with an investment in the Trust Certificates and may be subject to revision or withdrawal

One or more independent credit rating agencies may assign credit ratings to Arada or the Trust Certificates issued under the Programme. The ratings may not reflect the potential impact of all risks related to the structure, market, additional factors discussed above and any other factors that may affect the value of the Trust Certificates. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, reduction, downgrade, suspension or withdrawal at any time by the assigning rating organisation. The Trustee has no obligation to inform Certificateholders of any revision, reduction, downgrade, suspension or withdrawal of its current or future credit ratings. A revision, reduction, downgrade, suspension or withdrawal at any time of a credit rating assigned to Arada and/or the Trust Certificates may adversely affect the trading price of the Trust Certificates.

In general, European regulated investors are restricted under the EU CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction may also apply in the case of credit ratings issued by non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant non-EEA third country rating agency is certified in accordance with the EU CRA Regulation (and such endorsement action or certification, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by ESMA on its website in accordance with the EU CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Offering Circular.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to: (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended; and (b) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied.

If the status of the rating agency rating any Trust Certificates changes, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the relevant Trust Certificates may have a different regulatory treatment. This may result in relevant regulated investors selling the Trust Certificates which may impact the value of the Trust Certificates and any secondary market.

Absence of secondary market/limited liquidity

There is no assurance that a secondary market for the Trust Certificates of any Series will develop or, if it does develop, that it will provide the Certificateholders with liquidity of investment or that it will continue for the life of those Trust Certificates. Accordingly, a Certificateholder may not be able to find a buyer to buy its Trust Certificates readily or at prices that will enable the Certificateholder to realise a desired yield. The market value of the Trust Certificates may fluctuate and a lack of liquidity, in particular, can have a material adverse effect on the market value of the Trust Certificates. The Trustee and Arada have applied for Trust Certificates of certain Series to be (i) admitted to trading on the ISM and (ii) admitted to listing on the DFSA Official List and to trading on Nasdaq Dubai. However, prospective investors should note that there can be no assurance that such admission to trading will occur or, if it occurs, can be maintained or that it will enhance the liquidity of the Trust Certificates. Accordingly, the purchase of the Trust Certificates is suitable only for investors who can bear the risks associated with a lack of liquidity in the Trust Certificates and the financial and other risks associated with an investment in the Trust Certificates.

Trust Certificates where denominations involve integral multiples

In relation to any issue of Trust Certificates which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Trust Certificates may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds a face amount of less than the minimum Specified Denomination would need to purchase an additional amount of Trust Certificates such that it holds an amount equal to at least the minimum Specified Denomination to be able to trade such Trust Certificates.

A holder who holds an amount which is less than the minimum Specified Denomination in his or her account with the relevant clearing system at the relevant time may not receive a definitive Trust Certificate in respect of such holding (should definitive Trust Certificates be printed or issued) and would need to purchase a face amount of Trust Certificates at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination in order to be eligible to receive a definitive Trust Certificate.

If definitive Trust Certificates are issued, holders should be aware that definitive Trust Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

The Trust Certificates may be subject to early dissolution

An early dissolution feature of any Trust Certificate is likely to limit its market value. During any period when Arada may elect to dissolve Trust Certificates, the market value of those Trust Certificates generally will not rise substantially above the dissolution amount payable. This also may be true prior to any dissolution period.

Arada may be expected to exercise an early redemption option when Arada's cost of financing is lower than the profit rate on the Trust Certificates. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective profit rate as high as the profit rate on the Trust Certificates being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

In addition, if the amount payable on the Trust Certificates is required to be increased to include additional amounts in certain circumstances and/or Arada is required to pay additional amounts pursuant to certain Transaction Documents, in each case as a result of certain changes affecting taxation in the Cayman Islands or the UAE (excluding the Emirate of Sharjah) or in each case any political subdivision or any authority thereof or therein having power to tax, the Trustee may redeem all but not some only of the Trust Certificates upon giving notice in accordance with the Conditions.

Exchange rate risks and exchange controls

The Trustee will pay Periodic Distribution Amounts and Dissolution Amounts on the Trust Certificates and Arada will make any payments under the Transaction Documents in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "Investor's Currency") other than the Specified Currency.

These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls which could adversely affect an applicable exchange rate.

Neither the Trustee nor Arada has any control over the factors that generally affect these risks, such as economic, financial and political events and the supply and demand for applicable currencies. In recent years, exchange rates between certain currencies have been volatile and volatility between such currencies or with other currencies may be expected in the future. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease: (a) the Investor's Currency equivalent yield on the Trust Certificates; (b) the Investor's Currency equivalent value of the face amount payable on the Trust Certificates; and (c) the Investor's Currency equivalent market value of the Trust Certificates.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Trustee or Arada to make payments in respect of the Trust Certificates or Transaction Documents (as applicable). As a result, investors may receive lower Periodic Distribution Amounts or amounts in respect of the face amount of such Trust Certificates than expected, or no such Periodic Distribution Amount or face amount.

Change of law

The conditions of the Certificates and the Transaction Documents are based on English law, the laws of Sharjah and, to the extent applicable in Sharjah the federal laws of the UAE, and administrative practices in effect as at the date of this Base Offering Circular. No assurance can be given as to the impact of any possible judicial decision or change to English or administrative practice after the date of this Base Offering Circular nor whether any such change could adversely affect the ability of the Trustee to comply with its obligations and make payments under the Trust Certificates or Arada to comply with its obligations and make payments under the Transaction Documents to which it is a party.

Reliance on Euroclear and Clearstream, Luxembourg procedures

The Trust Certificates of each Series will be represented on issue by a Global Certificate that will be deposited with a common depository for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the Global Certificate, investors will not be entitled to receive Trust Certificates in definitive form. Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the ownership interests in the Global Certificate. While the Trust Certificates of any Series are represented by the Global Certificate, investors will be able to trade their ownership interests only through Euroclear and Clearstream, Luxembourg and their respective participants.

While the Trust Certificates of any Series are represented by the Global Certificate, the Trustee will discharge its payment obligation under the Trust Certificates by making payments through the relevant clearing systems. A holder of an ownership interest in a Global Certificate must rely on the procedures of the relevant clearing system and its participants to receive payments under the Trust Certificates. The Trustee has no responsibility or liability for the records relating to, or payments made in respect of, ownership interests in a Global Certificate.

Holders of ownership interests in a Global Certificate will not have a direct right to vote in respect of the Trust Certificates so represented. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

Risk Factors Relating to Enforcement

Investors may experience difficulty in enforcing arbitration awards and foreign judgments in the UAE

The payments under the Trust Certificates are dependent upon Arada making payments to the Trustee in the manner contemplated under the Transaction Documents. If Arada fails to do so, it may be necessary for an investor to bring an action against Arada to enforce its obligations (subject to the provisions of the Conditions) and/or to claim damages, as appropriate, which may be costly and time consuming.

Furthermore, to the extent that the enforcement of remedies must be pursued in the UAE, it should be borne in mind that there is limited scope for self-help remedies under UAE law and that generally enforcement of remedies in the UAE must be pursued through the courts.

Each of the Master Declaration of Trust, the Agency Agreement, the Servicing Agency Agreement, the Master Murabaha Agreement, the Purchase Undertaking, the Sale and Substitution Undertaking and the Trust Certificates are governed by English law (the "**English Law Documents**") and Arada has agreed, at the option of the Trustee or the Delegate (as the case may be), to submit to the exclusive jurisdiction of the English courts in respect of any dispute, claim, difference or controversy arising out of or in connection with the English Law Documents.

Where an English judgment has been obtained, there is no assurance that Arada has, or would at the relevant time have, assets in the UK against which such a judgment could be enforced. Arada is incorporated in and has its operations and the majority of its assets located in the UAE. Under current UAE law, the UAE courts (including the courts of Sharjah) are unlikely to enforce an English court judgment without re-examining the merits of the claim and may not observe the choice by the parties of English law as the governing law

of the transaction. In the UAE, foreign law is required to be established as a question of fact and the interpretation of English law, by a court in the UAE, may not accord with the interpretation by an English court. In principle, courts in the UAE recognise the choice of foreign law if they are satisfied that an appropriate connection exists between the relevant transaction agreement and the foreign law which has been chosen. They will not, however, honour any provision of foreign law which is contrary to public policy, order or morals in the UAE, or to any mandatory law of, or applicable in, the UAE.

The UAE is a civil law jurisdiction and judicial precedents in Sharjah have no binding effect on subsequent decisions. In addition, there is no formal system of reporting court decisions in Sharjah. These factors create greater judicial uncertainty than would be expected in other jurisdictions.

Arada has agreed, unless the option to litigate is exercised, to refer any unresolved dispute in relation to such documents to arbitration under the Arbitration Rules of the LCIA with an arbitral tribunal with its seat in London. The New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards 1958 (the "**New York Convention**") entered into force in the UAE on 19 November 2006. Accordingly, it is expected that an arbitral awards obtained in a London-seated arbitration should be enforceable in Sharjah in accordance with the terms of the New York Convention. Under the New York Convention, the UAE has an obligation to recognise and enforce foreign arbitration awards, unless the party opposing enforcement can prove one of the grounds under Article V(1) of the New York Convention to refuse enforcement, or the Sharjah courts pursuant to Article V(2) of the New York Convention find that the subject matter of the dispute is not capable of settlement by arbitration or enforcement would be contrary to the public policy of the UAE.

In practice, however, there is no established track record to demonstrate how the New York Convention provisions would be interpreted and applied by the UAE courts in practice and whether the UAE courts will enforce a foreign arbitration award in accordance with the New York Convention (or any other applicable multilateral or bilateral enforcement treaties). This is reinforced by the lack of a system of binding judicial precedent in the UAE and the independent existence of different emirates within the UAE, some with their own court systems, whose rulings may have no more than persuasive force cross border. Although there are examples of foreign arbitral awards being enforced in the UAE under the New York Convention there are other cases where the enforcement of foreign arbitral awards have been refused, with for example, the relevant judge confusing the requirements for the enforcement of domestic awards with the requirements for the enforcement of foreign court judgements under the UAE. Federal Law No.1 of 1992 as amended, or ignoring the provisions of Article 238 of Federal Law No.11 of 1992 (as amended by Federal Law No. 30 of 2005) (the Law of Civil Procedure).

Federal Law No. 42 of 2022 Promulgating the Civil Procedure Code (the "**Civil Procedure Law**") governs the enforcement of foreign arbitral awards in the UAE. Article 223 of the Civil Procedure Law provides that arbitral awards in a foreign state may be enforced in the UAE subject to the conditions provided under Article 222 of the Civil Procedure Law. Article 225 of the Civil Procedure Law provides that the rules on enforcement of foreign arbitral awards shall not prejudice the provisions of treaties for the enforcement of foreign judgement, orders and instruments with foreign states, which, by virtue of the operation of Article 223 of the Civil Procedure Law, should also apply in respect of arbitral awards, and accordingly include the New York Convention. However there is no establishment track record to demonstrate how any UAE courts will apply the Civil Procedure Law alongside the provisions of such treaties in practice. In addition, Federal Law No.6 of 2018 (the "**UAE Arbitration Law**") provides certain conditions to the enforcement of domestic arbitral awards in the UAE. There is no established track record to demonstrate how the UAE courts will apply the UAE Arbitration Law in practice and there is a risk that, notwithstanding the Civil Procedure Law or the terms of applicable enforcement treaties, the UAE courts may also apply such conditions to the enforcement of foreign arbitral awards in the UAE. Accordingly, there is a risk that an arbitral award obtained in a London-seated arbitration will be refused enforcement by the UAE courts.

There can be no assurance as to whether the waiver of immunity provided by Arada will be valid and binding under UAE law

Arada has agreed, in the Transaction Documents to which it is a party, that it will not claim and has waived, to the fullest extent possible under applicable law, immunity from suit, execution before judgment or otherwise or other legal process. However, there can be no assurance as to whether such waivers of immunity from execution or attachment or other legal process by it under Transaction Documents to which Arada is a party are valid and binding under the laws of the Emirate of Sharjah and, to the extent applicable therein, the federal laws of the UAE. If the waiver is not valid and binding, there is a risk that the waiver

may not be able to be enforced against Arada. As such, Certificateholders may ultimately not be able to enforce Arada's relevant obligations under the Transaction Documents.

Shari'a requirements in relation to interest awarded by a court

In accordance with applicable *Shari'a* principles, each of the Trustee and the Delegate will waive all and any entitlement it may have to interest awarded in its favour by an arbitrator as a result of any arbitration and/or by a court in connection with any dispute under any of the Transaction Documents. Should there be any delay in the enforcement of a judgment or arbitral award given against Arada, judgment interest may accrue in respect of that delay and, as a result of the waiver referred to above, Certificateholders will not be entitled to receive any part of such interest.

Compliance with UAE bankruptcy law may affect Arada's ability to perform its obligations under the Transaction Documents

In the event of Arada's insolvency, UAE bankruptcy law may adversely affect Arada's ability to perform its obligations under the Transaction Documents to which it is a party and, in turn, may adversely affect the Trustee's ability to perform its obligations in respect of the Trust Certificates. There is little precedent to predict how claims by or on behalf of the Certificateholders, the Trustee and/or the Delegate would be resolved, and therefore there can be no assurance that Certificateholders will receive payment of their claims in full or at all in these circumstances.

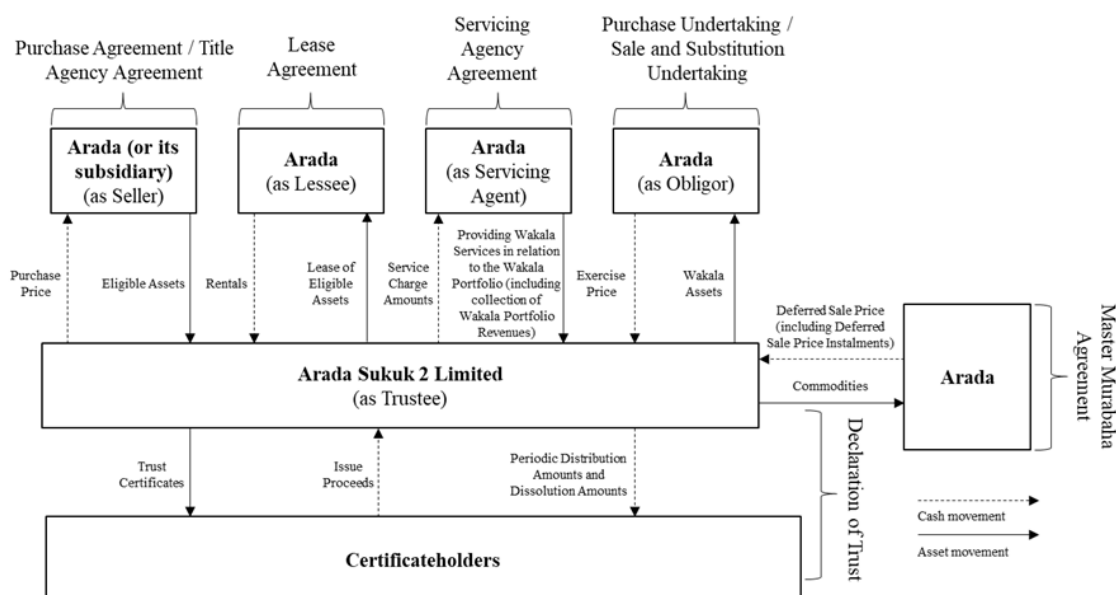

Claims for specific enforcement

In the event that Arada fails to perform its obligations under any Transaction Document to which it is a party, the potential remedies available to the Trustee and the Delegate include obtaining an order for specific enforcement of Arada's obligations or a claim for damages. There is no assurance that a court will provide an order for specific enforcement of a contractual obligation, which is a discretionary matter for the relevant court.

The amount of damages which a court may award in respect of a breach will depend upon a number of possible factors including an obligation on the Trustee and the Delegate to mitigate any loss arising as a result of the breach. No assurance is provided on the level of damages which a court may award in the event of a failure by Arada to perform its obligations set out in the Transaction Documents to which it is a party.

STRUCTURE DIAGRAM AND CASHFLOWS

Set out below is a simplified structure diagram and description of the principal cash flows underlying each Series of Trust Certificates to be issued under the Programme. Potential investors are referred to the Conditions and the detailed descriptions of the relevant Transaction Documents set out elsewhere in this document for a fuller description of certain cash flows and for an explanation of the meaning of certain capitalised terms used below.

Cashflows

Payments by the Certificateholders and the Trustee

On the Issue Date of each Tranche of Trust Certificates, the relevant Certificateholders will pay the issue price (the "**Issue Proceeds**") in respect thereof to the Trustee, and the Trustee will pay:

- the Eligible Asset Percentage of the aggregate face amount of the relevant Trust Certificates as specified in the applicable Pricing Supplement (which, in the case of the first Tranche of a Series of Trust Certificates, shall be at least 55 per cent.) as the purchase price (the "**Purchase Price**") for the transfer and conveyance from Arada (or any of its subsidiaries) of all of Arada's (or the relevant subsidiary's) rights, title, interests, benefits and entitlements, present and future, in, to and under certain Eligible Asset(s) (which may comprise Non-Leased Real Estate Assets and/or Leased Real Estate Asset) (in the case of the first Tranche of a Series of Trust Certificates, the "**Asset(s)**") or, if applicable, (in the case of each subsequent Tranche of such Series) the "**Additional Asset(s)**") pursuant to a Supplemental Purchase Agreement; and
- the remaining portion of the Issue Proceeds (if any) equal to the Murabaha Percentage of the aggregate face amount of the relevant Trust Certificate as specified in the applicable Pricing Supplement (which, in the case of the first Tranche of a Series of Trust Certificates, shall be no more than 45 per cent.) in the purchase of commodities to be sold to Arada on a deferred payment basis for an amount specified in a letter of offer and acceptance (the "**Deferred Sale Price**") pursuant to the Master Murabaha Agreement.

On the Issue Date of the first tranche of Trust Certificates, pursuant to the terms of a supplemental lease agreement (the "**Supplemental Lease Agreement**"), the Trustee (acting in its capacity as lessor, the "**Lessor**") shall lease to Arada (acting in its capacity as lessee, the "**Lessee**") and the Lessee shall lease from the Lessor, the Lease Assets during renewable rental periods commencing on the Lease Commencement Date (which shall be the relevant Issue Date) and extending to the Scheduled Dissolution Date in consideration for payment of a periodic rental amount (the "**Rental**"). On the Issue Date of each subsequent Tranche and to the extent the Additional Asset(s) comprise any Eligible Asset(s) which is a Non-Leased

Real Estate Asset, the Lessee undertakes to enter into a lease assets amendment agreement in order to reflect the lease of the Lease Assets in existence prior to such Issue Date and such Additional Assets.

On the Issue Date of the first tranche of Trust Certificates, pursuant to the terms of the Servicing Agency Agreement, the Trustee shall appoint Arada (acting in its capacity as servicing agent, the "**Servicing Agent**") to, *inter alia*, provide certain services in respect of the Wakala Portfolio (including the collection of the Wakala Portfolio Revenues).

The Eligible Asset(s) comprised in the Asset(s) and, if applicable, the Additional Asset(s) of that Series (together, the "**Wakala Assets**") along with Murabaha Contract for such Series (if any) and all other rights arising under or with respect to the Wakala Asset(s) and any Murabaha Contract (including the right to receive payment of profit, rental, Deferred Sale Price and any other amounts due in connection with the relevant Wakala Asset(s) and Murabaha Contract) of such Series shall comprise the "**Wakala Portfolio**".

Periodic Payments by the Trustee

In respect of each Series, the Servicing Agent shall maintain two book-entry ledger accounts (such accounts being the "**Collection Account**" and the "**Reserve Account**") in its books, which shall be denominated in the Specified Currency.

The Lessee shall pay each Rental under the relevant Lease Agreement by crediting such amounts to the Collection Account. The Servicing Agent shall record all Wakala Portfolio Revenues in respect of the Series in the Collection Account.

On the Payment Business Day preceding each Periodic Distribution Date, the Servicing Agent (on behalf of the Trustee) shall pay into the relevant Transaction Account amounts standing to the credit of the Collection Account (after deducting any amounts payable in respect of any Liquidity Facility and any due but unpaid Service Charge Amounts). Such amounts are intended to be sufficient to fund the Periodic Distribution Amount payable by the Trustee under the Trust Certificates (the "**Required Amount**") and shall be applied by the Trustee for that purpose.

In the event there is an amount still standing to the credit of the Collection Account immediately following payment of all of the above amounts, such amount shall be debited from the Collection Account and credited to the Reserve Account. If the amount standing to the credit of the Transaction Account on the Payment Business Day immediately preceding each Periodic Distribution Date is insufficient to fund the Required Amount, the Servicing Agent shall apply amounts standing to the credit of the Reserve Account towards such shortfall, by paying an amount equal to the same into the relevant Transaction Account. If having applied such amounts from the Reserve Account, there remains a shortfall, the Servicing Agent may either: (i) provide *Shari'a*-compliant funding itself to the Trustee; or (ii) procure *Shari'a*-compliant funding from a third party, (in each case) in an amount equal to such shortfall remaining on terms that such funding will be settled from: (a) Wakala Portfolio Revenues in accordance with the Servicing Agency Agreement; or (ii) from: (1) the relevant exercise price payable pursuant to the terms of the Purchase Undertaking or the Sale and Substitution Undertaking, as the case may be, or (2) the proceeds of Insurances and any Loss Shortfall Amount payable pursuant to the terms of the Servicing Agency Agreement, as the case may be, on the relevant Dissolution Date (such funding, a "**Liquidity Facility**").

Dissolution Payments

On the Scheduled Dissolution Date:

- (a) the aggregate amounts of the Deferred Sale Price then outstanding, if any, shall become immediately due and payable by Arada; and
- (b) the Trustee and the Delegate will have the right under the Purchase Undertaking to require Arada (in its capacity as obligor) to purchase all of its rights, title, interests, benefits and entitlements, present and future, in, to and under the relevant Wakala Asset(s) for an amount equal to the Exercise Price.

The Exercise Price payable by Arada (in its capacity as Purchaser) to the Trustee (in its capacity as seller), together with the aggregate amounts of the Deferred Sale Price then outstanding, if any, are intended to fund the relevant Final Dissolution Amount payable by the Trustee under the Trust Certificates.

The Trust may be dissolved prior to the Scheduled Dissolution Date for a number of reasons including: (i) unless the relevant Wakala Assets have been replaced in accordance with the Servicing Agency Agreement, upon the occurrence of a Total Loss Event; (ii) upon the occurrence of a Tax Event; (iii) upon the occurrence of a Dissolution Event (as defined herein); (iv) in certain cases where so specified in the applicable Pricing Supplement, at the option of Arada or any Certificateholder; (v) upon the occurrence of a Tangibility Event; (vi) upon the occurrence of a Change of Control; or (vii) if 75 per cent. or more of the aggregate face amount of the Trust Certificates then outstanding of the relevant Series have been redeemed and/or purchased and cancelled pursuant to the Conditions.

In the case of (ii), (iii), (iv), (v), (vi) and (vii) above, the relevant Dissolution Amount will be funded by Arada being required to (A) purchase from the Trustee (or, as the case may be, by the Trustee being required to sell to Arada) the relevant Wakala Asset(s) and pay the relevant Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Exercise Price or the Tangibility Event Certificateholder Put Right Exercise Price, as the case may be, and (B) pay the aggregate amounts (or the applicable portion thereof, as the case may be) of the Deferred Sale Price then outstanding, if any, in each case to or to the order of the Trustee (pursuant to the terms of the Purchase Undertaking or the Sale and Substitution Undertaking, as the case may be, and the Master Murabaha Agreement, if applicable).

In the case of (i) above, the Dissolution Amount will be funded using (a) any proceeds of Insurances and/or (if applicable) the Loss Shortfall Amount payable in respect of the Total Loss Event, and (b) the aggregate amounts of the Deferred Sale Price then outstanding.

Overview

Arada is the largest property developer in the Northern Emirates of the UAE with a compound annual growth rate in the value of properties sold of 28 per cent. from 1 January 2021 to 31 December 2024 and an existing development portfolio (including delivered projects) valued at AED 67.4 billion as at 31 December 2024 (compared to AED 56.2 billion as at 31 December 2023)³. As at 31 December 2024, Arada had nearly 51.3 million square feet of plot area for its projects (including delivered projects) which are expected to deliver more than 33,000 units of which more than 15,000 residential units have been launched and more than 14,000 sold.

Arada was founded in 2017 by H.R.H. Khalid Bin Alwaleed Bin Talal, who holds 60 per cent. of the shares through Corp KBW Investments LLC ("**KBW**"), and H.R.H. Sheikh Sultan bin Ahmed Al Qasimi, who holds 40 per cent of the shares through Basma Group LLC ("**Basma**"), with the intention of creating master-planned communities in the UAE. Arada's focus is on delivering beautiful homes, using sustainable building practices and smart technology wherever possible, surrounded by attractive facilities, for a competitive price and it is dedicated to putting the needs of its customers first. Prioritising its customers allows Arada to do more and do better – for buyers, partners, stakeholders and the communities it serves.

Arada's initial focus has been on Sharjah, where it has four communities completed or under development and in recent years, the Group has launched / plans to launch five developments in Dubai and one in Ras Al Khaimah. These projects are further described in "*Description of the Group's Business – Business – Projects*".

Arada is funding the construction of its developments through equity, bank loans/financings, the proceeds from sales of residential units in its developments and more recently, the issuance of sukuk.

Arada's strategic goal is to deliver world-class communities while prudently expanding the Group's footprint. It aims to achieve this goal through ensuring that its developments are de-risked as far as is possible, increasingly diversifying its cash flows and expanding the sources of finance which it is able to access.

Principal Factors Affecting Results of Operations

The following is a discussion of the principal factors that have affected, or are expected to affect, the Group's results of operations.

Factors affecting revenue

The Group's principal source of revenue in each of 2024, 2023 and 2022 was proceeds from the sale of residential units constructed on its behalf. Residential units are periodically launched for sale and sold off-plan prior to their construction, with the sales proceeds being paid in instalments over the period of construction.

³ See "*Presentation of Financial and Other Information – Presentation of Financial Information – Sales Backlog*". The value of the Group's portfolio (including its compound annual growth rate) includes W Residences and Anantara.

The Group begins recognising individual residential unit sales as revenue in its consolidated statement of profit or loss and other comprehensive income based on the progress of construction on the relevant development in accordance with IFRS. The Group continues to recognise revenue over the life of the development on a percentage of completion basis.

In terms of cash collections, customers make payments according to the terms of the relevant purchase contract. Collection during the construction period is approximately 30 to 40 per cent. of the purchase price in respect of the Group's projects in Sharjah and 60 to 70 per cent. in respect of the Group's projects in Dubai and comprises the initial deposit and additional payments due on specified dates, with the final payment due upon handover of the completed unit.

The table below shows the Group's units sold and completed and the sales value collected and revenue recognised from residential units in each year since 2019.⁴

	<u>2020</u>	<u>2021</u>	<u>2022</u>	<u>2023</u>	<u>2024</u>
No. of units sold.....	2,085	2,367	2,268	2,824	1,635
Total sales value collected (AED million).....	842	1,150	1,369	2,906	3,648
Construction completed (no. of units).....	861	1,205	3,982	2,560	1,394
Revenue recognised (AED million).....	1,113	1,284	2,430	2,641	3,704.8

Reflecting the above, the Group's revenue in each year has been driven by its off-plan sales of residential units and the progress of construction of those units. As a result, the Group's sales backlog, together with the construction schedules for its projects, provide it with visibility over its revenue in the short- and medium-term. However, the conversion of the Group's sales backlog to revenue and then to cash is ultimately dependent upon the timely and successful completion of the construction of its projects. The Group frequently experiences construction delays in the ordinary course of business and, while such delays may be made up in subsequent stages of a project, delays can have a significant impact on the associated timing of revenue recognition, which could lead to potentially significant fluctuations in the Group's financial results on a periodic basis. This is particularly true with respect to high value projects, where even a small delay in construction progress can result in delays in large amounts of revenue being recognised. See "Risk Factors – Risk factors relating to the Group's business and Arada's ability to fulfil its obligations under the Transaction Documents – The Group's projects may be delayed, suspended, terminated or materially changed in scope, resulting in delayed recognition of revenue and damage to its reputation".

The table below shows the Group's expected revenue recognition from its sales backlog as at 31 December 2024, by relevant project, over the years indicated.

	<u>2025</u>	<u>2026</u>	<u>2027</u>
	<i>(AED million)</i>

Armani Beach Residences.....	101.4	162.3	142.0
Total.....	<u>4910.7</u>	<u>2420.6</u>	<u>867.8</u>

Pricing and sales

The sales prices the Group achieves on its projects have a significant impact on its levels of revenue, gross profit and margins. The Group operates in a global market of premium property buyers and investors from around the world; however, the majority of its ongoing launched projects are located in Sharjah (with five launched projects/projects planned for launch in Dubai). The property and construction markets in the UAE are affected by macroeconomic factors that are beyond the Group's control, such as real estate market conditions generally, changes in interest/profit rates, consumer spending, inflation rates, real estate taxes, and the availability and cost of financing.

The residential real estate development market in the UAE is competitive and this competition may affect the Group's ability to sell its projects at expected prices. The Group targets the prime residential real estate segment with prime locations, superior build quality and finishes and high-quality amenities provided as part of its integrated lifestyle master-planned communities. The Group's competitors may lower their pricing for developments which are comparable to those which the Group is selling, which could result in downward pressure on its pricing. The extent to which the Group's sales team creates demand for its projects

⁴ See "Presentation of Financial and Other Information – Presentation of Financial Information – Sales Backlog". The no. of units sold, total sales value collected and construction completed for 2024 includes data in respect of W Residences and Anantara.

also has a direct impact on the prices the Group can achieve. In addition to detailed sales and marketing plans that aim to optimise the prices the Group is able to achieve for its residential units over the life of a project, the Group strategically retains a certain percentage of residential units in particular projects for sale after the initial launch in order to maximise average selling prices and sustain demand.

Sales prices typically increase over the course of the project development process, both at the development and master plan levels. Residential units available in early stage launches are sold at comparatively lower prices to create demand. Higher priced residential units are sold as the project matures, and the Group introduces periodic price increases across its residential units as construction progresses to reflect the decrease in supply. For example, between 2019 and 2021, the Group recorded increases in the average per square foot selling prices of its units at the different phases of its Aljada development ranging between 3.4 per cent. and 17.0 per cent. and at the different phases of Nasma ranging between 2.7 per cent. and 6.8 per cent.

The Group targets an average gross margin for its projects in Sharjah of approximately 37 per cent. for mid- and high-rise developments and 44 per cent. for low-rise developments, for its projects in Dubai of approximately 45-50 per cent. for high-rise developments and 50 per cent. for low-rise developments and for its projects in Australia of approximately 30 per cent. for mixed-use developments. Its gross margin tends to be lower in the early stages of project development, as lower priced residential units are sold first to activate the project site, and then increases over the course of completion of the project to achieve the targeted overall gross margin.

Different project types produce different profitability profiles. The Group's projects contain different types and configurations of residential living arrangements, including villas, townhouses and apartments (including serviced apartments). In addition to the configurations themselves and the type of development in which they are located (for example, single family home, low-rise or high-rise building, branded building, serviced apartment building), the location of the project and its amenities also have an impact on the prices of the units and, consequently, the margins that the Group is able to achieve.

Cost control

The Group's profit margins are directly correlated to its ability to manage its costs and to make cost-effective purchasing decisions. The most important factor in this regard is the Group's proactive approach to procurement, including its tender management process. The Group leverages its scale across its project portfolio to ensure the best possible terms for procurement of key components and services. The Group has well developed systems in place to maintain its target margins and enhance its operational and financial performance through the management of construction costs and the performance of its contractors. The Group manages the performance of its contractors through a pre-qualification process that comprises both technical and financial elements. The Group places limits on variation orders and changes from its original approved designs, and construction progress and quality is monitored by third-party supervision consultants. Project contracts are lump-sum and awarded at a fixed price, and the Group requires a performance bond equal to 10 per cent. of the contract sum at the time the contract is awarded. The Group's standard form contracts allow it to trigger early termination clauses in the case of non-performing contractors. In addition, the Group spends considerable time in the design phase to ensure that building efficiencies are maximised, including through value engineering processes that allow it to continue to add units to developments as they are being constructed to ensure maximum cost efficiency.

In addition to the efficiencies realised through the Group's procurement and tender oversight processes, the Group's costs and margins are also impacted by raw material and basic input costs which are tied to international commodities prices and thus can fluctuate widely at different points in the economic cycle. The principal raw materials used in construction of the Group's projects are cement, which is procured locally from within the UAE, and steel, which is primarily imported by ship from locations such as India and China. Aluminium and glass are the other principal building components which are also imported from countries in the region. There is a tendency for movements in building prices to partially correlate to movements in raw material prices. The Group's construction contracts are tendered on a fixed price basis, which insulates it from increases in material costs during the course of a particular development.

Evolving mix of revenue streams

The Group is seeking to diversify its revenue streams. As part of this strategy, the Group has established, and is further expanding, a portfolio of fitness centres, schools and retail assets which generate gym membership fees, income from educational services and lease income.

Significant Accounting Policies

The Financial Statements have been prepared in accordance with IFRS. For a discussion of the significant accounting policies applied by the Group generally, see note 3 to the 2024 Financial Statements.

Critical Accounting Judgments and Estimates

In preparing the Group's financial statements, management is required to make certain estimates, judgments and assumptions. These affect the reported amounts of the Group's assets and liabilities, including disclosure of contingent assets and liabilities, at the date of the financial statements as well as the reported amounts of its revenues and expenses during the periods presented. Management bases its estimates and assumptions on historical experience and other factors that it believes to be reasonable at the time the estimates and assumptions are made and evaluates the estimates and assumptions on an ongoing basis. However, future events and their effects cannot be predicted with certainty and the determination of appropriate estimates and assumptions requires the use of judgment. Actual outcomes may differ from any estimates or assumptions made and such differences may be material to the financial statements. For a discussion of the most significant accounting estimates, judgments and assumptions made in the preparation of the Group's financial statements, see note 34 to the 2024 Financial Statements, which identifies the following factors:

- useful lives and depreciation of property, plant and equipment;
- write down of properties held for development and sale;
- valuation of investment properties; and
- revenue from contracts with customers.

Results of Operations

2024 and 2023 compared

The increase of AED 130.8 million, or 41.7 per cent., in general and administrative expenses in 2024 compared to 2023 principally reflected an increase of AED 43.4 million, or 47.6 per cent., in depreciation cost, an increase of AED 34.8 million, or 23.0 per cent., in employee related expenses, and an increase of AED 34.5 million, or 60.5 per cent., in other expenses.

The increase in depreciation cost principally reflected the increase in rights of use assets, amortisation of intangible assets and other property, plant and equipment additions during the year. The increase in employee related expenses principally reflected the additional staff recruited to manage the increased volume of business. The overall increase in other expenses during the year was primarily driven by business expansion, additional office locations, increased service levels and higher operational costs such as maintenance, utility charges and vehicle usage.

The increase in sales commission principally reflected the increase in the revenue generated by the Group in 2023. The increase in unit registration charges principally reflected higher revenue recognised in Masaar where unit registration charges are applicable unlike Aljada where the requirement for unit registration charges are waived by the Government.

Gain on re-measurement of properties held for development and sale on transfer to investment properties

In 2024, the Group recorded a gain on re-measurement of properties held for development and sale on transfer to investment properties of AED 47.7 million. This mainly reflected the value of completed retail units as the Group retains all its completed retail units for leasing with the intention of generating recurring revenue.

In 2023, the Group recorded a gain on re-measurement of properties held for development and sale on transfer to investment properties of AED 155.6 million. This mainly reflected the value of completed retail units as the Group retains all its completed retail units for leasing with the intention of generating recurring revenue.

In 2022, the Group recorded a gain on re-measurement of properties held for development and sale on transfer to investment properties of AED 27.5 million. This mainly reflected the value of completed retail units as the Group retains all its completed retail units for leasing with the intention of generating recurring revenue.

Change in fair value of investment properties

The Group's investment properties are recognised at fair value. These properties are fair valued annually by an independent professionally qualified valuation firm with experience in property valuations in the locations and segments of the properties being valued. These valuations are carried out in accordance with the Appraisal and Valuation Standards published by the Royal Institution of Chartered Surveyors. The valuer used the investments method and sales comparison method of valuation. The fair value of each of the Group's investment properties reflects its gross development value when completed after deducting all construction costs, soft costs, developer's profit and finance costs associated with the property.

Any change in the fair value of the Group's investment properties from year to year is recognised in the statement of profit or loss. In 2024, the Group recognised an AED 124.3 million change in the fair value of its investment properties compared to AED 62.0 million in 2023 and AED 44.0 million in 2022.

The positive change in fair value in 2024 principally reflected an increase in the valuation of retail units, community centres and plots of land across Aljada, Masaar and Nasma. The positive change in fair value in 2023 principally reflected an increase in the valuation of retail units, community centres and plots of land across Aljada, Masaar and Nasma. The positive change in fair value in 2022 principally reflected an increase in the valuation of retail units, community centres and plots of land across Aljada, Masaar and Nasma.

Share of results from an equity accounted investee

In March 2020, the Group acquired a 25 per cent. shareholding in Nextgen Robopark Investment LLC ("NRIL"), which has a 30-year concession on land to construct, operate and transfer a commercial complex with an attached automated car parking system.

In 2022, the Group acquired a 50 per cent. share in Al Heera Beach Developments LLC ("**Al Heera Beach**"). The joint venture partner contributed a plot of land amounting to AED 45 million towards share capital and capital contribution to Al Heera Beach and waived its right of payment from the Group against this plot of land. Pursuant to this, the Group has recognised a gain of AED 22.7 million representing its share of net assets acquired at a nil transaction.

In 2024, the Group's share of results from equity accounted investees amounted to a loss of AED 8.1 million compared to a loss of AED 9.3 million in 2023 and income of AED 20.3 million in 2022. In 2024, the loss was mainly due to the Group's share of operating loss from NRIL. In 2023, the loss was mainly due to the commissioning of an investment property by a different joint venture partner where the leasing activity is under progress. In 2022, the gain is mainly due to the entering into a joint venture at zero cost where the share of assets due to the Group were valued at AED 20 million.

Finance cost and finance income

The Group's finance cost principally represents the finance cost on sukuk, amortisation cost of its payable to the Sharjah Government and the amounts it pays on its bank borrowings. As at 31 December 2024, the Group's principal assets are its properties held for development and sale which accounted for 26.49 per cent. of the Group's total assets, its trade, contract and other receivables which

accounted to 22.51 per cent. and its investment properties which accounted for 10.59 per cent. Together, these asset categories accounted for 59.59 per cent. of the Group's total assets as at 31 December 2024.

Properties held for development and sale

As at 31 December 2024, properties held for development and sale amounted to AED 4.0 billion, or 26.49 per cent. of the Group's total assets, compared to AED 3.9 billion, or 34.21 per cent. of the Group's total assets in 2023 and AED 3.3 billion, or 45.83 per cent. of the Group's total assets in 2022.

As at 31 December 2024, properties held for development and sale amounting to AED 376.2 million were mortgaged against credit facilities provided to the Group.

Land or buildings identified as held for sale, including buildings under construction, are classified as properties held for development and sale. These properties are stated at the lower of cost and estimated net realisable value. For this purpose, cost comprises construction costs and other related direct or operating costs and estimated net realisable value is the estimated selling price in the ordinary course of business, less cost of completion and selling expenses.

Properties held for development and sale are valued annually by an independent, professionally qualified and experienced valuer. The amount of any write down of properties held for development and sale arising out of these valuations is recognised as an expense in the period in which the write-down occurs. The amount of any reversal of write-down is recognised in profit or loss in the period in which the reversal occurs, but only to the extent that the carrying value of the affected property does not exceed its actual cost.

Properties held for development and sale may be transferred to:

- investment property where there is a change in use of the property and it becomes held for rental or capital appreciation or both; or
- property, plant and equipment where the property becomes owner occupied.

See note 3 to each of the Financial Statements for further information regarding the transfer of properties held for development and sale and note 11 to each of the Financial Statements for tables showing the movements in properties held for development and sale.

Trade, contract and other receivables

As at 31 December 2024, trade, contract and other receivables amounted to AED 3.4 billion, or 22.51 per cent. of the Group's total assets compared to AED 2.6 billion, or 22.8 per cent. of the Group's total assets as at 31 December 2023 and AED 1.8 billion, or 25.0 per cent. of the Group's total assets as at 31 December 2022.

Trade, contract and other receivables comprise amounts that are yet to be collected from customers. Receivables for which an invoice has been issued in accordance with the relevant sales contract but has remained unpaid are classified as trade receivables. Those receivables which are recognised but unpaid because the relevant construction milestone required for invoicing has not yet been reached are classified as contract assets.

The table below shows the Group's trade receivables and contract assets as at 31 December in each of 2024, 2023 and 2022.

As at 31 December 2024, the Group had total liabilities of AED 12.2 billion compared to AED 9.1 billion as at 31 December 2023 and AED 6.3 billion as at 31 December 2022.

The Group's principal liabilities are its payable to the Sharjah Government which accounted for 16.3 per cent. of the Group's total liabilities as at 31 December 2024, sukuk which accounted for 31.1 per cent., trade and other payables which accounted for 14.8 per cent., advances from customers which accounted to 13.9 per cent. and borrowings which accounted for 4.7 per cent. Together these liability categories accounted for 80.8 per cent. of the Group's total liabilities as at 31 December 2024.

Payable to the Sharjah Government

The Group's payable to the Sharjah Government amounted to AED 2.0 billion, or 16.3 per cent. of the Group's total liabilities as at 31 December 2024 compared to AED 2.0 billion, or 22.0 per cent. of the Group's total liabilities as at 31 December 2023 and AED 2.2 billion, or 35.0 per cent. of the Group's total liabilities as at 31 December 2022.

The Group's payable to the Sharjah Government represents the amount payable against the purchase of land in 2017. The repayment was restructured into two equal parts of AED 1,600 million, where each part had distinct repayment mechanism. The first part, amounting to AED 1,600 million, was payable as a bullet payment in 2029 and the remaining AED 1,600 million was payable over a period of 16 years based on the achievement of agreed off-plan sales. The liability was initially recorded by the Group at fair value determined using the Group's effective borrowing rate. In 2023, an addendum was signed by both the parties to amend the repayment term of the bullet payment. As per the amended terms, an accelerated payment of AED 400 million was agreed between both the parties, which was to be paid by 2025 (AED 200 million in 2023 and AED 100 million in each of 2024 and 2025). Pursuant to this, an amount of AED 215.2 million was reduced from the amount payable to the Sharjah Government.

Sukuk

In June 2022, the Group issued U.S.\$350 million trust certificates with an additional tranche of U.S.\$100 million in October 2022 and a further additional tranche of U.S.\$50 million in February 2023 through Arada Sukuk Limited. These trust certificates are listed on the London Stock Exchange and are due for payment in 2027.

In June 2024, the Group issued U.S.\$400 million trust certificates under this Programme with an additional tranche of U.S.\$150 million in October 2024. These trust certificates are listed on the London Stock Exchange and Nasdaq Dubai and are due for payment in 2029.

Trade and other payables

The Group's trade and other payables amounted to AED 1.8 billion, or 14.8 per cent. of the Group's total liabilities as at 31 December 2024 compared to AED 1.7 billion, or 18.6 per cent. of the Group's total liabilities as at 31 December 2023 and AED 1.1 billion, or 17.4 per cent. of the Group's total liabilities as at 31 December 2022.

Borrowings

The Group's borrowings amounted to AED 575.4 million, or 4.7 per cent. of the Group's total liabilities as at 31 December 2024 compared to AED 912.5 million, or 10.0 per cent. of the Group's total liabilities as at 31 December 2023 and AED 99.0 million, or 1.6 per cent. of the Group's total liabilities as at 31 December 2022.

The Group's borrowings carry market prevailing margin rates ranging from 2.35 per cent. to 10.75 per cent. and are repayable within one to two years from 31 December 2024. The Group's borrowings are secured by mortgages over properties classified under properties held for development and sale. The Group is required to comply with the following financial covenants in respect of its borrowings and/or sukuk:

- Consolidated total net indebtedness at the end of the immediately preceding measurement period must not exceed 1.5:1 in relation to total equity;
- Consolidated total net indebtedness at the end of the immediately preceding measurement period must not exceed 3:1 in relation to consolidated EBITDA for that period; and
- Consolidated adjusted EBITDA for the immediately preceding measurement period must be not less than 1.5:1 in relation to consolidated net finance charges payable for the same period.

Advances from customers

The Group's advances from customers amounted to AED 1.7 billion, or 13.9 per cent. of the Group's total liabilities as at 31 December 2024 compared to AED 1.2 billion, or 13.2 per cent. of the Group's total liabilities as at 31 December 2023 and AED 313.9 million, or 5.0 per cent. of the Group's total liabilities as at 31 December 2022.

The Group's advances from customers, which are also referred to as contract liabilities, represent instalments of the purchase price for properties received from its customers in advance of the property being completed and handed over to the customer.

Equity

As at 31 December 2024, the Group's authorised, issued and paid-up share capital amounted to AED 1.8 billion and comprised 1.8 million shares of AED 1,000 each. As at the same date, the Group's retained earnings amounted to AED 886.1 million.

Under UAE law and Arada's Articles of Association, a minimum of 5 per cent. of each Group company's net profit must be allocated to a legal reserve, which is not distributable. This allocation is no longer required when the legal reserve reaches 50 per cent. of the Group's paid-up capital. As at 31 December 2024, the legal reserve amounted to AED 46.5 million, or 2.6 per cent. of the Group's paid-up capital.

Liquidity

Overview

The Group's principal liquidity requirements arise from the need to fund the development of its projects. During the three years under review, the Group's liquidity needs were funded both from bank borrowings/financings and from pre-sales of its residential units.

Following the sale of a residential unit, customer payments are held in an escrow account. All construction payments are made from the associated project escrow account. The Group is permitted to withdraw cash from its escrow accounts before project completion to the extent that the relevant balance exceeds the construction costs remaining on the project. The Group is required to maintain an amount equal to 5 per cent. of construction costs of the relevant project in the associated escrow account for a period of one year following completion of the project.

Cash flow from the Group's projects includes cash collected from the sale of residential units and cash paid for construction costs.

The Group's cash and cash equivalents and fixed deposit with banks as at 31 December 2024 were AED 3.8 billion compared to AED 1.8 billion as at 31 December 2023 and AED 817.6 million as at 31 December 2022.

Cash flow

The table below summarises the Group's consolidated statement of cash flows for each of 2024, 2023 and 2022.

	2024	2023	2022

Operating activities

In 2024, the Group's net cash generated from operating activities was AED 279.4 million compared to net cash generated from operating activities of AED 75.1 million in 2023 and net cash used in operating activities of AED 544.9 million in 2022.

The Group's operating profit before working capital changes, being its profit for the year adjusted for non-cash transactions, was AED 958.1 million in 2024 compared to AED 522.0 million in 2023 and AED 569.3 million in 2022.

The Group's principal working capital change in 2024 compared to 2023 was the result of: the realisation of trade receivables; a change in the classification of finance cost component on payments made to the Sharjah Government which improved the Group's working capital position; a reduction in properties held for development and sale due to higher cost recognition during the year (in proportion to the revenue recognised for the year).

The Group's principal working capital change in 2023 compared to 2022 was the result of the realisation of trade and contract receivables where the building completion certificate was achieved in certain projects of Aljada and Masaar.

Investing activities

The Group's net cash used in investing activities in 2024 was AED 1.3 billion compared to AED 1.3 billion in 2023 and AED 440.9 million in 2022.

In 2024, the principal investments made were AED 1,589 million for fixed deposits, AED 110 million for the acquisition of property, plant and equipment and AED 133 million for a loan to related party.

In 2023, the principal investments made were advance given to related parties for AED 515 million, fixed deposits for AED 450 million and acquisition of property, plant and equipment for AED 213 million.

In 2022, the principal investments made were AED 200 million in fixed deposits with an original maturity after three months, AED 181.57 million for the acquisition of property, plant and equipment, principally reflecting AED 146 million capital work in progress, AED 11.5 million in land and buildings, AED 8 million in computer and office equipment, AED 11 million in furniture & fixtures, AED 3 million for purchase of vehicles and AED 2 million towards the purchase of gym equipment.

Financing activities

The Group's net cash generated from financing activities in 2024 was AED 2.2 billion compared to AED 1.7 billion in 2023 and AED 1.15 billion in 2022.

In 2024, the Group's principal financing cash flows were inflows from the issuance of sukuk amounting to AED 1,994 million (net of transaction costs) during the year and funds obtained from shareholders (net of repaid) of AED 685 million. These were partially offset by outflows towards borrowings repaid during the year amounting to AED 1,625 million, outflows of AED 155 million representing dividends paid and outflows of AED 475 million in finance costs paid.

In 2023, the Group's principal financing cash flows were mostly generated from the issuance of sukuk for AED 177 million, net borrowing of AED 813 million, infusion of share capital by the shareholders for AED 750 million, issuance of share capital in respect of its non-controlling interests in Australia for AED 125 million, liquidity funding by shareholders for AED 264 million (net). The generation of cash inflow is offset by the dividend of AED 150 million and AED 322 million for finance cost along with settlement of lease liabilities amounting to AED 23 million.

In 2022, the Group's principal financing cash flows were inflows from the issuance of sukuk amounting to AED 1,627 million (net of transaction costs) during the year and funds obtained from shareholders (net of repaid) of AED 493 million. These were partially offset by outflows towards borrowings repaid during the year amounting to AED 801 million, outflows of AED 60 million representing dividends paid and outflows of AED 97.6 million in finance costs paid.

Capital Commitments

As at 31 December 2024, the Group had total commitments of AED 3.0 billion related to under construction properties classified under property, plant and equipment, properties held for development and sale and investment properties. These commitments represent the value of the contracts issued as at the reporting date, net of invoices received and accruals made at that date. No assurance can be given as to the actual amounts of capital expenditure that may be incurred in future periods. The timing and amount of capital expenditure is highly dependent on market conditions, the progress of projects, new opportunities that may arise and a range of other factors outside the control of the Group.

Contingent Liabilities

As at 31 December 2024, the Group had contingent liabilities of AED 238.1 million relating to performance guarantees. However, certain other contingent liabilities may arise during the normal course of business, which, based on the information presently available, either cannot be quantified at this stage or in the opinion of the Group's management is without any merit. However, in the opinion of the Group's management, these contingent liabilities are not likely to result in any significant cash outflows for the Group.

Related Party Transactions

The Group's principal related party transactions are with its shareholders, its subsidiaries and associates and its directors and executive management and entities controlled by any of them. These transactions include expenses incurred on behalf of its shareholders, construction cost and design consultancy fees payable to entities owned by its shareholders. These entities include Raimondi group LLC, which is a company owned by Arada's CEO, Klampfer Middle East LLC, which is wholly-owned by Arada's two shareholders, KBW, which is a shareholder of Arada, and Arcadia Middle East LLC, which is majority owned by Basma, Arada's other shareholder.

In 2023, the Group gave advances to Wasat Prime Properties LLC and Wasat Land Properties LLC, related parties due to common control, amounting to AED 277,536,213 and AED 238,102,788. These advances are non-interest bearing and are receivable on demand. During 2024, the Group entered into agreements with these related parties whereby it has agreed to change the repayment terms and conditions of these advances. These amounts were reclassified as loans to related parties with a profit rate of 10 per cent. and receivable over a period of three years. These loans to related parties are non-current, profit bearing (on normal commercial terms) and considered to be fully recoverable by the Group's management.

Further information on the Group's related party transactions is set out in note 16 to each of the Financial Statements.

Disclosures about Financial Risk

The Group is exposed to a credit, liquidity and interest rate risks as described in note 30 to each of the Financial Statements.

Credit risk

Credit risk is the risk of financial loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group is exposed to credit risk principally from its trade receivables and contract assets from customers, amounts due from its shareholders, its cash at banks and amounts due from related parties and this credit risk was quantified at AED 7.0 billion as at 31 December 2024.

The Group's exposure to credit risk from its trade receivables and contract assets is influenced mainly by the individual characteristics of each customer. The demographics of the Group's customer base, including the default risk of the industry and country in which customers operate has less influence on credit risk. The Group earns its revenues from a large number of customers including international customers.

The Group has entered into contracts for the sale of residential and commercial units and plots of land on an instalment basis. The instalments are specified in the relevant sales contracts. The Group is exposed to credit risk in respect of instalments due. However, the legal ownership of the residential units sold is transferred to the buyer only after all the instalments are recovered. In addition, instalment dues are monitored on an ongoing basis with the result that the Group's exposure to bad debts is insignificant.

The Group establishes an allowance for impairment at each reporting date that represents its estimate of incurred losses in respect of trade receivables and contract assets.

With respect to the Group's credit risk arising from its other financial assets, which comprise bank balances and cash, loan to a related party and amounts due from the shareholders, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these assets.

Credit risk from balances with banks and financial institutions is managed by only placing balances with banks of good repute. Given the profile of its bankers and the nature of its shareholders and related party, the Group does not expect any of these counterparties to fail in meeting its obligations.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both the Group's financial investments and financial assets and projected cash flows from operations.

The Group's cash flows, funding requirements and liquidity are monitored to optimise the efficiency and effectiveness of the management of its capital resources. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts and bank borrowings/financings. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and borrowing/financing facilities, by continuously monitoring forecasted and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

Interest rate risk

Interest rate risk primarily arises in relation to the Group's borrowings, all of which have floating rates of return. The Group's sensitivity analysis as at 31 December 2024 shows that a 1 per cent. increase in interest rates at the reporting date would have decreased its profit by AED 16.8 million, assuming all other variables remained constant.

DESCRIPTION OF THE GROUP'S BUSINESS

Introduction

Arada was incorporated as a Sharjah limited liability company under Federal Law No. (8) of 1984 concerning Commercial Companies (as amended) with license number 749506 for an indefinite duration. Its registered office is at Sharjah Muweilah next University City Street, Sharjah and its switchboard telephone number is +971 6 517 7111.

Arada is the largest property developer in the Northern Emirates of the UAE with a compound annual growth rate in the value of properties sold of 28 per cent. from 1 January 2021 to 31 December 2024 and an existing development portfolio (including delivered projects) valued at AED 67.4 billion as at 31 December 2024 (compared to AED 56.2 billion as at 31 December 2023)⁵. As at 31 December 2024, Arada had nearly 51.3 million square feet of plot area for its projects (including delivered projects) which are expected to deliver more than 33,000 units of which more than 15,000 residential units have been launched and more than 14,000 sold.

Arada was founded in 2017 by H.R.H. Khalid Bin Alwaleed Bin Talal, who holds 60 per cent. of the shares through KBW, and H.R.H. Sheikh Sultan bin Ahmed Al Qasimi, who holds 40 per cent of the shares through Basma, with the intention of creating master-planned communities in the UAE. Arada's focus is on delivering beautiful homes, using sustainable building practices and smart technology wherever possible, surrounded by attractive facilities, for a competitive price and it is dedicated to putting the needs of its customers first. Prioritising its customers allows Arada to do more and do better – for buyers, partners, stakeholders and the communities it serves.

Arada's initial focus has been on Sharjah, where it has four master communities and one additional project and in recent years, the Group has launched / plans to launch five developments in Dubai and one in Ras Al Khaimah. Furthermore, the Group has acquired six land parcels in Australia with plans to launch in 2026. These projects are further described in "*Description of the Group's Business – Business – Projects*".

Arada is funding the construction of its developments through equity, bank loans, the proceeds from sales of residential units in its developments and more recently, the issuance of sukuk.

Arada's strategic goal is to deliver world-class communities while prudently expanding the Group's footprint. It aims to achieve this goal through ensuring that its developments are de-risked as far as is possible, increasingly diversifying its cash flows and expanding the sources of finance which it is able to access.

Strategy

Arada's strategic goal is to deliver world-class communities while prudently expanding the Group's footprint. To achieve this goal, Arada focuses on:

Ensuring that the Group's developments are de-risked as far as is possible

As at the date of this Base Offering Circular, the Group had developed and completed one community (Nasma) and was at various stages in the development of eleven communities (Aljada, Masaar, Masaar 2, Anantara, Jouri Hills, Armani Beach Residences, W Residences, Akala and projects in Downtown Dubai, Ras Al Khaimah and Australia) with more than 10,200 residential units delivered, more than 3,500 under construction and more than 18,000 units (including commercial units) scheduled to be launched and delivered in future periods. As at 31 December 2024, the Group's total sales backlog was AED 9,146.3 million (compared to AED 8,016.2 million as at 31 December 2023)⁶.

Arada focuses on de-risking its development strategy in the following ways:

- Arada seeks to leverage its preferential access to land, for example through its close relationship with the Sharjah Government. As part of this strategy, all of the land acquired by the Group to the date of this Base Offering Circular in respect of Aljada and Masaar has a deferred payment plan,

⁵ See "*Presentation of Financial and Other Information – Presentation of Financial Information – Sales Backlog*". The value of the Group's portfolio (including its compound annual growth rate) includes W Residences and Anantara.

⁶ See "*Presentation of Financial and Other Information – Presentation of Financial Information – Sales Backlog*". The Group's sales backlog excluding sales at W Residences and Anantara was AED 8,199.1 million as at 31 December 2024.

resulting in minimum upfront costs. Furthermore, the Group utilises land held by related parties for development and works with joint ventures pursuant to which land payments are made from profit from the development. Each of these approaches similarly reduces upfront costs.

- Arada believes that pre-selling is the key element in development, and in each of its developments it aims to ensure that its pre-selling benchmark of between 60 and 65 per cent. is reached before it commits to capital expenditure. This helps ensure both that Arada has the flexibility to time the project completion in order to optimise sales and that it can generate sufficient cash flows to pay the contractor and support its construction finance commitments. As at 31 December 2024, 92 per cent. of the Group's launched inventory (by value) has been sold and 68 per cent. of its launched inventory has been sold before construction started on the relevant projects.
- The Group does not undertake its own construction and instead appoints contractors under a lump sum turnkey contract, thereby passing much of the risk of project delays and cost overruns to the contractor. In relation to its more than 10,000 residential units delivered by 31 December 2024, Arada believes that it has achieved a 3 per cent. net saving on contracted value, reflecting the fact that it bulk purchases items such as air conditioning units, lifts and joinery, that are quoted in contracts as provisional sums.
- The Group's terms of sale ensure that it is fully paid by the purchaser before a residential unit is handed over. To the extent that a purchaser defaults in payment, the relevant residential unit will be retained by the Group and re-sold, typically for a higher price. As at 31 December 2024, less than 4 per cent. of the Group's customers had forfeited a residential unit through payment default.

Aiming to increasingly diversify cash flows

Each of the Group's community developments aims to establish self-sufficient communities through the provision of amenities that meet the wider needs of residents and help to ensure faster occupancy in the delivered communities. These amenities include retail, education, hospitality and leisure and entertainment elements, many of which the Group is able to monetise.

The Group is progressively building a recurring income portfolio by retaining relevant property components in delivered communities. In 2024, the Group's recurring revenue (being other revenue from contracts with customers and lease income) amounted to AED 239.6 million, comprising AED 64.6 million from leasing retail units and AED 175.0 million from its other services including income from educational services, facility management services and gym membership fees (compared to AED 128.1 million, AED 38.8 million and AED 89.3 million, respectively, in 2023). The Group believes that its recurring revenue will increase significantly in future periods as further recurring revenue generating assets are delivered.

The Group is also starting to expand into new geographical markets, with the launch of a number of projects in Dubai as well as plans to launch in Ras Al Khaimah and Australia.

Access to multiple sources of funding

The Group benefits from strong relations with local and regional banks that help to support its growth. As at 31 December 2024, the Group had borrowings of AED 575.4 million (compared to AED 912.5 million as at 31 December 2023).

Furthermore, the Group has accessed the sukuk market with issuances in June 2022, October 2022, February 2023, June 2024 and October 2024. As at 31 December 2024, the Group had sukuk of AED 3.8 billion (compared to AED 1.8 billion as at 31 December 2023).

The issue of Trust Certificates under this Programme will help diversify the Group's sources of funding and increase the Group's profile in the capital markets, increasing its ability to raise further debt finance in future periods.

The Group's total equity was AED 2.8 billion as at 31 December 2024 (compared to AED 2.3 billion as at 31 December 2023). Arada anticipates that it may seek further equity funding in the form of either or both of a private placement and a public offering in the coming years.

The Group also aims to conserve cash and enhance liquidity in order to capitalise on the currently available market growth opportunities.

Strengths

The Group's principal strengths are:

Strategic shareholders

Arada's shareholders are companies controlled by H.R.H. Prince Khalid Bin Alwaleed Bin Talal Alsaud and H.R.H. Sheikh Sultan bin Ahmed Al Qasimi. These strategic shareholders are described under "*Group structure and shareholders*" below. Arada believes that the principal tangible and intangible benefits accruing to the Group from these strategic shareholders are:

- equity contributions and other tangible support in the Group; and
- access to a premium land bank on an extended payment plan, for example the land for Aljada and Masaar in Sharjah was procured from the Sharjah Government on an extended payment plan linked to sales.

Sharjah Government support

The Group is an integral part of Sharjah's growth plans. Arada was established to serve the high demand for fully integrated communities in Sharjah, helping to diversify the economy and bring substantial foreign direct investment to the emirate.

The Sharjah Government provided significant support in connection with Arada's purchase of the land for Aljada. This land was purchased in August 2017 from the Sharjah Government for AED 2,800 million, with a three-year payment plan (AED 1 billion upon signing of the agreement and AED 600 million per year paid in December in each of 2018, 2019 and 2020). The Sharjah Government provided a guarantee for the significant loan that Arada obtained in order to pay the initial AED 1 billion and the first instalment of AED 600 million for the Aljada land.

In December 2019, the Sharjah Government agreed to amend the Aljada land payment to a deferred payment plan of 16 years, calculated based on achievement of off plan sales on a yearly basis (with the revised land purchase price equalling AED 3,200 million). The Sharjah Government also repaid the AED 1,600 million paid earlier by Arada, which Arada used to prepay the loans associated with the land purchase. Subsequently, pre-payments against the bullet payment have been agreed with the Sharjah Government. AED 200 million was pre-paid in December 2023 with AED 100 million pre-payable on December 2024 and AED 100 million pre-payable in December 2025. Against this payment of AED 400 million, the Sharjah Government has reduced the total bullet payment due in December 2029 from AED 1.6 billion to AED 985 million (a discount of AED 615 million).

Arada also benefits from preference in terms of regulatory and infrastructure approvals, such as those required for electricity and water connections, which has speeded up delivery times and, in some cases, it has benefitted from fee waivers, for example for utility connections and land registrations, which has saved cost.

Although the Sharjah Government has provided financial support to the Group in the past, there is no assurance that it will continue to provide financial support in the future and the Trust Certificates are not guaranteed by the Sharjah Government.

In-house design team

Arada believes that its in-house design team adds value to its product offering by working in parallel with the research and sales team. The design team receive continuous feedback on customer expectations and amends their designs accordingly. As a result, the Group creates new designs for each master development which are more closely matched to the needs of its customer base and helps it to maintain a competitive edge compared to its competitors, who frequently re-use previous designs.

Experienced senior management team

Arada's senior management team comprises experts in multiple areas of property development, including procurement and contracts, sales, brand management, digital and other forms of marketing, design and events management. Arada believes that none of the other Sharjah developers have in-house expertise in diverse fields such as branding, design, development and delivery.

Marker leader in Sharjah which has resilient real estate dynamics

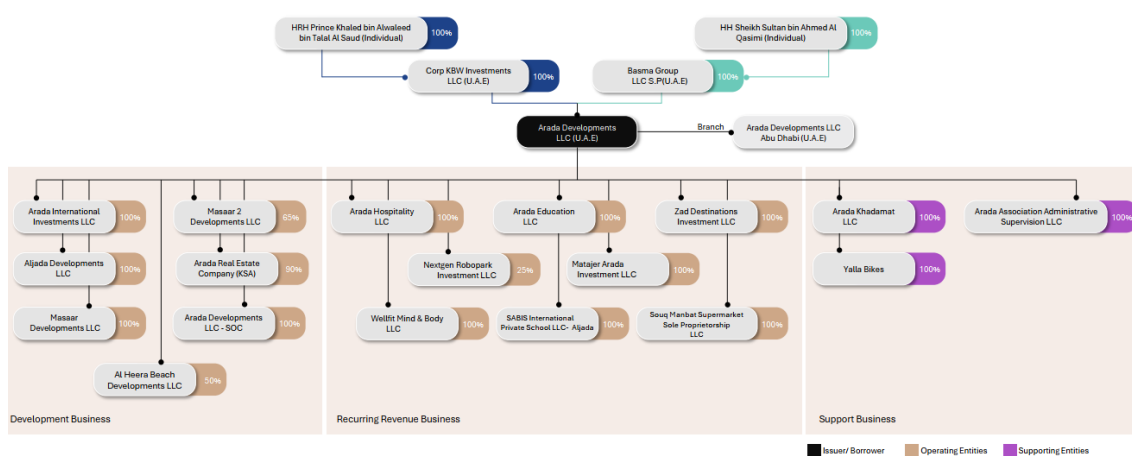

The concept of integrated community development is new to Sharjah, where the market consists predominantly of single-tower developments. Through Nasma, Aljada, Masaar and Anantara, the Group has introduced integrated community development to Sharjah.

Sharjah is also one of the best performing residential real estate markets in the UAE, with REIDIN Index annual reports showing that the UAE residential price index (which equalled 100 in January 2014) was 187.4 in Sharjah in December 2024 compared to 122.7 in Ajman, 128.1 in Dubai, 89.0 in Abu Dhabi and 208.3 in Ras Al Khaimah. Arada believes that Sharjah has also shown resilient price stability throughout market cycles and that its real estate market proved to be a strong investment through the COVID-19 pandemic and recent global market volatility.

Funding Principles

The Group generally employs a flexible funding strategy which depends on, among other things, the project being financed, the state of the financing markets, relevant macroeconomic conditions and the execution timing of other transactions being undertaken by it.

To the date of this Base Offering Circular, the Group has principally funded its projects using equity, bank loans, the proceeds of off-plan sales of residential units and more recently, the issuance of sukuk.

Project-specific debt has to date been raised at the parent company level. The use of leverage in relation to a particular project is considered at various stages of the project process, on a case-by-case basis, based upon the cash flow profile of the project concerned, the availability of financing on attractive terms, the projected returns of the project and other factors which the Group may consider appropriate.

Integrated Business Model

The Group has an integrated business model which is summarised in the chart below:

Development

The Group has a strong track record of executing build to sell projects and master communities. It has a low-risk development model based on achieving substantial pre-selling before committing capital and deferring its land acquisition costs where possible. The Group also has a strong focus on customer satisfaction and retention, resulting in 29.9 per cent. of its residential units sold in the three years to 31 December 2024 being purchased by customers who had already purchased at least one residential unit from the Group.

Self-sufficient communities

The Group aims to deliver communities with additional amenities such as retail, fitness, education and hospitality. It believes that this increases the overall appeal of the communities and supports faster occupancy as well as providing recurring cash flows from leasing or managing these amenities.

Arada Khadamat

The Group's subsidiary, Arada Khadamat, is dedicated to serving its customers' needs which encompasses customer relationship management, facilities management, tenancy services and jointly-owned property management. The Group also offers high quality property maintenance and management services which it believes will result in satisfied customers and enhance its ability to secure repeat purchases.

Recurring revenue portfolio

The Group currently generates: (a) leasing revenue from retail units retained by it and from Madar at Aljada; (b) schools revenue; and (c) revenue from fitness centres, as its principal sources of recurring revenue. The Group is expanding into multiple verticals with a focus on enhancing its customers' experience at the Group's communities and developing verticals into standalone businesses. These verticals currently include retail brands, education and hotels, and entertainment, while prime commercial space is also expected to be significant contributor to recurring revenue in future periods.

Business

Introduction

Since Arada was established in 2017, the Group has progressed from being a community developer (Nasma) to becoming a destination developer (Aljada and Masaar). The Group's master-planned destinations are distinguished by their design, high quality build and finishes and wide range of amenities, combining residential and commercial property, shopping malls and other retail assets and high-end hospitality and leisure attractions within secure, well-maintained communities. In addition, the Group ensures, through its

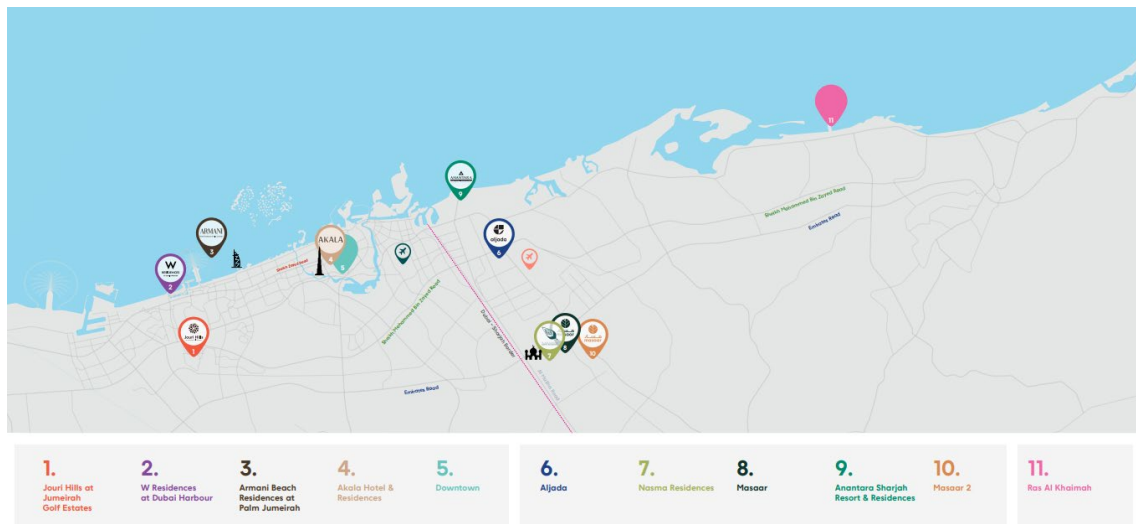

collaboration with local regulators, utility companies and government agencies, that the infrastructure necessary to support its communities, such as roads, power, water and sewage, landscaping and open recreational spaces, is in place.

The Group oversees all aspects of the development of its master-planned destinations, from initial concept development and design, through construction, to sales and marketing. Partnering with major construction firms, it maintains strict oversight and seeks to ensure that its projects are completed within budget and to the highest standards. All of its three developments contain residential units, such as apartments, townhouses and villas, that are built for sale, retail space which is built for leasing to occupiers and recreational amenities such as parks and other outdoor space. Some of the Group's developments may also contain commercial units, such as offices, educational and medical facilities, and hotels and leisure and entertainment facilities, all of which are intended to be retained by the Group and leased to, or operated by, third parties.

The Group's portfolio comprises 11 projects, each of which is described under "*Projects*" below. One community (Nasma) has been completed and the remainder are in different stages of development.

Projects

The map below shows the location of each of the Group's five projects in Sharjah, five in Dubai and one in Ras Al Khaimah.

Project development process

Feasibility

Each master-planned community project commences with a preliminary feasibility report, which sets out the project development phases, provides a high-level analysis of the financial parameters of the project and an overview of potential legal and regulatory issues, and includes relevant market research studies. At this stage, various government and/or local parties are also approached with a basic framework of the proposed project. Where a partnering entity is identified, due diligence of its business is also undertaken. Once finalised, the preliminary due diligence report is submitted to senior management for review and

approval. Once the project is approved by senior management, it is then presented to the Board of Directors (the "**Board**") for approval to undertake a detailed feasibility study.

Upon approval from the Board, a memorandum of understanding with an expression of interest is signed with the relevant counterparties confirming interest in the project and the Group's exclusive development rights. External consultants are then appointed to carry out the detailed feasibility study. Board approval is obtained to proceed with development based on the outcome of the detailed feasibility study including approval on, where applicable, the terms and conditions of any proposed joint venture agreement.

Master planning

Master planning starts after the granting or acquisition of land, whether directly, through a joint venture agreement or a development agreement. This stage of the process is designed to ensure that a project will reflect the Group's brand and quality standards, which are monitored on an ongoing basis by quality assurance and control teams, and that it will respond to the demands and preferences of the Group's customers, as informed by the insights of market research and the sales and marketing team.

In the case of the Group's Sharjah developments, the master plan requires approval from relevant authorities including the Department of Town Planning and Survey and the SRED in Sharjah and Dubai Land Department, the Real Estate Regulatory Agency and Trakhees or Dubai Municipality in Dubai, each as applicable. The Group organises the master planning of its projects through a team of experienced in-house professionals as well as external design consultants.

At the design phase, more detailed project and design feasibility studies are conducted for various development options and third party consultants are engaged to design the project. Consultation with all relevant parties, including supervisory bodies, designers, architects, road and traffic authorities and utility providers are carried out to establish the infrastructure requirements for the project. Based on this work, a detailed master plan for the development is prepared which also includes its sales and marketing strategy. The master plan sets out, among other things, the type, density, built-up area and timeline for completion of the project.

Plot level design and tender process

Following approval of the master plan, a detailed schematic and tender process stage is commenced, when a bill of quantities (the "**BOQ**") is undertaken which defines the overall scope of work, lists the materials required and details the nature and scope of activities to be carried out to execute the project. It also includes details of the budget estimates for the proposed project. The BOQ is typically approved by the Group's design, commercial and development departments.

Tenders or invitations to submit proposals for each development phase are issued to potential contractors, who are chosen based on their track record, their ability to complete the project and their relevant experience. Submitted bids are evaluated, with particular attention paid to the skill set and expertise (for example, in design, cost consulting or construction) that the Group requires for the proposed project and the pricing proposal.

The Group engages contractors and, from time to time, sub-contractors, ensuring quality control and reducing operational risk. It adopts a proactive approach to its tender management process, utilising a pre-qualification process that comprises both technical and financial elements. The Group places limits on variation orders and changes from its original approved designs, and construction progress and quality is monitored by third-party supervision consultants.

Arada believes that the Group's design and tender processes provide it with a high degree of certainty with respect to development and BOQ costs. This, in turn, allows it to launch its developments for off-plan sales early in the process. Early launches create the opportunity for further market and customer feedback through which the project plans can be further refined. While certain aspects of the Group's projects are relatively fixed, such as gross floor area and elements that affect regulatory approvals, such as traffic impact assessments, the Group seeks to maintain flexibility to respond to customer demand for particular types of residential units, property features and amenities. The Group's sales and marketing teams provide continuous feedback on customer preferences that allow its design and construction teams to adjust and respond in order to enhance the product offering.

Leasing

Typically, the Group leases the retail elements within its developments once they have been constructed (although in some instances commercial space may be sold to third parties) and sells residential units completed by it. In relation to its leasing arrangements, the Group has adopted its own form of lease contract setting out details of rental periods, service charges, default provisions and other requirements. Where anchor tenants are identified (meaning those tenants identified as key businesses which lease large amounts of retail or commercial space), the lease agreements may be negotiated.

The Group has set criteria for its retail and commercial developments and before a lease agreement is executed, due diligence on the potential tenant is undertaken. Once an agreement is signed, each tenant receives a tenant guide related to the nature of their tenancy.

Marketing and sales

The marketing and sales plan for each project is developed at the master plan stage, and includes the launch plan and a marketing strategy informed by key insights from the sales and development teams. These insights incorporate a pricing proposal which covers the different types of residential units included in each development, their locations within the development and individual features, as well as an affordability analysis, which combines target market research, rental yields, mortgage rates and target margins, among other things. The Group's marketing plans include a mix of communication channels, with a strategic focus on digital and social media and other web-based platforms, in addition to ongoing branding and promotional events to foster sustained engagement with target customers.

The Group's marketing strategy is to strengthen awareness of the Arada brand through sustained brand visibility initiatives and a robust digital presence, educating new and existing customers about its projects, and driving customer engagement through dedicated destination campaigns highlighting key attributes of its projects. The Group's marketing strategy combines impact campaigns, including engaging launch events, insight driven online and social media marketing and a best-in-class sales experience. In addition to the communication initiatives supporting the advertising, branding and promotional events for its projects, the Group also has dedicated display model villas and apartment interior mock-ups, which give potential customers the opportunity to experience elements of its projects first-hand, including details of the amenities that will be offered.

The Group engages external public relations agencies to support more extensive communications for specific project launches such as press releases in regional publications and through its websites. It undertakes an approach of "perfect launches", which refers to launches when all infrastructure requirements for the development are finalised or nearly finalised and where all the details of the master plan, including the services and amenities which will be available for the project, have been identified. On the launch date, prospective customers are served either on a first-come-first-served basis or based on pre-registration.

The bulk of the Group's sales were driven by third-party agencies in the three years ended 31 December 2024. As at 31 December 2024, the Group had relationships or partnerships with 1,488 third-party agencies. In 2024, 65 per cent. of the Group's sales were made through third-party agencies. The Group's relationship with these third-party agencies is non-exclusive and on a commission basis. In addition to sales agencies, the Group's properties are also directly sold through international property fairs, dedicated marketing roadshows to premium destinations, as well as through referrals and direct enquiries.

The Group aims to steadily increase the contribution of the direct sales channel, which is more cost effective than, and reduces reliance on, the agency channel which is driven by commission structures. The Group is growing its direct sales database which it believes will also help it to cross-sell other services within the Group's portfolio. In 2023, direct sales represented 34 per cent. of total sales compared to 35 per cent. in 2024.

The Group begins selling its projects off-plan. Initial units may be sold at lower prices to create demand inflow, and sales prices increase periodically throughout the development process with higher specification or priced units being sold as the community nears completion.

Upon buying a residential unit, the customer contractually agrees to pay Arada the purchase price in instalments on a pre-agreed payment schedule. Main construction works are commenced once a sufficient portion of the residential units in a development is pre-sold (typically around 70 per cent.). At the time of sale, contracts detailing, among other things, payment schedules (including relevant construction

milestones), apartment or villa plans and agreed designs are executed and a deposit of 5-10 per cent. of the total purchase price is collected. Thereafter, customers are required to make progressive payments on pre-determined dates or upon the completion of pre-determined stages of construction. This business model allows projects to remain cash positive throughout the entirety of the construction cycle. Payment plans and schedules vary by development and type of residential unit.

If a customer defaults on such progressive or final payments, as applicable, Arada's practice is to take legal action to enforce the payments due and to terminate the relevant sale and purchase agreement. Once the termination has been ordered by the court, Arada may de-register the property and resell it to a third party.

Construction of infrastructure

Infrastructure works are commenced before any buildings are constructed and run in parallel to main works construction for the duration of the development. Construction of infrastructure includes undertaking earth work, liaising with the relevant utility providers, building utility networks (such as district cooling stations, laying relevant pipelines for water and sewerage and establishing the electrical and telecommunications networks) and building roads. Typically, the infrastructure is developed in accordance with the development's requirements and accordingly, infrastructure plans can be amended based on actual sales patterns.

Construction of projects

Before tenders are awarded, a minimum threshold is normally set for pre-sales. This is typically between 60 and 70 per cent. of the residential units in a particular project, with approximately 25 per cent. of the associated sales value collected. As this covers the majority of construction costs, it ensures that the project is substantially self-funded through customer payments. However, if the pre-sales threshold is not met, the Group has discretion to proceed to award tenders without the relevant customer contributions. Once the pre-sales and leasing stage is concluded and tenders have been awarded, construction commences. Any variance to the budget, timeline and scope of work is reported by the relevant project control group to management.

Tenders are awarded to main contractors, which, in turn, may also employ specialist sub-contractors after consulting with the Group. In addition to the oversight of overall construction, the main contractor is typically responsible for site works, concrete works, masonry and partitions, metal works, thermal and moisture protection, signage, parking accessories and building maintenance units. These works account for approximately 40 per cent. of the total costs of construction on a typical project. The specialist sub-contractors are typically responsible for major professional services items including MEP (mechanical, electrical and plumbing) ("MEP") works, wood works and joinery, facade works such as aluminium and glazing, fit out and 'FF&E' (furnishings, furniture and equipment), and external works such as hard and soft landscaping.

These works account for approximately 50 per cent. of total construction costs on a typical project. The main contractor is also responsible for monitoring prime cost items, which include finishes (tiles, stone, thresholds, counter tops), doors and related ironmongery, sanitary ware, light fitting and facade fitting, home appliances, shower enclosures, and partitions and mirrors. These works account for approximately 10 per cent. of total construction costs on a typical project.

The Group focuses on efficiency and cost management at all stages of the procurement and construction processes. Costs are known at the outset of a project and allocated at the same rate per square foot across all units in a given project. Gross profit margins begin at approximately 25 per cent. and typically average 40 per cent. over the life cycle of a given master planned community. The Group has well developed systems in place to maintain its target gross profit margins and enhance its operational and financial performance through the management of construction costs and the performance of its contractors. It manages the performance of its contractors through a pre-qualification process that comprises both technical and financial elements. It places limits on variation orders and changes from its original approved designs, and construction progress and quality is monitored by third-party supervision consultants, including through structural design peer review.

Project contracts are primarily lump-sum and awarded at a fixed price, and a performance bond equal to 5 to 10 per cent. of the contract sum at the time the contract is awarded is generally required. Standard form contracts allow the Group to trigger early termination clauses in the case of non-performing contractors. The Group's structural designs are reviewed by third-party consultants to ensure design efficiency, and

extensive value engineering is carried out on major project elements, such as MEP, façade and joinery, which are carried out as nominated provisional sum packages. This allows the Group to maintain control over the selection of sub-contractors to achieve its desired quality and cost. In addition, to benefit from economies of scale, term contract agreements are used for special materials like ceramic tiles and sanitary ware for the Group's pipeline of projects.

The Group relies on recognised regional and local contractors in the execution of its projects. The table below provides information in relation to the Group's six largest contractors as at 31 December 2024.

Other business verticals

The Group's other business verticals include education, fitness, brands, hospitality, retail, entertainment and other services, principally the Arada Foundation which consolidates and structures the Group's corporate social responsibility and philanthropic initiatives, and Arada Khadamat and Arada Association, which are each discussed below under "*Asset management*".

Education

Launched in 2021, Arada opened its first school, the SABIS International School, in Aljada in partnership with SABIS, a global schools operator which owns the International School of Choueifat brand. The Group owns the school which is managed by SABIS and SABIS pays rent to the Group for the use of the premises.

The Group plans to open additional schools at both Aljada and Masaar. These schools are expected to be owned and leased by the Group to third party school operators.

In 2023, Arada signed an agreement with Innoventures Education for a built-to-suit school with a rental model in Aljada. The school, which will have a capacity of 2,000 students, is expected to be operational for the academic year starting in September 2026.

In 2024, Arada signed an agreement with Bright Capital to bring a top UK independent school, Reigate Grammar School, to Masaar. This will be on a built-to-suit rental model with a capacity of 2,700 students, and is expected to be operational for the academic year starting September 2027.

Fitness

In 2021, the Group launched a major new fitness and wellness concept, Wellfit. Wellfit is designed to motivate people to lead happier, healthier lives through a connected and tailored fitness experience. Wellfit's first three flagship venues in Jumeirah Village Circle (Dubai), Meydan (Dubai) and Madar at Aljada (Sharjah) are the three largest fitness clubs of their type in the UAE. There are also two community Wellfit gyms located in Nasma and Aljada. The Group plans to open additional Wellfit fitness centres in new locations in Dubai, Sharjah and Abu Dhabi.

In December 2024, Arada finalised the purchase of three well-known UAE-based gym brands (FitnGlam, The Platform Studios and FITCODE) taking its fitness portfolio to 15 gyms across the UAE (including Wellfit) with 11 more in the pipeline during the year following the date of this Base Offering Circular.

Brands

In addition to the Arada brand, the Group has other brands including Aljada, Masaar, ZAD, Manbat, Wellfit, Jouri Hills, Artal, Yalla, Hungry Wolves, Everwell, Nest, Reformatory Lab, Akala and Rhinotek

Zad, a new consumer brand, was launched by the Group in 2020. Zad is designed to activate public spaces, offering a flexible platform that has proven ability to attract significant footfall. The first Zad location at Madar in Aljada, which opened in the first quarter of 2020, is welcoming 120,000 visitors a month, drawn

by its safe, family-focused and playful attractions and well-designed environment. Zad at Aljada contains 24 food outlets, split between a walkthrough food district and a drive-thru. The site also features a free-to-enter drive-in cinema and has direct access to a softscape children's adventure playground, a waterplay area and a skatepark. As part of Madar, Zad generates leasing revenue for the Group. The Group plans to open an additional Zad location at Masaar as well as other locations.

Manbat is an initiative launched by the Group in collaboration with the UAE Ministry of Climate Change and Environment in early 2021. The initiative champions Emirati farmers through its farmer's markets and business-to-business and business-to-consumer local produce trading.

Hospitality

The Group has expanded, and expects to continue to expand, into the hospitality sector through hotels and branded residences.

In 2018, the Group agreed with Emaar Hospitality Group that the Group will construct three hotels and associated managed apartment buildings in Aljada that will be owned by the Group and managed by Emaar Hospitality under its five star The Address and Address Residences, four-star Vida and Vida Residences, and three-star Rove brands.

In response to emerging needs, the Group has plans for a three-star lifestyle hotel (Nest Hotel, Aljada) designed for experience-driven travellers as well as student accommodation (Nest Campus, Aljada).

Sharjah's first branded residences, the first three buildings of the Vida Residences Aljada, were launched in November 2020 and the construction contract was awarded in January 2023. The Group has expanded its branded residences to Anantara, Armani Beach Residences, W Residences and Akala.

Retail

The Group's retail vertical currently encompasses one Group-owned brand, Hungry Wolves, and one franchised brand, Boost Juice. This vertical does not operate the retail space retained by the Group and instead focuses on concepts that will be operated both within and outside the Group's developments.

Launched in November 2021, Hungry Wolves is a healthy-eating food and beverage brand based inside Wellfit fitness centres. Hungry Wolves has been designed to understand the importance of the role that food plays in the fitness journey.

In 2022, the Group, in association with Australian retailer Boost Juice, launched the Boost Juice business across the UAE through a Master Franchise Agreement. This marked the Group's entry into retail and the Group is planning to open more than 30 stores in the coming years. Boost Juice Bars is an Australian retail outlet that specialises in selling fruit juice and smoothies. Boost Juice Bars was formed in 2000 and now has expanded internationally with more than 500 franchised stores in Asia, Europe, South America and the United Kingdom.

In 2025, Arada launched The Reformatory Lab, a popular Australian coffee outlet, at its W Residences sales centre with plans to launch 10 further locations across the UAE by the end of 2027.

At Nasma, Arada operates Origins, a café and restaurant, which serves international cuisine.

Entertainment

The Group intends to expand the leisure portfolio in Madar substantially with the construction of around 70,000 square metres of additional leasable leisure space that is expected to be developed by 2028.

Asset management

The Group's master-planned destinations are managed in-house by experts with diversified experience.

Launched in 2021, Arada Khadamat is dedicated to serving the needs of the Group's buyers. Arada Khadamat covers the entire customer experience from post-sales through handover and for the lifetime of the property. Arada Khadamat, which is led by a dedicated chief community officer with extensive experience, comprises:

- a motivated customer relationship management team with excellent communications skills;
- a professional and available facilities management team; and
- leasing services to enable owners to rent out their property faster and to assist with the management of tenant issues.

In addition, the Arada Association has been established to help oversee the different owners' associations of the various buildings within each Group community. Owners' associations conduct community management and promote and protect the wellbeing and the lifestyle of each building and the residents living within them. They also provide community continuity, preserve the architecture and common areas, and oversee several technical, security, financial, administrative and customer service functions.

Currently, Arada Association is assuming the administrative responsibilities of each owners' association, ensuring transparency and generating trust from stakeholders. Over time, the intention is that management of each owners' association will devolve to its community. Arada Association also plans to establish a community portal that will offer two-way communication between residents and management on a 24-hour basis.

The Group's customer base is diverse with 91 per cent. of the Group's sales being to non-UAE nationals in 2024. The table below shows the nationality of the Group's customers as a percentage of its total sales in each of 2024, 2023 and 2022.

Competition

Arada currently competes with other major property development companies offering properties that compete with those offered in the Group's projects, including Al Zahia, Alef group and others. Competition principally takes the form of competing for purchasers of residential property. In addition, Arada also competes to source appropriate land plots on which to construct its projects, for example its acquisition of a land plot on Palm Jumeirah was won in a competitive bid process against other leading developers in Dubai.

See further "*Risk Factors – Risk factors relating to Arada's ability to fulfil its obligations under the Transaction Documents – The Group faces competition in property development*".

Intellectual Property

Arada owns a number of trademarks which are important to its business, including Arada, Aljada, Masaar, Zad, Manbat, Wellfit, Everwell, Nest, Reformatory Lab, Akala and Rhinotek. Each of these trademarks has been registered in the UAE.

Information Technology

Arada seeks to ensure that the Group's technology solutions constantly drive new ways of doing business, influencing the customer experience and improving both business innovation and efficiency. The Group ensures that its implemented systems and solutions meet the requirements of its business, are effectively maintained and are kept up to date.

In order to help capture a market-leading position, in 2021 the Group embarked on a two-year digital transformation programme called "EVOLVE" which completed in the first quarter of 2023 and is designed to address the following key digital transformation pillars:

- **NexGen infrastructure:** currently Arada has robust Microsoft Azure cloud infrastructure which enables 24/7 availability, faster response times and future on-demand scalability for the Group with disaster recovery enabled, including back-ups which are collected periodically. The Group's document management system is also designed to allow the recovery of data in a disaster scenario, as it can be remotely accessed through the internet.
- **Application modernisation:** Arada has built or implemented leading core enterprise business systems that helped to digitise its business processes and enable continuous improvements.
- **Digitally connected enterprise:** digitally connected enterprise enables the digital culture and promotes digital collaboration. Using these platforms, the Group ensures that systems such as enterprise content management and document management are always available for secured collaboration and sharing.
- **Digital connect to customers:** the Group is implementing key digital solutions that enable digital connection and collaboration with its customers in way that enhances the customer experience. The Group has already deployed systems and mobile applications for managing customer services, feedback, analyses and reports.
- **Data analytics and business insights:** the Group is implementing key technology platforms to enable systematic business data capture and acquisition for the purpose of data insights, analytics and discovery to facilitate informed decision-making.

The Group has implemented cloud security controls as part of the Microsoft Azure hosting platform which covers its standard office, email and other productivity tools as well as the key technology systems. The Group has also implemented the leading on-premises end point security systems, network security firewalls and other security measures. As at the date of this Base Offering Circular, the Group has not experienced any security breaches.

Insurance/Takaful

Arada has invested in comprehensive insurance/takaful policies tailored to real estate development. It includes property insurance/takaful (movable and immovable), general liability insurance/takaful, professional liability insurance/takaful (errors and omissions), contractor's all risk ("CAR") insurance/takaful, directors' and officers' liability insurance/takaful, business interruption insurance/takaful, fidelity guarantee and motor fleet insurance/takaful.

Prior to awarding a development contract, Arada requires its contractors to secure CAR insurance/takaful to protect against various risks and liabilities that may arise during construction. It provides coverage for both property damage and third-party liabilities associated with construction projects. It typically covers the construction site, materials, equipment, and machinery, as well as third-party property damage and bodily injury arising from the construction activities. The policy commences from the inception date of the

contract and is valid until completion and handing over of the project to Arada. Once the project is handed over by the contractor, the CAR insurance/takaful expires. Thereafter, the retained elements of the project form part of the Group's assets and are insured under Arada's own property insurance/takaful.

Arada believes that the Group's insurance/takaful programme is comprehensive and robust. Arada endeavours to keep the insurance/takaful programme aligned and updated, on an ongoing basis, in accordance with the latest insurance/takaful solutions available in the global insurance/takaful market. Arada is transparent in its disclosure of information to the underwriters in evaluating the risk, its pricing and coverage.

Arada also has in place business interruption and loss of profit insurance/takaful. In addition, Arada requires all of its consultants to carry professional indemnity insurance/takaful according to the best available market standards.

Arada's insurance/takaful policies are subject to commercially negotiated deductibles, exclusions and limitations. There have been no material changes in Arada's risks in the two years prior to this Base Offering Circular and, therefore, no changes in the costs and availability of insurance/takaful cover.

While Arada has insured for majority of potential risks in relation to real estate development, there are also certain risks that are typically excluded from insurance/takaful coverage and/or are difficult to insure effectively due to their nature. While insurance/takaful can protect against physical damage to property, it cannot mitigate the financial impact of market fluctuations or declines in property values. Force majeure events, such as natural disasters or acts of terrorism, can cause significant damage to real estate properties. While insurance/takaful policies cover damage from these events, there are limitations or exclusions for certain types of catastrophic events such as war or terrorism or losses beyond the insurer's/takaful provider's control. See "*Risk Factors – Risk factors relating to the Group's business and Arada's ability to fulfil its obligations under the Transaction Documents – The Group may not have adequate insurance/takaful to cover potential losses*".

Environment and ESG

Arada is dedicated to adhering to, or surpassing, the industry benchmarks for all relevant environmental standards and regulations. Arada is devoted to developing its properties in a manner that ensures the enduring sustainability of our environment. Reflecting this commitment, the Group published its first ESG report covering the fiscal year 2024 in June 2025 outlining its integrated approach to environmental, social and governance (“ESG”) objectives as they are applied to its current operations and developments within the UAE.

To achieve this, Arada engages in comprehensive environmental studies and employs an environmental consultant to oversee the implementation of the outcome of these studies, in accordance with regulatory requirements for each of its projects. This ensures strict compliance with all pertinent regulations. The construction contractors overseeing Arada's projects secure all necessary permits from government bodies and oversee the permit acquisition process. Arada's project sites undergo regular inspections by regulatory bodies to ensure continuous adherence to environmental regulations.

As at the date of this Base Offering Circular, no material environmental issues have occurred at any project site whether the site is being considered for development, has been developed or has been completed by the Group, and no material environmental claims have been made or asserted against the Group.

Arada believes that its properties are in substantial compliance with all relevant environmental laws and regulations. Arada's environmental practices are governed by stringent operating guidelines designed to minimise its impact on the ecosystems in which it operates. Arada is committed to educating its employees, contractors, suppliers, and the communities it serves about the potential environmental impacts of their activities. Arada's goal is to foster greater environmental awareness and promote a more sustainable lifestyle through energy and water efficiency initiatives, aligning with the UAE's vision for a greener future.

In February 2024, Arada successfully attained the ISO 26000:2010 accreditation, marking a significant milestone in its journey towards sustainability. This achievement underscores Arada's dedication to

adhering to international standards for social responsibility. It reflects its ongoing commitment to operate ethically and sustainably, setting a benchmark for corporate responsibility.

Health and Safety

Arada is committed to providing a safe working environment and to securing improvements in occupational health and safety by protecting employees, visitors and all who work on its behalf from workplace injury and illness.

Arada appoints a supervision consultant to monitor the progress of construction and the implementation of local regulations, international health and safety guidelines such as ISO 9001:2008, ISO 14001:2004, OHSAS 18001:2007 and National Fire Protection Association standards in each of its projects. The supervision consultant hires a health and safety officer and works with the project manager. The supervision consultant also hires a health and safety manager for the project and works with others who are appointed specifically to monitor safety compliance at each relevant construction site. These teams jointly manage and ensure site safety requirements are met by contractors and subcontractors.

For each project, Arada also appoints a project manager to inspect both the physical conditions on the site, such as personal protective equipment, working at heights and in confined spaces, and procedural issues such as third party certification for lifting equipment, machinery, firefighting systems, first aid procedures, control measures, emergency and contingency plans and job specific training registers. The project manager can authorise the appointed health and safety officer to issue reports, stop work and impose fines should policies not be followed. The health and safety officer also tracks and reports monthly key performance indicators on the project, such as the number of man-hours worked, workers, lost days, lost time incidents, first aid and medical treatment cases and fire accidents. In some cases, where no health and safety officer is appointed by the lead contractor, Arada hires an external health and safety consultant to perform this task and report directly to the Arada project manager.

FORM OF THE TRUST CERTIFICATES

Words and expressions defined in the Conditions shall have the same meanings in this section, "*Form of the Trust Certificates*".

The Trust Certificates of each Tranche will be in registered form. Trust Certificates will be issued and sold outside the United States in reliance on the exemption from registration provided by Regulation S.

The Trust Certificates of each Series will initially be represented by beneficial interests in a global trust certificate in registered form (a "**Global Trust Certificate**"). Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Series of Trust Certificates, beneficial interests in a Global Trust Certificate may not be offered or sold to, or for the account or benefit of, a U.S. person and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Global Trust Certificate will bear a legend regarding such restrictions on transfer.

Global Trust Certificates will be deposited with the Common Depositary for Euroclear and Clearstream, Luxembourg and will be registered in the name of a nominee for the Common Depositary. Persons holding beneficial interests in Global Trust Certificates will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Trust Certificates in fully registered form.

Payments of any amount in respect of each Global Trust Certificate will, in the absence of provision to the contrary, be made to the person shown on the relevant Register as the registered holder of the relevant Global Trust Certificate. None of the Trustee, the Delegate or any Agent will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Global Trust Certificates or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payment of any amounts in respect of Trust Certificates will, in the absence of any provision to the contrary, be made to the persons shown on the relevant Register on the relevant Record Date immediately preceding the due date for payment in the manner provided in the Conditions.

Interests in a Global Trust Certificate will be exchangeable (free of charge), in whole but not in part, for definitive Trust Certificates only upon the occurrence of an Exchange Event. The Trustee will promptly give notice to Certificateholders in accordance with Condition 18 (*Notices*) if an Exchange Event occurs. For these purposes, "**Exchange Event**" means that: (i) the Delegate has given notice in accordance with Condition 15 (*Dissolution Events*) that a Dissolution Event has occurred and is continuing; or (ii) the Trustee, Arada and the Delegate have been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Global Trust Certificate) may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (ii) above, the Trustee may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

For so long as any of the Trust Certificates is represented by a Global Trust Certificate held on behalf of Euroclear and/or Clearstream, Luxembourg, each person (other than Euroclear and/or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear and/or Clearstream, Luxembourg as the holder of a particular face amount of such Trust Certificates (in which regard any certificate or other document issued by Euroclear and/or Clearstream, Luxembourg as to the face amount of such Trust Certificates standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Trustee, the Delegate, Arada and the Agents as the holder of such face amount of such Trust Certificates for all purposes other than with respect to any payment in respect of such Trust Certificates, for which purpose the registered holder of the Global Trust Certificate shall be treated by the Trustee, the Delegate, Arada and any Agent as the holder of such face amount of such Trust Certificates in accordance with and subject to the terms of the relevant Global Trust Certificate and the expressions "**Certificateholder**" and "**holder**" in relation to any Trust Certificates and related expressions shall be construed accordingly.

Pursuant to the Agency Agreement, the Principal Paying Agent shall arrange that, where a further Tranche is issued (in accordance with Condition 22 (*Further Issues*)) which is intended to form a single Series with an existing Tranche at a point after the Issue Date of the further Tranche, the Trust Certificates of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Trust Certificates of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series.

Interests in a Global Trust Certificate may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Global Trust Certificate. No beneficial owner of an interest in a Global Trust Certificate will be able to transfer such interest, except in accordance with the applicable procedures of Euroclear and Clearstream, Luxembourg, to the extent applicable.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement.

Each of the Trust Certificates will represent an undivided ownership interest in the Trust Assets (as defined below) which are held by the Trustee on trust (the "**Trust**") for, *inter alia*, the benefit of the holders of the Trust Certificates pursuant to: (i) an amended and restated master declaration of trust (the "**Master Declaration of Trust**") dated 28 July 2025 and made between the Trustee, Arada Developments and The Law Debenture Trust Corporation p.l.c. 4. **Status and Limited Recourse**

4.1 ***Status***

Each Trust Certificate evidences an undivided ownership interest in the Trust Assets subject to the terms of the Declaration of Trust and these Conditions, and is a direct, unsubordinated, unsecured and limited recourse obligation of the Trustee. Each Trust Certificate ranks *pari passu*, without any preference or priority, with the other Trust Certificates.

The payment obligations of Arada (in any capacity) to the Trustee under the Transaction Documents to which it is a party in respect of each Series of Trust Certificates are and will be direct, unconditional, unsubordinated and (subject to the negative pledge provisions described in Condition 5.1 (Negative Pledge)) unsecured obligations of Arada and (save for such exceptions as may be provided by applicable legislation and subject to the negative pledge provisions described in Condition 5.1 (Negative Pledge)) at all times rank at least pari passu with all other present and future unsecured and unsubordinated obligations of Arada from time to time outstanding.

4.2 ***Limited Recourse***

The proceeds of the Trust Assets are the sole source of payments on the Trust Certificates. Save as provided in the next sentence, the Trust Certificates do not represent an interest in or obligation of any of the Trustee, Arada, the Delegate, the Agents or any of their respective affiliates. Accordingly, Certificateholders, by subscribing for or acquiring the Trust Certificates, acknowledge that:

- (a) they will not have recourse to any assets of the Trustee, the Delegate, the Agents, or any of their respective affiliates in respect of any shortfall in the expected amounts from the Trust Assets to the extent the Trust Assets have been exhausted following which all obligations of the Trustee shall be extinguished; and
- (b) any recourse to the assets of Arada shall be limited to the Trust Assets, which include obligations of Arada under the Transaction Documents.

Arada is obliged to make certain payments under the Transaction Documents directly to the Trustee (for and on behalf of the Certificateholders), and the Delegate will have recourse against Arada to recover such payments.

The net proceeds of realisation of, or enforcement with respect to, the Trust Assets may not be sufficient to make all payments due in respect of the Trust Certificates. If, following the distribution of such proceeds, there remains a shortfall in payments due under the Trust Certificates, subject to Condition 16 (*Enforcement and Exercise of Rights*), no holder of Trust Certificates will have any claim against the Trustee, Arada (to the extent that it fulfils all of its obligations under the Transaction Documents), the Delegate, the Agents or any of their respective affiliates or against any assets (other than the Trust Assets to the extent not exhausted) in respect of such shortfall and any unsatisfied claims of Certificateholders shall be extinguished. In particular, no holder of Trust Certificates will be able to petition for, or join any other person in instituting proceedings for, the reorganisation, liquidation, winding-up or receivership of the Trustee, Arada (to the extent that it fulfils all of its obligations under the Transaction Documents), the Delegate, the Agents or any of their respective affiliates as a consequence of such shortfall or otherwise.

4.3 ***Agreement of Certificateholders***

By subscribing for or acquiring the Trust Certificates, each Certificateholder acknowledges and agrees that notwithstanding anything to the contrary contained herein or in any other Transaction Document:

- (a) no payment of any amount whatsoever shall be made by any of the Trustee, the Delegate (acting in the name and on behalf of the Trustee) or any of their respective agents on their behalf except to the extent funds are available therefor from the Trust Assets;

- (b) no recourse shall be had for the payment of any amount owing hereunder or under any relevant Transaction Document, whether for the payment of any fee, indemnity or other amount hereunder or any other obligation or claim arising out of or based upon the Transaction Documents, against the Trustee (and/or its directors, officers, shareholders or administrators), Arada (and/or its officers) (to the extent that it fulfils all of its obligations under the Transaction Documents to which it is a party), the Delegate, any Agent or any of their respective agents or affiliates to the extent the Trust Assets have been exhausted following which all obligations of the Trustee, Arada, the Delegate any Agents and their respective agents or affiliates shall be extinguished;
- (c) prior to the date which is one year and one day after the date on which all amounts owing by the Trustee under the Transaction Documents to which it is a party have been paid in full, it will not institute against, or join with any other person in instituting against, the Trustee any bankruptcy, reorganisation, arrangement or liquidation proceedings or other proceedings under any bankruptcy or similar law;
- (d) no recourse under any obligation, covenant or agreement contained in any Transaction Document shall be had against any officer, agent, shareholder or director of the Trustee, by the enforcement of any assessment or by any proceeding, by virtue of any statute or otherwise. The obligations of the Trustee under the Transaction Documents to which it is a party are corporate or limited liability obligations of the Trustee and no personal liability shall attach to or be incurred by the officers, agents, shareholders or directors of the Trustee save in the case of their wilful default or actual fraud. Reference in these Conditions to wilful default or actual fraud means a finding to such effect by a court of competent jurisdiction in relation to the conduct of the relevant party; and
- (e) it shall not be entitled to claim or exercise any right of set-off, counterclaim, abatement or other similar remedy which it might otherwise have, under the laws of any jurisdiction, in respect of such Trust Certificate. No collateral is or will be given for the payment obligations by the Trustee under the Trust Certificates.

The provisions of this Condition 5.2 shall not apply for so long as Arada has Investment Grade Status. However, the provisions of this Condition 5.2 shall immediately apply if and for so long as Arada ceases to have Investment Grade Status. For the purposes of this Condition 5.2, "**Permitted Financial Indebtedness**" shall be construed to refer to the date on which the provisions of this Condition 5.2 re-apply in accordance with this Condition 5.2.

For the purposes of this Condition 5:

 - (ii) as provided for or permitted in the Transaction Documents;
 - (iii) the ownership, management and disposal of the Trust Assets as provided in the Transaction Documents; and

8. Fixed Periodic Distribution Provisions

8.1 *Periodic Distribution Amount*

A Periodic Distribution Amount for the Trust Certificates will be payable in respect of the Trust Certificates and will be distributable by the Trustee to the Certificateholders, *pro rata* to their respective holdings, out of amounts transferred to the Transaction Account pursuant to the terms of the Servicing Agency Agreement and the other Transaction Documents, in accordance with these Conditions.

8.2 *Determination of Periodic Distribution Amount*

Except as provided in the applicable Pricing Supplement or where a Total Loss Event has occurred in the current or previous Return Accumulation Period, the Periodic Distribution Amount payable in respect of each Trust Certificate in definitive form for any Return Accumulation Period shall be the Fixed Amount. Payments of Periodic Distribution Amount in respect of Trust Certificates in definitive form on any Periodic Distribution Date may, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

Except in the case of Trust Certificates in definitive form where a Fixed Amount or Broken Amount is specified in the applicable Pricing Supplement, the Periodic Distribution Amount shall be calculated in respect of any period by applying the Rate applicable to the relevant Return Accumulation Period to:

- (a) in the case of Trust Certificates which are represented by a Global Trust Certificate, the aggregate outstanding face amount of the Trust Certificates represented by such Global Trust Certificate; or
- (b) in the case of Trust Certificates in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Trust Certificate in definitive form is a multiple of the Calculation Amount, the Periodic Distribution Amount payable in respect of such Trust Certificate shall be the

product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In these Conditions:

"Day Count Fraction" means, in respect of the calculation of a Periodic Distribution Amount in accordance with these Conditions:

- (a) if **"Actual/Actual"** is specified in the applicable Pricing Supplement, the actual number of days in the Return Accumulation Period divided by 365 (or, if any portion of that Return Accumulation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Return Accumulation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Return Accumulation Period falling in a non-leap year divided by 365);
- (b) if **"Actual/365 (Fixed)"** is specified in the applicable Pricing Supplement, the actual number of days in the Return Accumulation Period divided by 365;
- (c) if **"Actual/365 (Sterling)"** is specified in the applicable Pricing Supplement, the actual number of days in the Return Accumulation Period divided by 365 or, in the case of a Periodic Distribution Date falling in a leap year, 366;
- (d) if **"Actual/360"** is specified in the applicable Pricing Supplement, the actual number of days in the Return Accumulation Period divided by 360;
- (e) if **"30/360"** is specified in the applicable Pricing Supplement, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{DayCountFraction} = \frac{[360 \times (Y_2 - Y_1) + (30 \times (M_2 - M_1) + (D_2 - D_1))]}{360}$$

where:

"Y₁" is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Return Accumulation Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"D₁" is the first calendar day, expressed as a number, of the Return Accumulation Period, unless such number is 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (f) if **"Actual/Actual (ICMA)"** is specified in the applicable Pricing Supplement:
 - (i) in the case of Trust Certificates where the number of days in the relevant period from (and including) the most recent Periodic Distribution Date (or, if none, the Return Accumulation Commencement Date) to (but excluding) the relevant payment date (the **"Accrual Period"**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (A) the number of days in such Determination Period and (B) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; or

- (ii) in the case of Trust Certificates where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year.

"Determination Period" means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Return Accumulation Commencement Date or the final Periodic Distribution Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

"sub-unit" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

8.3 ***Payment in Arrear***

Subject to Condition 8.4 (*Cessation of Profit Entitlement*), Condition 11.2 (*Early Dissolution for Tax Reasons*) to 11.5 (*Dissolution at the Option of the Certificateholders (Certificateholder Put Right)*) and Condition 15 (*Dissolution Events*), and unless otherwise specified in the applicable Pricing Supplement, each Periodic Distribution Amount will be paid in respect of the relevant Trust Certificates in arrear on each Periodic Distribution Date in respect of the Return Accumulation Period ending immediately before that Periodic Distribution Date.

8.4 ***Cessation of Profit Entitlement***

No further amounts will be payable on any Trust Certificate from and including:

- (a) the Dissolution Date (excluding a Total Loss Dissolution Date), unless default is made in the payment of the Dissolution Amount (provided that a Sale Agreement has not been entered into in accordance with the terms of the Purchase Undertaking or the Sale and Substitution Undertaking, as the case may be) in which case Periodic Distribution Amounts will continue to accrue in respect of the Trust Certificates in the manner provided in this Condition 8.4 to the earlier of: (i) the Relevant Date; or (ii) the date on which a sale agreement is executed pursuant to the Sale and Substitution Undertaking or the Purchase Undertaking, as the case may be; and
- (b) the date on which a Total Loss Event occurs until and excluding the Replacement Date. No profit shall accrue under the Trust Certificates in respect of the period from and including the date of the Total Loss Event until and excluding the Replacement Date. Provided that, following the occurrence of a Total Loss Event, the relevant Wakala Asset(s) have been replaced in accordance with the terms of the Servicing Agency Agreement and, if applicable, a lease asset(s) amendment agreement pursuant to the relevant Lease Agreement, the amount of the profit payable under the Trust Certificates on the first Periodic Distribution Date following the acquisition of the Replacement Wakala Asset(s) by the Trustee will be increased to include the amount of profit that would have accrued (had such Total Loss Event not occurred) during the period beginning on the date on which the Total Loss Event occurred and ending on but excluding the date on which the Replacement Wakala Asset(s) are acquired by the Trustee.

9. **Payment**

Payment of Dissolution Amounts and Periodic Distribution Amounts will be made by transfer to the registered account (as defined below) of a Certificateholder. Payments of Dissolution Amounts (where all of the Trust Certificates of the relevant Series are to be redeemed in full) will only be

made against surrender of the relevant Trust Certificate (or the certificate representing such Trust Certificate) at the specified office of the Registrar or the Principal Paying Agent. Dissolution Amounts and Periodic Distribution Amounts will be paid to the Certificateholder shown on the Register at the close of business on the relevant Record Date.

For the purposes of this Condition 9, a Certificateholder's "**registered account**" means the account in the Specified Currency maintained by or on behalf of such Certificateholder with a bank that processes payments in the Specified Currency, details of which appear on the Register at the close of business on the relevant Record Date.

All such payments will be made subject to any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions described in Condition 13 (*Taxation*). No commissions or expenses shall be charged to the Certificateholders in respect of such payments.

Payment instructions (for value the due date or, if that is not a Payment Business Day, for value the first following day which is a Payment Business Day) will be initiated on the Payment Business Day preceding the due date for payment or, in the case of a payment of face amounts (where all of the Trust Certificates of the relevant Series are to be redeemed in full) if later, on the Payment Business Day on which the relevant Trust Certificate is surrendered (where such surrender is required) at the specified office of the Registrar or the Principal Paying Agent (for value as soon as practicable thereafter).

Certificateholders will not be entitled to any payment for any delay after the due date in receiving the amount due if the due date is not a Payment Business Day, if the Certificateholder is late in surrendering its Trust Certificate (if required to do so in accordance with this Condition 9).

If the amount of any Dissolution Amount or Periodic Distribution Amount is not paid in full when due, the Registrar will annotate the Register with a record of the amount of such Dissolution Amount or Periodic Distribution Amount in fact paid.

10. **Agents**

10.1 ***Agents of Trustee***

In acting under the Agency Agreement and in connection with the Trust Certificates, the Agents act solely as agents of the Trustee and (to the extent provided therein) the Delegate and do not assume any obligations towards or relationship of agency or trust for or with any of the Certificateholders.

10.2 ***Specified Offices***

The names of the initial Agents are set out above. If any additional Paying Agents are appointed in connection with any Series, the names of such Paying Agents will be specified in Part B of the Pricing Supplement attached to or endorsed on this Trust Certificate. The Trustee reserves the right at any time to vary or terminate the appointment of any Agent and to appoint additional or other Agents provided, however, that:

- (a) there will at all times be a Principal Paying Agent; and
- (b) there will at all times be a Registrar (which may be the Principal Paying Agent).

Notice of any variation, termination or appointment and of any changes in specified offices will be given to the Certificateholders promptly by the Trustee in accordance with Condition 18 (*Notices*).

11. **Capital Distributions of Trust**

11.1 ***Scheduled Dissolution***

Unless the Trust Certificates are redeemed, purchased and/or cancelled earlier, each Trust Certificate shall be redeemed on the Scheduled Dissolution Date at its Final Dissolution Amount, including all unpaid Periodic Distribution Amounts accrued (if any) to (but excluding) the Scheduled Dissolution Date (the "**Final Dissolution Amount**"). Upon payment in full of such

amounts: (a) the relevant Sale Agreement shall be executed in accordance with the Purchase Undertaking; and (b) the Trust will be dissolved, the Trust Certificates shall cease to represent interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof.

11.2 ***Early Dissolution for Tax Reasons***

If a Tax Event occurs, upon receipt of an Exercise Notice from Arada in accordance with the Sale and Substitution Undertaking, the Trust Certificates shall be redeemed by the Trustee in whole, but not in part, on any date (such date, the "**Tax Dissolution Date**") upon giving not less than 30 nor more than 60 days' notice to the Delegate and the Certificateholders in accordance with Condition 18 (*Notices*) (which notice shall be irrevocable) and to the Delegate, at the Dissolution Amount (which, for the avoidance of doubt, shall include any accrued but unpaid Periodic Distribution Amounts) (the "**Tax Dissolution Amount**"), where "**Tax Event**" means the determination by Arada that:

- (a) (1) the Trustee has or will become obliged to pay additional amounts as provided or referred to in Condition 13 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the relevant Series; and (2) such obligation cannot be avoided by the Trustee taking reasonable measures available to it; or
- (b) (1) Arada has or will become obliged to pay additional amounts pursuant to any Transaction Document to which it is a party as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the relevant Series; and (2) such obligation cannot be avoided by Arada taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which: (1) (in the case of (a) above) the Trustee would be obliged to pay such additional amounts if a payment in respect of the Trust Certificates were then due; or (2) (in the case of (b) above) Arada would be obliged to pay such additional amounts if a payment to the Trustee under the relevant Transaction Document was then due.

Prior to the publication of any notice of redemption pursuant to this Condition 11.2, the Trustee shall deliver to the Delegate: (i) a certificate signed by two directors of the Trustee (in the case of (a) above) or any authorised signatory of Arada (in the case of (b) above) stating that the Trustee is entitled to effect such dissolution and redemption and setting forth a statement of facts showing that the conditions precedent in (a) or (b) above to the right of the Trustee so to dissolve have occurred; and (ii) an opinion of independent legal or tax advisers of recognised international standing to the effect that the Trustee or, as the case may be, Arada has or will become obliged to pay such additional amounts as a result of such change or amendment. The Delegate shall be entitled to accept (without further investigation) any such certificate and opinion as sufficient evidence thereof without incurring any liability to any person in which event it shall be conclusive and binding on the Certificateholders.

Upon the expiry of any such notice as is referred to in this Condition 11.2, the Trustee shall be bound to redeem the Trust Certificates at the Tax Dissolution Amount and, upon payment in full of such amounts to the Certificateholders: (a) the relevant Sale Agreement shall be executed in accordance with the Sale and Substitution Undertaking; and (b) the Trust will be dissolved, the Trust Certificates shall cease to represent interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof.

11.3 ***Dissolution at the Option of Arada (Optional Dissolution Call Right)***

If the Optional Dissolution Call Right option is specified in the applicable Pricing Supplement as being applicable, Arada may in its sole discretion deliver to the Trustee a duly completed Exercise Notice, subject to and in accordance with the provisions of the Sale and Substitution Undertaking

and, on receipt of such notice, the Trustee shall redeem the Trust Certificates in whole but not in part on any Optional Dissolution Date at the relevant Optional Dissolution Amount (Call), including all unpaid Periodic Distribution Amounts accrued (if any) to (but excluding) the Optional Dissolution Date (the "**Optional Dissolution Amount (Call)**") on the Trustee giving not less than 30 days' nor more than 60 days' notice to the Delegate and the Certificateholders (or such other notice period as may be specified hereon) in accordance with Condition 18 (*Notices*) (which notice shall be irrevocable and shall oblige the Trustee to redeem the Trust Certificates on the relevant Optional Dissolution Date).

For *Shari'a* reasons, the Optional Dissolution Call Right and the Certificateholder Put Right cannot both be specified as applicable in the applicable Pricing Supplement in respect of any single Series of Trust Certificates.

11.4 ***Dissolution following a Total Loss Event***

The Trustee shall, upon receipt of notice from Arada or otherwise becoming aware of the occurrence of a Total Loss Event (as defined below) and unless the Wakala Asset(s) is/are replaced as provided in the Servicing Agency Agreement by no later than the 60th day after the occurrence of a Total Loss Event, redeem the Trust Certificates in whole, but not in part, and dissolve the Trust by no later than the close of business in London on the 61st day after the occurrence of the Total Loss Event (or, if such date is not a Payment Business Day, on the immediately following Payment Business Day) (the "**Total Loss Dissolution Date**"), following notification thereof to the Delegate and the Certificateholders in accordance with Condition 18 (*Notices*). The Trust Certificates will be redeemed at the Dissolution Amount (which for the avoidance of doubt, shall include all accrued but unpaid Periodic Distribution Amounts plus an amount equal to the Periodic Distribution Amounts, which would have accrued had the relevant Total Loss Event not occurred, from and including the date on which such Total Loss Event, to but excluding the Total Loss Dissolution Date) (the "**Total Loss Dissolution Amount**") using the proceeds of: (a) the Insurances payable in respect of the Total Loss Event, which are required to be paid into the Transaction Account by no later than the 60th day after the occurrence of the Total Loss Event; and (b) if required, the Loss Shortfall Amount which is required to be paid into the Transaction Account by no later than the close of business in London on the 61st day after the occurrence of the Total Loss Event.

Upon payment in full of the Total Loss Dissolution Amount to the Certificateholders, the Trust will be dissolved, the Trust Certificates shall cease to represent interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof.

A "**Total Loss Event**" means (a) the total loss or destruction of, or damage to the whole of the Wakala Asset(s) or any event or occurrence that renders the whole of the Wakala Asset(s) permanently unfit for any economic use and the repair or remedial work in respect thereof is wholly uneconomical; or (b) the occurrence of any nationalisation, expropriation, requisition, confiscation, attachment or such other analogous event in respect of the whole of the Wakala Asset(s).

Upon the occurrence of a Total Loss Event, the Servicing Agent shall promptly notify the Lessor, the Delegate and the Trustee of the same and the Trustee shall promptly notify Certificateholders (the "**Trading Notice**"): (a) of the occurrence of a Total Loss Event; (b) from the date of the Trading Notice and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, the Trust Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (c) that, on the date of such Trading Notice, an application will be made for the Trust Certificates to be delisted from any stock exchange (if any) on which such Trust Certificates have been admitted to trading or if such date is not a business day, on the next following business day (business day being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to trading is open for business).

For the avoidance of doubt, neither the Delegate nor any Agent will have any responsibility for monitoring or ensuring compliance with any such *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis) nor shall it be liable to any Certificateholder or any other persons in respect thereof.

11.5 ***Dissolution at the Option of the Certificateholders (Certificateholder Put Right)***

If Certificateholder Put Right is specified in the applicable Pricing Supplement as being applicable, upon the holder of any Trust Certificate giving to the Trustee in accordance with Condition 18 (*Notices*) (with a copy to the Delegate) not less than 15 days' nor more than 30 days' notice (or such other notice period as may be specified hereon), the Trustee shall, upon the expiry of such notice, redeem such Trust Certificate on the Certificateholder Put Right Date and at the Optional Dissolution Amount (Put) specified in, or determined in the manner specified in, the applicable Pricing Supplement, including all unpaid Periodic Distribution Amounts accrued (if any) to (but excluding) the relevant Certificateholder Put Right Date (the "**Optional Dissolution Amount (Put)**"). For the purposes thereof, the Trustee (or the Delegate (on behalf of the Trustee)) shall deliver to Arada a duly completed Exercise Notice (in the case of delivery by the Trustee, with a copy to the Delegate), subject to and in accordance with the provisions of the Purchase Undertaking. Trust Certificates may be redeemed or, as the case may be, purchased under this Condition 11.5 in any multiple of their lowest Specified Denomination.

To exercise the right to require redemption of any Trust Certificate pursuant to this Condition 11.5 the holder thereof must, if the Trust Certificate is in definitive form and held outside Euroclear and Clearstream, Luxembourg, deliver, at the specified office of the Registrar at any time during normal business hours of such Registrar falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) set out in the Agency Agreement and obtainable from any specified office of the Registrar (a "**Put Notice**") and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition 11.5 and the aggregate face amount of such Trust Certificates to be redeemed and, if less than the full aggregate face amount of the Trust Certificates in definitive form so surrendered is to be redeemed, an address to which a new Trust Certificate in definitive form in respect of the balance of such Trust Certificates in definitive form is to be sent subject to and in accordance with the provisions of Condition 3 (*Transfers of Trust Certificates*).

If the relevant Trust Certificate is represented by a Global Trust Certificate and held through Euroclear and Clearstream, Luxembourg, to exercise the right to require redemption thereof the holder of such Trust Certificate must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on such Certificateholder's instruction by Euroclear and Clearstream, Luxembourg or any depository or custodian (as applicable) for them to the Principal Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time and at the same time present or procure the presentation of the relevant Global Trust Certificate to the Principal Paying Agent for notation accordingly.

No Put Notice or other notice given in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg given by a holder of any Trust Certificate pursuant to this Condition 11.5 may be withdrawn without the prior consent of the Trustee except where, prior to the due date of redemption, a Dissolution Event has occurred and the Delegate has declared the Trust Certificates are to be redeemed pursuant to Condition 15 (*Dissolution Events*), in which event such holder, at its option, may elect by notice to the Trustee to withdraw the notice given pursuant to this Condition 11.5.

For *Shari'a* reasons, the Optional Dissolution Call Right and the Certificateholder Put Right cannot both be specified as applicable in the applicable Pricing Supplement in respect of any single Series of Trust Certificates.

11.6 ***Dissolution at the Option of the Certificateholders (Tangibility Event Put Right)***

If a Tangibility Event occurs, upon receipt of a Tangibility Event Trustee Notice from Arada in accordance with the Servicing Agency Agreement, the Trustee shall promptly give notice to the Certificateholders (a "**Tangibility Event Notice**") in accordance with Condition 18 (*Notices*) specifying:

- (a) that a Tangibility Event has occurred, together with an explanation of the reasons for, and evidence of, such occurrence;

- (b) that as determined in consultation with the *Shari'a* Adviser, the Trust Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis);
- (c) that on the date falling 15 days following the Tangibility Event Put Right Date, the Trust Certificates will be delisted from any stock exchange (if any) on which the Trust Certificates have been admitted to trading or, if such date is not a business day, the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to trading is open for business); and
- (d) the Tangibility Event Put Period, during which period any Certificateholder shall have the right to require the redemption of all or any of its Trust Certificates.

Upon receipt of the Tangibility Event Notice, the Certificateholder of any Trust Certificates may elect within the Tangibility Event Put Period to require the redemption of all or any of its Trust Certificates.

If any Certificateholder exercises its right to redeem its Trust Certificates in accordance with this Condition 11.6, the Trustee shall redeem such Trust Certificates on the Tangibility Event Put Right Date at the Dissolution Amount (which, for the avoidance of doubt, shall include any accrued but unpaid Periodic Distribution Amounts) (the "**Tangibility Event Dissolution Amount**").

To exercise the right to require redemption of any Trust Certificate pursuant to this Condition 11.6 the holder thereof must, if the Trust Certificate is in definitive form and held outside Euroclear and Clearstream, Luxembourg, deliver, at the specified office of the Registrar at any time during normal business hours of such Registrar falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) set out in the Agency Agreement and obtainable from any specified office of the Registrar (a "**Tangibility Event Put Notice**") and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition 11.6 and the aggregate face amount of such Trust Certificates to be redeemed and, if less than the full aggregate face amount of the Trust Certificates in definitive form so surrendered is to be redeemed, an address to which a new Trust Certificate in definitive form in respect of the balance of such Trust Certificates in definitive form is to be sent subject to and in accordance with the provisions of Condition 3 (*Transfers of Trust Certificates*).

If the relevant Trust Certificate is represented by a Global Trust Certificate and held through Euroclear and Clearstream, Luxembourg, to exercise the right to require redemption thereof the holder of such Trust Certificate must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on such Certificateholder's instruction by Euroclear and Clearstream, Luxembourg or any depositary or custodian (as applicable) for them to the Principal Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time (which shall, if acceptable to the relevant clearing system, be in the form of a duly completed Tangibility Event Put Notice in the form obtainable from the Principal Paying Agent or the Registrar) and at the same time present or procure the presentation of the relevant Global Trust Certificate to the Principal Paying Agent for notation accordingly.

No Tangibility Event Put Notice or other notice given in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg given by a holder of any Trust Certificate pursuant to this Condition 11.6 may be withdrawn without the prior consent of the Trustee except where, prior to the due date of redemption, a Dissolution Event has occurred and the Delegate has declared the Trust Certificates are to be redeemed pursuant to Condition 15 (*Dissolution Events*), in which event such holder may elect by notice to the Trustee to withdraw the notice given pursuant to this Condition 11.6.

To the extent that there are any Trust Certificates in respect of which Tangibility Event Put Notices or other notices in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg have not been delivered following the expiry of the Tangibility Event Put Period, such Trust Certificates shall be delisted from any stock exchange (if any) on which the Trust

Certificates have been listed on a date falling 15 days following the Tangibility Event Put Right Date.

If all (and not some only) of the Trust Certificates are to be redeemed on any Tangibility Event Put Right Date in accordance with this Condition 11.6, upon payment in full of the Tangibility Event Dissolution Amount to the Certificateholders: (a) the relevant Sale Agreement shall be executed in accordance with the Purchase Undertaking; and (b) the Trust will be dissolved, the Trust Certificates shall cease to represent interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof.

In these Conditions:

"Shari'a Adviser" has the meaning given to it in the Servicing Agency Agreement;

"Tangible Asset Ratio" has the meaning given to it in the Servicing Agency Agreement;

a **"Tangibility Event"** shall occur if, at any time, the Tangible Asset Ratio, other than as a result of the occurrence of a Total Loss Event or a Partial Loss Event, falls to less than 33 per cent.;

"Tangibility Event Put Period" shall be the period of 30 days commencing on the date that is the 60th day after a Tangibility Event Notice is given;

"Tangibility Event Put Right Date" shall be the first Business Day falling 75 days following the expiry of the Tangibility Event Put Period; and

"Tangibility Event Trustee Notice" has the meaning given to it in the Servicing Agency Agreement.

For the avoidance of doubt, neither the Delegate nor any Agent will have any responsibility for monitoring or ensuring compliance with any such *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis) referred to in (b) above nor shall it be liable to any Certificateholder or any other person in respect thereof.

11.7 ***Dissolution at the Option of the Certificateholders (Change of Control Put Right)***

The Delegate shall not be bound in any circumstances to take any action to enforce or to realise the Trust Assets or take any action, step or proceedings against Arada and/or the Trustee under any Transaction Document unless directed or requested to do so by Extraordinary Resolution or in writing by the holders of at least 25 per cent. in aggregate face amount of the Trust Certificates then outstanding and subject, in each case, to it being indemnified and/or secured and/or prefunded to its satisfaction against all Liabilities to which it may thereby render itself liable or which it may incur by so doing.

16.3 ***Direct enforcement by Certificateholders***

No Certificateholder shall be entitled to proceed directly against the Trustee or Arada, under any Transaction Document, unless the Delegate, having become so bound to proceed, (i) fails to do so within 30 days of becoming so bound, or (ii) is unable by reason of an order of a court having competent jurisdiction, and such failure or inability is continuing. Under no circumstances shall the Trustee, the Delegate or any Certificateholder have any right to cause the sale or other disposition of any of the Trust Assets (other than as expressly contemplated in the Transaction Documents and/or these Conditions), and the sole right of the Trustee, the Delegate and the Certificateholders against the Trustee and Arada, as applicable, shall be to enforce their respective obligations under the Transaction Documents.

Any notice shall be deemed to have been given on the fourth day (other than a Saturday or Sunday) after being mailed or on the date of publication or, if so published more than once or on different dates, on the date of the first publication.

So long as the Global Trust Certificate representing the Trust Certificates is held in its entirety on behalf of Euroclear and Clearstream, Luxembourg, there may be substituted for such publication in such newspaper(s) the delivery of the relevant notice to Euroclear and Clearstream, Luxembourg for communication by them to the Certificateholders. Any such notice shall be deemed to have been given to the Certificateholders on the day on which the said notice was given to Euroclear and Clearstream, Luxembourg.

Notices to be given by any Certificateholder shall be in writing and given by lodging the same with the Principal Paying Agent. Whilst any of the Trust Certificates are represented by the Global Trust Certificate, such notice may be given by any holder of a Trust Certificate to the Principal Paying Agent through Euroclear and Clearstream, Luxembourg, in such manner as the Principal Paying Agent and Euroclear and Clearstream, Luxembourg may approve for this purpose.

19. **Meetings of Certificateholders; Modification**

The Master Declaration of Trust provides that a resolution in writing signed by or on behalf of the holders of not less than 75 per cent. in aggregate face amount of the Trust Certificates of the relevant Series outstanding or a resolution approved by way of electronic consents communicated through the electronic communications systems of the relevant clearing system(s) to the Principal Paying Agent or another specified agent and/or the Delegate in accordance with their operating rules and procedures by or on behalf of the holders of not less than 75 per cent. in face amount of the Trust Certificates of the relevant Series outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Certificateholders duly convened

and held. Any such resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Certificateholders.

- 19.2 The Delegate may, without the consent or sanction of the Certificateholders and without prejudice to its rights in respect of any subsequent breach, from time to time and at any time: (a) agree to any modification of any of the provisions of the Master Declaration of Trust or any other Transaction Document that is, in the sole opinion of the Delegate, of a formal, minor or technical nature or is made to correct a manifest error or is not materially prejudicial to the interests of the outstanding Certificateholders and provided that such modification is other than in respect of a Reserved Matter; or (b) (i) agree to waive or authorise any breach or proposed breach of any of the provisions of the Master Declaration of Trust or any other Transaction Document; (ii) determine that any Dissolution Event shall not be treated as such; or (iii) provide its consent to any matter in any Transaction Documents, provided that such waiver, consent, authorisation or determination is in the sole opinion of the Delegate not materially prejudicial to the interests of the outstanding Certificateholders and is other than in respect of a Reserved Matter and not in contravention of any express direction by Extraordinary Resolution or request in writing by the holders of at least 25 per cent. of the outstanding aggregate face amount of Trust Certificates of the relevant Series. No such direction or request will affect a previous waiver, consent, authorisation or determination. Any such modification, authorisation, determination, waiver or consent shall be binding on all Certificateholders and, unless the Delegate agrees otherwise, such modification, waiver, consent, authorisation or determination shall be notified by the Trustee (or Arada on its behalf) to the Certificateholders in accordance with Condition 18 (*Notices*) as soon as practicable.
- 19.3 In connection with the exercise of its rights, powers, trusts (in the case of the Trustee only), authorities and discretions under the of that Master Declaration of Trust (including, without limitation, any modification), these Conditions and each other Transaction Document, the Trustee and the Delegate shall have regard to the general interests of the Certificateholders as a class and shall not have regard to any interest arising from circumstances particular to individual Certificateholders (whatever their number) and, in particular, but without limitation, shall not have regard to the consequences of such exercise for individual Certificateholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof or taxing jurisdiction and neither the Delegate nor the Trustee shall be entitled to require, nor shall any Certificateholder be entitled to claim from the Trustee, Arada or the Delegate or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Certificateholders (except, in the case of the Trustee and Arada to the extent already provided for in Condition 13 (*Taxation*)).
20. **Indemnification and Liability of the Delegate**
- 20.1 The Declaration of Trust contains provisions for the indemnification of the Delegate in certain circumstances and for its relief from responsibility, including provisions relieving it from taking action unless indemnified and/or secured and/or prefunded to its satisfaction.
- 20.2 The Delegate makes no representation and assumes no responsibility for the validity, sufficiency or enforceability of the obligations of Arada (acting in any capacity) under any Transaction Document and shall not under any circumstances have any Liability or be obliged to account to the Certificateholders in respect of any payment which should have been made by Arada (acting in any capacity), but is not so made, and shall not in any circumstances have any Liability arising from the Trust Assets other than as expressly provided in these Conditions or in the Declaration of Trust.
- 20.3 Each of the Delegate and the Trustee is exempted from (a) any Liability in respect of any loss or theft of the Trust Assets or any cash, (b) any obligation to insure the Trust Assets or any cash and (c) any claim arising from the fact that the Trust Assets or any cash are held by or on behalf of the Trustee or on deposit or in an account with any depositary or clearing system or are registered in the name of the Trustee or its nominee, unless such loss or theft arises as a result of wilful default, gross negligence or fraud of the Delegate or the Trustee, as the case may be.

21. **Currency Indemnity**

The Specified Currency is the sole currency of account and payment for all sums payable by the Trustee under or in connection with the Trust Certificates, including damages. Any amount received or recovered in a currency other than the Specified Currency (whether as a result of, or of the enforcement of, a judgment or order of a court of any jurisdiction or otherwise) by any Certificateholder in respect of any sum expressed to be due to it from the Trustee shall only constitute a discharge to the Trustee to the extent of the Specified Currency amount which the recipient is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so) at the spot rate of exchange. If that Specified Currency amount is less than the Specified Currency amount expressed to be due to the recipient under any Trust Certificate, the Trustee shall indemnify it against any actual loss (excluding any cost of funding (whether in the form of interest or otherwise), opportunity loss and opportunity cost) sustained by it as a result. In any event, the Trustee shall indemnify the recipient against the actual cost (excluding any cost of funding (whether in the form of interest or otherwise), opportunity loss and opportunity cost) of making any such purchase. These indemnities constitute a separate and independent obligation from the Trustee's other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Certificateholder and shall continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Trust Certificate or any other judgment or order.

22. **Further Issues**

In respect of any Series, the Trustee shall, subject to and in accordance with the Declaration of Trust, be at liberty from time to time without the consent of the Certificateholders to create and issue additional Trust Certificates having the same terms and conditions as the outstanding Trust Certificates of such Series (or terms and conditions which are the same in all respects save for the date and amount of the first payment of the Periodic Distribution Amount and the date from which Periodic Distribution Amounts start to accrue), and so that the same shall be consolidated and form a single Series with the outstanding Trust Certificates of such Series. Any additional Trust Certificates which are to form a single Series with the outstanding Trust Certificates previously constituted by the Declaration of Trust shall be constituted by a deed supplemental to the Declaration of Trust. References in these Conditions to the Trust Certificates include (unless the context requires otherwise) any other trust certificates issued pursuant to this Condition and forming a single series with the outstanding Trust Certificates.

23. **Contracts (Rights of Third Parties) Act 1999**

No Person shall have any right to enforce any term or condition of the Trust Certificates under the Contracts (Rights of Third Parties) Act 1999.

24.2 ***Arbitration***

Subject to Condition 24.3 (*Option to Litigate*), any dispute, claim, difference or controversy arising out of, relating to or having connection with the Declaration of Trust and/or the Trust Certificates (which includes these Conditions) (including any dispute, claim, difference or controversy as to their existence, validity, interpretation, performance, breach or termination of the Declaration of Trust or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with them) (a "**Dispute**") shall be referred to and finally resolved by arbitration in accordance with the Arbitration Rules of the LCIA (the "**Rules**"), which

Rules (as amended from time to time) are incorporated by reference into this Condition 24. For these purposes:

- (a) the seat of arbitration shall be London;
- (b) there shall be three arbitrators, each of whom shall be a lawyer experienced in international securities transactions. The claimant(s), irrespective of number, shall nominate jointly one arbitrator; the respondent(s), irrespective of number, shall nominate jointly the second arbitrator, and a third arbitrator (who shall act as presiding arbitrator) shall be nominated by the arbitrators nominated by or on behalf of the claimant(s) and respondent(s) or, in the absence of agreement on the third arbitrator within 30 days of the date of nomination of the later of the two party-nominated arbitrators to be nominated, the third arbitrator shall be chosen by the LCIA Court (as defined in the Rules); and
- (c) the language of the arbitration shall be English.

If the Delegate gives such notice, the Dispute to which such notice refers shall be determined in accordance with Condition 24.5 (*Effect of Exercise of Option to Litigate*) and, subject as provided below, any arbitration commenced under Condition 24.2 (*Arbitration*) in respect of that Dispute will be terminated. Each of the parties to the terminated arbitration (other than the Delegate, whose costs will be borne by Arada) will bear its own costs in relation to the terminated arbitration.

24.4 ***Notice to Terminate***

If any notice to terminate is given after service of any Request for Arbitration in respect of any Dispute, the Delegate must also promptly give notice to the LCIA Court and to any Tribunal (each as defined in the Rules) already appointed in relation to the Dispute that such Dispute will be settled by the courts. Upon receipt of such notice by the LCIA Court, the arbitration and any appointment of any arbitrator in relation to such Dispute will immediately terminate. Any such arbitrator will be deemed to be *functus officio*. The termination is without prejudice to:

- (a) the validity of any act done or order made by that arbitrator or by the court in support of that arbitration before his appointment is terminated;
- (b) his entitlement to be paid his proper fees and disbursements; and
- (c) the date when any claim or defence was raised for the purpose of applying any limitation bar or any similar rule or provision.

- (b) each of the Trustee and Arada agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary; and

- (c) this Condition 24.4 is for the benefit of the Delegate only. As a result, and notwithstanding paragraph (a) above, to the extent allowed by law, the Delegate may take proceedings relating to a Dispute ("**Proceedings**") in any other courts with jurisdiction. To the extent allowed by law, the Delegate may take concurrent Proceedings in any number of jurisdictions.

25. **Service of Process**

Each of the Trustee and Arada has irrevocably appointed Walkers (Europe) at The Scalpel, 11th Floor, 52 Lime Street, London EC3M 7AF, United Kingdom to receive for it and on its behalf, service of process in respect of any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not it is forwarded to and received by the Trustee or Arada, as the case may be). If for any reason such process agent ceases to be able to act as such or no longer has an address in England, each of the Trustee and Arada shall forthwith appoint a new agent for service of process in England and notify the Delegate and the Certificateholders of such appointment (in accordance with Condition 18 (*Notices*)) within 30 days. Nothing herein shall affect the right to serve process in any other manner permitted by law.

26. **Waiver of Immunity**

Under the Declaration of Trust, Arada has agreed, to the extent that Arada may claim, in any jurisdiction, for itself or its assets or revenues immunity from suit, execution, attachment (whether in aid of execution, before judgment or otherwise) or other legal process and to the extent that such immunity (whether or not claimed) may be attributed in any jurisdiction to Arada or its assets or revenues, it shall not claim and it shall irrevocably and unconditionally waive such immunity to the fullest extent permitted by the laws of such jurisdiction in relation to any Proceedings or Disputes. Further, each of the Trustee and Arada have irrevocably and unconditionally consented to the giving of any relief or the issue of any process, including, without limitation, the making, enforcement or execution against any of its assets whatsoever of any award, order or judgment made or given in connection with any Proceedings or Disputes.

27. **Waiver of Interest**

- 27.1 Each of the Trustee, Arada and the Delegate has in the Declaration of Trust irrevocably agreed that no interest will be payable or receivable under or in connection therewith or any other Transaction Document and each party agrees that it will not claim any interest in respect of any proceedings brought by or on behalf of a party under the Declaration of Trust or any other Transaction Document.
- 27.2 If it is determined that any interest is payable or receivable in connection therewith or any other Transaction Document by a party, whether as a result of any judicial or arbitral award or by operation of any applicable law or otherwise, such party has agreed in the Declaration of Trust to waive any rights it may have to claim or receive such interest and has agreed therein that if any such interest is actually received by it, it shall promptly donate the same to a registered or otherwise officially recognised charitable organisation.
- 27.3 For the avoidance of doubt, nothing in this Condition 27 shall be construed as a waiver of rights in respect of any Periodic Distribution Amounts, Required Amounts, Rentals, Dissolution Amounts, Exercise Price, Certificateholder Put Right Exercise Price, Tangibility Event Certificateholder Put Right Exercise Price, Change of Control Exercise Price, Full Reinstatement Value, Loss Shortfall Amount, Partial Loss Shortfall Amount, Deferred Sale Price, Deferred Sale Price Instalments, Wakala Portfolio Revenues or profit or principal or other amount payable of any kind howsoever described payable by Arada (in any capacity) or the Trustee (in any capacity) pursuant to the Transaction Documents and/or these Conditions, howsoever such amounts may be described or recharacterised by way of court or arbitral tribunal.

SUMMARY OF THE PRINCIPAL TRANSACTION DOCUMENTS

The following is a summary of certain provisions of the principal Transaction Documents. Copies of the Transaction Documents will be available for inspection and/or collection at the specified office of the Principal Paying Agent (as defined in the Conditions). Words and expressions defined in the Conditions shall have the meanings in this summary.

The Master Declaration of Trust

The Master Declaration of Trust was entered into on 28 July 2025 between the Trustee, Arada and the Delegate and is governed by English law. Pursuant to the Master Declaration of Trust, a Supplemental Declaration of Trust between the same parties will be entered into on the Issue Date of each Tranche of Trust Certificates and will also be governed by English law.

Upon issue of any Series of Trust Certificates, the Master Declaration of Trust and each relevant Supplemental Declaration of Trust shall together constitute the trust over the relevant Trust Assets declared by the Trustee in relation to such Series.

The Trust Assets in respect of each Series of Trust Certificates comprise, *inter alia*, the cash proceeds of the Trust Certificates, pending application thereof in accordance with the terms of the Transaction Documents, the rights, title, interests, benefits and entitlements, present and future, of the Trustee in, to and under the Wakala Asset(s), the rights, title, interests, benefits and entitlements, present and future, of the Trustee in, to and under the Transaction Documents (excluding: (i) any representations given by Arada to the Trustee and the Delegate pursuant to the Transaction Documents; and (ii) the covenant given to the Trustee pursuant to clause 14.1 of the Master Declaration of Trust), all monies standing to the credit of the relevant Transaction Account from time to time, and all proceeds of the foregoing.

Pursuant to the Declaration of Trust, the Trustee will agree to act for and on behalf of the Certificateholders and, *inter alia*, in relation to each Tranche of Trust Certificates:

- (a) hold the relevant Trust Assets on trust absolutely for the Certificateholders as tenants in common *pro rata* according to the face amount of the Trust Certificates held by each Certificateholder; and
- (b) act as trustee in respect of such Trust Assets, distribute the income from such Trust Assets and perform its duties in accordance with the provisions of the Declaration of Trust.

Each Declaration of Trust will specify, *inter alia*, that in relation to each Series:

- (a) no recourse shall be had for the payment of any amount under the Declaration of Trust or under any relevant Contract (as defined in the Declaration of Trust), whether for the payment of any fee, indemnity or other amount under the Declaration of Trust or any other obligation or claim arising out of or based upon any such Contracts, against the Trustee (and/or its directors, officers, shareholders or administrators), the Delegate, any Agent or any of their respective agents or affiliates to the extent the Trust Assets have been exhausted following which all obligations of the Trustee, the Delegate, any Agents and their respective agents or affiliates shall be extinguished;
- (b) the Trustee may from time to time (but always subject to the provisions of the Declaration of Trust), without the consent of the Certificateholders, create and issue additional Trust Certificates having the same terms and conditions as the outstanding Trust Certificates of such Series (or terms and conditions that are the same in all respects save for the date and amount of the first payment of the Periodic Distribution Amount and the date from which Periodic Distribution Amounts start to accrue), and so that the same shall be consolidated and form a single series, with the outstanding Trust Certificates of such Series, and that any additional Trust Certificates which are to be created and issued so as to form a single series with the outstanding Trust Certificates of a particular Series which shall be constituted by a Supplemental Declaration of Trust in relation to which all applicable stamp duties or other documentation fees, duties or taxes have been paid and, if applicable, duly stamped and containing such other provisions as are necessary (including making such consequential modifications to the Master Declaration of Trust) in order to give effect to the issue of such additional Trust Certificates; and
- (c) on the date upon which any additional Trust Certificates are created and issued pursuant to the provisions pursuant to the provisions described in paragraph (b) above, a Supplemental Purchase

Agreement will be entered into for the sale, transfer and conveyance of rights, title, interests, benefits and other entitlements in, to and under the relevant Additional Asset(s). The Trustee will execute a Declaration of Commingling of Assets for and on behalf of the holders of the existing Trust Certificates and the holders of such additional Trust Certificates so created and issued, declaring that the Additional Asset(s) (as set out in the relevant Declaration of Commingling of Assets) and the Wakala Asset(s) in respect of the relevant Series as in existence immediately prior to the creation and issue of the additional Trust Certificates and the investments made pursuant to the Master Murabaha Agreement (and all rights arising under or with respect to such investments made pursuant to the Master Murabaha Agreement) in respect of the relevant Series are commingled and shall collectively comprise part of the Trust Assets for the benefit of the holders of the existing Trust Certificates and the holders of such additional Trust Certificates as tenants in common *pro rata* according to the face amount of Trust Certificates held by each Certificateholder, in accordance with the Declaration of Trust.

In the Declaration of Trust, the Trustee will irrevocably and unconditionally appoint the Delegate to, *inter alia*, exercise all the present and future powers, rights, authorities and discretions (including but not limited to the authority to request instructions from any Certificateholders and the power to sub-delegate and to make any determinations to be made under the Declaration of Trust) vested in the Trustee by the relevant provisions of the Declaration of Trust. For the avoidance of doubt, such delegation shall not include the powers set out in clause 6.4 of the Master Declaration of Trust. The appointment of the Delegate by the Trustee is intended to be in the interests of the Certificateholders and, subject as provided in the Declaration of Trust, does not affect the Trustee's continuing role and obligations as trustee of the trusts created pursuant to the Master Declaration of Trust.

In the Declaration of Trust the Delegate will undertake that, *inter alia*, if it has received notice pursuant to the Declaration of Trust of the occurrence of a Dissolution Event in respect of any Trust Certificates and subject to Condition 15 (*Dissolution Events*): (i) it shall, as soon as reasonably practicable, notify the Certificateholders of the occurrence of such Dissolution Event in accordance with Condition 18 (*Notices*) with a request to such holders to indicate whether they wish the Trust Certificates to become immediately due and payable; and (ii) if so requested by Extraordinary Resolution or in writing by Certificateholders representing not less than 25 per cent. in aggregate face amount of the Trust Certificates for the time being outstanding (subject to being indemnified and/or secured and/or prefunded to its satisfaction), or if the Delegate decides in its discretion, it shall give notice to the Trustee, Arada and the Certificateholders in accordance with Condition 18 (*Notices*) that the Trust Certificates are to be redeemed on the Dissolution Event Redemption Date specified in such notice at the Dissolution Amount specified in, or determined in the manner specified in, the applicable Pricing Supplement.

A non-interest bearing Transaction Account in London will be established in the name of the Trustee in respect of each Series of Trust Certificates. Monies received in the Transaction Account in respect of each Series will, *inter alia*, comprise payments corresponding to Periodic Distribution Amounts and/or Dissolution Amounts immediately prior to each Periodic Distribution Date and/or any Dissolution Date, as the case may be. The Master Declaration of Trust provides that all moneys standing to the credit of the Transaction Account from time to time in respect of each Series will be applied in the manner set out in Condition 6.2 (*Application of Proceeds from The Trust Assets*).

In the Master Declaration of Trust, Arada has undertaken that (i) if, at the time of delivery of the Exercise Notice in accordance with the provisions of the Purchase Undertaking, Arada remains in actual or constructive possession, custody or control of all or any part of the Wakala Assets, the Certificateholder Put Right Wakala Assets, the Change of Control Put Right Wakala Assets or the Tangibility Event Put Right Wakala Assets (each as defined in the Purchase Undertaking), as the case may be; and (ii) if, following delivery of the Exercise Notice in accordance with the provisions of the Purchase Undertaking, the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Exercise Price or the Tangibility Event Certificateholder Put Right Exercise Price, as the case may be, is not paid in accordance with the provisions of the Purchase Undertaking for any reason whatsoever, Arada shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Trust Certificates then outstanding or the Certificateholder Put Right Trust Certificates, the Change of Control Put Right Trust Certificates or the Tangibility Event Put Right Trust Certificates (each as defined in the Purchase Undertaking), as the case may be, and, accordingly, the amount payable under any such indemnity claim will equal the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Put Right Exercise Price or Tangibility Event Put Right Exercise Price, as the case may be. Payment of an amount equal to the Exercise Price, Certificateholder Put Right

Exercise Price, Tangibility Event Certificateholder Put Right Exercise Price or the Change of Control Exercise Price, as the case may be, in accordance with clause 2.2.2 of the Purchase Undertaking shall evidence the acceptance by Arada of the Exercise Notice delivered in accordance with the provisions of the Purchase Undertaking and the conclusion of the transfer and conveyance of all of the Trustee's rights, title, interests, benefits and entitlements, present and future, in, to and under in, to and under the relevant Wakala Asset(s), the Certificateholder Put Right Wakala Asset(s), the Tangibility Event Certificateholder Put Right Wakala Asset(s) or the Change of Control Put Right Wakala Asset(s), as the case may be, to Arada, and shall constitute full discharge of the obligation of Arada to pay the relevant Exercise Price, the Certificateholder Put Right Exercise Price, the Tangibility Event Certificateholder Put Right Exercise Price or the Change of Control Exercise Price, as the case may be, to the Trustee (or for the benefit of the Certificateholders).

Arada has further undertaken that, if the outstanding Deferred Sale Price is not paid on the relevant Dissolution Date in accordance with the provisions of the Master Murabaha Agreement for any reason whatsoever, Arada shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Trust Certificates then outstanding and, accordingly, the amount payable under any such indemnity claim will equal the outstanding Deferred Sale Price.

In addition, Arada has also undertaken that, if the Right to Register is exercisable by the Trustee and such right is exercised, Arada agrees that it shall be in breach of its obligation under the Purchase Undertaking to purchase, and accept the transfer and conveyance of, all of the Trustee's rights, title, interests, benefits and entitlements in, to and under the Wakala Asset(s) of the relevant Series at the Exercise Price specified in the relevant Exercise Notice, whereupon Arada shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Trust Certificates then outstanding, provided that the amount payable under any such indemnity claim shall not exceed the difference between: (i) any proceeds realised from the disposition of the relevant Wakala Assets following the exercise of the Right to Register; and (ii) the relevant Purchase Price.

In addition, if the Trustee fails to comply with any obligation to pay additional amounts pursuant to Condition 13 (*Taxation*), Arada has undertaken that it will unconditionally and irrevocably (irrespective of the payment of any fee), as a continuing obligation, pay to or to the order of the Delegate (for the benefit of the Certificateholders) an amount equal to the liability of the Trustee in respect of any and all additional amounts required to be paid by the Trustee in respect of the Trust Certificates pursuant to Condition 13 (*Taxation*).

Master Purchase Agreement

The Master Purchase Agreement was entered into on 28 July 2025 between the Trustee (in its capacity as purchaser), Aljada Developments LLC and Masaar Developments LLC (in their capacity as sellers) and Arada (in its capacity as seller and obligor) and is governed by the laws of the Emirate of Sharjah and, to the extent applicable in the Emirate of Sharjah, the federal laws of the United Arab Emirates. A Supplemental Purchase Agreement between the same parties will be entered into on the Issue Date of the relevant Tranche (including any additional Tranche of Trust Certificates issued pursuant to Condition 22 (*Further Issues*) (an "**Additional Tranche**")) of Trust Certificates and will also be governed by the laws of the Emirate of Sharjah and, to the extent applicable in the Emirate of Sharjah, the federal laws of the United Arab Emirates.

Pursuant to the Master Purchase Agreement, Arada or any of its subsidiaries (in their capacity as sellers) may, from time to time, sell, transfer and convey to the Trustee (in its capacity as purchaser), and the Trustee may, from time to time, agree to purchase and accept the transfer and conveyance from Arada or the relevant subsidiary of, the Asset(s) or Additional Asset(s) along with all of their rights, title, interests, benefits and entitlements, present and future, in, to and under (a) on the Issue Date of the first Tranche of a Series, the relevant Asset(s); and (b) on the Issue Date of any Additional Tranche, the "**Additional Asset(s)**", in each case pursuant to a Supplemental Purchase Agreement which will, among other things, specify the Asset(s) or Additional Asset(s), as the case may be, being sold and the price to be paid for them.

Such Asset(s) or Additional Asset(s), as the case may be, shall comprise Eligible Assets. "**Eligible Asset**" means any Leased Real Estate Asset and any Non-Leased Real Estate Asset located in the Emirate of Sharjah which satisfy certain requirements specified in the Master Purchase Agreement. "**Leased Real Estate Asset**" means any real estate asset which is leased (other than on the basis of a finance lease) by Arada (or the relevant subsidiary) to a third-party lessee. "**Non-Leased Real Estate Asset**" means any real

estate asset which, at the time of sale, transfer and conveyance to the Trustee in accordance with the Master Purchase Agreement, the relevant Supplemental Purchase Agreement, Sale Agreement and/or any purchase agreement entered into in accordance with the terms of the Servicing Agency Agreement, as the case may be, is not leased and is capable of being leased by the Trustee to the Lessee pursuant to the Master Lease Agreement and the relevant Supplemental Lease Agreement following such sale, transfer and conveyance.

Title Agency Agreement

The Title Agency Agreement was entered into on 28 July 2025 between the Trustee and Arada and is governed by the laws of the Emirate of Sharjah and, to the extent applicable in the Emirate of Sharjah, the federal laws of the United Arab Emirates.

Pursuant to the Title Agency Agreement, Arada has irrevocably and unconditionally authorised the Trustee to, as soon as is practicable, register the Wakala Asset(s) in the name of the Trustee or its nominee, agent, delegate or assignee at the Sharjah Real Estate Registration Department, in the event that:

- (a) Arada has failed to purchase the Wakala Asset(s) in accordance with the terms of the Purchase Undertaking following an exercise by the Trustee of the rights granted to it under of clause 2.1.1 or 2.1.2 of the Purchase Undertaking and as a result has failed to pay the Exercise Price on the Dissolution Event Redemption Date or, as the case may be, the Payment Business Day immediately preceding the Scheduled Dissolution Date (each an "**Exercise Price Payment Date**"); and
- (b) on the relevant Exercise Price Payment Date, immediately following such failure by Arada to purchase the Wakala Asset(s), the Trustee is unable to make a claim under the indemnity contained in clause 2.2.4 of the Purchase Undertaking for an amount equal to the relevant Exercise Price as a result of Arada failing to be in actual or constructive possession, custody or control of all of the Wakala Asset(s) or otherwise claiming that it is not in actual or constructive possession, custody or control of any of the Wakala Asset(s),

provided that, at the relevant time: (1) it is possible to so register the Wakala Asset(s) under all applicable laws; and (2) a Total Loss Event has not occurred and is continuing.

Further, Arada and the Trustee have agreed and acknowledged that: (i) following entry into the relevant sale agreement, the sale, transfer and conveyance of the relevant Eligible Asset(s) from Arada (or any of its subsidiaries) to the Trustee will have taken place pursuant to the terms of the relevant agreement and that all ownership related risks and liabilities in respect of such Eligible Asset(s) shall, from a *Shari'a* perspective, have passed to the Trustee on the date of the relevant agreement; (ii) subject to the Right to Register, the title to the Wakala Asset(s) is not intended to be registered (to the extent registrable) in the name of the Trustee and Arada (or its relevant subsidiary) shall (in its capacity as agent of the Trustee) hold the registered title to the relevant Wakala Asset(s) for and on behalf of the Trustee; and (iii) this will not affect the rights and obligations of any party under the relevant sale agreement, including, without limitation, the right of ownership, and the associated risks and benefits, from a *Shari'a* perspective of the Trustee to the Wakala Asset(s) under the relevant agreement which shall pass to the Trustee at the time of the relevant sale.

Master Lease Agreement

The Master Lease Agreement was entered into on 28 July 2025 between the Trustee (in its capacity as lessor), Arada (in its capacity as lessee) and the Delegate and is governed by the laws of the Emirate of Sharjah and, to the extent applicable in the Emirate of Sharjah, the federal laws of the United Arab Emirates. A Supplemental Lease Agreement between the same parties will be entered into on the Issue Date of the first Tranche of a Series and will also be governed by the laws of the Emirate of Sharjah and, to the extent applicable in the Emirate of Sharjah, the federal laws of the United Arab Emirates.

Pursuant to the Master Lease Agreement, the Trustee (in its capacity as lessor) may, from time to time, agree to lease to Arada (in its capacity as lessee), and Arada may, from time to time, agree to lease from the Trustee, certain Lease Asset(s) (being the Non-Leased Real Estate Assets comprised in the Wakala Asset(s)) during renewable rental periods commencing on the Lease Commencement Date (which shall be the relevant Issue Date) and extending to the Scheduled Dissolution Date (unless the relevant Supplemental Lease Agreement is terminated earlier in accordance with its terms or extended in accordance with the Purchase Undertaking).

No later than 10.00 am London time two business days prior to the completion of each rental period the Trustee (in its capacity as lessor) (or its agent) shall send a rental notice to Arada (in its capacity as lessee). The Lessee shall have until 10.00 a.m. (London time) on the business day immediately prior to the completion of such Rental Period to notify the Lessor of its acceptance or rejection of such notice. Such rental notice shall be irrevocable and Arada (in its capacity as lessee) agrees that, unless it rejects such notice as specified in the foregoing sentence, it will be deemed to have accepted such rental notice. Any rejection of a rental notice shall constitute a breach by the Lessee of its undertaking to lease the relevant Lease Asset(s). Where there is any delay or failure by the Trustee (in its capacity as lessor) in delivering a rental notice, the Rental for the relevant rental period shall accrue at the same rate as the Rental for the immediately preceding rental period.

On each "**Additional Servicing Agency Expenses Request Date**" (being the date on which Arada (in its capacity as servicing agent) submits to the Trustee (in its capacity as lessor) or its agent a request for the Trustee's (in its capacity as lessor) approval of Arada (in its capacity as servicing agent) incurring or paying any proposed liability comprising an additional servicing agency expense prior to incurring or paying such proposed liability), the Trustee (in its capacity as lessor) shall notify Arada (in its capacity as lessee) in writing that it is requested to pay to the Trustee (in its capacity as lessor) on the first business day of the first rental period commencing after the Additional Servicing Agency Expenses Request Date an amount of additional supplementary rental in respect of that rental period (as shall also be specified in the relevant rental notice) equal to the relevant additional servicing agency expenses proposed to be incurred in the rental period in which such Additional Servicing Agency Expenses Request Date falls. Such notice shall be irrevocable and Arada (in its capacity as lessee) hereby agrees that, unless it rejects such notice on within one business day of the relevant Additional Servicing Agency Expenses Request Date (in which case it acknowledges that such rejection will constitute an Arada Event), it will be deemed to have approved such notice as and when delivered and agreed to pay the requested amount of additional supplementary rental in accordance with such notice and the relevant rental notice.

Arada (in its capacity as lessee) will agree to use the relevant Lease Asset(s) at its own risk. Accordingly, Arada shall from the date of the relevant Supplemental Lease Agreement bear the entire risk of loss of or damage to the relevant Lease Asset(s) or any part thereof arising from the usage or operation thereof by it to the extent that such loss or damage has resulted from Arada's gross negligence, wilful default, actual fraud, or breach of its obligations under the relevant Supplemental Lease Agreement. In addition, the Trustee (in its capacity as lessor) shall not be liable (and Arada (in its capacity as lessee) will waive any claim or right, howsoever arising, to the contrary) for any indirect, consequential or other losses, howsoever arising, in connection with Arada's use or operation of the relevant Lease Asset(s).

If a Lease Asset(s) Total Loss Event occurs with respect to the Lease Asset(s), then, without prejudice to any right or remedy the Lessor may have under any Transaction Document or by law:

- (a) the Lease shall automatically terminate (provided that the Lease shall recommence if the Lease Asset(s) have been replaced pursuant to the Servicing Agency Agreement by the 60th day following such Lease Asset(s) Total Loss Event from and including the date on which the relevant Lease Asset(s) Amendment Agreement is entered into);
- (b) further Rental payments shall cease to accrue under this Supplemental Lease Agreement from the date of occurrence of the Lease Asset(s) Total Loss Event (provided that Rental payments shall recommence if the Lease Asset(s) have been replaced pursuant to the Servicing Agency Agreement by the 60th day following such Lease Asset(s) Total Loss Event from and including the date of the relevant Lease Asset(s) Amendment Agreement); and
- (c) the Lessee will pay, on the Payment Business Day immediately preceding the Rental Payment Date that would have occurred immediately after the date of such Lease Asset(s) Total Loss Event but for the occurrence of that Lease Asset(s) Total Loss Event, in accordance with the relevant Supplemental Lease Agreement, any Rental that has accrued up to (but excluding) the date of the Lease Asset(s) Total Loss Event and remains unpaid. The obligation of the Lessee to pay such Rental shall survive the termination of the relevant Supplemental Lease Agreement.

"**Lease Asset(s) Total Loss Event**" means, in relation to a Series where the Wakala Asset(s) of that Series comprise Non-Leased Real Estate Asset(s), (a) the total loss or destruction of, or damage to the whole of the Lease Asset(s) of that Series or any event or occurrence that renders the whole of the Lease Asset(s) permanently unfit for any economic use and the repair or remedial work in respect thereof is wholly

uneconomical; or (b) the occurrence of any nationalisation, expropriation, requisition, confiscation, attachment or such other analogous event.

If a Partial Loss Event shall occur with respect to any of the Lease Asset(s) and provided that:

- (a) the Lease Asset(s) have not been replaced pursuant to the Servicing Agency Agreement and a notice of termination of the Lease on the 61st day after the Partial Loss Event Date (a "**Partial Loss Termination Notice**") has been delivered by Arada (in its capacity as lessee) to the Trustee (in its capacity as lessor) within a period of 30 days after the Partial Loss Event Date; or
- (b) such Lease Assets have not been replaced pursuant to the Servicing Agency Agreement and the Lessee has failed to give a Partial Loss Termination Notice within a period of 30 days after the relevant Partial Loss Event Date or otherwise expressly waived its right to give such notice,

then, without prejudice to any right or remedy that the Trustee (in its capacity as lessor) may have under any Transaction Document or by law, the Lease shall terminate on the 61st day after the Partial Loss Event Date (the "**Partial Loss Termination Date**") and further Rental shall cease to accrue from the Partial Loss Termination Date in accordance with the Supplemental Lease Agreement subject to Arada's (in its capacity as lessee) right to any Rental Reimbursement Amount requested and the Trustee (in its capacity as lessor) will be entitled to all proceeds of the insurances payable as a result of the Partial Loss Event.

For the avoidance of doubt, if Arada (in its capacity as lessee) does not issue a Partial Loss Event Termination Notice within 30 days after the Partial Loss Event Date, or it expressly waives such right, it shall not be entitled to exercise such right thereafter.

"**Partial Loss Event**" means, in relation to a Series where the Wakala Asset(s) of that Series comprise Non-Leased Real Estate Asset(s), the partial impairment of one or more Lease Assets(s) (arising as a result of any event including a failure by the Lessor to carry out major maintenance and structural repair in respect of the Lease Asset(s)) in a manner that substantially deprives the Lessee from the benefits expected from the whole of the Lease Asset(s) of that Series, as determined by the Lessee and the occurrence of which: (i) has been certified in writing by a recognised independent industry expert; and (ii) does not constitute a Lease Asset(s) Total Loss Event.

Provided that the requirements of the Supplemental Lease Agreement have been satisfied, by no later than the earlier of (a) the 31st day after the Partial Loss Event Date; and (b) the date on which the relevant Lease Assets are replaced pursuant to the Servicing Agency Agreement (the "**Replacement Date**"), Arada (in its capacity as lessee) may request a proportionate reduction in Rental by way of reimbursement of the Rental applicable solely to the period from and including the Partial Loss Event Date to but excluding the earlier of: (i) the date on which the relevant Lease Assets are replaced pursuant to the Servicing Agency Agreement; and (ii) the 61st day after the Partial Loss Event Date to take into account the impairment suffered in relation to the relevant impaired Lease Asset(s) (the "**Rental Reimbursement Amount**"), provided that the Partial Loss Event relating to such impaired Lease Asset(s) has not arisen as a result of Arada's (in its capacity as lessee) negligence or misconduct (such request, being a "**Rental Reimbursement Request**"). If a Rental Reimbursement Request is made in accordance with this paragraph, the Trustee (in its capacity as lessor) shall procure the payment of the Rental Reimbursement Amount to the Lessee on the 61st day after the Partial Loss Event Date. The Lessor may procure the payment of the Rental Reimbursement Amount to the Lessee by Arada (in its capacity as servicing agent) (on its behalf) from, but not limited to: (a) the proceeds of any Insurances (if any) paid in respect of the relevant Partial Loss Event in accordance with the Servicing Agency Agreement and/or (b) (to the extent the proceeds of such Insurances (if any) are insufficient) any Loss Shortfall Amount or Partial Loss Shortfall Amount paid in respect of the relevant Partial Loss Event in accordance with clause 5 of the Servicing Agency Agreement. For the avoidance of doubt, if Arada (in its capacity as lessee) does not make a Rental Reimbursement Request before the earlier of: (i) the 31st day after the Partial Loss Event Date; and (b) the relevant Replacement Date or it expressly waives such right, it shall not be entitled to exercise such right thereafter.

For the avoidance of doubt if, following a Partial Loss Event, the Lease is not terminated pursuant to the Supplemental Lease Agreement and whether or not a Rental Reimbursement Request is made, then the terms of the Lease, including the amount of Rental, shall continue on the same terms as which applied prior to the occurrence of the Partial Loss Event.

Arada (in its capacity as lessee) has undertaken in the Master Lease Agreement, in relation to each Series, that it shall maintain actual or constructive possession, custody or control of all of the Lease Assets during the Lease Term.

Under the Supplemental Lease Agreement, Arada (in its capacity as lessee) will agree to be responsible, at its own cost and expense, for the performance of all ordinary maintenance and repair required for any relevant Lease Asset(s). The Trustee (in its capacity as lessor) shall be responsible for: (i) the performance of all major maintenance and structural repair of the Lease Asset(s); (ii) the payment of any proprietorship or other relevant taxes (excluding all taxes that are by law imposed, charged or levied against a lessee or a tenant); and (iii) insuring any relevant Lease Asset(s) in accordance with the Servicing Agency Agreement, and Arada (in its capacity as lessee) will acknowledge that the Trustee (in its capacity as lessor) may procure that the Servicing Agent, in accordance with the terms and conditions set out in the Servicing Agency Agreement, shall perform, or shall procure the performance of, the major maintenance and structural repair, the payment of such taxes and the insurance of such relevant Lease Asset(s), on behalf of the Trustee (in its capacity as lessor).

All payments by Arada (in its capacity as lessee) to the Trustee (in its capacity as lessor) under each Lease Agreement shall be made in the Specified Currency without set-off (except as provided below) or counterclaim of any kind and free and clear of, and without any deduction or withholding, for any Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within any Relevant Jurisdiction or any authority therein or thereof having power to tax, unless the withholding or deduction is required by law. In that event, Arada (in its capacity as lessee) will agree under the relevant Supplemental Lease Agreement to pay such additional amounts as will result in the receipt by or on behalf of the Trustee (in its capacity as lessor) of such amounts as would have been received by it had no such deduction or withholding had been required.

Arada (in its capacity as lessee) will ensure that its payment obligations under each Supplemental Lease Agreement are and will be direct, unconditional, unsubordinated and (subject to the negative pledge provisions described in the Condition 5.1 (*Negative Pledge*)) unsecured obligations of Arada and (save for such exceptions as may be provided by applicable legislation and subject to the negative pledge provisions described in the Condition 5.1 (*Negative Pledge*)) at all times rank at least *pari passu* with all other present and future unsecured and unsubordinated obligations of Arada from time to time outstanding.

Servicing Agency Agreement

The Servicing Agency Agreement was entered into on 28 July 2025 between the Trustee (in its capacity as lessor) and Arada (in its capacity as servicing agent) and is governed by English law.

Pursuant to the Servicing Agency Agreement, Arada (as servicing agent) will be responsible on behalf of the Trustee (in its capacity as lessor) for the carrying out, *inter alia*, the following services during the period commencing on the Issue Date of the first Tranche of such Series and ending on the date on which all of the Certificates of that Series are redeemed in full:

- 1.1.1 it will service the relevant Wakala Portfolio in accordance with the Wakala Services Particulars, which shall be completed at the time of issue of the first Tranche of the relevant Series upon receipt from the Trustee of the relevant Supplemental Purchase Agreement;
- 1.1.2 if the Trustee issues an Additional Tranche, it shall as soon as practicable after such issuance amend the Wakala Services Particulars for that Series to take into account the issuance of such Additional Tranche;
- 1.1.3 it shall, subject to the terms of the Servicing Agency Agreement, ensure that, at all times on and after the Issue Date of the first Tranche of a Series, the Tangible Asset Ratio of the relevant Series is more than 50 per cent. If at any time the Tangible Asset Ratio of a Series falls (other than as a result of the occurrence of a Total Loss Event and/or a Partial Loss Event (together, a "**Loss Event**")):
 - (a) to 50 per cent. or less (but is 33 per cent. or more), the Servicing Agent shall take any and all steps (in consultation with the *Shari'a* Adviser) as may be required to ensure such Tangibility Ratio is restored to more than 50 per cent. within the time period determined by the *Shari'a* Adviser; and

- (b) to less than 33 per cent. (such event, being a "**Tangibility Event**"), promptly upon the Servicing Agent becoming aware of the Tangibility Event occurring, Servicing Agent shall send a notice to the Trustee and the Delegate (the "**Tangibility Event Trustee Notice**") of such occurrence and requesting the Trustee to promptly deliver a notice to the relevant Certificateholders in accordance with Condition 11.6 (*Dissolution at the Option of the Certificateholders (Tangibility Event Put Right)*) specifying:
- (i) that a Tangibility Event has occurred in respect of the relevant Series, together with an explanation of the reasons for, and evidence of, such occurrence;
 - (ii) that, as determined in consultation with the *Shari'a* Adviser, the Trust Certificates of the relevant Series should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis);
 - (iii) that, on the date falling 15 days following the Tangibility Event Put Right Date, the Trust Certificates of the relevant Series will be delisted from any stock exchange (if any) on which the Trust Certificates of such Series are admitted to trading or if such date is not a business day, the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Certificates are admitted to trading is open for business); and
 - (iv) the Tangibility Event Put Right Period, during which period any Certificateholder shall have the right to require the redemption of all of any of its Trust Certificates of the relevant Series.

Any breach of this paragraph, other than the failure by the Servicing Agent to deliver a Tangibility Event Trustee Notice, will not constitute an Arada Event. "**Tangible Asset Ratio**" means, in respect of each Series, the ratio of the value of the Wakala Asset(s) to the aggregate of the value of the Wakala Asset(s) and, if applicable for such Series, the aggregate of each outstanding Deferred Sale Price applicable to such Series at the relevant time;

- 1.1.4 in relation to each Series, (a) if, as a result of a Partial Loss Event or a Lease Asset(s) Total Loss Event that is not also a Total Loss Event, the ratio of (1) the value of the Wakala Asset(s) of that Series (which for this purpose shall exclude any Wakala Asset(s) that are the subject of such Partial Loss Event or Lease Asset(s) Total Loss Event) to (2) the aggregate value of the Wakala Asset(s) of that Series and, if applicable to such Series, the aggregate amounts of Deferred Sale Price then outstanding applicable to such Series at such time falls below 33 per cent.; or (b) following the occurrence of a Total Loss Event, the Servicing Agent shall promptly, upon becoming aware of any such occurrence, notify the Trustee, and upon such notification, the Trustee shall promptly deliver a notice to the relevant Certificateholders (a "**Trading and Delisting Notice**") in accordance with Condition 18 (*Notices*) specifying:

- (a) the occurrence of such event;
- (b) that from the date of such Trading and Delisting Notice, and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, stating otherwise, the Trust Certificates of the relevant Series should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and
- (c) that, on the date of such Trading and Delisting Notice an application will be made for the Trust Certificates of the relevant Series to be delisted from any stock exchange (if any) on which such Trust Certificates have been admitted to trading or if such date is not a business day, on the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Certificates are admitted to trading is open for business).

Following a replacement of the relevant Wakala Asset(s), the Servicing Agent shall notify the Trustee and the Delegate of the same and the Trustee shall promptly, following receipt of such notice from the Servicing Agent and in consultation with the *Shari'a* Adviser, deliver a notice to the relevant Certificateholders in accordance with Condition 18 (*Notices*) that (1) from the date of

that notice the Trust Certificates of the relevant Series may be traded at any price; and (2) the Trust Certificates of the relevant Series shall be re-listed, as soon as reasonably practicable, on the stock exchange (if any) on which the Trust Certificates had previously been admitted to trading;

- 1.1.5 it shall carry out all major maintenance and structural repair in accordance with the Servicing Agency Agreement;
- 1.1.6 in connection with the Leased Real Estate Assets comprising the Wakala Assets, it shall do all acts and things (including execution of such documents, issue of notices and commencement of any proceedings) that it considers (and without the need for the consent of the Trustee) reasonably necessary to ensure the assumption of, and compliance by, each third party lessee with its covenants, undertakings or other obligations under the third party lease to which it is a party in accordance with applicable law and the terms of the Leases;
- 1.1.7 in connection with the Leased Real Estate Assets comprising the Wakala Assets, it shall use all reasonable endeavours to renew existing third party leases (where applicable) in respect of the relevant Wakala Asset(s), or where such third party leases are not to be renewed, use all reasonable endeavours to source new third parties prior to expiration of such third party leases;
- 1.1.8 it shall discharge or procure the discharge of all obligations to be discharged by Arada (in whatever capacity) in respect of any of the Wakala Asset(s) under all third party leases, it being acknowledged that the Servicing Agent may appoint one or more agents to discharge these obligations on its behalf;
- 1.1.9 it shall pay on behalf of the Trustee any actual costs (excluding any funding costs), expenses, actual losses (excluding any opportunity losses) and Taxes (other than proprietorship taxes) which would otherwise be payable by the Trustee as a result of the Trustee's ownership of the Wakala Portfolio;
- 1.1.10 it shall promptly pay, on account and on behalf of the Trustee, all proprietorship taxes (if any) charged, levied or claimed in respect of the Wakala Asset(s) of the relevant Series by any relevant taxing authority and promptly, upon request, provide to the Trustee appropriate receipts or certificates from the relevant taxing authority for the full amount of all proprietorship taxes paid by it;
- 1.1.11 it shall use all reasonable endeavours to ensure the timely receipt of all Wakala Portfolio Revenues (free and clear of, and without withholding or deduction for, taxes), investigate non-payment of Wakala Portfolio Revenues and generally make all reasonable efforts to collect or enforce the collection of such Wakala Portfolio Revenues as and when the same shall become due and shall record such Wakala Portfolio Revenues in the relevant Collection Account;
- 1.1.12 it shall maintain the Collection Account and Reserve Account in accordance with the Servicing Agency Agreement;
- 1.1.13 it shall obtain all necessary licences, authorisations and consents in connection with any of the Wakala Asset(s) and its obligations under or in connection with the Servicing Agency Agreement;
- 1.1.14 in relation to the Wakala Asset(s) of the relevant Series, the Servicing Agent, on behalf and on account of the Trustee, will:
 - (a) ensure that the Wakala Asset(s) of that Series, so long as any Trust Certificates of that Series are outstanding, are at all times properly insured (the "**Insurances**") (through brokers and with reputable insurance companies in good financial standing) to the extent consistent with general industry practice by prudent owners of similar assets, and in addition against each Loss Event and Lease Asset(s) Total Loss Event. The Servicing Agent undertakes to ensure that the insured amount relating to each Loss Event and Lease Asset(s) Total Loss Event will, at all times, be at least equal to the applicable Full Reinstatement Value;
 - (b) promptly make a claim in respect of each loss relating to the Wakala Asset(s) in accordance with the terms of the Insurances and diligently pursue such claim;

- (c) ensure that, in the event of a Loss Event or a Lease Asset(s) Total Loss Event (that is not also a Total Loss Event) occurring in respect of a Series, unless the relevant Wakala Asset(s) that are the subject of such Loss Event or Lease Asset(s) Total Loss Event are replaced, all proceeds of the Insurances against such Loss Event and Lease Asset(s) Total Loss Event are in an amount equal to the applicable Full Reinstatement Value and:
 - (i) in the case of a Loss Event, are paid in the Specified Currency directly into the Transaction Account by no later than the 60th day after the occurrence of the Loss Event and that the insurer is directed accordingly; and
 - (ii) in the case of a Lease Asset(s) Total Loss Event (that is not also a Total Loss Event), are paid in the Specified Currency directly into the Collection Account by no later than the 60th day after the occurrence of the Lease Asset(s) Total Loss Event and that the insurer is directed accordingly; and

1.1.15 if within 60 days of the Issue Date of the first Tranche of each Series and for any reason, the Servicing Agent is not in compliance with paragraph 1.1.14(a) above, immediately deliver written notice to the Trustee of such non-compliance and the details thereof. The delivery of such notice shall constitute a Dissolution Event;

1.1.16 ensure that the Wakala Asset(s) of each Series (other than any Wakala Asset(s) that are Lease Asset(s)) are properly insured against a partial loss of such Wakala Asset; and

1.1.17 it shall carry out any incidental matters relating to any of the above.

The Servicing Agent shall also appoint from the Issue Date of the first Tranche of the first Series, and maintain from such date the appointment of, a *Shari'a* adviser (the "**Shari'a Adviser**").

If, a Loss Event has occurred in relation to a Series and if the notice referred to in paragraph 1.1.15 has not been delivered by the Servicing Agent to the Trustee within 60 days of the Issue Date of the first Tranche of the relevant Series and prior to the occurrence of such Loss Event, the relevant Wakala Asset(s) have not been replaced, and the amount (if any) paid into the Transaction Account pursuant to paragraph 1.1.14(c)(i) is less than the applicable Full Reinstatement Value (the difference between the applicable Full Reinstatement Value and the amount paid into the Transaction Account being the "**Loss Shortfall Amount**"), then, subject to the below paragraph and unless the Servicing Agent proves beyond any doubt that any Loss Shortfall Amount is neither attributable to its negligence nor its failing to comply with the terms of this Agreement relating to insurance, the Servicing Agent has undertaken to pay (in same day, freely transferable, cleared funds) the Loss Shortfall Amount directly to the Transaction Account by no later than close of business in London on the 61st day after the occurrence of the Loss Event. Subject to paying such Loss Shortfall Amount together with the proceeds of Insurances (if any), there will be no further claim against the Servicing Agent for failing to comply with its insurance obligations in respect of the relevant Loss Event.

Notwithstanding the foregoing, if a Partial Loss Event occurs and the relevant Wakala Asset(s) have not been replaced, an amount of the proceeds of Insurances and Loss Shortfall Amount to be paid to the Transaction Account in accordance with the foregoing paragraphs equal to the Rental Reimbursement Amount that is payable by the Trustee to the Lessee under the relevant Lease Agreement in connection with such Partial Loss Event shall not be paid to the Transaction Account and shall instead be paid, on the 61st day after the relevant Partial Loss Event has occurred, by the Servicing Agent (on behalf of the Trustee) to the Lessee in satisfaction of the Trustee's obligation to pay such Rental Reimbursement Amount to the Lessee.

If a Partial Loss Event occurs in relation to a Series and the relevant Wakala Asset(s) are replaced, the Servicing Agent, on behalf of the Trustee, shall ensure that the proceeds of the Insurances received in respect of such Partial Loss Event in an amount equal to the Rental Reimbursement Amount that is payable by the Trustee to the Lessee under the relevant Lease Agreement in connection with such Partial Loss Event shall be paid, on the 61st day after the relevant Partial Loss Event has occurred, by the Servicing Agent (on behalf of the Trustee) to the Lessee in satisfaction of the Trustee's obligation to pay such Rental Reimbursement Amount to the Lessee. If such proceeds of the Insurances are less than the applicable Rental Reimbursement Amount and the notice referred to in paragraph 1.1.15 above has not been delivered by the Servicing Agent to the Trustee within the first 60 days of the Issue Date of the first Tranche of the relevant Series and prior to the occurrence of such Partial Loss Event (the difference between the applicable Rental

Reimbursement Amount and the amount of such proceeds of the Insurances to the Lessee being the "**Partial Loss Shortfall Amount**"), then the Servicing Agent undertakes to pay the Partial Loss Shortfall Amount to the Lessee (on behalf of the Trustee) on the 61st day after the relevant Partial Loss Event has occurred in satisfaction of the Trustee's obligation to pay such Rental Reimbursement Amount to the Lessee. Subject to paying such Partial Loss Shortfall Amount together with any proceeds of Insurances, there will be no further claim against the Servicing Agent for failing to comply with its insurance obligations in respect of the relevant Partial Loss Event.

"**Full Reinstatement Value**" means, in relation to each Series, an amount equal to the aggregate of:

- (a) in the case of a Total Loss Event:
 - (i) the aggregate of:
 - (A) the aggregate face amount of the Trust Certificates of the relevant Series then outstanding plus all accrued but unpaid Periodic Distribution Amounts relating to such Trust Certificates up to but excluding the date on which the Total Loss Event occurs; plus
 - (B) an amount equal to the Periodic Distribution Amounts relating to such Trust Certificates, which would have accrued (had a Total Loss Event not occurred) during the period beginning on the date on which the Total Loss Event occurs and ending on, but excluding, the earlier of the applicable Dissolution Date or the 61st day after the occurrence of the Total Loss Event; plus
 - (C) to the extent not previously satisfied in accordance with this Agreement, an amount equal to the sum of any (i) outstanding amounts payable in respect of any Liquidity Facility; (ii) outstanding Additional Servicing Agency Expenses that the Trustee has agreed to pay in accordance with this Agreement and in respect of which the Lessee has agreed to make a corresponding payment of Additional Supplementary Rental but such payment has not been made in accordance with the Master Lease Agreement and the relevant Supplemental Lease Agreement and (iii) outstanding Service Charge Amounts that are due but unpaid, in each case, in respect of the relevant Series; plus
 - (D) without duplication or double counting, an amount representing any outstanding amounts payable by the Trustee (in any capacity) under the Transaction Documents to which it is a party (including, but not limited to, amounts payable pursuant to Condition 6.2(a) (*Application of Proceeds from The Trust Assets*));
 - less
 - (ii) if any, the aggregate amounts of each Deferred Sale Price then outstanding; in respect of the relevant Series;
- (b) in the case of a Lease Asset(s) Total Loss Event that is not also a Total Loss Event, the aggregate value of the relevant impaired Lease Asset(s); and
- (c) in the case of a Partial Loss Event, the aggregate of:
 - (i) the aggregate value of the relevant impaired Lease Asset(s); plus
 - (ii) an amount equal to any Rental Reimbursement Amount payable to the Lessee in accordance with the Master Lease Agreement and the relevant Supplemental Lease Agreement in relation to such Partial Loss Event.

If, on the occurrence of a Loss Event (other than in respect of a Partial Loss Event where a Partial Loss Termination Notice has been delivered pursuant to the Lease Agreement) or a Lease Asset(s) Total Loss Event (that is not also a Total Loss Event), the Servicing Agent receives notice from Arada that replacement Eligible Asset(s) (the "**Replacement Wakala Asset(s)**") which are: (a) in the case of a Loss Event: (i) where the Wakala Asset(s) subject to the Loss Event are Leased Real Estate Asset(s), Leased Real Estate Asset(s); and (ii) where the Wakala Asset(s) subject to the Loss Event are Non-Leased Real Estate Asset(s), Non-Leased Real Estate Asset(s); and (b) in the case of a Lease Asset(s) Total Loss Event, Non-Leased

Real Estate Asset(s), are available on or before the 60th day after the occurrence of the Loss Event or Lease Asset(s) Total Loss Event, the Servicing Agent shall notify the Trustee of the same. Immediately following receipt of such notice, the Trustee may pursuant to a separate purchase agreement substantially in the form, *mutatis mutandis*, of a Supplemental Purchase Agreement purchase such Replacement Wakala Asset(s) from the relevant seller(s) by way of payment by the Servicing Agent on behalf of the Trustee of the proceeds of the Insurances (excluding, in the case of a replacement following a Partial Loss Event, an amount equal to the Rental Reimbursement Amount payable by the Servicing Agent (on behalf of the Trustee) to the Lessee (as specified above) in connection with such Partial Loss Event) (or the assignment of the rights to such proceeds) in an aggregate amount equal to the value of the relevant Wakala Asset(s) that are the subject of such Loss Event or Lease Asset(s) Total Loss Event to or to the order of the relevant seller(s) and the transfer to the relevant seller(s) by the Trustee of any residual interest it may hold in the Wakala Asset(s) that are the subject of the relevant Loss Event or Lease Asset(s) Total Loss Event (including any remaining rights in respect of any proceeds of the Insurances), in consideration for the sale, transfer and conveyance by the relevant seller(s) of the Replacement Wakala Asset(s) to the Trustee, the date of such replacement being the "**Replacement Date**".

In respect of each Series, the Servicing Agent shall maintain two book-entry ledger accounts (such accounts being the "**Collection Account**" and the "**Reserve Account**") in its books, which shall be denominated in the Specified Currency. All Wakala Portfolio Revenues in relation to each Series, will be recorded in the Collection Account. Amounts standing to the credit of the Collection Account relating to each Series will be applied by the Servicing Agent on behalf of the Trustee on each Wakala Distribution Determination Date in respect of the relevant Series in the following order of priority: (a) *first*, in payment to the Servicing Agent of any amounts advanced by it to the Trustee by way of a Liquidity Facility in respect of the relevant Series; (b) *second*, in payment of any due but unpaid Service Charge Amounts for the Wakala Distribution Period ending immediately before the immediately following Wakala Distribution Date and (if applicable) any Service Charge Amounts for any previous Wakala Distribution Period in respect of the relevant Series that remain unpaid; (c) *third*, the Servicing Agent will pay into the relevant Transaction Account an amount equal to the lesser of the Required Amount payable on the immediately following Periodic Distribution Date and the balance of the Collection Account; and (d) *fourth*, any amounts still standing to the credit of the Collection Account immediately following payment of all of the above amounts shall be debited from the Collection Account and credited to the Reserve Account.

Amounts standing to the credit of the Reserve Account of a Series shall be applied by the Servicing Agent, inter alia, if there will be a shortfall on a Wakala Distribution Determination Date in respect of the relevant Series (after payment into the Transaction Account of the relevant amount in accordance with the above paragraph) between: (i) the amount standing to the credit of the Transaction Account; and (ii) the required amount payable on the immediately following Periodic Distribution Date (the difference between such amounts being referred to in this Agreement as a "**Shortfall**"), by paying into the Transaction Account on that Wakala Distribution Determination Date from the amounts standing to the credit of the Reserve Account (if any) an amount equal to the Shortfall (or such lesser amount as is then standing to the credit of the Reserve Account).

If, following payment of amounts standing to the credit of the Reserve Account of the relevant Series, a shortfall remains on any Wakala Distribution Determination Date, the Servicing Agent may either: (a) provide *Shari'a* compliant funding itself; or (b) procure *Shari'a* compliant funding from a third party, in each case, to the extent necessary to ensure that the Trustee receives, on each Wakala Distribution Determination Date, the required amount payable by it in accordance with the Conditions of the relevant Series on the immediately following Periodic Distribution Date, by payment of the same into the Transaction Account and on terms that such funding will be settled: (i) from Wakala Portfolio Revenues; or (ii) on the relevant Dissolution Date (such funding in relation to a Series, a "**Liquidity Facility**").

"**Service Charge Amount**" means, in respect of a Wakala Distribution Period, the aggregate of all payments and liabilities made or incurred by the Servicing Agent during that Wakala Distribution Period in respect of the services provided under the Servicing Agency Agreement in relation to the relevant Wakala Asset(s) as notified by the Servicing Agent to the Trustee in accordance with the Servicing Agency Agreement, except for any payments or liabilities which comprise Additional Servicing Agency Expenses.

"**Wakala Distribution Date**" means, in relation to a Series, each Periodic Distribution Date in respect to that Series.

"**Wakala Distribution Determination Date**" means, in relation to a Series, the business day immediately preceding each Wakala Distribution Date.

"Wakala Distribution Period" means, in relation to a Series, the period beginning on (and including) the Issue Date of the first Tranche of such Series and ending on (but excluding) the first Wakala Distribution Date and each successive period beginning on (and including) a Wakala Distribution Date and ending on (but excluding) the next succeeding Wakala Distribution Date.

The Servicing Agent shall not incur or pay any liability in any Wakala Distribution Period in respect of the services to be performed in relation to the relevant Lease Assets which, individually or in the aggregate, would exceed an amount that is separately agreed between the Trustee (in its capacity as lessor) and the Servicing Agent in relation to each Series (the **"All Expense Reserve Amount"** of the relevant Series and the amount by which such liability exceeds the All Expenses Reserve Amount being the **"Additional Servicing Agency Expenses"**) unless: (i) a request for such incurrence or payment of Additional Servicing Agency Expenses has been made by the Servicing Agent to the Trustee in accordance with the Servicing Agency Agreement; and (ii) following such request, the Trustee confirms to the Servicing Agent that such incurrence of payment is approved. If, during any Wakala Distribution Period, the Servicing Agent incurs or pays such liability without first satisfying the foregoing conditions in (i) and (ii) above, then it shall be deemed to have unconditionally agreed to satisfy, donate and pay all such liabilities from its own account and the Trustee shall have no responsibility whatsoever in connection with such liability.

The Servicing Agent shall submit to the Trustee or its agent the invoice or receipt for (or other evidence of payment or incurrence of) each liability comprising the Service Charge Amount, as soon as practicable after the payment or incurrence thereof. The Servicing Agent shall submit to the Trustee or its agent a request for the Trustee's approval of the Servicing Agent incurring or paying any proposed liability comprising an Additional Servicing Agency Expense prior to incurring or paying such proposed liability (the date of such notice being the **"Additional Servicing Agency Expenses Request Date"**).

If the Wakala Assets of the relevant Series comprise Lease Assets, subject to the terms of the relevant Supplemental Lease Agreement:

- (a) the Trustee shall procure that an amount equal to the Service Charge Amount notified to it in accordance with the above paragraph is recorded in the Collection Account on the first business day of the first rental period commencing after the services invoice date; and
- (b) the Trustee shall procure the reimbursement of the Servicing Agent for each Additional Servicing Agency Expense approved by recording such amount in the Collection Account on the first business day of the first rental period after the Additional Servicing Agency Expenses Request Date or, if the relevant Lease is terminated prior to such date, on the date of termination of such Lease.

An amount equal to an Additional Servicing Agency Expense shall not be reimbursed unless the Servicing Agent evidences the requirement for the payment or the incurrence of each liability comprising such Additional Servicing Agency Expense by delivering to the Trustee (in its capacity as lessor) quotations or other proper evidence of such requirement by no later than the Additional Servicing Agency Expenses Request Date.

The Servicing Agent will also agree in the Servicing Agency Agreement that all payments by it under the Servicing Agency Agreement will be made in the Specified Currency without set-off (except as provided below) or counterclaim of any kind and, free and clear of, any deduction or withholding for Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within any Relevant Jurisdiction or any authority therein or thereof having power to tax, unless required by law.

In relation to a Series, any amounts outstanding in respect of a Liquidity Facility and any Service Charge Amounts in respect of such Series, which in each case have not previously been paid or reimbursed pursuant to the Collection Account payments set out above, shall: (a) on the Total Loss Dissolution Date be set-off against the proceeds of the Insurances received by or on behalf of the Trustee as described above, and if applicable, payment by the Servicing Agent of the Total Loss Shortfall Amount; or (b) on the Scheduled Dissolution Date (or any earlier Dissolution Date on which all (but not some only) of the Trust Certificates of the relevant Series are to be redeemed) be set-off against payment by Arada of the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Exercise Price or the Tangibility Event Put Right Exercise Price, as the case may be, under the Purchase Undertaking or the Sale and Substitution Undertaking, as the case may be.

The Servicing Agent shall ensure that its payment obligations under the Servicing Agency Agreement are and will be direct, unconditional, unsubordinated and (subject to the negative pledge provisions described in Condition 5.1 (*Negative Pledge*)) unsecured obligations of the Servicing Agent and (save for such exceptions as may be provided by applicable legislation and subject to the negative pledge provisions described in Condition 5.1 (*Negative Pledge*)) at all times rank at least *pari passu* with all other present and future unsecured and unsubordinated obligations of the Servicing Agent from time to time outstanding.

Sale and Substitution Undertaking

The Sale and Substitution Undertaking was executed on 28 July 2025 by the Trustee as a deed in favour of Arada and is governed by English law.

Provided that no Total Loss Event has occurred and is continuing (or if a Total Loss Event has occurred, the Wakala Assets have been replaced pursuant to the Servicing Agency Agreement), the Trustee has irrevocably granted to Arada the right to require the Trustee to sell, transfer and/or convey all of its rights, title, interests, benefits and other entitlements, in, to and under the relevant Wakala Asset(s) to Arada upon Arada exercising its right thereunder and delivering an Exercise Notice to the Trustee in accordance with the terms of the Sale and Substitution Undertaking, on the Tax Dissolution Date, Optional Dissolution Date or Clean Up Call Right Dissolution Date (as the case may be) at the Exercise Price.

If all of the Trust Certificates of the relevant Series are being redeemed in full pursuant to the Sale and Substitution Undertaking, then:

- (a) an amount equal to the outstanding Service Charge Amounts to be paid by Arada as part of any Exercise Price and any outstanding Service Charge Amount to be paid by the Trustee under the Servicing Agency Agreement, shall be set off against one another and the obligation to pay that part of the Exercise Price pursuant to the exercise of the Sale and Substitution Undertaking shall be discharged by such set-off;
- (b) an amount equal to the outstanding Liquidity Facility to be paid by Arada as part of any Exercise Price and any outstanding Liquidity Facility to be paid by the Trustee under the Servicing Agency Agreement, shall be set off against one another and the obligation to pay that part of the Exercise Price pursuant to the exercise of the Sale and Substitution Undertaking shall be discharged by such set-off; and
- (c) an amount equal to any outstanding Additional Servicing Agency Expenses to be paid by Arada as part of any Exercise Price, in respect of which Arada (in its capacity as lessee) has agreed to make a corresponding payment of additional supplementary rental but such payment has not been made in accordance with the Master Lease Agreement and the Supplemental Lease Agreement and any Additional Servicing Agency Expenses to be paid by the Trustee (in its capacity as lessor) pursuant to the Servicing Agency Agreement, shall be set off against one another, and the obligation to pay that part of the Exercise Price shall be discharged by such set-off.

In addition, under the terms of the Sale and Substitution Undertaking, if at any time Arada wishes to cancel any Trust Certificates purchased pursuant to Condition 12.1 (*Purchases*), Arada may, by exercising its right under the Sale and Substitution Undertaking and by delivering a Cancellation Notice to the Trustee in accordance with the terms of the Sale and Substitution Undertaking, oblige the Trustee to transfer all of its rights, title, interests, benefits and other entitlements, in, to and under the Cancelled Wakala Asset(s) to Arada in consideration for which the Trust Certificates purchased shall be cancelled subject to certain conditions set out in the Sale and Substitution Undertaking. Following such transfer, the Trustee shall forthwith surrender to the Registrar the relevant Trust Certificates identified for cancellation in the Cancellation Notice on the Cancellation Date.

Furthermore, pursuant to the terms of the Sale and Substitution Undertaking, the Trustee has granted to Arada the right to require the Trustee to sell all of its rights, title, interests, benefits and other entitlements, in, to and under the substituted Wakala Assets to it in exchange for the sale to the Trustee of new Wakala Asset(s) subject to certain conditions set out in the Sale and Substitution Undertaking.

Purchase Undertaking

The Purchase Undertaking was executed on 28 July 2025 by Arada (in its capacity as obligor) as a deed in favour of the Trustee and the Delegate and is governed by English law.

In relation to each Series, provided that no Total Loss Event has occurred and is continuing (or if a Total Loss Event has occurred, the Wakala Assets have been replaced pursuant to the Servicing Agency Agreement), Arada (in its capacity as obligor) has irrevocably granted to the Trustee and the Delegate the right to require Arada to purchase all of the Trustee's rights, title, interests, benefits and other entitlements, present and future, in, to and under the relevant Wakala Asset(s) (or the applicable proportion thereof, as the case may be) upon the Trustee or the Delegate (on behalf of the Trustee) exercising its right thereunder and delivering an Exercise Notice to Arada in accordance with the terms of the Purchase Undertaking, on the relevant Scheduled Dissolution Date or, if earlier, on the Dissolution Event Redemption Date, the Change of Control Put Right Date, the Certificateholder Put Right Date (if Certificateholder Put Right is specified as applicable in the applicable Pricing Supplement) or the Tangibility Event Put Right Date at the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Exercise Price or the Tangibility Event Put Right Exercise Price, as the case may be.

The "**Exercise Price**", "**Certificateholder Put Right Exercise Price**", "**Change of Control Exercise Price**" or "**Tangibility Event Put Right Exercise Price**" (as the case may be) payable by Arada (as obligor), in relation to each Series, shall be equal to the aggregate face amount of the Trust Certificates then outstanding or the Trust Certificates to be redeemed on the Certificateholder Put Right Date, the Change of Control Put Right Date or the Tangibility Event Put Right Date, as the case may be, for the relevant Series plus all accrued but unpaid Periodic Distribution Amounts (if any) relating to such Trust Certificates plus, if all of the Trust Certificates of the relevant Series are being redeemed in full and to the extent not previously satisfied in accordance with the Servicing Agency Agreement, an amount equal to the sum of any outstanding amounts payable in respect of any Liquidity Facility, outstanding Additional Servicing Agency Expenses that the Trustee has agreed to pay in accordance with the Servicing Agency Agreement and in respect of which the Lessee has agreed to make a corresponding payment of Additional Supplementary Rental but such payment has not been made in accordance with the Master Lease Agreement and the relevant Supplemental Lease Agreement, and outstanding Service Charge Amounts that are due but unpaid plus, without duplication or double counting, an amount representing any amounts payable by the Trustee (in any capacity) under the Transaction Documents to which it is a party (including, but not limited to, amounts payable pursuant to Condition 6.2(a) (*Application of Proceeds from the Trust Assets*)) plus, without duplication or double counting any other amounts payable on redemption of the Trust Certificates or the Trust Certificates to be redeemed on the Certificateholder Put Right Date, the Change of Control Put Right Date or the Tangibility Event Put Right Date, as the case may be, as specified in the applicable Pricing Supplement less, the aggregate amounts of Deferred Sale Price (or the applicable proportion thereof, as the case may be) then outstanding, if any.

Arada (in its capacity as obligor) has undertaken in the Purchase Undertaking that, in relation to any Series, it shall irrevocably and unconditionally fully accept such ownership interest the Trustee may have in the Wakala Asset(s), the Certificateholder Put Right Wakala Asset(s), the Change of Control Put Right Wakala Asset(s) or the Tangibility Event Put Right Wakala Asset(s). Arada (in its capacity as obligor) has further undertaken in the Purchase Undertaking that if, at the time of delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking, Arada remains in actual or constructive possession, custody or control of all or any part of the Wakala Assets, the Certificateholder Put Right Wakala Assets, the Change of Control Put Right Wakala Asset(s) or the Tangibility Event Put Right Wakala Assets, as the case may be, and if, following delivery of the exercise notice in accordance with the provision of the Purchase Undertaking, the relevant Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Exercise Price or the Tangibility Event Put Right Exercise Price, as the case may be, is not paid in accordance with the provisions of the Purchase Undertaking for any reason whatsoever, the Obligor shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Trust Certificates then outstanding or the Certificateholder Put Right Trust Certificates, the Change of Control Put Right Trust Certificates or the Tangibility Event Put Right Trust Certificates, as the case may be, and, accordingly, the amount payable under any such indemnity claim will equal the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Exercise Price or the Tangibility Event Put Right Exercise Price, as the case may be. Payment of an amount equal to the relevant Exercise Price, the Certificateholder Put Right Exercise Price, Change of Control Exercise Price or Tangibility Event Certificateholder Put Right Exercise Price, as the case may be into the Transaction Account in accordance with the Purchase Undertaking shall evidence the acceptance and conclusion of the purchase, transfer and conveyance of all of the Trustee's rights, title, interests, benefits and entitlements in, to and under the Wakala Asset(s), the Certificateholder Put Right Wakala Asset(s) or the Change of Control Put Right Wakala Asset(s) or the Tangibility Event Certificateholder Put Right Wakala Asset(s), as the case may be, to the Obligor.

Arada (in its capacity as obligor) will also agree in the Purchase Undertaking that all payments by it under the Purchase Undertaking will be made in the Specified Currency without set-off (except as provided below) or counterclaim of any kind and, free and clear of, any deduction or withholding for Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within any Relevant Jurisdiction or any authority therein or thereof having power to tax, unless required by law. In that event, Arada (as obligor) shall pay such additional amounts as will result in the receipt by the Trustee of such amounts as would have been received by it had no withholding or deduction had been required.

If all of the Trust Certificates of the relevant Series are being redeemed in full, then an amount equal to:

- (a) the outstanding Service Charge Amounts to be paid by Arada as part of any Exercise Price, Certificateholder Put Right Exercise Price, Change of Control Exercise Price or Tangibility Event Certificateholder Put Right Exercise Price, as the case may be, pursuant to the Purchase Undertaking and any outstanding Service Charge Amount to be paid by the Trustee under the Servicing Agency Agreement, shall be set off against one another and the obligation to pay that part of the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Exercise Price or the Tangibility Event Certificateholder Put Right Exercise Price, as the case may be, pursuant to the exercise of the Purchase Undertaking shall be discharged by such set-off;
- (b) the outstanding Liquidity Facility to be paid by Arada as part of any Exercise Price, Certificateholder Put Right Exercise Price, Change of Control Exercise Price or Tangibility Event Certificateholder Put Right Exercise Price, as the case may be, pursuant to the Purchase Undertaking and any outstanding Liquidity Facility to be paid by the Trustee under the Servicing Agency Agreement, shall be set off against one another and the obligation to pay that part of the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Exercise Price or the Tangibility Event Certificateholder Put Right Exercise Price, as the case may be, pursuant to the exercise of the Purchase Undertaking shall be discharged by such set-off; and
- (c) the outstanding Additional Servicing Agency Expenses to be paid by Arada as part of any Exercise Price, Certificateholder Put Right Exercise Price, Change of Control Exercise Price or Tangibility Event Certificateholder Put Right Exercise Price, as the case may be, pursuant to the Purchase Undertaking in respect of which the Lessee has agreed to make a corresponding payment of Additional Supplementary Rental but such payment has not been made in accordance with the Master Lease Agreement and Supplemental Lease Agreement and any outstanding Additional Servicing Agency Expenses to be paid by the Lessor under the Servicing Agency Agreement, shall be set off against one another and the obligation to pay that part of the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Exercise Price or the Tangibility Event Certificateholder Put Right Exercise Price, as the case may be, pursuant to the exercise of the Purchase Undertaking shall be discharged by such set-off.

Arada (in its capacity as obligor) will ensure that its payment obligations under the Purchase Undertaking are and will be direct, unconditional, unsubordinated and (subject to the negative pledge provisions described in Condition 5.1 (*Negative Pledge*)) unsecured obligations of Arada and (save for such exceptions as may be provided by applicable legislation and subject to the negative pledge provisions described in Condition 5.1 (*Negative Pledge*)) at all times rank at least *pari passu*, with all other present and future unsecured and unsubordinated obligations of Arada, from time to time outstanding.

Arada has agreed that an Arada Event shall constitute a Dissolution Event for the purposes of the Conditions.

Master Murabaha Agreement

The Master Murabaha Agreement was entered into on 28 July 2025 between Arada (in its capacity as buyer, the "**Buyer**"), the Trustee (in its capacity as seller, the "**Seller**") and the Delegate and is governed by English law.

Pursuant to the Master Murabaha Agreement, the Seller may, on receipt of a purchase order from the Buyer in accordance with the terms of the Master Murabaha Agreement, purchase certain commodities on the Issue Date of the relevant Tranche. Following the purchase of the commodities by the Seller, and provided that the Seller has acquired title to, and actual or constructive possession thereof, the Seller may deliver to the Buyer by no later than the Issue Date a letter of offer and acceptance indicating the Seller's acceptance

of the terms of the purchase order made by the Buyer and detailing the terms of the offer for the sale of the commodities to the Buyer from the Seller on the Issue Date.

On receipt of a letter of offer and acceptance, provided that the Buyer has received a duly completed letter of offer and acceptance and it wishes to enter into a murabaha contract, the Buyer may accept the terms of, countersign and deliver to the Seller such letter of offer and acceptance in accordance with the Master Murabaha Agreement and purchase the commodities acquired by the Seller for the Deferred Sale Price in accordance with the terms of the Master Murabaha Agreement.

As soon as the Buyer has countersigned the letter of offer and acceptance, a murabaha contract shall be created between the Seller and the Buyer upon the terms of the letter of offer and acceptance and incorporating the terms and conditions set out in the Master Murabaha Agreement, the Seller shall sell and the Buyer shall purchase the commodities on the terms set out in the letter of offer and acceptance, and ownership (including, without limitation, the right of ownership from a *Shari'a* perspective) of and, upon the Buyer obtaining actual or constructive possession of the relevant Commodities, all risks in and to the relevant commodities shall immediately pass to and be vested in the Buyer, together with all rights and obligations relating thereto.

The Buyer has also agreed in the Master Murabaha Agreement that all payments by it under the Master Murabaha Agreement will be made in the Specified Currency without set-off or counterclaim of any kind and, free and clear of, any deduction or withholding for Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within any Relevant Jurisdiction or any authority therein or thereof having power to tax, unless required by law. In that event, the Buyer shall pay such additional amounts as will result in the receipt by or on behalf of the Seller of such amounts as would have been received by it had no withholding or deduction had been made.

The Buyer will ensure that its payment obligations under the Master Murabaha Agreement are and will be direct, unconditional, unsubordinated and (subject to the negative pledge provisions described in Condition 5.1 (*Negative Pledge*)) unsecured obligations of the Buyer and (save for such exceptions as may be provided by applicable legislation and subject to the negative pledge provisions described in Condition 5.1 (*Negative Pledge*)) at all times rank at least *pari passu*, with all other present and future unsecured and unsubordinated obligations of the Buyer, from time to time outstanding.

- (a) it shall not claim that any of its obligations under the Transaction Documents to which it is a party (or any provision thereof) is *ultra vires*, or not compliant with the principles of *Shari'a*;
- (b) it shall not take any steps or bring any proceedings in any forum to challenge the *Shari'a* compliance of the Transaction Documents to which it is a party; and

TAXATION

The following is a general description of certain Cayman Islands and UAE tax considerations relating to the Trust Certificates. It does not purport to be a complete analysis of all tax considerations relating to the Trust Certificates, whether in those jurisdictions or elsewhere. Prospective purchasers of Trust Certificates should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Trust Certificates and receiving payments under the Trust Certificates and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Base Offering Circular and is subject to any change in law that may take effect after such date.

Cayman Islands

The following is a discussion of certain Cayman Islands tax consequences of an investment in the Trust Certificates. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

Under existing Cayman Islands laws, payments on Trust Certificates to be issued will not be subject to taxation in the Cayman Islands and no withholding will be required on the payments to any holder of the Trust Certificates, nor will gains derived from the disposal of the Trust Certificates be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance or gift tax.

On 20 October 2023, the Trustee received an undertaking from the Governor in Cabinet of the Cayman Islands, pursuant to the Tax Concessions Act (As Revised) of the Cayman Islands, that for a period of 30 years from the date of grant of that undertaking no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciation shall apply to the Issuer or its operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable on or in respect of the shares, debentures or other obligations (which includes the Certificates) of the Trustee or by way of the withholding in whole or part of any relevant payment as defined in the Tax Concessions Act (as amended).

Subject as set out below, no capital or stamp duties are levied in the Cayman Islands on the issue or redemption of Trust Certificates. However, an instrument transferring title to any Trust Certificates, if brought to or executed in the Cayman Islands, would be subject to Cayman Islands stamp duty. An annual registration fee is payable by the Trustee to the Cayman Islands Registrar of Companies which is calculated by reference to the nominal amount of its authorised capital. At current rates, this annual registration fee is U.S.\$1,128. The foregoing is based on current law and practice in the Cayman Islands and this is subject to change therein.

United Arab Emirates

The following summary of the anticipated tax treatment in the UAE in relation to payments on the Trust Certificates is based on the taxation law and practice in force at the date of this Base Offering Circular and does not constitute legal or tax advice and prospective investors should be aware that the relevant fiscal rules and practice and their interpretation may change. Prospective investors should consult their own professional advisers on the implications of subscribing for, buying, holding, selling, redeeming or disposing of Trust Certificates and the receipt of any payments with respect to such Trust Certificates under the laws of the jurisdictions in which they may be liable to taxation.

Under current legislation, there is no requirement for withholding or deduction for or on account of UAE or Sharjah taxation in respect of payments on debt securities (including in relation to the Trust Certificates). In the event of the imposition of any withholding in the future, the Trustee has undertaken to gross-up any payments subject to certain limited exceptions, as described in Condition 12 (*Taxation*).

The Proposed Financial Transactions Tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria,

Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since ceased to participate.

The Commission's proposal has very broad scope and could, if introduced, apply to certain dealings in the Trust Certificates (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Trust Certificates where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "**established**" in a participating Member State in a broad range of circumstances, including: (a) by transacting with a person established in a participating Member State; or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Trust Certificates are advised to seek their own professional advice in relation to the FTT.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "**foreign financial institution**" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. The Trustee may be classified as a foreign financial institution for these purposes. A number of jurisdictions (including the UAE and the Cayman Islands) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**") with the United States to implement FATCA, which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Trust Certificates, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Trust Certificates, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Trust Certificates, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Trust Certificates issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are published generally would be "**grandfathered**" for purposes of FATCA withholding unless materially modified after such date. Prospective holders of the Trust Certificates should consult their own tax advisers regarding how these rules may apply to their investment in the Trust Certificates.

SUBSCRIPTION AND SALE

Words and expressions defined in the Conditions shall have the same meanings in this section, "Subscription and Sale".

The Dealers have, in an amended and restated dealer agreement (such dealer agreement as modified and/or supplemented and/or restated from time to time, the "**Dealer Agreement**") dated 28 July 2025, agreed with the Trustee and Arada a basis upon which they or any of them may from time to time agree to purchase Trust Certificates. In the Dealer Agreement, each of the Trustee and Arada has agreed to reimburse the Dealers for certain of their expenses in connection with the issue of Trust Certificates under the Programme.

The Trust Certificates have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that, except as permitted by the Dealer Agreement, it will not offer or sell any Series of Trust Certificates: (i) as part of their distribution at any time; or (ii) otherwise until 40 days after the later of the commencement of the offering and the Issue Date of such Series, within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each dealer to which it sells Trust Certificates during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of such Series of Trust Certificates within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S.

The Trust Certificates are being offered and sold outside of the United States to non-U.S. persons in reliance on Regulation S. In addition, until 40 days after the commencement of the offering of a Series of Trust Certificates, an offer or sale of such Series of Trust Certificates within the United States by a dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act.

provided that no such offer of Trust Certificates referred to above shall require the Trustee, Arada or any Dealer to publish a prospectus pursuant to Article 3 of the EU Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation.

None of the Dealers, the Arrangers nor any of their respective affiliates has authorised the content of, or any part of, this Base Offering Circular and/or the applicable Pricing Supplement.

Dealers transacting with Arada

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in various financial advisory, investment banking and/or commercial banking transactions with, and may perform services for Arada in the ordinary course of business for which they have received, and for which they may in the future receive, fees and expenses. In particular, certain of the Dealers are lenders (in the case of conventional banks only) or financiers to Arada and proceeds from the issue of the Trust Certificates may be used to repay or pay such outstanding financings. In connection with any offering under the Programme the Dealers may purchase and sell Trust Certificates in the open market.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade financial securities (or related derivative (in the case of conventional banks only) or hedging arrangements) and financial instruments (including bank financings) for their own account and for the accounts of their customers. Typically, such Dealers and their affiliates would hedge such exposure by entering into hedging transactions which may consist of taking certain positions in securities, including potentially the Trust Certificates. Any such exposures could adversely affect future trading prices of the Trust Certificates issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, trading positions in such securities and instruments.
